KENDRICK SCHOOLS OPEN WITH GOOD ENROLLMENT

The Kendrick schools opened on Monday, September 5, with a heavy enrollment in most of the departments. There are many new students in both high school and the grades. The enrollment by grades, in the elementary grades, is as follows: First grade, 15; second, 13; third, 15; fourth, 11; fifth, 14; sixth, 7; seventh, 17; eighth, 19, making a grand total of 116 for all elementary grades.

The enrollment in high school will come up to, if not exceed, the enrollment of last year. The enrollment at the corresponding dates is about the same as last year.

Books have been ordered and regular classes started on Tuesday. The teaching staff in high school and the classes being taught are: J. M. Lyle, Jr., superintendent, algebra and business principles; Miss Jean Graham, home economics for Freshmen and Sophomores, geometry and science; Miss Mary Fattu, who replaces Miss Kathryn Emery, typing, shorthand and dictation; Don Lyle, agriculture; Raymond Vaught, English, glee club and band. Band is being offered each day, unless the present enrollment in this subject changes. Enrollment will be about 35 or 40 in this course. The classes being offered in all courses are well filled. New students are coming in from American ridge, Cedar ridge, Bear ridge and Potlatch ridge. There are about 30 members of the Girls' Glee club under the direction of Mr. Vaught and new music has been ordered for that group.

The athletic program for the student body will be launched in the near future. Whether or not six-man football will be played will depend on whether or not games can be secured for the players of Kendrick.

Students are cooperating in a splendid manner in helping to preserve the lawn, which was planted last spring by the boys of the A. G. department. The lawn made a splendid growth and has added greatly to the appearance of the grounds. Eave-troughs have been installed on the entire front of the building and the roof is to be refinished, the material being on hand at this time. Twelve-foot posts have been put around the playground and wire is on hand to construct a fence around the edge of the hill as well as running a fence from the shop building almost to the road to protect the smaller youngsters from getting hurt while the older ones are playing.

A new 30-foot wave slide, which was ordered some time ago jointly by the PTA and the school district, has arrived and will be installed in the near future. This will be set up so that there will not be over eight feet at any place from the top of the slide to the ground, consequently not endangering smaller children.

The gym floor has been completed during the last few weeks and is now ready for use. It was completely sanded then given one coat of Special Gym Floor Seal, then lines put on for girls' and boys' basketball, volleyball and badminton, and paddle tennis. The other games do not need special markings. After these various lines were put down, additional coats of special gym finish were put on and the floor is now in excellent shape for activities. Mats will be put in at both ends of the gym to protect the players from danger of injury in sports, before any sport activities are indulged in in the gym.

A cordial invitation is extended to any and all parents of the students of the school to visit at any time. School will take up at 8:50 a. m. and be dismissed at 4 p. m.

Cattlemen To Visit Purebred Herds

More than 1,000 head of purebred Hereford cattle will be visited by Northwest cattlemen who attend the third annual Hereford tour to be held Friday and Saturday, September 9 and 10.

Herds of 19 outstanding Hereford breeders of Washington and Idaho will be visited during the two-day tour, which affords cattlemen the opportunity of seeing the improvement in herds as a result of the use of well bred sires and females.

The first day of the tour will end with the traditional steak dinner at Lewiston.

The itinerary for Friday, September 9, is as follows: University of Idaho, 7:30 a. m.; Washington State College, 9; Dr. F. A. Bryant, Pullman, 9:45; E. C. Ruchert, Pomeroy, 11; W. J. Houser, Pomeroy, 11:30. A lunch will be provided by Folmsbee and Green, Pomeroy, at 12:30 p. m., followed by an inspection of their herd.

Afternoon stops will include Ralph Baldwin, Pomeroy, 2:15; Lewis Whitmore, Pomeroy, 3; Hannas Brothers, Almota, 3:45, and Hollis Shelton, Almota, 4:20.

Five stops are scheduled for Saturday morning, September 10. They are Herman Nordby, Lewiston, 8; W. Platt, Lapwai, 9; Wittman Brothers, Culesac, 10; Enneking Brothers, Keuterville, 11:30, and Rudolph Schroeder, Keuterville, 12:15. Following lunch at Keuterville at 1 o'clock, those on the tour will visit Gehring Brothers, Keuterville, 2; Marion Weber, Fenn, 3; Charlie Davidson, Grangeville, 3:45, and Frank Bogner, Nezperce, 5.

"Did you hear my broadcast last night?"

"As a matter of fact, my radio broke down halfway through."

"Is that liable to happen often?"

"They don't guarantee it."

More Than 360 People Killed

The nation's holiday death toll mounted to 363 as millions jammed highways, trains and air lines, homebound bound from celebrating the double holidays.

Auto accidents claimed 268 lives and injured thousands. During the 1937 Labor day week-end violent deaths numbered 391, with auto accidents claiming 274.

Reports from 48 states and the District of Columbia showed 36 deaths from drowning, 16 suicides, nine homicides and 34 miscellaneous fatalities.

California led the list with 33 untimely deaths which included 20 in auto mishaps and eight suicides. New York came next with 19 auto fatalities and a total of 31 deaths.

Wheat Insurance Filing Extended

Farmers in Idaho have until November 30 to apply for wheat crop insurance policies which will assure them of having at least 50 to 75 per cent of an average crop to sell in 1939, according to John P. Mix, Moscow, state crop insurance supervisor, who this week announced the new dead-line for receipt of crop insurance applications in the county AAA offices.

The previous date for receipt of applications in Idaho was August 30, but because of generally late harvests the closing date has been extended in order that farmers may have every opportunity to fill out applications. The application forms can be obtained from county crop insurance representatives, or county AAA committees.

A grower can determine the approximate cost of wheat crop insurance for his particular time at the time his application is filled out. After the application has been checked in branch offices of the Federal Crop Insurance corporation, the farmer will receive a notice of the exact premium due. After the premium is paid the policy will be issued.

Motor Vehicle License Divided

August motor vehicle license collections were described as "good" by Deputy George Vennigerholz in the assessor's office Monday. Highway District No. 2 contributed the largest amount, \$920.16, and Potlatch and Potlatch-Harvard districts were next with \$374.75 and \$326.95 respectively.

The total collection by districts follows:

Highway No. 2	142.25
Highway No. 3	167.50
Highway No. 4	12.00
Juliaetta	2,596.73
Total	\$2,596.73

Weather Turns Cooler

Sunday saw the breaking up of the unseasonable hot weather in this section of the country, in fact, the temperature started to cool Saturday evening, and with the breaking of day the temperature rose a bit, but again fell off Sunday about noon, when a brisk breeze, bringing in a Columbia river dust storm, arrived. Sunday evening was quite cool, and the temperature has since remained that way.

Everyone likes our weather of today, generally referred to as the start of "Indian Summer."

Mule Or Elephant?

At a press conference at Washington last week F. D. R. said he did not care so much whether he rode into office on the proverbial democratic jackass or the republican elephant, just so long as they were "liberal," stating: "If there is a good liberal running on the republican ticket, I would not have the slightest objection to his selection. The good of the country rises above party."

And here we were of the opinion that there were no such animals as republicans, since the report had come out that they had all been crushed beneath the big democratic landslide. They should be closely questioned, just to make sure of their particular leanings.

Commercial Club Meeting

The regular monthly meeting of the Kendrick Commercial club will be held in Fraternal Temple next Monday night, September 12. Dinner will be served at 6:30 and all are requested to be there on time.

If you are interested on what is going on in this section of the country and what is being done by the Kendrick Commercial club, be there next Monday night. It does not matter whether you are a member or not.

A special feature of the meeting for next Monday will be a film put out by the Chrysler Corporation on "Safe Driving." Reports are that this film is very educational and entertaining. All are urged to attend, especially those who drive motor vehicles.

The teachers of the Kendrick Schools will be special guests of the club on that evening.

LOCAL F. F. A. BOYS TAKE IN WESTERN IDAHO FAIR

F. F. A. boys making the trip to Boise recently can all vouch that the Western Idaho Fair at Boise was a splendid success. "We saw some fine livestock, a display of up-to-date farm appliances, and a good number of other choice articles produced in the state," said Don Lyle, Smith-Hughes instructor in the Kendrick schools.

The state Future Farmers meeting gave the boys a chance to see and hear what has been going on in other chapters.

Mr. Grover, formerly Smith-Hughes man for Kendrick, carried off the honors with his boys this year. They placed first in the state F. F. A. public speaking contest and also first in the state livestock judging contest.

Latah County Fair

The Latah County Fair is rounding into shape and promises to offer the people of this and surrounding communities a very good fair, said Don Lyle in speaking of the coming event.

People from all over the county are invited to exhibit their choice produce, livestock, crops, hobbies, etc., and we as residents of the county should be interested in the fair because: (1) It stimulates interest in producing the best of everything; (2) It creates friendly competition among people of the county; (3) It advertises our community through the produce raised; (4) It shows us where some of the best livestock of the county can be obtained; (5) Fairs provide a public meeting of all the diversified interests of the community; (6) Through the exchange of ideas at a fair, people get a better insight in correct farming methods.

It may be hard to admit, but if we raise some fine livestock, grain or other produce, or invent some article of importance to us, we like to have other people know about it. That's partially the purpose of this fair.

"With your support we can do big things," said Mr. Lyle. "If you have any choice articles, produce, livestock, grains or anything you have made as a hobby, call Don Lyle and let's provide a space for it to be exhibited at the Latah County Fair, September 22, 23 and 24. It costs you nothing but transportation and feed. You have an opportunity to participate for premiums offered. Let's go!"

Carl Hund Visits Tokyo

A letter was received recently by Mrs. E. L. Pearson from her son, Carl Hund, from Tokyo, Japan, excerpts from which follow:

"The old Marblehead is docked at Yokohama and I am seeing the sights in Tokyo, which is only 18 miles distant. We were received with great smiles and bows from everyone. Scarcely anyone can speak English, which makes it very hard to get around and make oneself understood. I am staying at a swanky hotel (The Sanno) which furnishes you with bath robe and slippers. Tokyo contains only 200 square miles, in the city proper. I went around the Emperor's palace today (August 13) but a very little bit of it is to be seen because of the high wall surrounding it. All places of amusement close at 11 o'clock, but I sure am enjoying myself over here."

"We leave for Tsingto, China, in a few days. Will write again when the next mail leaves for the States."

"With best regards to all my old school pals and friends."

His present address is Carl M. Hund, 2nd Division, U. S. S. Marblehead, Tsingto, China.

Big Peaches

The McCreary family is in receipt of a box of mixed Hale and Elberta peaches from the ranch trees of Mr. and Mrs. Jake Berreman, living between Clarkston and Asotin on the upper road.

It took just 40 of the big peaches to fill the box, the lid of which was raised up seven cross-slats. The fruit was tree ripened and indeed delicious. Mr. and Mrs. Berreman can indeed be proud of their place.

B. C. Custer of Juliaetta is also entitled to "many thanks" for a fine lot of Siberian crabs. They, too, were just the thing and are duly appreciated.

Harefoot—Before we were married, my wife and I agreed that I should decide on all major matters and she would decide on all the minor ones.

Milkha!—How did that arrangement turn out?

Harefoot—So far no major things have come up.

GRAIN MARKET UNSETTLED — GOVT. WHEAT PURCHASES

Domestic grain markets were unsettled during the week ending September 2, according to the Weekly Grain Market Review of the U. S. Bureau of Agricultural Economics.

Purchases by the Federal Surplus Commodity Corporation were a strengthening influence in the wheat market and domestic prices were fairly well maintained despite sharp drops at Winnipeg and Liverpool. The 7c per bushel increase in the rate of federal loans on corn in store from the 1937 crop tended to offset the slackening export trade; but the market turned somewhat weaker.

Oats also weakened slightly but barley held steady with a good inquiry.

The general wheat situation continued weak. Prices at Winnipeg dropped to the lowest point since 1932 and the Liverpool market was at the lowest level since 1935. Liberal offerings from exporting countries under the recently adopted export programs were a weakening influence since demand was slow with importers generally waiting more settled market conditions before making important commitments.

Harvesting was nearing completion at the close of the week in the Canadian prairie provinces and trade estimates placed the spring wheat crop at around 341 million bushels. Marketings continued to increase and receipts at Winnipeg totaled 8,731 cars. The October future at that market declined about 4c while cash prices were down about 5c per bushel, with No. 3 Manitoba northern wheat quoted September 2 at 67 1/4c. At Liverpool No. 3 Manitoba northern was quoted at 75 1/4c, Argentine barusso at 78 1/4c, Australian wheat at 77 1/4c, Indian Karachi at 76 1/4c, United States Pacific Coast white wheat at 72c and Russian wheat at 66c per bushel. World shipments were moderate with about 3,250,000 bushels from the southern hemisphere and 2,500,000 bushels from Black Sea ports, mostly of Russian wheat.

Domestic wheat markets held relatively steady, influenced by the purchase program of the Federal Surplus Commodity Corporation. Spring wheat markets declined very slightly, reflecting the sharp drop in Canadian prices, but winter wheat in Pacific Coast markets was steady to slightly higher. Purchases by the corporation totaled 4,823,869 bushels from the inauguration of the program through September 2. Of this quantity, 3,945,806 bushels were from winter wheat areas and 878,063 bushels from Pacific northwest areas. Sales for export totaled 1,849,597 bushels, including 1,186,000 bushels for shipment from Gulf and Atlantic ports and 633,597 bushels from the Pacific Northwest. The purchase program was broadened to include flour. Authorization was granted to pay indemnities on exports of flour up to 5 million bushels. Indemnities will be announced from day to day and will be based on the differential between domestic and foreign market prices. The indemnity price on flour sales to the Philippines on September 2, was 30c per barrel.

Marketings of spring wheat continued large with a total of 3,312 cars received at Minneapolis and 2,628 cars at Duluth. Arrivals diminished somewhat toward the close of the week and the peak of the movement apparently had been reached. Premiums were reduced 1c to 2c per bushel with some slackening in milling inquiry.

Pacific Coast and Intermountain markets strengthened slightly along with those in the central west. At the close of the week Denver mills were bidding 59c per bushel FOB Colorado country points for No. 2 hard winter and No. 2 northern spring. Ogden mills were bidding 42c per bushel FOB Utah-Idaho common points for No. 2 soft white No. 2 hard winter and No. 2 northern spring, 44c for No. 2 hard white, 46c for No. 2 dark northern spring.

Marketings dropped off slightly in the Pacific Northwest but receipts at Puget Sound and Columbia river terminals totaled 1,392 cars including some on consignment, some for storage and some on previous sales. Export business was rather dull but about 2,000 tons were reported sold to Europe. Milling demand was not active but substantial quantities were purchased by the Federal Surplus Commodity Corporation and mostly resold to exporters. On Sept. 2 soft white was quoted at Portland at 64c, western white at 64c, western red at 63 1/4c, hard white (baart) at 65c and hard red winter at 64c per bushel, all basis No. 1 grade, sacked. At Seattle, western white was quoted at 62c, western red and hard winter at 58 1/4c and hard white (baart) at 67c. Dark northern spring from Montana was quoted at 87c per bushel.

Oats markets were steady at Portland. No. 2 white oats were quoted at the close of the week at \$1.17 1/2 per 100, sacked basis, while No. 2 gray oats remained nominal since prices at country points were reported materially higher than at terminal markets. At Seattle eastern Washington white oats were quoted at \$1.20 per 100, sacked.

Thirty-seven cars of oats, mostly white, were received at Portland during the week, a considerable portion of which went into storage and the balance to mixed feed manufacturers.

Horse And Buggy Still Useful
Contract for transporting five Fern Hill pupils 1 1/2 miles by wagon and auto to the Kendrick schools has been let to Henry Galloway by trustees of the Fern Hill district. County Superintendent Horace J. Woodworth was informed recently. Galloway's bid of \$94.50 a month was the most desirable of four submitted to the board, Woodworth said.

Galloway, according to the provisions of the contract, will drive a wagon over 3 1/2 miles of rough road to a car which will be parked on the comparatively smooth surface of the market road to Kendrick. There the wagon will be left until the children return in the car from school each evening. Trustees of the school are furnishing the wagon; Galloway the team and car, Woodworth said.—News-Review.

"In Old Chicago"
It was a booming, boisterous Chicago that greeted Molly O'Leary and her three sons the day after she buried her husband on the prairie, almost within sight of his goal, —Chicago. The city grows, as do the O'Leary boys until 1887 finds Jack a serious-minded young lawyer, Dion an aspiring political power, and Bob a promising youngster. It was a boisterous, raucous Chicago—raw, bold boom town of easy money and easy ways. The O'Leary brothers, who fought each other when fortune smiled—fighting with shoulder to shoulder when disaster threatened. The "Hub" in Chicago's infamous "Patch" had to be cleaned up, or wiped out—and it was Jack's job to help do it. The tempestuous love of hot-headed Dion O'Leary, Chicago's political boss, and the glamorous Belle Fawcett, its cabaret queen, tells a partial story of the strife going on within the borders of the ill-fated city when Mrs. O'Leary's cow kicked over the lantern that started the fire and wiped it completely out. The fire scene's are worth anyone's seeing. It's a wonderful picture.

"Only \$2.99 for Electric Cooking for 6 last month at Mrs. W. Jaynes, 502 Indiana, Coeur d'Alene, Idaho."

Mrs. Jaynes won the Montgomery-Ward range in Reddy's "Why I'd Change to Electric Cooking" contest with this statement: "I would change to Electric Cooking because it would completely revolutionize housework and cooking, and noticeably affect efficiency of my entire home. Electric Cooking utilizes cheaper foods attractively with valuable vitamins retained. Because Electric Cooking takes the 'drudge' out of kitchen drudgery it would make me a more amiable hostess."

Well, Folks—On Monday, September 12, Maryland votes on another "My Friend" issue, and we all wonder what the results will be. The mayor of Laidlaw's Ferry, where F. D. R. started his campaign of "purge" against Senator Tydings, refused to welcome the President, saying he was coming as a politician, and not as President of the United States of America. It looks to us like that's a sane point of view. F. D. R. has lost three out of four tries to land "My Friends" in the legislative branches at Washington, D. C. Perhaps, if he loses this try, he will not be so sure that "My Friends" is all that is needed to slide a "yes" man into office. We rather think the American people are again thinking for themselves.

The tattooed man connected with a circus died. The manager of the show telegraphed his wife as follows: "Your husband, John, died suddenly today. Advise as the disposition."

In a few hours the answer was received. It read, "His disposition was mighty ornery."

Short-sighted Lady (in grocery store): "Is that the head cheese over there?"

Clerk: "No, ma'am, that's one of his assistants."

It seems that the only time most people get car sickness is along about the first of the month when another installment comes due.

TEAKEAN GOSSIP

The weather is quite a bit cooler now, and makes folks afraid we will have frost soon.

A group of folks gathered at the school house Friday and Saturday and cleaned up both school houses and teacherages, just in time for the teachers to move in.

Rev. and Mrs. Dawson of Ahsahka visited at the Wm. Groseclose home Sunday afternoon.

Mrs. Anna Harless and Mrs. Ethel Groseclose helped Mrs. Don Miller can corn Monday.

Mr. and Mrs. Chas. Church of Ahasahka visited at the home of his sister, Mrs. Don Miller, Saturday.

Mrs. Wm. Groseclose and Carroll were Lewiston visitors last Thursday.

Mrs. Geo. Jones of Orofino helped her mother cook for threshers last week.

Mr. and Mrs. Claude Wilcox of Welppe have moved onto the Gus Harless place. They expect to farm it next year.

The High School bus started running Tuesday morning. It has been given a new coat of yellow paint.

Elwood Brock spent the week-end with his family.

Mr. and Mrs. Swen Fredericksen and little son Clinton moved to Orofino last Saturday. He has work at that place.

The members of the Evergreen Grange have employed a man to paint a curtain for the hall. It is a very pretty scene.

The schools began this week with Miss Phyllis Elvey of Lewiston at the north school and Miss Beatrice Curtis of Kendrick at the south school.

Chrystal Powell will live with her aunt, Mrs. Lucinda Kelley at Lewiston and attend high school at that place. Her sister, Gay, will stay at home with her mother and go by way of the bus to Southwick.

Carroll Groseclose is hauling the logs to build his house. He has had them cut and peeled for some time.

Young People's Meeting
Thirty-two young people, in cars driven by Don Lyle, Dr. McKeever, John Thompson and Rev. and Mrs.

Gray drove to Spalding Park Sunday evening. Some of the group enjoyed swimming at the beach. All then went to the park where they ate their lunch, following which a campfire meeting was held at the beach, with Oswald and Myra Kanik-keberg as the leaders. Oswald led the devotional period. Myra sang a solo and then gave a talk on "Labor Day." Everyone enjoyed eating watermelon around the campfire after the meeting.

The cabinet members met with Marie Havens Tuesday evening. At present the goals for the winter are: A banquet, which will be given by the leagues, will be held Friday, October 7, the proceeds to go toward a piano for the church basement; a meeting once a month on "Religious Life in Foreign Countries," and the sending of delegates to mid-winter institute. A piano player for the league will be elected next Sunday evening. After the meeting refreshments were served by Marie Havens. The leaders for next Sunday will be Evelyn Farrington and Lois De-bald.

Mystery Control Marvel of Radio

Most revolutionary discovery since radio came into being is the new Philco Mystery Control, the little box the lady is shown holding above. It can be carried into any part of the house or out on the grounds, yet with a flick of the finger on the dial stations can be changed on your radio, volume controlled, or programs tuned out, all without the use of a wire. Engineers, still marvelling at its mysterious powers, claim it will completely change radio and radio listening.
