PLUM XXXXIX

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, FEBRUARY 9, 1939

NO. 6

## WHAT HAPPENED HERE 20 YEARS AGO THIS WEEK

The front page of the Gazette, dated February 7, 1919, was primarily filled with good roads and highway district news. One item, headed by a two-column headline, "Enthusiastic Road Meeting Banquet Served to Large Group of Good Roads Boosters in Kendrick Hotel." Two columns were devoted to a report of the meeting, object of which was to improve roads between Kendrick and Juliaetta. Committees were appointed and a subscription paper passed and placed thereon. There were, in addition to some of the county commissioners, a number of people from the ridge section, American Big Bear, and others. This meeting was held on Friday evening and another was held on Saturday evening at Juliaetta to bring about rebuilding of the Juliaetta-Ridge road. Walter Clark offered to donate \$500 for this road, his brother, Columbus, then a county commissioner, "cannot be outdone by my brother, I too, will give \$500 to the Fix Ridge road." A subscription paper was then started for Juliaetta-Kendrick road and was liberally signed.

Another interesting letter from a Long from Karlich, Germany, appeared in this issue of the Gazette, in which he said, in part: "I arrived here Sunday and am sight of the Rhine river at last. There are almost 18 kilometers of road. Of course we stopped different places for a few days. I saw some rough looking mtnry and cloudy weather. The people are very nice to us. We have good place to live at present. Out of us are occupying what is used to be a banquet hall, something of the sort. We have few licks and coke to burn. Yesterday was a white storm, but not very cold. We had a concert in the morning and a good dinner. I haven't the faintest idea when we will be home. I know we are there when the 'lands' are there."

W. E. Walker elected mayor: At a meeting of the Village Board, held on Saturday night, the resignation of Mayor Don and Ray G. Peterson was accepted. N. E. Walker elected to fill the place.

At a good roads meeting held on Saturday afternoon at Arrow Junction, preliminary work was done for the formation of a good roads district which will include practically all the land on the ridge. Contentious objections were in the main and the sentiment was much in favor of the district when a petition was presented for signers of property owners present. Practically every land owner in the district later signed the petition.

Big Bear Ridge—The good road meeting held at the Taney school Saturday afternoon was well attended. Encouraging reports are being received regarding future plans for good roads. Mr. and Mrs. Willard Schoeffler received a letter from their son, Otis, who is in Virginia, stating he would soon be leaving on his trip overseas. Private Herbert Clemenhagen returned home today from Camp Dodge, Iowa, where he was mustered out of service.

Juliaetta News Item: The main road in Juliaetta is the highway to Kendrick and everybody is interested in this road as they are putting the cash—and that is what will count.

Mrs. George Leith has a way of keeping cabbage fresh and clean all winter. All the outside leaves are removed and the cabbage wrapped tightly in several thicknesses of newspaper. They are then placed in the cellar and will keep fresh for a long time.

W. F. Albright came up from his home near Arrow Junction last Saturday carrying several bunches of pussy willows. It seemed rather like the season, but they were in bud.

Cameron Item—Word has been received from the hospital at Moscow that a son arrived January 31, for Mr. and Mrs. Frank Wilken. Frank went up to visit the young man last week.

Mrs. Pearson III  
Mrs. Elwood Pearson is again confined to her home by illness, the after-effects of a severe case of influenza.

## Commercial Club Meeting

The regular monthly meeting of the Kendrick Commercial club will be held in the banquet room of Fraternal Temple at 6:30 p. m., Monday, February 13. Dinner will be served promptly, and you are urged to be on time.

A number of important road reports as well as other matters are to come before the club and all members are urged to be present. Remember, you are welcome whether you are a member or not. If you have some matter you believe should come to the attention of the club, attend.

There will be three sound films that were shown at the meeting of the Wild Life association at Moscow last week and there will also be a 45-minute sound picture, "Story of the Jungle," all of which are very interesting.

The pictures will start about 7:00 p. m. Everyone is invited.

Mr. Humphreys received this word in a telegram about 4:00 o'clock yesterday afternoon, just before leaving to attend the Troy meeting.

We've been hoping for this word for years. It makes us all mighty happy.

"Mr. Oppenborn was knocked down and his left leg broken in three places just above the ankle. He has the sympathy of all in the unfortunate affair."

## KENDRICK CINCHES FIRST PLACE IN VALLEY PLAY

The Kendrick High School Tigers, by virtue of their 37-18 win over Culesac last Friday evening, clinched first place in the Valley conference standing. They have as yet one game to play, Genesee at Genesee, this coming Friday evening.

This game is also the last one of the season for Genesee preceding the sub-district tournament here next week—February 14-16-18.

The standing of the conference teams are:

	W.	L.	Pct.
Kendrick	8	1	.889
Genesee	6	3	.667
Culesac	4	5	.444
Lapwai	4	5	.444
Southwick	3	6	.333
Juliaetta	2	7	.222

Should Kendrick lose to Genesee Friday evening, the percentage standing of the two teams would change, but Kendrick could not be rooted from first place in the conference.

Just who the two teams outside of Kendrick and Genesee, at the tournament will be cannot be known until Saturday morning—but local dopsters have the following games laid out for the tournament: Feb. 14, first game—Kendrick vs. Southwick; second game, Lapwai vs. Genesee. Feb. 16, Kendrick vs. Genesee; second game, Lapwai vs. Southwick. Tournament to end. However, it is to be remembered that this is but street talk, and that the dope bucket could easily be upset.

Big crowds are expected at the tournament and every preparation is being made to handle them. This year, as last, should the gym become full before the start of a game, the doors will be closed, as spectators cannot crowd the edges of the playing floor.

## Scouts Will Have Busy Season

On Monday, January 30, Kendrick was favored with a visit of the Inland Empire Scout executive, Herbert West. Mr. West outlined some of the outstanding Scout events to happen in the next few months.

The first thing of major importance will be the summer camp for Scouts at Camp Laird. This is something for every Scout to look forward to and promises to be a real treat for the boys. More scouting is learned by observation in a week than in two months out of camp.

To make it possible for Scouts to attend this camp they buy thrift stamps. When \$6 worth of them have been purchased, the Scout is allowed an enjoyable week at Camp Laird. If the boy finds he is unable to raise enough money, the stamps he has left are taken back at their face value.

Last Tuesday Scout Master Blewett took the Scouts to the annual Scout Court of Honor at Lewiston. All of them enjoy seeing what their neighbors are doing.

On April 1 the annual Scout circus is to be held in the high school auditorium in Lewiston. Scout troops from many sections will be represented at this circus. The Kendrick boys will take part in this event.

Next Sunday, February 12, has been set aside as Scout Sunday. Rev. Gray is giving special consideration to the Scouts in his sermon and it is hoped that every red-blooded member will be at the church at 10:45 to attend the services in a group.

Let's go Scouts!

## Idaho Freight Rates Argued

W. A. Bisque of Washington, D. C., interstate commerce commission examiner, heard arguments against an order of the Idaho Public Utilities commission denying railroads a 15 per cent freight rate increase on all intrastate shipments.

"The increase, ranging from 2 to 7 cents a pound would apply to dry beans and peas shipped out of Idaho, and would mean an additional charge of \$90,000 to \$100,000 annually against Idaho shippers," Carl DeLong, Boise, told the examiner.

## Geo. Leith Improving

Latest word from Geo. Leith, in St. Joseph's hospital, Lewiston, is to the effect that he is making progress toward recovery, though of necessity slow, due to the severe shock and bruising received in his long fall in the Kendrick gym.

Mr. Leith's left arm, broken in two places just above the wrist, was set last Friday, and is healing as well as could be expected, although very painful, since an operation was necessary to set the bones.

## Weather Freakish

The weather the past five days has been more like March than February. Down here in the canyon we have had (since last Thursday) some rather snappy weather, snow, wind and rain. Sunday was quite warm and the brilliant sunshine whittled our snow down to about an inch—leaving roads not covered with snow—

with about an inch-deep coating of slime. On top the hills the snow is reported steadily deepening—and on Monday morning Claude Craig reported about two feet near his home. It was said to be drifting badly in some sections.

## FARM ACCOUNTS HELP ADD TO YEARLY INCOME

Farm families in Latah county who are keeping careful inventories, budgets and accounts in cooperation with FSA are adding thousands of dollars to their incomes each year through carefully planning their expenditures and being able to select the farm enterprises that are proved most profitable, says the supervisor, Farm Security administration.

A family keeping current records knows at all times its exact financial status. Comparison with the budgets set up at the beginning of the year for both the farm and home quickly show where each dollar can be spent to the greatest advantage. This insures that every cent is fully utilized and the income is spent where it will be of greatest benefit.

Where no budgets or accounts are available unwise expenditures often make it impossible to buy needed clothing for the children or other necessities that could have been purchased with more careful planning. Records also encourage a "pay as you go" policy and helps avoid getting so heavily in debt that the security of the farm and home is jeopardized. This not only results in substantial savings in interest on indebtedness but is the first step toward financial independence.

Summary and analysis of accounts at the end of the operating year are indispensable in planning the operations for the coming year. As so many factors enter into determining which farm enterprises are paying a profit and which are operating at a loss, complete accounts are the only accurate way of selecting the crop or livestock programs that are most likely to give substantial returns in the future.

A quick check of the inventory enables the farmer to accurately estimate the replacements and new operating goods he will need and budget his income accordingly. In this way, expenditures for operating goods can always be anticipated and plans made accordingly.

## Gym. Balcony O. K'd by Engineers

The balcony recently constructed in the Kendrick Gym., has been inspected by J. H. Cairns and Roy Jump, local engineers, and has been given approval as being safe for many times the load which can be gotten onto the structure. These gentlemen took the measurements and figured the stress, etc., on the various members supporting the balcony and after figuring it out, the University of Idaho engineering department verified the results Mr. Cairns and Mr. Jump had found.

We are glad to announce that this structure is perfectly safe and has been approved, since it will take care of a part of the large crowds expected next week at the Sub-District tournament.

## Local Survey Crew Reduced

The local survey crew, which has been functioning here for the past five or more years, and normally consisting of about six men, has been reduced to two—Jim Cairns and Roy Jump. However, it is expected other members of the crew will again be on the job as soon as work is begun on the Arrow-Juliaetta road, the right-of-way for which has not as yet been procured by the Nez Perce county commissioners through the Indian land.

## Mrs. Ramey Improving Rapidly

Word from Mrs. Roy Ramey, at a Colfax hospital, where she is recovering from a major operation, is to the effect that she is recovering very nicely, and it is hoped to be able to bring her home some time next week.

## Ill With Flu

C. A. Biddison is confined to his home by a severe case of flu, having been laid-up for more than 10 days.

## WHEAT MARKET LOWER AS FOREIGN SHIPMENTS GROW

Wheat markets declined slightly during the first week in February, influenced slightly by some improvement in prospects for the domestic crop and lower prices at Liverpool, resulting from larger Argentine shipments and a somewhat more settled political situation in Europe, states the Bureau of Agricultural Economics in the Weekly Grain Market Review. Feed grains were also weak and slightly lower with a continued slow demand despite wintry weather in the more northern feeding areas. Export trade was negligible and was a further weakening influence.

World wheat markets turned somewhat weaker early in February, reflecting principally increased shipments from Argentina and a less tense political situation in Europe. The export movement of Argentine wheat has been slow in starting this season and shipments to date are practically the same as last season, despite a surplus estimated at nearly three times the 1938 exports. Shipments during the week increased to over 3,750,000 bushels. Australian shipments were slightly less than two million and Black Sea shipments, including some Russian wheat, over 1,500,000 bushels. All stocks on ocean passage increased to 35,600,000 bushels. With larger supplies in immediate prospect, the Liverpool market turned somewhat easier and prices on foreign wheat declined. At the close of the week U. S. No. 1 dark hard winter was quoted at 68½c, No. 1 hard winter at 66c and No. 2 dark hard at 67c.

Prospects for the 1939 crop were slightly improved in some areas. The Indian acreage is officially estimated at 32,292,000 acres which is about one and one-half per cent less than the five-year average. The winter wheat crop in France is estimated at 12,249,000 acres against 12,332,000 in 1938.

Cash wheat prices in the Pacific Northwest were mostly about ¼c per bushel lower for the week along with futures quotations. At the close of the period, cash wheat quotations at Portland were 66½c per bushel for soft and western white, 65½c for western red, 65c for hard red winter and 67c per bushel for hard white (baart).

Wheat receipts at Puget Sound and Columbia river terminals during the week totaled 1,189 cars, representing heavier shipments on recent FSCC purchases to fill export needs. Mill demand for cash wheat remained only moderate with current offerings reported greatly sufficient for their needs. Growers, however, were not pressing remaining supplies on the market at this time. Trade reports indicated sale of around 1,000 tons of wheat to California early in the period. Flour indemnity payments at the close of the period for export were 70c to the Philippines, 75c general from Pacific coast ports and 85c per barrel to China.

Pacific Northwest crop prospects continued generally good according to trade reports, although no snow cover was reported in some important producing areas, although no damage has been reported as yet, with mild weather generally prevailing over the Northwest.

The San Francisco wheat market turned somewhat weaker during the week, chiefly influenced by declines in other markets and improved crop prospects.

The Kansas City cash market reflected the easier tone in futures and with irregular losses of ¼c to 1c per bushel in premiums, finished the week 1c to 1½c per bushel lower.

At Minneapolis premiums on cash wheat held barely steady during the past week, with the undertone of the intermediate and low grade lots inclined to be slightly weaker. Receipts of all classes totaled 673 cars at Minneapolis while Duluth unloaded 128 cars. Domestic flour demand was dull and mill demand for cash wheat slow.

Pacific Northwestern barley markets were fully steady to slightly firmer during the past week with good demand for current light offerings. Prices ranged from unchanged to slightly firmer compared with a week ago and at the close of the period No. 2 best western barley weighing 45 pounds was quoted at Portland at \$1.17½ to \$1.20 per 100, sacked, while eastern Washington white barley was quoted at Seattle at \$1.20 per 100, sacked.

### WHAT THE STUDENTS THINK OF THEIR SCHOOL EDITORS

Tuesday afternoon your editors tried their very best to be excused from writing any school notes this week—because there just weren't any. "No one would give us anything. Mr. Lyle stated vaguely that he would try to "dig up something and send it down tomorrow," but whether he did that or not, we do not know. Well, to get on with the story: Mr. McCreary said: "What is the Kendrick Gazette without school notes?" Not exactly those words, but practically the same meaning. So we took it upon ourselves to try to "manufacture" some news. Did any of you ever try to do that? Really, it's terribly hard to do. But here's what we did:

At a gathering of some of the young people of our school, we decided to interview some of them. We asked the question (quote): "What would the Kendrick Gazette be without school notes, or, in other words, "what do you think of the school notes?" (unquote). Here are some of the answers: (others were not fit to be printed).

Barbara Long: sniffs and says: "It's okay if my name's in them." She's just a publicity hound, anyway.

Ted Weyen: with a broad smile: "The news ain't so hot, but the editors are honeys." (Thanks, Ted, but I bet he tells that to all the girls.)

Myra Kanikkeberg: "No good."

Chet Vincent: "It's okay."

Frank Homer Rider, Jr.: Confidentially, it stinks."

Myrtle Schmidt: "I'm not saying."

Arlene Deobald: "Oh, so you are wondering, too?" (Nice girl, Arlene.)

John Thompson: "Lousy."

Emy Lou Vincent: "I like it. It's nice." There is a girl who really appreciates good talent.

(There was much more in like vein for which we did not have room.)

"Alexander's Ragtime Band"

Nearly everyone has heard the song "Alexander's Ragtime Band" over the radio — great to stir up the hearts of all who have ever loved — turbulent romance, afire with violent misunderstandings and forgiving tenderness—it all finds expression in Irving Berlin's unforgettable song—that is "Alexander's Ragtime Band," which has lived through 27 years of hit tunes of all tempos and is still one of the favorites over the radio, with dance orchestras.

This song is the basis of a musical play by the same name, with a cast composed of several top-notch players, headed by Alice Faye, Tyrone Power and Don Ameche, all of whom are favorites with radio and picture audiences — and Irving Berlin's matchless melodies.

This picture will be at the Kendrick Theatre this coming Friday and Saturday nights.

### MY VALENTINE

Years have turned to memory, little girl of mine,  
Since the day you said you'd be my valentine;  
More and more I realize your love divine —  
My Valentine!

In my sleigh I drove you through the falling snow,  
When I pressed you fondly for your hand, you know,  
And you told me then, dear, that you loved me so—  
My Valentine!

I can see the chapel in the twilight gray,  
Where we found the parson on our wedding day;  
When you came and promised to be mine for aye—  
My Valentine!

Someday I must leave you, I can plainly see—  
Do not let it grieve you—do not cry for me;  
Someday you will join me, then you'll always be  
My Valentine!

—Bert Gamble.
