To our knowledge these are the ever offered here.

WHEAT MARKETS LOWER DUE FOREIGN INFLUENCE

Domestic wheat markets turned weaker during the last week in October, despite smaller offerings and continued unfavorable conditions for winter wheat, states the Weekly Grain Market Review of the Bureau of Agricultural Economics. Declines in foreign markets and lack of export demand for North American wheat were the dominant weakening influences. Oats and barley also weakened.

Slow demand from European importing areas, together with heavy stocks afloat on ocean passage and favorable prospects for the new Argentine crop were weakening influences in the general wheat situation. Prices at Liverpool dropepd 3c to 4c per bushel. This decline was reflected at Winnipeg and other exporting markets. The new crop in Australia still suffered from drought. Rains were beneficial in sections of New South Wales and southern and western Australia. Cutting began during the week. Excellent weather conditions prevailed in Argentina and the new crop made good progress with harvesting expected to start about the middle of November. Southern hemisphere shipments were moderately large and totaled about 3,250,000 bushels. Black Sea shipments were also of good volume and totaled slightly over 2,500,000 bushels, of which over Harley Perryman, Kenneth and 1,000,000 were from Russia. The Russian surplus available for export, however, is now small, according to trade reports.

French and Danubian countries continued to offer wheat freely and Rumanian wheat was quoted at Liverpool at 50c and French wheat at 54%c per bushel. No United States winter wheat was quoted but white wheat from the Pacific Coast was offered at 70c per bushel. Australian wheat sold at 721/4c and No. 3 Canadian Manitoba at the same price. New Argentine wheat was offered by shippers at 71%c per bushel. Stocks of wheat on ocean passage totaled nearly 30 million. bushels, and these, together with heavy purchases during the unsettled political situation, have tended to restrict current export trade. Canadian markets declined about 31/2c per bushel as current marketings continued large and export sales slackened. At the close of the week No. 3 northern was quoted at Winnipeg at 521/2c per bushel and No. 2 Canadian western durum at 42½c

per bushel. Pacific Northwest wheat markets were 1½c to 3½c per bushel lower on various classes as compared with the previous week. Demand was light from both exporters and millers and current market offerings were easily sufficient to supply their needs. Flour business was reported dull. Principal trading during the period was purchases by the Surplus Commodities Corporation in this area. Flour sales under the indemnity plan were reported at 3,-382 barrels to the Philippines, 12,-750 barrels to China and 5,725 barrels under the general indemnity. Indemnity payments at the close of the period were 25c to the Philippines, 80c to China and 50c per barrel, general. On October 28, soft white was quoted at Portland at 64½c, western white at 63½c, western red at 61%c, ordinary red winter at 61c and ordinary hard white (baart) at 64%c per bushel, all basis No. 1 grade, sacked. Additional rains during the period were reported of benefit in placing the soil in eastern Oregon and Washington producing areas in better condition for fall plowing and seeding. At Seattle western white was quoted at the close of the period at 61c, western red at 60c, hard winter at 59c and hard white (baart) at 63c.

At Kansas City cash hard and soft red winter wheat reflected the decline in futures and closed 1c to 1½c per bushel lower for the week. Arrivals at that market increased to 901 cars and total receipts at nine

The Senior Ball

The Senior Ball, given in the big High School gymnasium last Friday evening, was not what could be called a financial success, but it was a definite success socially. The big building was beautifuly decorated as an autumn scene, evergreen suffering with a lung disease. boughs completely covered the lower part of the walls, these being interwoven with beautiflly colored maple leaves, and a grape arbor scene was used as stage decoration.

Hundreds of balloons adorned the ceiling and walls, and during the dance huge paper bags of gay colors, with bright balloons were opened, the falling balloons causing a great now operates it. deal of fun, excitment and noise.

Programs, in the Hallowe'en motiff, depicting a big owl, were given each couple at the door. The music and floor were both fine, and it is indeed to be regretted that more people did not avail themselves of this fine social opportunity.

The Seniors put hours of work and many dollars of good money Mrs. Katherine Dahl of Deary. into this effort. Perhaps, when peothe attendance will increase.

Wildlife Bill Favored

"Voters will favor the Idaho nonpolitical game commission bill by majorities ranging from 2 to 1 to as high as 10 to 1 in various counties," Dan McGrath, field secretary of the Idaho Wildlife federation, predicted upon his return from a recent tour of the state.

"This is the first time Idaho voters have had an opportunity to vote on their own legislation," McGrath said. "October proposals appearing on ballots were placed there by the legislature. The game commission bill is the initial attempt of Idahoans to secure a bill proposed by the people themselves."

"People are beginning to realize," he continued, "that since game commissions, similar to the one to be voted upon next Tuesday have al-Idaho should join the list of progressive states. Uniform game laws are as essential as uniform educational laws or uniform highway laws. Under a commission, uniformity will be assured, yet control will remain with the state. To take the game department out of politics, everyone must remember to vote the game bill first."

Hallowe'en Party

The Ladies Aid Hallowe'en party, given in the church basement Monday afternoon, was the scene of much hilarity.

Amid gay decorations of pu kins, corn stalks and other Hallowe'en items, games were played, after which refreshments were

First prize for the best costume went to Mrs. Ella Benscoter, second to Mrs. Edgar Long.

Hunting In Latah County

The season for hunting Hungarian and Chinese pheasants opened Wednesday morning, and many nimrods went afield, some bringing in birds while others did not have such good luck. The season is open in Latah county during the month of November on Wednesdays, Fridays and Sundays and legal holidays. The deer season is also open in Latan county during the month of November.

J. J. PICKERD, 46, TROY RESIDENT, PASSES AWAY

John J. Pickerd, 46, native of Palouse, died Monday at the U.S. Veteran's hospital in Walla Walla, where he was taken on Thursday,

Son of Mrs. J. Pickerd and the late John J. Pickerd, Sr., he was born at Palouse, September 25, 1892. More than 20 years ago he married Zella Hall, daughter of Mr. and Mrs. W. W. Hall of Moscow, and was associated with his mother in the undertaking business at Troy. He suspended from the ceiling and filled and his mother sold their business some time ago, to Earl Alden, who

> Mr. Pickerd served during the World War in France, and is a member of the Moscow V. F. W. and the Troy Odd Fellow lodge.

He is survived by his widow, four sons and two daughters, Joseph, Chester, Eggert, Eugene, May and Darlene, all at the home in Troy; his mother, Palouse, and a sister,

The body was brought to Mosple realize that dances of this kind cow by the Home Funeral parlors are not put on as a money-making Tuesday. There was a short service event, but rather as a social one, at the home in Troy Wednesday at 10 a. m. and at 1:30 p. m. funeral services were held at the Palouse Methodist church with the Rev. John L. Rentfro in charge, Interment was at Palouse.

> Mr. Pickerd was well and favorably known in Kendrick, having operated funeral parlors here for some years, and it is with real regret that residents will learn of his passing.

Return From Hunt

Walter Bigham and Tom Long returned Sunday from a week's hunting trip in the Sherman Saddle section, bringing out with them an elk and two big buck deer.

They report fine weather and a jolly good time.

Evangelist Coming To Kendrick

An old-time revival meeting opens at the Full Gospel church Nov. 6. ready proven successful in 37 states, Oresta Domber of Denver, Colo., will be in charge. Mrs. Domber, for- est, with Lewiston as their headmerly a professional dancer in quarters, will present a 45-minute Hollywood and elsewhere, has a real sound moving picture show, "Trees message. The people of Kendrick, are indeed privileged to have this Kendrick schools on Wednesday of fine speaker in their midst. The Evangelist held a successful campaign at the Prayer League Tab- film was taken in the areas of ernacle in Lewiston last June.

Returns From Kentucky

Chas. Cox returned Wednesday morning of last week from a visit with friends and relatives at Fin- ficer of the Potlatch Forests and castle, Kentucky, close to Winchester, visiting there nearly a month. Mr. Cox drove just over 3,500 minels in four days, leaving Fincastle at 2:30 Saturday afternnoon. He brought back with him a gunny sack full of real sweet potatoes, bringing three into the Gazette office, the larger of which weighed 24 pounds and the smallest 14 pounds.

Bear Ridge Farmers To Meet

Farmers of the Bear ridge community are cordially invited to attend a meeting at the Community Hall this Friday evening, Nev. 4, at 7 o'clock, for the purpose of organizing an evening school for interested farmers of the community.

Farmers are asked to bring their problems to this meeting and an effort will be made to solve them to the best advantage. Don Lyle, Smith-Hughes instructor of the fect that R. B. Parks has purchased Kendrick Schools, will be in charge of the meeting.

Death of Mrs. Walter Clark

This and the Juliaetta section was shocked early Wednesday morning when it was learned that Mrs. Walter Clark of Juliaetta had passed away very suddenly that morning from heart failure, while getting breakfast.

Details are not yet available, but full particulars will be given next week.

Parents Of Daughter

Mr. and Mrs. Roy Jump are the proud parents of an eight pound baby daughter, which was born to them Sunday morning, October 30. Mother and babe are at the home of her parents, Mr. and Mrs. Harold Thomas. Both are doing nicely.

"The Buccaneer"

Frederic March plays the part of the swashbuckling pirate king, Jean Lafitte, the man whose devotion to the United States helped win the war of 1812, in "The Bucaneer" which will be the attraction at the Kendrick Theatre this coming Friday and Saturday nights. The story is built around the amazing career of Jean Lafitte, pirate king, who once held the entire gulf coast in his grasp. It was Lafitte who spurned the British offer to assist them in taking New Orleans in 1814 and helped Andrew Jackson defeat the redcoats at the Louisiana city.

The picture is not only of an historical nature, but is very entertaining, as it has a love story as well as that of tragedy.

WHEAT MARKETS LOWER -DUE FOREIGN INFLUENCE

winter wheat points amounted to 2,317 cars against 2,366 cars for the previous week and 1,808 cars a year ago. Demand for open market offerings ranged from fair to good with mills, shippers and storage concerns in the market, and premiums were somewhat firmer. No. 2 hard winter was quoted at Kansis City, Oct. 28, at 64c to 72c. Red wheat moved without difficulty at slightly firmer premiums with shippers and millers in the market. No. 2 red was nominally quoted at 63c to 65c per bushel, with No. 3 red at 61c.

At Minneapolis premiums on cash wheat held steady during the period with firmness quite pronounced. Receipts slackened further and local demand wheat was again supplemented by renewed inquiry from eastern mills for lake shipment before the close of navigation. Minneapolis arrivals of all wheat totaled only 618 cars, while Duluth unloaded 705 cars.

The San Francisco wheat market turned somewhat weaker during the week ended October 28, largely influenced by declines in northern and eastern markets and slower local demand. Despite only moderate offerings prices were mostly 21/2c per 100 lower than a week ago. Slow flour business made for limited interest in stronger wheats and Bay region mills continued to take only small lots to complete milling mix-

Pacific Northwest barley markets held fairly steady during the period on both feeding and malting types and prices at the close of the week ending October 27, were about unchanged from the previous week. Demand at Portland for feeding types was only fair, with five carlots received at this market during the period, but movement of feed barley into the Willamette Valley from other areas continued fairly active. On October 27, No. 2 bright western barley weighing 45 pounds was quoted at Portland at \$1.05 per 100, sacked basis.

Pacific Northwest oats markets held generally steady and unchanged. Demand continued fairly active for feeding quality oats for shipment to Willamette valley points, with current movement into that area largely from eastern Washington. Only four carlots of oats were received at Portland during the period, mostly white oats going to local mixers. No. 2 white oats weighing 38 pounds were quoted at Portland October 27, at \$1.30 per 100, sacked. Gray oats continued only nominal at Portland with pracically no movement of that class

and daughters visited at the Russell and Glen Betts home Thursday. Mrs. Oscar Laurence returned home Friday evening, after spending several days in Lewiston with her daughter, Catherine, who is improving nicely now.

Mr. and Mrs. N. E. Ware spent Friday with their daughter, Mrs. Carl Finke and family.

Mr. and Mrs. W. A. Cowger and sons Frank and Ernest left Wednesday morning on a duck hunt in southern Idaho, also to visit relatives and friends.

The school children enjoyed a Hallowe'en party Friday afternoon.

Odd Way Advertises Town

A novel method of obtaining funds to advertise their town has been adopted by the people of Barmouth, England. Scores of woman canvassers are making a house-to-house canvass seeking donations from householders. That the publicity compaign is getting results is indicated by the fact that in one day a hundred applications for guide books of the town were received.

Drawing a Line

As a matter of practice we know that a line can be drawn, as we make use of drawn lines all through our lifetime. As a matter of mathematical theory a line has length, but no breadth or thickness, and from that point of view it is impossible to draw a line without giving it some breadth or thickness.

PHONE 713

NEW STAR SHOWS UP SUN AS DIM CANDLE

Supernova Found to Be 250 Million Times Brighter.

Lick Observatory, Mount Hamil ton, Calif.-Astronomers have discovered a supernova, or "exploding star," which may mean the creation of a new planetary system.

Dr. F. Zwicky of the California Institute of Technology first photographed the celestial phenomenon August 28. Since then the awe-inspiring manifestation has been the subject of repeated observations at the Lick observatory.

The supernova has received the designation "N. G. C. 4182," which places it outside the stellar system in which the earth has its place.

The supernova at its maximum apparent brightness was only about one-sixth of that of the faintest star visible to the eye. It had an esti-mated brilliance of 250,000,000 times that of the sun, but its radiance was decreased because of its great distance from the earth, estimated at 3,000,000 light years.

It is difficult to conceive of the brightness of this new star. A supernova was found in the center of the Andromeda Nebula in 1885.

That particular supernova was estimated to be 20,000 times brighter than the sun. Placed in our own stellar system, the 1885 star from a distance of nine light years would appear 100 times brighter than a full moon.

If it could be put in the place of the sun it would give 100,000,000 times the light of that sphere, and in a space of one month at maximum brightness it would radiate as much light as our sun does in 10,000,000 years.

The supernova now under observation has an estimated intrinsic brightness of 250,000,000 times that

The spectrum of the new supernova can be photographed with a spectrograph. This is the first time that such a phenomenon has been photographed.

The cause of the outburst of a nova is not known definitely, but one noted astronomer, Stromberg, suggests the possibility that it is the making of a new planetary system. No known supernova has appeared in the earth's stellar system.

Tree's Slow Growth

Dwarf willows that struggle to survive in Greenland sometimes grow less than an inch in diameter in the course of 50 years.

Trailer Homes Increase Tenfold in Two Years

Denver, Colo.-The automobile trailer soon may carry new relief problems for the nation in humbler editions than the present de luxe models, according to Earl M. Kouns, director of the state welfare department.

Kouns has urged county welfare workers to study trends in the "growth" of trailer migration on the theory that the trailers may soon be a definite factor in adding to the Colorado relief problem.

"America is taking to trailers, and while most of those listed in surveys at the present time are owned by vacationers who are in the higher economic bracket, the indigent or near indigent soon may be on trailer wheels," Kouns said.

He cited statistics showing the increase in the number of trailers in the nation from 20,000 in 1935 to more than 200,000 this year.

"It is estimated that a million persons are living in trailers the year round. Two expert observers have estimated that within twenty years the trailer will be housing Incumbent from 30 to 50 per cent of the population of the country.

While indigent trailer families are not a problem to Colorado at present, Kouns said there is a definite threat that they may become a serious problem in the future unless care is exerted in guarding against a wholesale influx.

Erosion Evil Here

The evil effects of soil erosion are not a threat of the future but are already in evidence on tens of thousands of farms in this country, the United States Department of Agriculture says. In the South, the North, and the Middle West, many farmers are working land which has been made poor by erosion. Much of it is good forest land or land which could be used for forestry. Although millions of acres have been stripped of forests, much of the land was not suitable for farming.

But There's the Press Agent These wild animal pictures they invariably bring back from the jungle look as if the chief danger incurred were that of having a lion walk by and spoil a perfectly good lens by licking it, just out of affection .- Pathfinder Magazine.

Chevrolet Takes Big Strides Ahead for 1939

New Acro-stream styled bodies combine with major mechanical improvements to provide new beauty, safety, comfort and operating ease, in the 1939 Chevrolets, presented October 22, and featured at the big auto shows this month. The new models are offered on two chassis, the Master De Luxe and the Master 85, both of which are powered

with Chevrolet's famous six-cylinder valve-in-head engine. A new vacuum gear shift mechanism with steering column control, optional on all models at small extra cost, does 80 per cent of the work of shifting gears. The Master De Luxe series features a new riding system, in which a brand new Chevrolet Knee-Action mechanism is scientifically co-ordinated with new ride stabilizer and double-acting hydraulic shock absorbers to furnish a smooth, soft ride.

Central picture is the new Master De Luxe Sport Sedan. Upper right: front end view of the 1939 car; Upper left: Master De Luxe front suspension unit, complete; Lower left: accessibility and finger-tip ease of operation are two features of Chevrolet's vacuum gear shift with steering column control; Lower right: As the handbrake on the interpretation of the re-located under the cowl, front compartment floor is cleared in cars with vacuum gear shift.

The John Glenn and Bruce Glenn families were Sunday dinner guests I am making the assertion that my office is the most economically managed Auditor's office in the state of counties of the same

Below are quotations from the last two audit reports made by two different certified public accountants.

1936

"We call attention to the fact that our organization has audited the books of this county for many years and our reports now on file constitute a financial history of the county's affairs since 1909. From the very earliest years we have repeated the statement, that in our opinion, in matters of accounting, general management, and financial condition, Latah County stands at the top of the list in Idaho. We are glad to repeat that statement at this time." 1937

"During the year of 1937 in the matter of accounting, general management and general financial condition, Latah county is equal

to any county in the state."

If my record in the past has met with your approval, and you wish a continuation of the same high standard of economy and efficiency, I am asking for your support in the coming election.

HAROLD THOMAS, Editor

EDITORIAL

Well, Folks — Next Tuesday is election day, and we hope you all come out and vote — an of course vote Republican. We not in Wednesday's Lewiston Tribune that some of the Democratic campaign literature has "backfired" and is now buzzing about the ears of Ben Davis, their chief "literature issuer." It seems the firm of accountants who made the highway audit didn't like the way portions of the report were deleated and the rest used for literature. You'll find it on the front page, lower right hand cor-ner of Wednesday's Lewiston Tribune. It really makes fine read-

But really, no matter what ticket you vote is not a part of the creamery business - and we mean just that. Cream is cash with us. Bring us a can and take home the cash. We return a steam

sterilized can-ready for instant
