LIVES SAVED FIRST SIX MONTHS OF YEAR

Three thousand persons are alive in the United States today who can thank the current extensive highway campaigns for their survival, according to an announcement following a very recent survey. In the six months from November to June, the American traffic deaths have been reduced with a saving of 60 lives. During the first six months of this year, automobile deaths have been reduced from 14,000 to 11,000, or 21 per cent.

Regarding this saving of lives the report says: "Although many factors enter into the remarkable trend toward highway safety, including normal precautions against danger, it is believed that the major factor is to be found in the rapidly growing safety consciousness on the part of the public."

Practically all of the states are now engaged in carrying on highway safety campaigns through which the driving public has been given suggestions for better driving, more safety upon the roads, and observation of the traffic laws. These are presented by safety bureaus through the press and over the radio. The Idaho Safety Bureau was established May 1, 1937, by Gov. Arzulla. W. Clark's approval of the amendment to the motor vehicle laws.

Idaho has contributed to the saving of lives during the past 11 months, according to the Safety Bureau in the office of J. L. Baldwin, Commissioner of the Department of Law Enforcement at Boise. In the first seven months of 1937, the traffic deaths were 101, but during the first five months of this year, a reduction was made each month and in the five months there were 44 less deaths than during the same period in 1936. In the first seven months of 1938, there has been a reduction of traffic deaths of four months and the total to the end of July shows 88 deaths as compared to 101 for the same period in 1937, or a saving of 15 lives this year.

"If Idaho motorists will observe precaution and courtesy in their driving and will continue to show the same 'safety consciousness' for the next five months as they have shown in the past 7 months, then it can be expected that Idaho will have at least 25 more people alive for the Christmas holidays," the department said.

Election Tuesday

Tuesday, August 9, is election day in Idaho, and a large and varied list of candidates is to be offered for your selection in both parties.

This year the new primary election law goes into effect, making it unnecessary to announce one's political affiliation. It is merely necessary to call for a ballot. This new law was passed at the last legislative meeting following the storm of protest over the checks used in many of the election places at the last election, when it was necessary to announce party affiliation when calling for a ballot.

However, it is impossible for anyone to jump from party to party in the selection of rival candidates. It is necessary to vote one ticket or the other. A cross must be placed in the large circle at the top marking party affiliation, and then the voter proceeds to select the candidates of his party whom he deems most fit to represent that party. Care should be used in filling out the ticket, since to cross the line to the other party, voids his vote in that section of the ticket.

The names of two local candidates appear on this year's ballots—those of Marvin Long, running for the Democratic nomination for state legislature; and Harold Thomas, running for the Republican nomination for state senator.

Young People's Meeting

Young People's meeting was held last Sunday evening with an attendance of 24. The meeting was led by Marie Havens and Maxine Bigelow. Songs were sung by the group and which responsive readings were read. A scriptural passage was read by Maxine Bigelow, while Marie Havens read the poem "Courage."

The group elected officers. They were as follows: Myra Kanikberg, president; Barbara Long, vice-president; Lois Deobald, secretary and reporter; John Thompson, treasurer; Marie Havens, recreation. The leaders served cold drinks at the home of Mr. and Mrs. Ira Havens.

Celebrate Birthday Anniversaries

Little David Crocker and little Carrol Lyle celebrated their birthday anniversaries Wednesday afternoon, when their mothers, Mrs. L. D. Crocker, and Mrs. J. M. Lyle, Jr., invited a number of little friends to the Crocker home to enjoy birthday cake and ice cream.

New Freight Depot Progressing

The new freight depot and garage of Everett Crocker is progressing satisfactorily under the guiding hand of Geo. P. Barnum. When completed, another eye-sore will be removed from Main street.

Girls Want Winter Work

There are several girls who desire a place where they may work for their board and room while attending high school in Kendrick during the coming school year. Anyone interested in having a school girl helper please call Mr. Lyle, at 462, and the names will be furnished. The girls who desire a place to stay are from good homes and are capable.

LATAH-COUNTY CALCULATION

IS \$12,585,688 FOR YEAR 1938

An increase of \$240,711 in valuation of county property over last year is shown by the abstract of real and personal property rolls for Latah county just completed at the court house for 1938. The total valuation in the county, upon which the 1938 taxes will be based, is \$12,585,688 this year as compared with \$12,344,977 for 1937.

This is complete except for the public utilities. Chief contributing factors to the increase in value appear in improvements on residence lots, merchandise, and in white pine lumber. Comparative figures in the lumber were \$249,305 and \$149,170.

Leading in valuation are agricultural lands with a total of \$6,092,295. Grazing lands are next with \$413,952. Timber land and cut-over land also place high with \$381,855 and \$235,199 respectively.

Under the subdivision, "Other Real Property," residence lots are the largest, \$449,200. Next to residence lots, improvements on land are greatest in farm improvements, \$654,638; and business lots \$696,998. Residence lots top the others with \$1,284,930.

The \$55,360 valuation of milk cows place them ahead of all other cattle, the report shows. In horses and mules, work and stock are valued at \$34,525 and \$32,969, respectively, while hogs lead in livestock, with \$13,478. Turkeys are lowest, being valued at \$54.

White pine lumber heads other property, while merchandise totals \$355,395.

Exemptions are \$614,626, which consist of widows exemptions, \$139,296; on farm implements, \$102,080 and on household goods, \$373,250. —Star-Mirror.

Old Copies of Gazette Found

While Beatrice LaHatt, Mary Davidson and Jim Marks were out bicycling Sunday afternoon, they happened to go up Little Bear ridge and, coming across an old house that was seemingly uninhabited, they went in and began to look around. Among the things found were two copies of the Kendrick Gazette, one dated February 2, 1917, and another dated August 2, 1918.

The papers contained many interesting things about old-timers who were in charge of things here about that time. In the one of August 2, 1918, was considerable news about local boys entering the army, but the papers were so badly torn that little sense could be made from them.

Fire On Big Bear Ridge

Fire broke out on the south slope of Big Bear ridge Sunday morning that caused a great deal of uneasiness for a time, but was finally brought under control by the cooperating efforts of the residents of that section. The fire started up the side of the canyon, but was held before it reached the big bench. Damage was confined mostly to cheat grass and underbrush, with but little good timber being damaged.

Help was called for from CCC boys, but despite their quick response, the fire was under control before their arrival.

F. D. Lackey, Juliaetta, Expires

F. D. Lackey, 77, Juliaetta, died last Thursday morning at St. Joseph's hospital, Lewiston. He had been a resident of Idaho since 1908, coming from two sons, Charles Lackey, Juliaetta and Orth Lackey, Albuquerque, N. M., and two grandchildren, Edgar Lackey and Mrs. Josephine Noble, both of Juliaetta.

Funeral services were conducted Saturday morning at 8:30 at the Brower-Wann chapel. Interment was made in the Juliaetta cemetery.

Card of Thanks

The undersigned wishes to extend their sincere thanks and appreciation to the kind friends and neighbors who so willingly gave aid during their late bereavement, in the death of their father and grandfather, F. D. Lackey.

C. E. Lackey and Family

Mr. and Mrs. Leonard Davis announce the marriage of the daughter, Irene, to Lee Porter Reed, on June 30, at Burns, Oregon. Mrs. Reed is well known in this vicinity, having lived here most of her life. She is a graduate of the Kendrick High school and Lewiston Normal.

Went Fishing Again

Geo. and Wally Brocke and Marvin Long went fishing over the week-end, leaving here Saturday night. They said the fishing was good, but fish were scarce.

Ervin Fry Breaks Leg

Last Sunday while Ervin Fry, son of Mr. and Mrs. Angus Fry, was riding his bicycle down hill, the machine evidently slipped and threw him sideways, breaking both bones in his left leg, the large bone being badly twisted and splintered. He was taken to St. Joseph's hospital Monday morning where the fractures were reduced. He is getting along nicely at this time.

Beans

The fourth largest U. S. crop of dry, edible beans ever produced is indicated by the July report. Per capita bean consumption has been steadily increasing for it least 50 years, however. The estimate is 13,550,000 bushels, which would be 14 per cent less than the record crop produced last year, but 12 to 13 percent more than the 10 year (1927-1936) average crop. Average per acre yields for the United States are estimated at 801.8 pounds. Only last year, when 920.3 pounds per acre were produced, were yields higher.

In Idaho, the bean acreage is estimated at 169,000 acres. This is 22 per cent below the acreage of Idaho last year, and a smaller yield is indicated (1,300 pounds per acre, compared with 1,590 last year). Such an acreage and yield would produce 1,417,000 bags of beans, the fifth largest Idaho crop on record.

Tonsils Removed

GRAIN CONTINUES DOWNWARD WITH GOOD CROP

Domestic bread grains continued their downward trend during the week ending July 29, according to the Weekly Grain Market Review of the Bureau of Agricultural Economics. Domestic wheat prices reflected the steady accumulation in stocks of new grain at terminal markets following the report of increased carry-over stocks of old wheat as of July 1, increased hedging sales against the new crop movement; only a moderate export inquiry and lower foreign markets.

Feed grains registered moderate declines, influenced principally by the favorable progress of the new crop and larger marketings of new oats and barley.

Weakness in world wheat markets may be attributed principally to the prospective large supplies as harvesting of winter wheat neared completion in northern hemisphere countries and spring wheat harvest progressed northward. The most significant crop developments during the week were reports of the spread of rust infection in the Canadian, Prairie provinces with a serious grasshopper damage in local areas and hot, dry weather causing deterioration in Russian spring wheat. Recent official and trade reports have indicated that rust is present throughout most of Manitoba and has penetrated into Saskatchewan.

Foreign markets tended downward with liberal offerings of new grain affecting the relatively large clearance in world trade with world shipments of wheat and flour nearly double those of a year ago and including a substantially larger share of American wheat. Clearance from the southern hemisphere were slightly greater than a year ago; with Australian shipments for the week totaling 1,575,000 bushels, and Argentine shipments of 1,280,000 bushels. Clearances from Black Sea ports totaled 1,304,000 bushels comprising wholly Russian wheat with no clearances from Danubian wheat reported. Winnipeg wheat prices declined with other world markets but grasshopper damage and threatened extension of rust infection were sustaining influences in Canadian markets.

On July 29, No. 1 Manitoba northern wheat was quoted at Winnipeg 94½¢; Fort William and Port Arthur at 93¢.

Domestic winter wheat markets weakened with continued liberal offerings. Receipts at nine southwestern markets totaled 9,427 cars as compared with 11,443 cars for the same week last year. An outstanding feature of the situation at Kansas City was the lower average quality of arrivals with the bulk-grading No. 3, No. 4 and No. 5, because of low test weights or damage from sprouted grains. Mills, merchandisers exporters and storage interests were active buyers and at the close of the week No. 2 hard winter wheat was quoted at Kansas City at 66¢ to 71¢ per bushel. Bookings to arrive at Chicago were moderate. No. 2 hard winter was quoted at 69¢ to 71¢ per bushel. Receipts at Fort Worth were lower, but premiums held almost unchanged with a good demand for the light offerings. Hard winter was quoted at 79¢ to 80¢, basis No. 1 grade delivered-Texas common points or Galveston export rate.

Soft red winter wheats were in fair request with good sales reported at country points and a fairly good volume of contract business. Competition of order buyers and outside milling purchases held steady at St. Louis despite a slow demand from the local milling trade. The quality of the offerings was very good.

Spring wheat markets declined with increased marketings of new grain and the first car of new spring wheat reported at Chicago. Receipts at Minneapolis totaled 1,521 cars of all classes with unloadings at Duluth amounting to 292 cars.

Pacific Coast and Intermountain markets were irregularly lower. Mills at Denver were bidding 47¢ for No. 2 hard winter and No. 2 northern spring FOB Colorado shipping points. Mills at Ogden provided a steady outlet for current offerings as the wheat harvest made favorable progress and were bidding 44¢ for No. 2 soft white, 42¢ for No. 2 hard winter and No. 2 hard white and 49¢ for No. 2 dark hard and No. 2 dark northern FOB Utah-Idaho common points.

The Portland market was quiet with a light milling inquiry and moderate export demand. Export sales of around 7,000 tons were reported during the week, most of which was destined to Continental ports with the balance to the United Kingdom. No flour sales to the Philippines were reported and no indemnity payment was quoted. Harvesting is progressing rapidly but hot, dry weather threatened continued damage to spring wheat. Receipts at Puget Sound and Columbia river terminals increased sharply, totaling 1,563 cars. On July 29, soft white was quoted at Portland at 65¢, western white at 64½¢, western red at 62½¢, all basis No. 1 grade, sacked. At Seattle, western white was quoted at 63½¢, western red and hard winter at 60¢.

Pacific Northwestern oats markets displayed some independent firmness, reflecting the light outturns in the Willamette valley and with current light offerings from growers a sustaining market influence. Trade advices indicate the arrival of a few cars of mid-harvest oats from Omaha. On July 28, local No. 2 white and No. 2 gray oats were quoted at Portland at \$1.25 per 100, sacked basis.

An enterprising railroad has promoted one of its oldtime conductors to be Courtesy Director. He rides the whole system (on a pass) telling the employees how they can get along better with the public by wrinkling up the map into a smile occasionally. Ought to make him one of the administration's cabinet members.

Sonja Henle in "Happy Landing"
 Every picture fan who has had the opportunity, has been thrilled with the wonderful performances of Sonja Henle and Don Ameche in their various pictures, "Happy Landing" being the latest starring vehicle for these popular players. It tells the story of a song-writing band leader, who flies across the Atlantic for a publicity stunt and comes down in a Norwegian fog-bank almost in the middle of a "Folk Festival" known as the Bride's Fair. The custom which starts the trouble is the rule that if a young man dances twice with the same girl at the party, he has proposed. The young band leader happens to dance twice with Sonja—and then the fun begins. A show aglow with joy—laden with wonder spectacles! And Sonja breathlessly in love—breath-taking on the ice—the very radiant queen of a world of dreams come true.

INSURANCE!

PROTECT THAT GROWING CROP AGAINST
 HAIL AND FIRE!

This is the season of the year most subject to Hail storms. If you are thinking of protecting your crop against Hail — see us without further delay.

Fire insurance on growing grain crops written now, will carry your protection until Nov. 30th, 1938, be it in the warehouse, on the farm or in transit to the warehouse. Your premium cost is no more than what it will be if written later. Don't delay until you have been visited by fire.
