NO. 24

## DRICK COMMERCIAL CLUB MET MONDAY EVE

Regular monthly meeting of the Commercial club held in banquet room of Fraternal hall following the 6:30 dinner by Mrs. Edgar Long and Paul Lind (and topped off with segments of strawberry short-cake) the regular order of business was taken up.

Invitation was read from the Idaho State Chamber of Commerce to attend a meeting of that body at Coeur d'Alene on June 17 and G. P. Barnum appointed club representative.

E. Walker of the Highway committee reported that application had been made to the Latah county fund in the amount of \$5,000 for the improvement of the Bear ridge road, but definite action regarding its allocation for the project would not be known until June 30.

Walker further stated that Cedar creek road project would be permanently on June 30. This order affects all projects of this type, known as Nos. 95, of the road used on Cedar creek. He said \$26,000 allocated to this project would revert back to the government. The closing is by government order. Just what could be done in the way of a winter project was unknown at this time.

Walker also reported that the money for the completion of the oil well at the end of the present oil well was available, but the project was being held up by lack of right-of-way. It is believed that soon be secured and that the tract will be let.

M. Long of the Fish and Game committee reported the magazine contest a real success, with a total of 1303 heads brought in. Long has worked faithfully with the boys on this project, and its success was very evident in the noticeable reduction in the number of these fish seen. He also reported that the boys on the game preserve near the dam were doing nicely, with 48 little trout counted. He further stated that had been successful in securing 1000 trout fry for the Potlatch. The 250,000 were allotted to be put in the Little North Fork and 50,000 in the Palouse, all territory adjacent to Kendrick, or within a reasonable driving distance.

Mr. Long also reported Wild Life Association memberships available in Kendrick, and urged all to take out memberships.

Edgar Long reported on the Membership committee, reporting that all \$7.50 of the membership money assessed was collected. He also suggested that the boys of this year's Senior class in the High School be tendered free memberships in the club. His suggestion was unanimously adopted.

J. M. Lyle, Jr., of the Education committee reported that the school house was receiving a thorough cleaning and renovation, and all being put in readiness for a larger enrollment this fall than ever before.

H. B. Thompson, secretary, read the annual financial report. It showed that at the start of the year the club had on hand \$102.92; it collected \$235.50, and expended a total of \$176.57, leaving a balance on hand of \$161.85.

At this time Herbert West of the Boy Scouts of America was introduced and spoke on Scouting, its planned work and the results obtained. Motion pictures furnished by Mr. West, and shown by Joe Watts, Scouts at their camps, their activities and the instruction they receive, were used to illustrate the talk, and the subject proved interesting indeed. Mr. West also presented the club, as backers of the movement in this section, with their Scout charter, and presented leadership cards to R. L. Blewett as Scout Master; Don Lyle, as Assistant Scout Master; and to Dr. D. A. Christensen, H. B. Thompson and A. O. Kankikberg as Scout committee members.

This being the last meeting of the year, election of new officers was in order, and the report of the nominating committee was brought in. The committee reported unanimously in favor of the continuation in office of our present board — Dr. D. A. Christensen as president; H. B. Thompson, secretary; G. P. Barnum, treasurer. After listening to speeches by the various officers urging the election of others, the club proceeded to vote them back into office, unanimously. The president announced that appointment of the various committee chairmen would be announced at the next meeting. There being no further business, the club adjourned.

## Students Home For Summer

The following students from the U. of I. are home to spend the summer vacation: Dwight Hoffman, Claude Woody, Betty Ingle, Clifford Woodward, Herman Schmidt, Wayne Yenni, Betty Ann Beatrice Curtis, Elmer Emery, Roy Ramey, Jr., and Joe Watts.

Miss Mary Elizabeth Thompson of Whitman College is also home for the summer.

## Returns From Europe

Miss Edwardine Bechtol, daughter of Mr. and Mrs. Elmer Bechtol, former residents of Kendrick, returned to Moscow Friday from a several months study in France. Miss Bechtol received her diploma this week from the University of

## Family Reunion

The home of Mrs. M. A. Deobald on American ridge was the scene Sunday of a very happy family reunion, when relatives from far and near gathered there.

Those present were Mr. and Mrs. Elmer Bechtol and daughters of Seattle, Mrs. Myrtle Deobald, and Francis and Clayton, from Lynden, Wn., Mr. and Mrs. W. B. Deobald and family, Mr. and Mrs. Otto Schupfer and family, Mrs. Eva Thompson of Orofino and Mr. and Mrs. E. A. Deobald and family.

All of Mrs. Deobald's children and grandchildren, except one, were present.

A bounteous picnic lunch was served and the day very enjoyably spent in visiting and playing games.

## KENDRICK TAKES MEASURE OF POMEROY SUNDAY

The Kendrick ball team took the measure of Pomeroxy last Sunday on the Juliaetta diamond, to the tune of 6 to 1, behind the five hit pitching of Walter Koepf, who was in trouble only once up to the ninth inning, and that in the second, when Schoeffler at second had a slight attack of the jitters and booted three in a row, but then settled down and the Pomeroxy boys failed to score.

Pomeroxy scored their only run in the ninth when Smith sent a Texas leaguer over second base and the ball took a bad hop past centerfielder Jay Armitage to allow Smith to make third. The next two men went down in turn, then Brown, relief pitcher, connected with one through the box to score Smith. Parks, last man up for Pomeroxy, ended the game by grounding to shortstop, who tossed to second to force Brown for the third out.

Kendrick scored in the first inning, Ramey singled, advanced on J. Armitage's out and scored on Millard's hit to centerfield. Ziemann and Holmes walked, filling the bases with two out, when R. Armitage grounded out to the infield.

Kendrick scored again in the third, when Millard was safe on an error, stole second and third, and scored on Ziemann's smash to the infield, while the first baseman muffed up. Koepf drew a pass and scored on Ross Armitage's three-base hit to right field in the same inning.

Two base hits by Millard and Ziemann showed over one more run in the fifth inning, and Holmes made the last run in the eighth on a walk, two infield outs and an error.

Koepf hit one, and walked two, and allowed but five hits. Hazar hit one, walked two and allowed eight hits in six innings. Brown walked three, struck out two and allowed no hits in three innings.

Kendrick goes to Orofino next Sunday.

## Kendrick Wins With Flowers

The Flower Show at Moscow, sponsored by the Botany department of the U. of I., and presented by Dr. F. W. Gall, head of that department, last Saturday afternoon, was greeted with much enthusiasm.

Flowers of all kinds were donated from this section — including Lewiston, Clarkston, Pullman, Potlatch, Genesee and Juliaetta and Kendrick. Flowers on display were peonies, irises and roses, and there was also a wild flower section, and beautiful indeed was the result, for every wild flower that grows in this section was represented.

Roy Long took a carload of roses from Kendrick, donated by Messdames Harold Thomas, Harley Perryman, Arthur Perryman, Edgar Long, L. J. Herres and Geo. Leith, and Miss Ida Schupfer. With these flowers Kendrick captured first position in the rose section, and while no prizes were given, it is gratifying to know Kendrick roses were "tops."

Dr. Gall, head of the Botany department wishes to thank all those donating flowers. This exhibit is a part of the Commencement week exercises, and over 5,000 people saw the display.

Thanks are also due Roy Long for his efforts in collecting, transporting and arranging the flowers.

## Armitage-Mustoe

One of the most popular young couples of the Southwest Community, Miss Doris May Armitage, daughter of Mr. and Mrs. Thomas Armitage, of Mr. Carl M. Mustoe, son of Mr. and Mrs. Given M. Mustoe, came to Justice of the Peace, Wm. F. McCandless of Southwick, June ninth, and were quietly married. There being no guests present, the ceremony was witnessed by the members of the McCandless family.

The bride was very pretty in a dress of coral-rose, over which was worn a soft pearl-gray wool coat. She carried a large bouquet of white bride's roses.

Both the bride and the groom were born and reared in this community, and were graduated from the Southwest high school in 1937. The groom is a progressive young farmer of this section, and has rented an eighty acre farm, for a term of the property is located north west of town, and is known as the George Hayward Farm. Here the happy couple will be at home to their many friends.

## Sister Passes Away

Mr. and Mrs. Walter Crawford and Kathleen visited Mrs. Crawford's mother, Mrs. Jennie Hund, in St. Joseph's hospital, Lewiston, Sunday.

## Forest Fire Danger Increases

Forest areas protected by the Clearwater Timber Protective association are rapidly drying out and slashing areas and old burns are now dry enough to give trouble in the event of fire, according to a report for the week ended June 11 by A. B. Curtis chief fire warden. "Should drying weather continue another week it will be necessary to man additional lookouts and add additional forest protection measures," the fire warden reported.

Two small fires were reported during the week with negligible losses to merchantable timber. The weather during the week was warm and drying with heavy winds but no rain. The fire warden reported four and one half miles of new telephone line constructed along the road to Brown's creek look-out and that road, trail and telephone maintenance work is progressing.

"Sheep are now trailing to their summer grazing areas and all are expected to be on their allotments in another 10 days," the warden said.

## New Arrivals

## Flax Used As Plane Covering

Canada is raising flax for airplane fuselage covering. And because of its high qualities more of it will be produced, according to R. J. Hutchinson, official in charge of the fibre division, Experimental Farm, Ottawa, who left here to visit England, where he will contact the air Ministry.

Canadian flax, said Mr. Hutchinson, is of excellent quality, and on a par with the Russian brand. The flax is now being grown on a processed near St. Clef and de Beaujeu, on the Quebec-Ontario border. This flax is then sent to the British government. It will replace cotton which used to be used in fuselage construction. It was found that cotton broke under bullet fire and went to pieces. Materials of flax base permit the bullet to make a hole without ripping the fabric.

Canadian flax seed is being shipped to Ireland. The Irish did not always get good seed. The Canadian has proved a success when re-planted in Ireland.

## Leave For Real Vacation

Mr. and Mrs. Wade T. Keene, Tommy Keene and Don Benschoter left early last Friday morning on a vacation trip to last a month. They headed south to Pocatello, where they will pick-up Miss Maxine Keene, and go from there back up through Yellowstone park, thence on to Colorado to Rock Mountain National Park, Estes Park, the Grand Canyon, Bryce canyon, and other points of interest, including Death Valley, thence on the coast and return home via the Redwood National Highway.

During their absence Mr. Keene's place at the warehouse is being taken by Walter Nelson of Peck.

## CANADA REPORTS GRADUAL DECREASE IN UNEMPLOYMENT

Additional evidence that Canada is successfully coping with its unemployment problem is presented in a preliminary report of Norman Rogers, Minister of Labor, showing a decrease of .32 per cent in the total number of fully employable persons receiving non-agricultural material aid last March as compared with March 1937. In other words the figures for this class were reduced from 259,480 to 176,000. About 69.4 per cent of the total of fully employable persons on aid was reported from 52 cities of over 10,000 population distributing aid.

There was also a decrease of 25.2 per cent in that period in totals of all those in receipt of non-agricultural material aid, the total number, including totally unemployable persons, fully employable and fully employable together with all dependents of family heads, standing last March at 657,000.

The drought relief figures tell a different story. Approximately 90,000 farmers (resident farm operators) received agricultural material aid for subsistence in March. Including their dependents, this group numbered 405,000. Of this total 351,000, or 86.7 per cent, were located in Saskatchewan, causing this Province to show an increase of 93.6 per cent over March.

Light, however, is appearing in this dark picture. The agricultural department is in receipt of reports intimating that conditions in Saskatchewan, due to heavy rains, appear more favorable than at any time during the past ten years. By fall a large decrease in farm relief figures is expected.

## The Big Egg Contest

The Gazette's "Big Egg" contest came to a close yesterday evening, June 15, and it seemed to be a case of American Ridge vs. Potlatch ridge, with the edge to Potlatch ridge until Nora Callison came in Tuesday evening with two whoppers, laid by Rhode Island Red hens — thus placing American ridge in a tie with Potlatch ridge for the honors — Enoch Harrison having brought in a whopper, laid by a Buff Orpington hen that weighed 3 3/4 ounces, plus. One of the pair brought in by Nora Callison, laid by a Rhode Island Red, also weighed 3 3/4 ounces plus, thus placing them in a tie — and giving each a six-months' subscription to the Gazette.

A White Leghorn hen at the K. D. Ingle farm did her best, but seemingly couldn't quite compete with her larger sisters, her best effort weighing 3 3/4 ounces plus. Another White Leghorn at the D. A. Bishop farm produced two 3 3/4-ounce eggs, but her efforts were in vain.

Some 18 big eggs were received, and all were real eggs, efforts of which any hen could be proud.

All eggs, to insure absolute fairness, were weighed at the post office on the government stamp scales.

## To Marry Saturday

A marriage license was issued in Coeur d'Alene, Wednesday, June 8, to John L. Johnston and Miss Eleanor Herres, daughter of Mr. and Mrs. L. J. Herres of Kendrick. The young couple will be married at the home of the bride's parents in Kendrick Saturday morning at 9:00 o'clock.

## Aid Year-End Meeting

The Ladies Aid will close the year's work next Thursday, June 23, with a picnic in the City park, afternoon and evening. Everybody come and bring a basket, and have a good time.

"Sports for ladies only" — with prizes.

There will be a silver offering.

## To Attend Summer School

Four Kendrick teachers started Tuesday morning to attend summer school at the U. of I. They are: Don Lyle, J. M. Lyle, Jr., Mrs. S. Cook and Mrs. W. B. Deobald.

The latter three will drive back and forth each day, while Don will remain there for the term, which last six weeks.

## Undergo Torsillectomy

Little LaQuita Mendenhall of Lewiston, granddaughter of Mr. and Mrs. Fred Crocker, had her tonsils removed by Dr. Christensen Monday.

Beulah Hoskins of Clarkston had hers removed in his office on Tuesday.

Both are getting along nicely.

## Suffers Broken Arm

Ray Thornton, six-year-old son of Mr. and Mrs. Jess Thornton had the misfortune to break both bones in his right arm Monday, when he fell off a cream can on which he was playing.

## WHEAT MARKETS HIGHER FEED GRAINS STEADY

Wheat markets turned sharply upward during the week-ended June 10, according to the Weekly Grain Market Review of the Bureau of Agricultural Economics. Early threshing outturns were smaller than expected and confirmed injury from April and early May frosts. Uncertainty as to rust damage and final outturns in the main producing areas was a further strengthening influence. Feed grains held about steady with slackening demand about offset by lighter offerings.

Crop developments were the dominant factor in the general wheat situation but domestic markets responded more to reports of crop damage than did foreign markets. Cash prices at Kansas City advanced as much as 12c per bushel, while spring wheat prices at Minneapolis were up about 7c per bushel. Canadian prices on the other hand, dropped as much as 7c per bushel, as exporters pressed remaining supplies on world markets. The Liverpool market was a slow European demand aside from Italian purchases, offsetting the less favorable crop news. At the close of the week, United States No. 1 dark hard winter was quoted at Liverpool at \$1.07 1/2; white wheat from Pacific coast at 90 1/2c.

Prospects for winter and spring wheat in the United States at the first of June indicated a total crop of slightly over a billion bushels. Winter wheat production, as indicated by the Crop Reporting Board at 760,628,000 bushels, with an indicated probable yield of 15 bushels per harvested acre. The first official estimate of spring wheat was reported at 87% of normal compared with 69% a year ago and the ten-year average condition June 1, of 77% per cent. Based on the production of from 280 to 285 million bushels compared with the 1937 crop of 188,891,000 bushels, and a ten-year average of 206,494,000 bushels.

European crop conditions have improved somewhat recently, following good rains throughout most of northwestern Europe. Deterioration is reported locally in Scandinavia, Denmark and the Mediterranean countries. The German crop has also deteriorated in recent weeks, although a fairly good harvest is still in prospect. Average conditions prevail during the remainder of the season. Conditions in Poland are still above average. The French crop is placed at 324,000,000 bushels, with trade reports indicating a sizeable surplus for export. Serious damage to the crop in Northern Italy has been reflected in a tightening of milling regulations and the increase in the percentage of coarse grain flour that must be mixed with wheat flour.

Domestic cash wheat markets advanced more than futures with an active inquiry from millers who were replenishing supplies of old crop grain. Marketings of winter wheat were moderate and included an increased quantity of new wheat with arrivals at Fort Worth and Enid mostly new grain. The first car of new wheat this season at Kansas City was received June 6. This grain originated in Oklahoma, graded No. 1 dark hard winter with a test weight of 62 lbs.

Receipts at the principal winter wheat terminals totaled 1,391 cars compared with 1,447 a year ago. At the close of the week, No. 2 hard winter was quoted at 81 1/2c-82c. At Fort Worth, No. 1 hard winter was quoted at 88 1/2c-90c and No. 1 soft red winter at 83c per bushel, delivered Texas common points. At Chicago, hard red winter was quoted at 79c-82c for new No. 2 soft red at 75c-78c per bushel. Local dealers red winter for July or August shipment. At St. Louis, No. 3 red winter was quoted at 75c per bushel with good milling wheat readily taken by mills but with lower grades in slow demand.

Spring wheat prices were also up sharply with a reactive inquiry from mills as a result of some improvement in flour sales. Receipts were somewhat smaller with a total of 215 cars at Minneapolis and 201 at Duluth. Premiums were well maintained with 58 lb. No. 1 dark northern quoted at 10c-10c over the July future, which closed June 10, at 48c. Durum wheat advanced more than bread wheats with the Sept. future at Duluth up 7 1/2c. Best milling lots sold at Minneapolis as high as 25c over the Duluth July price but the bulk of the receipts sold within a range of 7c-15c over the July future.

Intermountain and Pacific coast markets gained along with Eastern markets. Denver mill advanced bids on No. 2 hard winter and No. 2 northern spring to 60c per bushel FOB Colorado shipping points. Mills at Ogden advanced quotations on No. 2 soft white to 53c. No. 2 hard white to 51c and No. 2 northern spring to 49c per bushel FOB Utah-Idaho common points.

Milling inquiry was more active at Portland but export business decreased and practically no wheat moved to California or eastern markets. At the close of the week, soft white was quoted at Portland at 75c, western white at 74 1/2c, western red at 73c, hard white (baart) at 77c and hard red winter at 77 1/2c per bushel, all basis No. 1 grade sacked. At Seattle, western white was quoted at 73 1/2c, western red and hard winter at 72c, hard white (baart) at 75c and 16 per cent protein dark northern spring from Montana at \$1.15 per bushel.

**"Wells-Fargo" At Theatre**

Another of those interesting pictures of the days of the "Old West" will be shown at the Kendrick Theatre this Friday and Saturday night with the showing of "Wells-Fargo."

The story starts in 1844 and ends in 1870 — just about none of the stirring events in American history occurring between those dates is ignored, and most of them are photographed. Yet the story is in simple that of one "Ramsey McKay," Wells-Fargo agent, and this entirely credible young man's story is crowded with enough personal incidents to supply plots for half a dozen full-length features — a story that will hold you spellbound.

In addition to the feature the usual shorts and comedy will be shown to round out the evening's entertainment.

Idaho is the seventh state in wool production.

**WHEAT MARKETS HIGHER  
FEED GRAINS STEADY**

California markets advanced 1c-2c per bushel, influenced almost entirely by higher prices in other markets. Harvesting advanced northward in the San Joaquin Valley with the crop rapidly approaching maturity in the Sacramento Valley. Good milling wheat sold readily to Bay Region and southern California mills, but demand for feed wheat was restricted by the relative cheapness of barley, new crop supplies of which are now available. At the close of the week, No. 1 hard white was quoted at San Francisco at 75c-76½c and No. 1 soft white at 72c per bushel, sacked. Utah-Idaho No. 2 dark hard winter was quoted at 84c-85c per bushel, in bulk.

Pacific northwest barley markets were quiet and prices practically unchanged as growers continued to display a firm holding tendency. Trading in Pacific northwestern markets was limited but eastern Washington white oats were reported in better request at Puget Sound markets than in Portland and were quoted at Seattle at \$1.37½ per 100, sacked basis. Both No. 2 white and No. 2 gray oats were quoted at Portland at \$1.25 per 100, sacked basis.

**Bridal Shower**

Wednesday afternoon the home of Mrs. George Leith was the scene of a lovely bridal shower given in honor of Miss Eleanor Herres, daughter of Mr. and Mrs. L. J. Herres, who is to become the bride of John L. Johnston Saturday. The afternoon was spent in playing guessing games, after which the bride to be was seated before a table heaped with gifts, and opened them so that all might see. Delicious refreshments were served by the hostesses, who were Mrs. Geo. Leith, Mrs. Harold Thomas, Mrs. Roy Ramey and Mrs. W. L. McCreary.

**INSURANCE!**

PROTECT THAT GROWING CROP AGAINST  
HAIL AND FIRE!

This is the season of the year most subject to Hail storms. If you are thinking of protecting your crop against Hail — see us without further delay.

Fire insurance on growing grain crops written now, will carry your protection until Nov. 30th, 1938, be it in the warehouse, on the farm or in transit to the warehouse. Your premium cost is no more than what it will be if written later. Don't delay until you have been visited by fire.

Sunday, June 19: No services at the Jullaetta church on Sunday. The congregation is urged to attend the Mission Festival at the Cameron church.

The territory of Idaho when formed contained ten mining towns, 20,000 people and four counties. Its capital was Lewiston. The capital was moved from Lewiston to Boise in May of 1865.

Another thing that would help the country would be for a lot of people to trade their wrist watches for alarm clocks.

"My Skin Was Full of Pimples and Blemishes from Constipation" says Verna Schlepp: "Since using Aderika the pimples are gone. My skin is smooth and glows with health." Aderika washes BOTH bowels, and relieves constipation that so often aggravates a bad complexion. Red Cross Pharmacy.

**THE ALL-CROP HARVESTER**

IS THE —

**"SUCCESSOR TO THE BINDER"**

**HERE'S WHAT THE ALL CROP HARVESTER WILL DO FOR YOU**

- 1 Lower Your Harvesting Costs Far Below The Cost of Any Other Method. This Means More Profit.
- 2 Enable You To Grow Soil Building and Erosion-Prevention Crops — and Turn The Seed Into Cash.
- 3 Make You Independent of Custom Outfits and Extra Help. No Twine Or Threshing Bills To Pay.

**AND HERE ARE 4 REASONS WHY:**

**FULL-WIDTH 5-FOOT CYLINDER**

- 1 Has more than twice the average shelling area. Cut swath goes through in thin, even blanket—no bunching or choking.

**OVERSIZE THRESHING REAR**

- 2 Big 32-inch by 10-foot separating rear assures extra capacity to handle heavy crops, or to work at high speed. Twice the separating area per width of cut.

**VARIABLE CYLINDER SPEED**

- 3 make quick cylinder speed adjustments. You can change V-belt drives and adjustable sheave pulleys—enable you to from "birdseed" to beans in a few minutes.

**RUBBER-FACED BAR CYLINDER**

- 4 Easily raised or lowered for different crops—no teeth to change or line up. Rubber facing avoids cracking. Green weeds are NOT chewed up to raise moisture content of grain. Straw remains unbroken—can be picked up and saved. Threshes all small grains, beans or seeds—more than 70 different crops.

You can be "boss" of your own harvest with an Allis-Chalmers All-Crop Harvester. With a 2-plow tractor for power . . . you can cut and thresh your crop at its peak in quality. It's easier . . . you get MORE bushels . . . and you save money!

**I NEVER KNEW PEOPLE COULD BE SO CHARMING**

A natural leader, intelligent and sociable, a new member of the Neighbors of Woodcraft was delighted to find in the Circle "her kind of people". She takes pride in her associates . . . the outstanding men and women of the city, leaders in their walks of life, molders of community thought. She enjoys the fellowship and good fun of the regular Circle meetings, and appreciates the security and protection afforded her by the Neighbors' low-cost insurance on standard legal reserve contracts.

*Neighbors of Woodcraft, a vital force in community life, welcome to membership forward-looking men and women of character.*

Rufus—Have you ever been up in an airplane?  
Goofus—Yes, Ah went up in one once, but Ah was skeered so much Ah didn't let all my weight down.

Neighbor—Did you make any money on your tobacco crop this year?  
Farmer Cutrop—Yes, I made just enough to keep my boy Josh in cigarettes for another year.

Well, Folks—The political pot is beginning to boil worse than ever. With the adjournment of congress (despite a lot of unfinished business) the politicians will become thicker than hops—and that's rather thick. Theories and handshaking will occupy all the time of anyone willing to talk—but by heck the political situation really needs attention. It seems like just a bit too much "pork" has been passed out here and there.

You county folk—why bother to church these days? Bring the cream to us and let us do the work! A fair exchange is no robbery—try us.

Like ice cream? Take home a quart of ours. You'll like it.

She: "Did I ever show you the spot where I hurt my hip?"  
He: "N-n-n-o."  
She: "All right then; we'll drive over there."
