Miss Emery and Mr. Vaught are loing graduate work at the U. of this summer in preparation for he opening of the fall term.

Facilities are being made ready to utilize the first floor rooms for rade classes, thus giving additional lass rooms for high school work. indications are that there will be large enrollment for the fall term. Kendrick is one of the eight schools but of 29 high schools in central Idaho that is a member of the Northwest Association of Secondary and Higher Schools. This means that work must meet certain standards as to equipment, building and grounds, records and high scholastic Walla. standards. It also means that any Mr. and Mrs. Ray Stout and son student from this school may go to Lyle returned to their home in any other member school in the Portland Friday after a week's visit United States and be accepted into with the Jay Stout family. United States and be accepted into that school without examination. This applies to either high schools last week for Dutton, Montana, or colleges. It is also one of the four schools in north Idaho to have Smith-Hughes Agriculture and the only school in the north part of the state to have a full-time department in this work.

At the conclusion of summer school at the University plans for the courses of study for the coming year will be made. There will be some changes, but no more than seem advisable where there has been a considerable change in courses over texts being used now. Mr. Lyle advises students and prospective students to purchase no books until definite list is published, which will be before school opens this fall. It is planned to have registration for as many as possible before the opening date of school, thus enabling student class schedules to be arranged before the opening days of term. Dates for registration will be announced at a later date in the Gazette.

If arrangements can be made with surrounding schools six-man football will be introduced this fall. This is the same as regular football, except that six instead of 11 men are used. It is proving a very popular game in the midwestern section of this country. We have considerable equipment on hand which will make this possible with but little expense to the student body.

About The New Primary Ballots According to information given out at the county auditors office, says the Star-Mirror, indicates the importance on the part of voters in expressing their political wishes. The ballots, approved by the attorney general, will result in a vote being nullified if it is not properly

MANY CANDIDATES ARE SEEKING COUNTY FAVORS

There shouldn't be any trouble finding someone to vote for on either the republican or democratic tickets this year as filings for all offices from State senator on down the line are plentiful, two of whom are from Kendrick — Harold Thomas seeking the nomination for state senator on the republican ticket, and Marvin Long the nomination for state representative on the demo-cratic ticket. Both are long-time residents of Latah county, both are well known throught this section, and should pile up a nice lot of

It will be noted that no names appear for commissioner for the first district. No election will be held for that office, as the four-year term law applies in the first district this

According to recent news dispatches the Idaho Fish and Game initiative will have a place on the election ballot this next November, a petition (or petitions) bearing 24,903 names having been received at Boise, 1267 of which names were from Latah county and 1411 from Nez Perce county.

The sportsmen of Idaho have been seeking for the past several years to have a non-partisan game commission created within the state and it would seem that from the above figures there is little chance of their not getting what they have been working for, and which would take the game department out of politics—at least more so than it is at present — and it's been a political pay-off job for many years.

Kendrick Picnic Well Attended The Kendrick pioneer picnic was

held last Sunday, July 10, in Manito Park, Spokane, when many of the old-time residents of Kendrick and vicinity gathered to hold their annual get-together meeting for the old-timers. While some said the crowd of former residents was not as large as in former years, they had a splendid time.

During the business session Wade Keene was selected president and Mrs. W. A. Watts secretary and there is little doubt but that the in Kendrick, at a date to be named later, will be one of the best that has yet been held as an extra effort will be made to get all the old-timers back home for the occasion. A warning was sent out some time ago by the U. S. forestry de-partment that everyone who contemplated going into tick-infested territory should be inoculated before entering the timber.

COMMERCIAL CLUB HOLDS INTERESTING MEETING

Another interesting meeting of evening, when dinner was served to 22 people by Mrs. Paul Lind and Mrs. Edgar Long, after which the minutes were read and approved, and the business of the evening taken up. Preceding this, however, Rev. W. T. S. Gray, the new Methodist minister, was introduced to the club, and made a few pleasing re-marks, among which was that he was very happy to be present and mingle with such a live body of business men—and that his name is "Bill" and that he prefers to be known and called by that name. This introduction was well taken and the club will be more than glad to welcome he and other "Bills" to all their meetings.

At this time announcement was made of chairmen of standing committees: Highway, N. E. Walker; agriculture, Don Lyle; industrial, H. B. Thompson; finance and member-ship, Herman Schupfer and Edgar Long; fish and game, Wade Keene; merchants, Marvin Long; entertainment, J. M. Lyle, Jr.; education, E. A. Deobald; civic improvement, O. E. Havens; inter-relations, W. A. Watts; scouting, R. L. Blewett; pub-

licity, W. L. McCreary. N. E. Walker reported that gravel is being placed on upper Cedar creek road and would be completed m about two weeks, after which it is expected to start a WPA project on Little Bear ridge road, the amount allocated being something

like \$9,600.00. At this time G. P. Barnum gave a report of the trip made by he and E. A. Deobald to The Dalles, where they accompanied about 65 people mainder grading No. 3. It is understood that rightsof-way are practically secured and the contract should be let within a few days. Several officials and contractors are expected shortly to look

the project over. Wade Keene, the newly-appointed head of the fish and game committee, said there was no question but that a local game warden is needed here, as there are evidences of law violations found every once in a while that should call for drastic measures.

It is expected the club will sponsor more entertainment of various kinds this coming year than has been the case in the past, both for the town and the club.

Edgar Long reported that he, with a number of other Kendrick people, had attended the Kendrick picnic at Spokane last Sunday and that Wade Keene had been elected chairman, with Mrs. W. A. Watts as secretary-treasurer. It had also been voted to hold the picnic next year in Kendrick—and the commercial club went on record as being 100 per cent behind the movement and would do everything possible to make it a success. Mr. Long wound up his talk with a short but pointed lecture on the absence of Kendrick people at the picnic.

At the close of the business ses sion a reel of pictures taken by Dr. Chirstensen during his summer vacation trip were shown, they being taken in color, and were indeed very pretty. They covered a radius from Salt Lake City to Yellowstone park.

WHEAT MARKET LOWER -

NEW MARKETINGS AFFECT Domestic wheat markets made further slight declines during the week ended July 8, influenced principally by record marketings of new winter wheat, according to the Weekly Grain Market Review of the Bureau of Agricultural Economics. Feed grains held about unchanged with a steady inquiry and a sharp reduction in market re-

ceipts. A northern hemisphere wheat crop larger than last season and probably the best in recent years is now in prospect. The United States winter wheat crop apparently has escaped serious rust damage and outturns have increased and the on Mr. and Mrs. C. L. Wegner called the Kendrick Commercial club was quality has improved as threshing moved northward. Spring wheat has continued to make favorable progress with moisture supplies in most areas ample to carry the crop to maturity. Rust damage, however, is still threatening with weather con-ditions during the week extremely favorable for its development, according to the Bureau of Entomol-

ogy and Plant Quarantine.

Heavy rains improved spring wheat prospects in the Canadian prairie provinces, but moisture was still needed in southern and central Manitoba, north central Saskatch-ewan and northern Alberta. The moisture situation, however, is about 86 per cent of normal as compared with 65 per cent at this time last year and 90 per cent a few weeks ago. Local damage from grasshop pers has occurred in Saskatchewan but no general deterioration due to insect pests or disease has yet been

reported. The European crop is now placed at around 1,611,000,000 bushels by trade authorities. If these forecasts are born out by harvesting outturns, the crop would be the largest of post-war years with the exception of 1933-34.

Record marketings of new winter wheat featured the domestic cash wheat market with 23,208 cars received at the principal terminals. This compares with the previous record of 21,786 cars during the corresponding week a year ago. The quality of the current receipts was much better than earlier arrivals with over half of the receipts at from Lewiston. The trip was for larger offerings, cash premiums No. 2 hard winter was quoted at No. 2 soft red winter sold at 66c to 68c per bushel. Trading at Chicago was active and shipping sales were estimated at around 92,000 bushels. New crop No. 2 soft red winter was quoted at 71c to 73c and No. 2 hard red winter at 72c to 741/2c per

bushel. Marketings of spring wheat remained light but competition from winter wheat was a weakening influence early in the week. Later, however, the market strengthened as a result of a more active milling inquiry as demand for flour improved. The September delivery at Minneapolis declined 11/2c per bush-el but cash premiums held firm.

Intermountain and Pacific Coast markets fluctuated with local supply and demand conditions. Denver mills lowered bids on No. 2 hard winter and No. 2 hard spring to 53c per bushel. Mills at Ogden were bidding 46c at the close of the week for No. 2 soft and hard white, northern spring and hard winter FOB Utah-Idaho common points.

The Portland market held steady despite declines at Chicago and cash prices advanced 1/2c to 2c per bushel compared with a week ago. Light offerings at country points, together with a good export demand and a better inquiry from mills, were the principal strengthening features. Export sales included around 2,000 tons afloat and 1.500 tons in parcel lots for July shipment to the Mediterranean. On Ĵuly 8, soft white was quoted at Portland at 71c, western white at 70 1/2c, western red at 69½c and hard red winter at 72½c, all basis No. 1 grade, sacked. At Seattle, bid prices were 68c for western white, 67c for western red and hard winter, bulk basis.

Pacific Northwestern barley mar-kets tended downward with supplies of barley limited by light offerings. At Seattle, eastern white barley was quoted at \$1.20 per 100, sacked, with No. 2 bright

Oats markets displayed a steady tone, reflecting the scarcity of old crop offerings and the delayed offerings meeting a fair demand. Prospects of only moderate harvests strengthening ence. Eastern Washington white oats were quoted at Seattle July 7, at \$1.37½ per 100, sacked basis, with No. 2 white and No. 2 gray oats testing 38 pounds per bushel quoted at Portland at \$1.25 per 100, sacked

Have You Got Yours? The U.S. treasurery reported the public debt rose in the past year to an average of \$285.70 for every man, woman and child in the nation.
This was \$4.07 more than the amount owed per person a year

ago,
Final figures on the government's \$37,164,740,315.45. This was \$740, 126,583.00 more than the total a year ago. Interest payments on the obligation during the year required \$926,280,713.00, nearly a seventh of all the government's expense.

The treasurery listed as the public

debt only its own direct obligations. In addition, it said the government had contingent liabilities of \$4,925, 000,000, or \$182,000,000 more than a year ago. These liabilities, officials explained, were in the form of guarantees as to principal and interest on the outstanding obligations of the reconstruction corporation, the Home Owners' Loan corporation and other federal corporations.

Walter Q. Taylor Announces Candidacy for Assessor

Preaching at 7 p. m.

In again becoming a candidate for renomination I do so with the hope that a majority of the tax payers will approve of my record of If nominated and elected I shall

continue a policy of prompt, efficient and friendly service. Being a taxpayer on both farm and city property, I stand for economy in administration. Due to the popular demand for more and better public service, the duties of the office of assessor have been greatly extended. I feel that a corps of experienced employes, familiar with every detail of office duties can give

better and more economical public service than a new group. I have been a resident of Latah county for 45 years, and by intimate contact have gained a knowledge of the whole county. This has benefitted my service to the County and State Boards of Equalization.

I have lived and worked in both the forested and agricultural sec-tions. These facts enable me to draw a proper balance between the valuations of various classes of property.
