### POTLATCH SECTION HARD HIT BY DISASTROUS FIRE

Continued from first page

Again a shift of the wind whipped the blaze into renewed action on the south slope of Big Bear ridge, it traveling at high speed through the long dry grasses and dry underbrush to burn out the Frisbee and Wells hame and barns, the McCullough home and barns (Lien Bros.), threatened the Eugene Elliott place, which was saved, crossed the other point and destroyed two barns, a machine shed and grainery on the Wallace Emmett place.

All this time the streets of Kendrick were lined with cars and trucks, many of them loaded with household goods, and others carrying men and boys armed with shovels and axes to and from their fire stations. C. C. trucks and boys could be seen coming and going and all the while the huge fire furnished illumination over the canyon.

As the flames advanced along the side of Potlatch ridge they destroyed two complete sets of buildings on farms belonging to Aug. F. Wegner (Albert Schultz place) and the Carl Koeppe place was only saved after a battle royal with the flames. Atop the ridges tractors could be heard barking through the night as they pulled plows and discs through stubble in the construction of fire trenches. Landmarks and property lines were forgotten as all fought a common enemy — fire.

Smoke from the huge blaze was visible as far away as Central ridge above Peck, the great billow looking like a huge columnous cloud lying low upon the horizon.

Early Monday morning the flames were under control on two fronts, releasing fighters to go to the others,

and as more CCC boys arrived from as far away as the St. Joe forest, the situation became a great deal better, although the blaze was still far from under complete control, and an inspection Monday night after nightfall still revealed great tongues of flame in the Pine creek canyon and Little Bear canyon.

The blaze crossed the Pine creek canyon and raced on up the sides of Texas ridge, where it destroyed timber, burning several hay stacks for E. V. Weeks, and Wm. Riley, and threatening the Fred Bailey property, which was saved after a bitter fight.

Tuesday morning the situation was eased a great deal by a light rain, which started to fall about 5 o'clock and lasted until about 6:30. While by no means enough to put out any blaze, it did dampen grasses and brush and make the controlling of the fire much easier.

As near as could be learned at the time of going to press the loss of buildings and homes consisted of the following: Everett, Fraser, two barns; C. G. Arnette, home, barns and all outbuildings; Wm. Barclay, house and two barns; Fred Stedman, barn and other outbuildings; Albert Westendahl, house and barn and outbuildings; Ben Westendahl, house; Carl Cox, barn; Wallace Emmett, two barns, machine shed and grainery; Mrs. Kate Galloway, house, barn and outbuildings; W. W. McAllister, barn; Long's store, barn and huge haystack; Aug. F. Wegner, house, two barns and numerous outbuildings; Herb Jenkins, house, barn and outbuildings; Frisbee, two houses and barns, and outbuildings; McCullough (Lien Bros.) house and barn and outbuildings; Ratcliffe, house, barn and outbuildings; Lloyd McQueen, house, barn and outbuild-

ings; Galloway Bros., barn. The above account does not take any account of the numerous haystacks, fences, machinery, equipment and hundreds of other items undoubtedly lost in the conflagration, and a true estimate of the loss will undoubtedly not be compiled for some time to come. We have done our best to present a true and accurate picture of the fire and other happenings, if we have made mistakes, we are sorry, believe us it was not intentional.

Thursday morning the entire scene was one to depress any lover of the great outdoors, hundreds of acres of blackened and burned grass and brush, beautiful trees so badly fire-scorched as to be killed standing here and there amid acres of fire-blackened snags and smaller trees. Not only are they eye-sockets to see but will present a fire hazard for many years to come.

**Sidights Of The Fire**  
A great deal of credit is due to Rev. Wm. Gray of the Community church for his labors in organizing, directing and fighting with fire crews Sunday afternoon and evening, and credit also goes to Earl Alden of Troy and John Henry of the local survey crew.

Edgar Dammarell and his highway department crew (Ed. Brown and Sid LaHatt) spent practically all night in a truck hauling water and men and battling the flames. \* \* \* Edgar Long, city marshal put in a stretch of almost 24 hours straight directing fire fighters and transporting men and equipment from point to point in his own car. \* \* \* Members of the Village Council were refused use of WPA shovels for fire fighting use (and did the air get blue!) \* \* \* Lunches were put up by local women for delivery to the fire fighters on the line. \* \* \* High school was dismissed Monday to permit the boys to take places on the fire line. \* \* \* Roads were crowded by sight-seeing cars from as far away as Spokane. \* \* \* Talk runs strong of asking for government investigation to determine cause of the blaze. \* \* \* Red Cross aid to be extended to those burned out where it is needed. \* \* \* Hundreds of game birds undoubtedly destroyed by the flames. \* \* \* Many other names should undoubtedly be mentioned as those to whom credit is due, including the whole of the Kendrick Village Trustees. \* \* \* It is impossible to name all who fought fire and organized crews. \* \* \* CCC boys should certainly come in for the thanks of everyone.

The club has as new members this fall Mr. and Mrs. Norla Callison, Mrs. Vera Stewart and Mr. and Mrs. H. B. Thompson.

**Please Bear With Us**  
We realize quite well that this issue of the Gazette is not all that it might be, but with the fire disrupting telephone lines, and generally keeping people at home, there is not a great deal of news to be had. So please overlook the lack of news this week—we'll try and do better in the next issue.

**Grain Shipments Slowed Down**  
Very little grain is being shipped from Kendrick at this time, the farmers seemingly wanting to hold for higher prices. Prices seem to be holding about steady, however, with the tendency a little bit down.

### EDITORIAL

Well, Folks — Here it is the days just following the big fire — two days that will go down in Potlatch country history as the greatest loss since fire destroyed Kendrick completely in 1905 — and what days Sunday and Monday were. On those days every man earned his keep and just a bit more besides. There are undoubtedly many little heroes of those two days that will never be heard of. Many lost cows, chickens, pigs and other livestock and fowls.

Fire can be, and is man's best friend, when controlled, for without it life would be impossible in our northern climes — and uncontrolled it can be and is man's worst enemy, ruthless in its destructive powers.

Well, anyway, what's done is done. Let's all help rebuild the Potlatch country by being even more careful of that blaze.

"What mother doesn't like about you is your reserve."  
"You mean she thinks I'm too shy?"  
"No, I mean she looked up your bank balance."

Bride (at the telephone): "Oh John, do come home. I've mixed the plugs in some way. The radio is covered with frost and the electric icebox is singing 'Way Out West in Kansas!'"

A girl and an elderly woman were waiting for the other members of the party to arrive.

"Have a cigaret?" asked the girl, offering her case.

The old woman looked at her in extreme annoyance. "Smoke a cigaret!" she cried. "Good gracious, I'd rather kiss the first man who came along."

"So would I," retorted her companion, "but have one while you're waiting."

That laughable Jones family, liked by everyone, will again be seen in the Kendrick Theatre this coming Friday and Saturday nights in "Everybody's Baby." From Granny Jones right down to Bobby, every member of the family is seething with excitement — a new member of the family and — it's a girl. Dad faints and Herbert, with a dazed look in his eye, goes in to see Bony and the baby — and doesn't get to see them — then the fun starts. It's said to be a scream from start to finish.

The second feature offering of the evening will be Gene Autrey, the singing cowboy and Smiley Burnette

"Spud-Picking" Contest In Offing According to word from Boise there is to be another potato-picking contest this year between our own Governor, C. A. Bottolfsen, and Gov. Lewis O. Barrows of Maine, to be held near Blackfoot, Idaho, on September 22.

It will be remembered that some two years ago "Vanilla" Clark went way up in Maine to take part in one of these picker-upper contests with Gov. Barrows, and came second best. However, Bott says he has the potatoes "in the bag" ready. Gov. Barrows doubts the veracity of the statement enough that he will be on hand to take part in the contest at the appointed time.
