Fair And Rodeo Dates

Many residents of this section of the country are wondering just what effect the clashing of the dates for the Moscow fair and the Lewiston Rodeo will have on the attendance at both places. Two days overlap, the Fair dates being September 22, 23 and 24, and the Lewiston Rodeo dates being September 23, 24 and

I.) and Ronald Jack of Most everyone is wondering why were united in marriage.

Rev. J. A. Hall of Leland read the dates overlap, since the Lewiston Round-Up dates are said to have been announced the last day of the Rodeo last year. We have a hunch the attendance at one of them will have to suffer, and since many were not in favor of the fair being supported by a tax levy in this county, we rather imagine that the fair will be the one to suffer.

It does seem like there was lots of time without having clashing of

Kendrick Commercial Club is wondering these days just how and where a violation of the game laws is reported to the proper authorities. Wednesday morning a reliable citizen of the Texas ridge section saw an out-of-county car, containing two men and a bird dog, stop about half way down the Texas ridge grade and pick up a Chinese pheasant. He secured the car's license number and reported the incident to Mr. Keene. Mr. Keene promptly attempted to

It May Be War In Europe But It's Peace In U.S. A

War clouds hang dark and heavy over Europe, and any little incident may touch off the powder keg across the ocean. If or when that explosion comes it will usher in the most terrible war the world has ever seen. Loss of life and of property will be terrible, and for what? The hope of economic gain! The thirst of men for power and riches — desires that have raged since time began, and which history records so clearly.

Hopes of economic gain form the basis of industry, of trade, of the purchaser as well as the seller. But with hopes of economic gain, two items must be considered: First-Will I get my money's worth? Second-How will it affect my neighbor, and will he, too, benefit? When you trade at home, the answer is "Yes" to both questions! You know the seller; you know that to remain in business he must give you your money's worth, for he must depend on "repeat" business. Assured of this fact, you also know that he pays taxes, even as you, to help keep up the roads and schools which benefit all. It doesn't matter whether you are buying goods or personal services - results are just the same.

Therefore, we say buy it at home, buy it in Kendrick — your home town and mine! Let's pull together, work together, boost together for the common good.

We are prompted to sponsor this message to the people of Kendrick and vicinity through our interest in community welfare.

Well, Folks-Now that Senator Millard E. Tydings of Maryland has handed Mr. Roosevelt and another one of his "Yes" men a sound threshing, the idea should soon get over that the American people are learing to think for themselves — they always have until the past few years—and they will again! This is not a foreign country, the American people have always been lovers of liberty — they always will be.

"My wife has been nursing a grouch all week." "Been laid up, have you?"

The modern girl doesn't seem to be afraid of anything except possibly a stack of dirty dishes.

Bride: "Oh, dear! I took such a lot of trouble to arrange the salad daintly and nobody took a bit of

Hubby: "Salad, darling? We all thought it was a new style of arranging the flowers."
