It seems that the new Idaho State Game commission has been having a lot of fun tinkering with the seasons and bag limits on various kinds of birds throughout the northern counties, and to give you a gist of the idea, we reprint a portion of

It was "an oversight on our part," he replied. The telegram to the Tribune yesterday said: 'Dove and quail seasons not called in your counties except as stated in

Lewis counties."

President H. A. Hutcherson of the Nez Perce County Game Protective association said yesterday: "After calling the meeting of the county association to protest against the action of the commission in closing the quail season, Commissioner Walter Fiscus telephoned me from his home at Potlatch and attempted to explain the situation. Receives Recognition

Chas. Bower former active member of the Kendrick Future Farmers, is given state recognition in the next issue of the Idaho Farmer. Charles' achievements are based on his excellent job of raising prizewinning beef steers and his unique hobby of mounting wild life subjects, which calls to mind the Future Farmer motto:

"Learning to do, Doing to learn, Earning to live, Living to serve."

This calls to mind that the state F. F. A. convention and Western Idaho Fair will be held at Boise on August 21, 22, 23 and 24. There will be a state judging contest at this meeting and the winning team in Idaho gets a free trip to Kansas City in October, with expenses paid.

If there are any boys who would like to try out for the team to make this trip who have been overlooked. please call Don Lyle, because all are to be given a chance.

Let's put Kendrick on the map and do some intensive livestock judging in the next few days in order that stiff competition may be given to other teams of the state.

Road Operations Starting

F. H. DeAtley & Co., contractors for the new link of road completing the connection between Arrow and Juliaetta, are busy establishing a camp at the Irwin place now occupied by Walter Cochran, it being somewhere near mid-way of the link they are to build.

Just when the heavy equipment will make its appearance and the real construction work get underway is not known, but expected soon, since the company wishes to have the link done before the setting in of the fall rains.

It is expected that the big diesel shovel will be in place to start operations by next Friday morning.

Well, Folks-Here it is the 10th of August, and harvest going full blast. Perhaps we're a week or ten days later than last season, bu tthe top quality of the grain is going to make up for the late season.

. It is reported that beans have been quite seriously hurt by the past hot weather — and if such is the case you'll need more cash to take up the slack - and your cows offer the solution. Cash is king and cream is cash. Bring in the cream, take home the cash. When you need butter, think

of "Pride O'The Potlatch," as fine a butter as can be produced. And what finer dessert can their be than some of our ice

cream? Not only is it good, but good for you. Once you use it you'll buy no other brand.
