#### WHAT HAPPENED HERE 20 YEARS AGO THIS WEEK

From the ad. of N. B. Long & Sons: "This week we are paying 65 cents a pound for fresh ranch butter and 65 cents a dozen for fresh ranch eggs-bring 'em in." the forming of an American Legion post in Kendrick under the leadership of Tom Long and Fred Bolon.
The Methodist church extends a

cordial invitation to everyone to attend the dedication services to be held Sunday morning at 11:00 o'clock. Dr. W. W. Youngston of Portland will deliver the address and other speakers from out of town will be present.

The recent snows and rains have started one of the most practical arguments for good roads. When a farmer has to "hole up" for weeks at a time because the roads are so bad he doesn't iver like undergoing the hardship necessary to get to town—then it is time to start something. It is better to spend some money on the roads than to save the money and live like hermits. Main street in Kendrick is fast becoming an unanswerable argument in favor of good roads-a mile of mire and muck.

and family are now located on their own farm, formerly known as the Doc. Triplett place. . . While Mrs. Wm. Whitinger was alighting from the car, she slipped and fell, badly spraining one of her ankles. . . . We hear that Wm. Stump harvested his cabbage crop last week. #### Road Work Progerssing

Road work on the Juliaetta-Arrow link of the Arrow-Deary work is progressing very rapidly these days, helped on by three shifts of workers and favorable weather. The filling is complete to the Little Potlatch bridge, leaving only about a mile and a half to go to complete

A dust coat of oil is being applied as rapidly as the graveling is completed to hold the rock in place prevent its rolling off the 'shoulders'' this winter. And a real improvement this road is too, stretching as straight as an arrow from the W. W. P. sub-station at Juliaetta to the Little Potlatch bridge. All of us have waited a long time for this road - we've heard promises — then had the buck stitution. Mr. Thompson's plan for passed when they didn't come truebut the final result seems worth was a success, and from "scratch) waiting for.

#### WHEAT EXPORT PROGRAM NOT BEEN DISCONTINUED

Wheat producers in Latah county this week were assured that the government wheat and flour export program has not been discontinued. It was announced by the County Agricultural Conservation association that the export program, conducted by Federal Surplus Commodities corporation, was proceeding on a "slow, sure basis."

Latest reports show contracts for exportation of American wheat and flour are down somewhat for the month of September. However, they did not drop off to any alarming extent, and the 4,665,000 bushels of wheat or flour equivalent contracted for export is evidence that America still is in the world market.

It is said that officials of the export program have announced a Mr. and Mrs. Dale Turner. conservation basis for export negotiations in the face of the European war uncertainties and the drought conditions which exist in some wheat producing areas in this

Much of the export wheat is that which the Federal Surplus Commodities corporation bought from the Commodity Credit corporation's stocks of wheat surrendered by farmers in payment of 1938 commodity loans.

In all, under the three phases of the wheat and flour export program, 16,735,000 bushels of wheat have been contracted for export between July 1 and September 30.

#### Leave For New Home

Mr. and Mrs. H. B. Thompson left Tuesday evening for Colfax, Wn., where they will make their home in the future, Mr. Thompson ant manager of the Colfax Branch, Spokane and Eastern Trust Branch

Mr. and Mrs. Thompson have secured a home in that city, but will be unable to obtain possession of it until shortly after the middle of November, and until that time will spend the week-ends at their home

Mr. and Mrs. Thompson came here 12 years ago to the day of set for the "all church party" to be their leaving, coming here from Pullman, to head the Kendrick State Bank. At the time of their coming here a large share of the bank was owned by the late Martin Thomas. Mr. Thompson remained on as the cashier of that institution until its collapse in 1932, along with hundreds of other banks in those depression days. Mr. Thompson was a prime factor in its reorganization and reopening at a later date that year, again assuming the cashiership, a position which he held at the time of its sale to the Farmers Bank, the other local banking inthe reopening of the closed bank it again grew into a fine business institution. It is understood that his plan was used, with variations to suit the conditions, in the reopening of some other banks, and at which time Mr. Thompson received much favorable notice.

Shortly after the sale of the Kendrick State Bank to The Farmers Bank Mr. Thompson accepted his present position, and was due to report for work some two weeks ago, but owing to details connected fund of the bank, and other business

It is with real regret that the people of Kendrick see Mr. and Mrs. Thompson and their family leave be made to organize an ef- first semester, when he will join his high school training there.

#### MARKET FIRMER, INFLU-ENCED BY LIGHT OFFERINGS

Domestic markets were steady to firm during the week ended Oct. 27, according to the Weekly Grain Mar-ket Review. Wheat prices advanced moderately, influenced by light offerings and poor prospects for winter wheat in important areas of the Southwest. Corn turned firmer as market receipts remained unusually small despite large farm supplies. Oats and barley were steady with a good inquiry for the moderate of-

ferings. Rye was barely steady.
The general wheat situation remained unsettled as a result of the European conflict but no important changes in supply and demand conditions were reported. European requirements for imported wheat during the current crop year are expected to be somewhat less than last season, according to the Assistant Agricultural attache at London. Overseas takings of wheat by European countries may be around five per cent less than last year's imports of from 295 to 300 million bushels. Moderate quantities of Canadian wheat were again taken by Great Britain, according to trade reports and British millers were instructed by the government to increase flour extraction to 73 per cent as a result of increased use of Canadian grain. Because of the short-age of feeding stuffs the English government has allowed the use of wheat for feed and fixed the farm price at the equivalent of 75c per bushel. Belgium millers are now required to use 15 per cent of native FOB quotations on foreign wheats day evening to attend the carnival itoba at Vancouver and 731/2 for No. and spent the week-end in the W. 1 Manitoba at Atlantic ports. Aus-L. McCreary and L. D. Crocker tralian wheat was quoted at 47%c and Argentine Rosafe at 48%c at port of shipment. Prices of Argentine wheat CIF England were estimated by the trade at 70c, Canadian Manitoba at 87c and United States

Crop conditions were still unfavorable in a number of important areas. The drought remained largely un relieved in the United States' hard winter wheat belt and heavy rains continued to delay seeding in several European countries, including Hungary, France and Germany. Heavy rains in Argentine were caus-ing rank growth and lodging of the wheat crop which is now approaching harvest. The Australian crop She is getting along nicely.

Mrs. Roy Ramey left Tuesday was reported mostly in satisfactory morning to be with her daughter, condition but moisture was still needed in some sections. Fall rains in Canada were well above last season considerably below in Saskatche-

> Domestic cash wheat markets advanced slightly, influenced principally by relatively light receipts since milling demand remained dull and export trade continued negligible. Disappearance of wheat in the United States during the first quarter of the current season was about 30 to 35 million bushels under that for the corresponding months last year, assuming that merchant mill stocks at the first of October were about the same as last year, as indicated by trade reports. Country mill and elevator stocks at the first of October were about 12,000,-000 bushels smaller than a year earlier and totaled 162,542,000 bushels. Adding farm and terminal market stocks gave a total supply outside of merchant mills, Oct. of 656,800,000 bushels compared with 715.069.000 bushels in these positions Oct. 1. 1938.

Stocks in Canada on the other hand, were about 157,000,000 bushels larger at the first of October than at the corresponding date in 1938 with the quantity available for export placed at nearly 387,000,000 bushels. These large remaining stocks in Canada were a depressing influence in that market and prices declined about 1c per bushel. Pacific Northwestern wheat mar-

kets advanced %c to 2%c per bushel during the past week, according to local supply and demand conditions on various classes, and mostly reflecting very light offerings at country points rather than any important demand. Cash wheat prices at Portland Oct. 27: soft white and western white 81½c, western red at 80½c and hard red winter at 80½c, all basis No. 1 grade in bulk. Wheat receipts at Puget Sound

and Columbia river terminals increased slightly, to 775 cars, a considerable portion of which was reported for terminal storage under loans and deliveries on earlier sales rather than current marketings. Indemnity payments on flour for export remained unchanged at \$1.00 to the Philippines and \$1.10 to other ports including China. Reports indicated that export flour soles were very light during the period. Export sales of wheat were lacking from Pacific Northwest ports during the past week. Growers were reported offering extremely small amounts of wheat at country points which to-gether with the light current demand, made for a very quiet market situation. Wheat millfeeds held steady. Cash wheat quotations at Seattle October 27 were western white 81c, western red-8016c, hard winter 80%c and hard white (baart) 851/3c per bushel, all bulk basis.

An easier tone in premiums offset the firmness in futures and cash hard and red wheat at Kansas City closed about unchanged from a week ago. Receipts were again moderate totaling 320 cars at Kansas City and 1,075 cars at nine important midwest winter wheat markets.

bride Sunday evening of Leslie A. Ludahl, son of Mr. and Mrs. Lew-rence Ludahl of Orchards at the home of Mr. and Mrs. John R. Lewis on route 1. The Rev. J. Westendorf of St. John's Lutheran church read the ceremony beneath an archway of cedar boughs and fall

The bride wore a white organza gown with insets of lace. Her only jewelry was a string of crystals which have been in her family for many years. Her veil was finger-tip length and she carried a shower bouquet of white dahlias.

Mrs. Lynne Reitz, sister of the bride, was matron of honor. She wore a peach lace and organza frock. Little Mary and Emmalou nieces of the bride, were flower girls. George Rein acted as best man. The wedding march and "I Love You Truly" were played by John Lewis and Mrs. Fred Knight. Following the ceremony a bridal supper was served to 30 relatives and friends of the young couple. The table was attractively decorated with pink rosebuds and pink and

white candles. The wedding also marked the twenty-third anniversary of Mr. and Mrs. Reitze of Orchards. Mr. and Mrs. Ludahl will make

#### CRESCENT CLIPPINGS

The Hallowe'en carvinal held in the school house Saturday evening was enjoyed very much. The school house was prettily decorated with holiday trimmings and appeared very attractive. The "pond" was fished dry and the balloons sold early in the evening. Mrs. Arne Kloster received the picture. The teacher, Mrs. DeLong, and pupils deserve a great deal of credit for giving us such o good time.

#### **EDITORIAL**

Well, Folks-Here it is the first of November, and we certainly have had an ideal fall. Perhaps a bit more rain wouldn't have done us any harm — but so far as we know the dry fall enabled every-one to save their late beans and there were plenty of them due to the hot, dry weather just as the first bloom were setting

on.
Well, anyway, it seems like the meat harvest for Kendrick and vicinity hunters was good. There surely have been a heap of elk and deer brought into town. And so far as we know — not a signle one of them was killed on the special hunt to thin down the wild population "on overstock areas."

#### Many Go Hunting With the opening of the elk sea-

Latah county for the first time in many years, in fact, since elk were purchased and turned loose in the county, many hunters sallied forth to try their luck - and we'll venture the statement that there were five hunters to every elk in

the county. Among those trying their luck from this vicinity were Wade Keene, E. A. Deobald, Rev. Gray, Hiram Galloway, Edgar Damarell, R. L. Blewett, and doubtless, many others. One party who came through that vay said the whole country about
