On her arrival she was met in Spokane by Mr. and Mrs. Andrew Cox and Warren Cox.

FARMERS TO VISIT U. OF I. EXPERIMENTAL FARM

Farmers of northern and central Idaho will have an opportunity to view all phases of experimental work at the university farm at a "field day" on Friday, July 1, reports Dr. K. H. Klages, head of the agronomy department and chairman of the field day committee. The purpose of this field day will be to give farmers a general picture of the whole experimental program and to discuss particular subjects in which they are interested.

Last year county agents in Lewis and Nez Perce counties brought about 75 of their farmers to Moscow to look over the field plots at the Moscow station. Their interest in what they saw at the experiment station provided the impetus for an organized field day this year. For several years similar field days have been held at the Aberdeen, Sandpoint and Caldwell substation farms. Parties will assemble at Morrill cessories to match. hall starting at about 9:30 Friday morning. In groups of about 25 to 30 the visitors will be taken on supervised tours of points of inor field plot will be someone representing the department involved to explain the work underway and to for the field day are D. R. Theophilus, dairy department head; C. W. Hickman, animal husbandry department head; C. E. Lampman, poultry department head, and W. L. Stephens, northern district exten-

sion agent. The program includes visits at the places where the animal husbandry, poultry husbandry, dairy husbandry, horticulture, plant pathology and agronomy departments are doing experimental work. The animal husbandry department will show its beef cattle, swine and sheep breeding experimentation. Last year's visitors were particularly interested cludes crop rotations, cereal variety good. Mr. and Mrs. Archie May visited plots, pea variety plots, cereal inday afternoon in the homes of breeding, pea breeding, forage and mellons they were more than breeding and seed production of welcome, and these farmers were

forage crops. At noon the visitors will assemble will be provided by the summer ses-Mr. and Mrs. Laurel Fleshman sion group. Visitation of the farm sons visited Sunday afternoon will be resumed in the afternoon. Some form of entertainment will be provided for women who accompany their husbands to the university but are not interested in visiting the

Family Reunion And Dinner

On Saturday, June 18, the beauti_ ful farm home of Mr. and Mrs. B. F. Fleshman, near Leland, was the 80th birthday anniversary. Several Leland families, the J. E. Fleshman, L. L. Yenni and Gordon Peters familles were present, as were Mr. and surance of a real wheat crop in the Mrs. D. E. Fleshman and daughter Ilene and R. F. Fleshman of Dutton, Mont.; Mr. and Mrs. George Fleshman, Pearl and Delmer of Lewiston, and Dan Ziemann of Southwick.

A bountiful dinner was served at 7 o'clock, and a birthday cake, beautifully decorated with 80 can-

dles, graced the table. After dinner old-time music and jiggs were given by B. F. Fleshman, and were very much appreciated.
A round-table discussion and rehashing of old-times also had its place on the evenings entertainment. Twenty-two children, grandchildren and one great-grandchild

were present. Mrs. B. F. Fleshman has the right to more than honorable mention for the baking of a very deficious cake on her 80th birthday anniversary.

Warehouse Near Completion

The grain tubes purchased this spring by the Lewiston Grain Growers, and being rebuilt under contract for them, are nearing completion. Big doors are being installed to close the driveway and protect the dumping pit during inclement weather, and the whole inclosed in gal-

vanized iron. Everyone is mighty glad to see Kendrick Ball team lost to the this improvement made, since these ague leading Orofino outfit last tubes, abandoned and blackened by

ternoon. The game started off in plant ready to receive grain, but he shape with neither club scoring all reports say it will be done in

ELEANOR HERRES BRIDE

OF JOHN L. JOHNSTON The home of Mr. and Mrs. Louis

J. Herres in Kendrick was the setting for an informal but charming wedding Saturday morning at 9:00 o'clock, when their daughter, Eleanor was married to John L. Johnston of Spokane.

The living room of the Herres home was beautifully decorated with roses of all varities. The ring ceremony was read by the Rev. Fr. Patrick Dooley beneath a rosedecorated archway.

Preceeding the entrance of the bride and her matron of honor, Mrs. Wayne S. Herres, "I Love You Truly" was played by Miss Sara Jane Swantek of Orofino. The groom had for his best man, Wayne S. Herres, brother of the bride.

The bride was dressed in a white lace, floor-lenth gown, and in her hair wore a wreath of lillies of the valley, worn by her mother at her ferred to care for the M. E. pator-wedding. Her corsage was rose buds ate in that city. and lillies of the valley. A three-tier wedding cake, top-

ped with a minature bride and groom was an effective center piece at the wedding breakfast, served immediately after the ceermony. The happy young couple left

shortly after noon for Spokane, where they will make their home. Mr. Johnston is employed at the Sacred Heart hospital. The bride's going-away costume was a black finger-tip cape ensemble with ac-

FEDERAL LAND BANK CON-TINUES REDUCED INTEREST

Continuation of the temporarily reduced interest rates on Federal land bank and Land Bank Commis- with sioner loans, as a result of congres_ sional action on June 16, will apply this week-end for Albion, Wn., to all interest payable prior to July to which place he has been transof the Federal Land Bank at Spo-

kane, said. On Federal land bank loans associations, the temporarily reduced home. Patty McCreary accompanied rate will be 31/2 per cent a year; for land bank loans through im paired associations 3% per cent, and for loans directly from the banks,

President Ehrhardt said the temporarily reduced rate of 4 per cent Mr. and Mrs. James Nesbit and on Land Bank Commissioner loans,

home of his parents, Mr. and Mrs. be continued until July 1, 1940.

B. F. Nesbit. He explained that the temporary interest rate, that is, the rate writtract rates, which will be in effect after the emergency rate expires, on new land bank loans are 4 per cent for loans through unimpaired associations, 41/4 per cent for loans through impaired associations, and 41/2 per cent for direct loans. The contract rate on all Commissioner loans is 5 per cent. Ehrhardt said that under the law, as now emended, borrowers will resume interest pay-

> which may be for as long a 20 to 30-odd years."

New Refrigeration System

Workmen last week put the finishing touches on a new 50-cubit foot refrigeration addition at the Perryman Confectionery, when they put the entire lower section of the big back bar under refrigeration. This addition keeps bottled and canned goods at a temperature of 36 to 38

degrees above zero. In addition the fountain refrigeration system was entirely rebuilt, a new unit, new coils and new in sulation being installed. This section, a 25-foot one, also keeps its contents at 36 to 38 degrees, besides cooling all carbonated and regular water drawn through its coils.

are also maintained, which are kept This completed installation gives this confectionery as modern a refrigeration system as one can find in any town, and larger than found

in many city sweet shops. Thanks From Flower Show

F .W. Gail, head of the department of Botany and chairman of the the Duluth July future which closed annual Flower show at Commencement time, writes from Moscow: "In behalf of the University I want to thank the citizens of Kendrick for the lovely collection of roses which they displayed at our Annual Flower show held at Com-mencement time. These lovely roses added much to the beauty and attractiveness of the exhibit. Some 5,000 people attended the show, and many were very much surprised at the wonderful roses you raise in

Kendrick. "I want also to thank Roy Long and his mother for the work necesother sary in bringing this collection to

WHEAT MARKETS CON-TINUE UPWARD TREND

Wheat markets continued to advance during the week ended June 17, and feed grains maintained a steady to firm tone, according to the Weekly Grain Market Review see them leave our community, for of the Bureau of Agricultural Ecowheat market. Unfavorable growing weather for corn and only moderate current offerings brought about a firmer situation in the feed grain

market. United States winter wheat prospects were the dominant factor in the wheat situation and foreign markets continued to advance along with domestic markets although gains were less. Threshing returns were showing greater damage from April and early May frosts than was generally expected and rust injury was also apparent in some areas. The extent of the rust damage however, is still uncertain, according to the Bureau of Etomology and Plant

Quarentine. Throughout most of the wheat growing region west of the Mississippi River conditions have been unusually favorable for the develoment of rust. The Texas crop however, was not damaged greatly in the aggregate, although fairly heavy losses ocurred in some local areas. The condition in Oklahoma is spotted. Stem rust is rather heavy in some local areas and moderately heavy in several others. Much of the wheat however, will mature before severe damage occurs and the aggregate loss is not expected to be large. Wheat in southwestern Missouri ripened early enough to escape important damage and not much injury is expected in east central

Missouri. Elsewhere in the winter wheat area there is a liberal sprinkling of stem rust extending as far north as south central Iowa. East of the Mississippi River, rust in general is not so abundant as in the states westward, although a sprinkling is reported throughout Iowa, Indiana and Ohio. Traces of rust have been found in the spring wheat region but infestation is light except in the

Marketings of winter wheat increased with arrivals at the princial terminals totaling 3,372 cars. The rather low because of light test weight and high moisture. At Fort Worth, 25 per cent of the week's receipts graded No. 1 dark hard, with 25 per cent No. 2 dark hard, 15 per cent No. 1 dark hard, 20 percent No. 2 and 5 percent of No.3

dark hard, mixed hard and soft, and

sample grades. Marketings of spring wheat were also somewhat larger with farmers and country elevators marketings remaining supplies of old wheat quite freely. Receipts totaled 340 cars at Minneapolis and 205 cars at Duluth. Premiums on cash wheat strengthened materially and along with the gain in futures resulted in a price advance of around 10c per bushel. Lower protein wheat was in increased demand and brought Two four-hole ice cream cabinets somewhat larger premiums than in previous weeks. No. 1 dark northern testing 58 lbs. was quoted at Minneapolis June 17, at 14c to 20c over the July future, which advanced 6c during the week and closed at 90c.

Durum wheat gained along with bread wheats but the advance was less and amounted to 6c-7c on the bulk of the offerings which sold at Minneapolis at 14c to 22c over June 17, at 76c per bushel. Durum wheat roduction in 1938 seems likely to be above that of a year ago. Canada has reduced the durum arceage through the substitution of urst resistant Thatcher wheat, but the June 1spring wheat condition of 99% of the long time average yeilds suggests that the reduction in sendings may be about offset by increased per acre yields. A Durum wheat crop slightly larger than last year was in prospect at the first of June in Europe and North Africa. The condition in Asiaatic countries which produce Durum wheat are generally favorable. The Indian crop, of which about 12 percent is Durum, was the largest on record, according to current estimates.

Intermountain and Pacific Coast cash wheat markets were generally firmer along with Eastern markets. Mills at Denver advanced bids an No. 2 Hard Winter and No. 2 Northwhite and 55c for No. 2 hard winter

FOB Utah-Idaho common points. Intermountain and Pacific coast cash wheat markets were generally firmer along Eastern markets. Mills at Denver advanced bids on Colorado shipping points, while mills at Ogden were bidding 59c for No.2 hard white and 55c for No. 2 hard

points. The Portland market advanced aronud 3c per bushel with a sharp drop in receipts and improved milling demand as a result of more active flour trace. At the close of the week, No. 1 soft white was quoted at 78c, western white at 77c, western red at 76c, with 12 percent protein hard white (baart) at 18c and 12%

U. S. Sweet Tooth Calls 'More' Sweeter and sweeter grows the

Americans are eating 16 pounds of candy a year per capita. This is a Department of Commerce figure, and the 1,000 delegates to the 55th annual convention of the National Confectioners' Association at the Waldorf-Astoria Hotel here this week rolled it over their tongues as a sweet morsel. The total is even larger than last year.

Moreover, one of the major sales promotion hints the sweetmakers are carrying home with them promises of even greater poundage. It was the assurance by Marvin ("Mal") Stevens, football coach of New Yory University, that the nation's athletes were the coming "candy kids"

Telling the convention that 6.000-000 boys were playing football in the United States every year, Mr. Stevens gave his own "fittness" formula based on his own football, basketball, baseball, tennis and track schedule.
"By abstaining completely from alcohol and tobacco, but eating quantities of candy," he said, I proved to my satisfaction from a practical standpoint that candy and

ugar in moderate amounts are not harmful to the athlete, long before I knew of scientific investigations. This brought the recipe of the "gridiron cocktail"—a mixture of dextrose, lemon, and water.

Ten Great American Sayings Grenville Kleiser, well known author, gives these as 10 great say-

ings by Americans:

1. Labor to keep alive in your breast that little spark of celestial fire-concience.—George Washington 2. As for me, give me liberty, or give me death.—Patrick Henry. 3. Early to bed, early to rise, makes a man healthy and wise.—
Benjamin Franklin.

forever, one and inseparable.—Daniel Webster.

6. That government of the people, by the people, for the people, shall not perish from the earth.—Abraham 7. An inexhaustible good nature

from heaven.—Washington Irving.

8. Put not your trust in money, but put your money in trust.—Oliver Wendell Holmes.

9. Wherever souls are being tried and ripened, in whatever commonplace and homely ways, there God is hewing out the pillars for his temple.—Phillips Brooks. 10. America is another name for opportunity.—Ralph Waldo Emerson.

The Northern Pacific railroad was first completed across the Idaho panhandle in 1863.

IDAHO CRASHES CAUSE 14 DEATHS IN JUNE

Commissioner J. L. Balderston of the shape at Washington D. C. Law Enforcement Department at The subject was receiving attenregarded. Two of the fatalities were caused by sleeping drivers, one was south of Rigby in Jefferson county secure approval of a resolution and the other was at the Swan Val authorizing a congressional study of ley bridge in eastern Bonneville the whole problem.

county.

Probably no two fatalities in the two crashes in Ada county and the prominence of the people involved. In each of the accidents there are, at this time of writing, about five persons in the hospital with injuries, Preaching every Sunday evening the out come of which cannot be determined. The first crash of last week occurred early Sunday morning as the young folks were enroute to their homes. Two were killed outright and the third died a few hours later. The second crash coming at the end of the week was upon the Eagle road and resulted in one auto, according to the story of an'eye witness, swinging in front of a car going in the same direction. Both would have mentioned it. cars were reported traveling at a instead, he drew up a high speed and both were damaged. One woman was killed outright, another woman died in the hospital,

to which five injured were taken.
Investigations of the two Adacounty crashes, which included measurements of the distance the cars traveled after colliding together, with protographs, show conclusively that too much speed for the condition of the road and weather were re-

sponsible. Two deaths resulted as the result of drivers sleeping or closing their eyes for the split-second while driv-ing. In one case a young woman of Shelly drove into a bridge abutement the cessation of the practice of bombing civilian populations." killed. The other was a driver who was reported to have gone to sleep while driving toward the Swan Valley bridge over Snake river. The car, went into the river. The three per-11 o'clock: "The Immortality of the sons riding in the car escaped but Soul." Job 14:14, Heb. 5:6, John 14:2. the driver's body was not found. In Young People's Service 6:30 p. m. the search for the body the boat in which officers were conducting the search capsized and one of the officers was drowned.

In June a year ago 16 persons were killed while during the first 17 days of the current month 14 persons have been killed. The total deaths for the first five months of this year were 45 as compared to We welcome visitors and invite 57 for the corresponding period in 1937. For the six months in 1937 there were 73 deaths as compared to 59 up to June 17 of the present

A student of astrology has cited the fact that June is to be a month of fatalities because of Mars, which helps form a square among the planets, and upon this occasion there are "bound to follow" fatalities of all kinds, including automobiles, airplares, ships and railroad trains. On the other hand the pyschologists claim that "Dr. Jeykell and Mr. Hyde" drivers are more pronounced 4. Sir, I would rather be right than be president.—Henry Clay.

5. Liberty and Union, now and according to the reviews of traffic fatalities in the office of the Safety Education Bureau of the Law Enforcement Department in Boise. It appears that such has proven to be the case regarding the accidents that have been recorded in Idaho the first half of June, and the record of is one of the most precious gifts curbing deaths upon the highways.

PINE CREEK-GOSSIP

A joint birthday dinner was celebrated in the Frank Wilkens home in honor of Frank Wilkens, E. V. Weeks and Mrs. Wm. The following were present, Frank Wilkens and son Milton, Mary Gruell, Nellie Stead, Mr. and Mrs. E. V.
