At present, he said, plans call for a survey to be made from the head of Wauncher Gulch to the state highway on the other side of Southwick, looking toward connecting that road and the Kendrick road together. Mr. and Mrs. Cairns have made a host of friends while residents of Kendrick, and it is with real regret that residents heard of his transfer.

Not So Bad For Some

Stalin has opened his campaign against lazy workmen in Russia by sentencing to death the first fellow convicted. The penalty may not be considered so severe. Everybody knows a few fellows who would rather be shot than go to work.—Pittsburg, Kansas, Headlight.

INTERESTING NEWS ITEMS FROM KENDRICK SCHOOLS

Last week we wrote the most interesting bunch of school notes in months. We worked hard, and really tried to make them nice—and then—we forgot all about taking them down to the Gazette office until Thursday night, when we looked over the paper and saw no school notes. Talk about dumb! Believe it or not, 12 different people asked us what happened to the school notes last week. We didn't realize how many read them. So part of this week's news is rather old, but we'll give it to you just the same. As in the past, we are making the announcement now that high school picnics are not sponsored as school activities at the close of the year, the reason being that groups desire to travel too great a distance on picnics and transportation means are none too reliable. It is felt that the responsibility of taking care of these groups where no school transportation is furnished is too great. Question last week: "When and where are the Seniors going on their sneak?" And will the Juniors discover their plans in time? The last week was full of picnics, early outdoor breakfasts, etc. Monday night the Seniors burned a huge "Z" above the regular numeral. Why did they have the town excited? Why, even the little Sophs were out strutting around. And then Tuesday morning they had a breakfast at the Community Hall on Bear ridge, but the Juniors found them and also helped them eat breakfast—but both classes were back in school by 8:30 Tuesday morning. Then Wednesday morning, around 4 o'clock, the Seniors started out for their annual sneak. The Juniors were right there, though. The Seniors went first to Coeur d'Alene, then to Spokane, then to Coeur d'Alene. Too bad they couldn't get together on the thing, but anyway, both classes had a swell time. They took boat rides around Coeur d'Alene lake, went to Natatorium park, and Beatrice LaHart, Ava Craig and Billy Weyen took airplane rides. Gee, they must have fun. (And we are only Sophs!) Letters were awarded to the girls' and boys' basketball teams at an Assembly Tuesday afternoon. The girls receiving letters were Mary Davidson, Maxine Bigelow, Barbara Long, Helen Newman, Laurene Craig, Bernadine Peters and Myra Kanikkeberg. The boys were Rex Blewett, John Wallace, Bill Cox, Chet Vincent, Dean Compton, John Thompson, Jimmy Kuykendall, Glen Newman, Harvey Thornton and Ervin Draper. Frank Arnett received the manager's letter; Barbara Long and Frank Rider the Yell Queen and King letters, and Mary Davidson and Ted Weyen the Yell duchess and duke letters. The decorations for the Junior Prom, scheduled for the evening of Friday, April 28, are progressing nicely. Barbara Long is in charge of it, so you know what to expect. But really the Juniors are working this very hard to make it the "biggest and best Prom in years." It is being decorated like a Japanese garden, and the Juniors are positive that it will be magnificent. Music will be furnished by Barney Malreich and his six-piece orchestra from Lewiston. Admission is by invitation. Friday, April 21, thirty girls, who compose our Kendrick Girls' Glee club, represented Kendrick in the Music Festival at Lewiston on that day. They received a rating of excellent, the best rating received among the girls' glee clubs. We really feel good about this. It shows that we can do something, even though we did "flop terribly" at the last Community sing. The Band went down Saturday and participated in a mass band concert that evening. Our school received an invitation from the Lapwai High school to send our "Ideal Couple" to their Junior Prom on April 22. Those chosen to go were Betty Boyd and Bill Cox. Both of them report an excellent time. (Now this was really a "Perfect Choice.") Tuesday afternoon, April 18, Southwick defeated the Kendrick Tigers in a baseball game, the first for the Kendrick boys. The score was 6-3, and although it wasn't so hot to be beaten in our first game, the Tigers, in the second game of the season (Tuesday, April 25) made a comeback and were victorious over the Southwick boys, this time the score being 11-6. Though we won, we weren't very lucky, for Frank Arnett, while trying very hard to bat a home run, was hit in the face by the ball, breaking his nose. The whole school is terribly sorry for this and hopes that Frank will be O. K. soon. The Kendrick boys playing Tuesday afternoon were Lloyd Farrington, Rex Blewett, John Keeler, Chet Vincent, John Wallace, Frank Arnett, John Thompson, Glen Newman, Bill Cox, Dean Compton, Louis Hunt, Dick Reid, Ervin Draper and Laurence Bartlett.

Attend Tea

The home of Dr. and Mrs. J. M. Lyle at Lewiston was the scene of a very pretty tea Saturday afternoon, given in honor of their daughter, Miss Elizabeth Louise Lyle, whose engagement to John Fuller Aisop, Fargo, N. D., was announced very prettily by Nancy Dukes and Nancy and Carroll Lyle, presenting each guest as they entered with a card bearing the names "John and Louise, June twenty-eighth." The rooms were beautiful with a profusion of roses, lilies and snapdragons. Receiving with Mrs. Lyle were Mrs. J. M. Lyle, Jr., of Kendrick, Mrs. Lenn Magill and the honoree, Miss Louise Lyle.

Wanted — Good Picture

The committee in charge of the coming Kendrick Old Settlers Picnic wishes to secure a good picture of Kendrick as it is today — preferably with the locust trees in full bloom. If you have such a picture, or can secure one, please bring or send it to Wade T. Keene, Mrs. W. A. Watts or the Kendrick Gazette. It is to be used for making a cut for program use during that day — and will be returned to the owner unharmed. Please look through your picture collection, see if you haven't one. If you have a good one, even when the trees are not in bloom, please submit it for choosing. It will be returned to you.

PIONEER (KENDRICK) PICNIC PLANS TAKING SHAPE

Plans for the annual Kendrick Picnic, a regular event for old-time residents and settlers of this section, and which has been held for the past several years at Spokane, Pullman, Coeur d'Alene, etc., will be held this year at Kendrick — and as usual on the first Sunday following the Fourth of July, which this time places it on Sunday, July 9. In furtherance of plans for this event, Wade T. Keene, chairman, and Mrs. W. A. Watts, secretary-treasurer of the organization, called a meeting, which was held Monday evening at 7:00 in the City hall, and from which the following chairman and committees resulted: Reception Committee — W. A. Watts. Finance Committee — Marvin Long. Parade Committee — G. P. Barnum, Harold Thomas. Program Committee — No selection made. To be filled later. Exhibits of Relics and Pictures — Mrs. Edgar Long, Mrs. L. J. Herres. Table Committee — Edgar Long, Edgar Dammarell, Lester Crocker. Awards suggested for the day were for the oldest resident (first to come to this section, need not reside here now) for both man and woman. The oldest to graduate from local high school (oldest class) both man and woman. The person, man or woman, coming the farthest to attend. The committee in charge wishes to emphasize that this is not a celebration in any way — it is a get-together and picnic for present and old-time residents of this section. It should be a time for the renewing of old acquaintances, for visiting and resting — and everyone throughout this entire section is invited to attend. An effort will be made to see that everyone has a good time — a good speaker will be secured. Absolutely no firecrackers or other celebration "juncracks" will be permitted.

Potlatchers Drop Game

The baseball season officially opened last Sunday in the Lewiston, Clark league, when the Kendrick aggregation met Erb's Bengals on the Juliaetta grounds, and with the exception of the second inning Kendrick played in mid-season form, shutting out their opponent in every other inning. The Bengals took advantage of two hits and two errors in the second frame to score four runs. Kendrick scored one each in the second and fifth innings, to leave the final score 4-2 in favor of the Bengals. Jack Henry went all the way for Kendrick, while the Erb Bengals used up three pitchers. For Kendrick Henry struck out five. For Erb's Cornin struck out four; Snickkloch 6 and Trout 3. Kendrick gathered seven hits to Erbs five. The line-up for Kendrick was as follows: Ziemann, c; Jump 3rd; Karikkeberg, 1st; Millard, rf; E. Flesham, cf; Braman, ss; Garnet, lf; Leavitt, 2nd; Henry, p; W. Flesham, lf; Triplett, 2nd. For Erbs the line-up follows: D. Frost, 3rd; Bing, cf; Ball, 2nd; M. Frost, 1st; Summers, ss.; Paffie, rf; Welker, lf; Wegner, c; Cornin, p; Snickkloch, p; Trout, p. Kendrick plays Orofino next Sunday at Juliaetta.

Barley Heading Out

Wm. Wolff, living on the Mrs. John Reid place on the flat above Brady Gulch brought a handful of Silver King barley stalks to the Gazette office Tuesday morning that were headed out. The barley, volunteer Silver King, and of which he has about an acre growing through alfalfa, was almost fully headed (but not filled) and measured 23 inches in height. This is the earliest we have ever heard of or seen barley this far advanced.

Returns From Extended Visit

Mrs. Stella Plummer has just returned from an extended visit in Sacramento, Calif., with her daughter and son. While there she attended the World's Fair at San Francisco. On her way home she visited in Portland, Baker and La Grand, Oregon. At the latter place she attended a reunion of the Brown family, seeing a sister and brother she had not seen for 20 years. Lawrence Kuykendall of Weiser College, also a relative, attended.

Weather Rather Cool

The weather the past few days has been somewhat cool. Sunday was warm and sunny, but days since that have been too cool to do without a wrap. Rain fell Monday night, but just enough to lay the dust — we need a real soaker.

WHEAT MARKET WEAKER AS PROSPECTS IMPROVE

Wheat markets turned slightly weaker with the improvement in crop prospects, states the Bureau of Agricultural Economics in the Weekly Grain Market Review for the week ending April 21. Milling inquiry, however, was active and cash premiums were well maintained on most classes. Feed grains were independently firm, influenced by advancing millfeed prices and active industrial and feeder demand. Little change occurred in the general wheat situation. World trade was not large, although a steady demand was present from importers as foreign countries continued to build emergency stocks of wheat and flour. The larger supplies in exporting countries were not being pressed on the market and prices at Liverpool were firm. At the close of the week, U. S. No. 1 hard winter was quoted CIE Liverpool at 58 1/2c, No. 1 dark hard winter at 60c, Argentine Rosafe at 60 1/2c and Australian wheat at 60 1/2c. No. 3 Canadian Manitoba from Atlantic ports was quoted at 72 1/2c per bushel. The Belgian government relaxed milling regulations slightly and beginning April 24, only 25 per cent of native wheat will be required in flour grindings. Harvesting of the new 1939 crop was making good progress in India and the first official estimate placed the crop at 344,400,000 bushels compared with an estimated 380,310,000 bushels for the 1938 crop at the corresponding date last year. European conditions continued variable but approximate those of a year ago. During the last six weeks of the 1938 growing season, however, exceptionally favorable growing conditions resulted in record crops in most European countries. If only average conditions prevail from now until harvest, the 1939 wheat crop in Europe will likely be somewhat below that of 1938. Stocks of wheat available for export in Canada and the southern hemisphere are about 235 million bushels larger than a year ago. The stock of wheat in Canada at the end of April was estimated at 200,841,905 bushels compared with 83,559,000 a year ago. Stocks on farms were only 50 percent larger than a year ago, while stocks in commercial channels were nearly three times those on April 1, 1938. Based on official estimates of production and on trade figures on exports to date, around 190 million bushels of wheat remained in Argentina in mid-April for export or carryover compared with about 50 million bushels on hand a year earlier. On the same basis, stocks of wheat remaining in Australia approximated 68 million bushels compared with about 90 million bushels in mid-April, 1938. Domestic cash wheat markets were slightly lower along with futures, despite only moderate offerings and an active milling inquiry as a result of good demand for flour and relatively high prices for wheat feeds. Good rains over most of the winter wheat belt improved prospects for hard winter wheat and this, together with lack of export inquiry, was the principal weakening influence. One cargo of Pacific Northwestern wheat was reported sold to Shanghai during the week and several parcels afloat were sold to the Continent. Export sales of wheat from other areas, however, were negligible. According to the Marketing and Marketing Agreements division, about 77 million bushels of the total sales now aggregating 101,500,000 bushels, were aided by the Federal Export program. About 14,500,000 bushels of the sales were in the form of flour. Exports of wheat during the second week of April increased to 1,457,000 bushels and brought the season's total of wheat alone to a little over 66 million bushels. Pacific Northwestern cash wheat markets ranged from unchanged to 1/4c per bushel higher compared with the previous week, with variations according to different classifications of grain. On April 21, soft and western white wheat were quoted at Portland at 70 1/2c, western red at 70c and hard red winter at 68c and hard white (baart) at 70c per bushel, all basis No. 1 grade in bulk. Wheat receipts at Puget Sound and Columbia river terminals held to relatively high levels with 1,431 cars received during the week. Indemnity payments on export flour at the close of the period were \$1.00 per barrel to the Philippines, \$1.20 general from Pacific Coast ports and \$1.20 per barrel to China. Mill demand for cash wheat continued of moderate but steady volume during the week and exporters were in the market on most days, so that current offerings by growers at the country points were readily absorbed. Pacific Northwestern barley markets were somewhat irregular during the past week. At the close of the period, No. 2 bright western barley weighing 45 pounds was being quoted at Portland at \$1.22 1/2 per 100, sacked, or 2 1/2c higher than a week ago. Somewhat improved demand for current offerings was a strengthening market factor. Oats markets in the Pacific Northwest remained about steady during the week. On April 20, No. 2 white oats were quoted at Portland at \$1.36 1/2 per 100, sacked, with No. 2 gray oats nominal. At Seattle white oats from eastern Washington were quoted at \$1.32 1/2 per 100, sacked. Receipts of oats totaled five cars at Portland and one car at Seattle during the week.

Landscape Farm Home

Freshmen and Sophomore boys in Vocational Agriculture had the pleasure of assisting George Wilken in leveling, grading and planting a lawn around his country home. A mixture of Kentucky blue grass and white dutch clover were used in seeding the lawn.

With a favorable rain, the outside environment of this home should be beautiful in a few weeks. The boys are hoping to plant a few shrubs and trees to make this undertaking complete.

THUMB NAIL RESUMES OF IDAHO HISTORY

By Glenn Balch... The Thunder Mountain gold rush lies within many a current memory.

Two brothers, A. B. and L. J. Caswell, grubstaked by A. O. Huntley, mined placer gold on Thunder Mountain between 1896 and 1899.

Idahoans were by that time developing a resistance to rumors of new gold discoveries.

Three towns sprang up quickly: Roosevelt and Thunder City, just three miles apart on Monumental creek, and Belleco, over the summit on the headwaters of Marble.

Then the decline began. Most of the claims proved worthless.

Today Nature has largely retrieved the Thunder Mountain country.

EDITORIAL

Well, Folks—We've certainly had some glorious spring weather, but we also could use a good soaking rain. Seems like it just can't rain. Clouds up, turns cold, wind comes up and blows the clouds away — and that seems to be the end of it. Perhaps we will get that rain one of these days anyway — we surely could use it—for green pastures mean good cream production — and good cream means real cash to you. Try us and see if we're not right.

The other day we installed a new bottle washing machine that is really up to date. If you have never seen one of these machines operate we cordially invite you to come in and see it. If you have any doubt as to the cleanliness of a bottle, one look at this machine in operation will dispel that doubt. But regardless of that

point, come in and see it.

Pat: "Dennis, did you hear it thunder in the night?"
Dennis: "No; Did it thunder?"
Pat: "Yes, it thundered as if heaven and earth would come together."
Dennis: "Why didn't ye wake me, for ye know I can't slape whin it thunders!"

He: "Whenever I stand up to make a speech, I don't know what to do with my hands."
She: "Are you making a speech now?"

A bricklayer working on the top of a very high building accidentally knocked a brick off the scaffolding with his foot and it unfortunately landed on the head of a negro who was passing.
The negro shouted: "Be careful, up there, Big Boy, you made me bite mah tongue!"

The school appreciates the kindness of the following parents, who provided transportation for the students: Mr. and Mrs. Chas. Hoffman, Mrs. Herman Meyer, Mrs. Glen Hansen, Mr. and Mrs. J. E. Flesherman, Mrs. A. G. Peters, Mrs. Homer Parks, Mr. and Mrs. Jess Thornton and Mrs. Fred Arnold.

Village Election Quiet

At the Village election, held last Tuesday, only 124 of the 186 registered voters indicated their choice — and very few voted "straight" tickets on either one of the two filed.

When returns were complete they showed the following:
E. H. Ramey (Citizens) 73
Geo. W. McKeever (Citizens) 68
R. E. Parks (Progressive) 65
E. A. Deobald (Citizens) 63
Harold Thomas (Prog.) 61
Several other scattered names were, of course, written in the blank spaces.

Change in Mail Schedule

Golden Jubilee Publication

A souvenir Golden Jubilee publication, commemorating 50 years of continuous service by the Washington Water Power company and depicting the growth of the Inland Empire, now is being distributed to all customers in Washington and Idaho.

The booklet, which is prepared in attractive style to show the chronological growth of the electric service company, is profusely illustrated throughout its 32 pages. The half-tone illustrations are reproductions of photographs taken over the system and of industries served in the two states. Colored line drawings of an historical nature supplement the halftones.
