EDITORIAL

Well, Folks - It seems like the residents of this section really shouldn't want for meat this winter, be it as long and as hard a winter as the old-timers can remember ____ for we honestly believe that more cold boxes are full of elk and venison this year than for many years past — per-haps there is more than at any time in history. It seems like someone is renting a box every day with the statement: "I just killed an elk and I've got to have some place to keep the meat." It seems a shame to kill these

local elk, for they seem almost like pets — many of us having invested money in their trans-portation to this section — but if the "brass collars" want 'em wiped out — we don't blame any-one for getting one if they cash, and we have certainly been very pleased to rent the boxes.

An excited female voice came over the telephone: "Two men are trying to get into my room through the window."

"Listen, lady, you've got the wrong number," answered an irate voice. "This is not the police department, but the fire depart-

"I know," said the voice more sweety, "but my room's on the second floor and the men need a ladder.'

"Alas for the chances men take

Her photo I carried and with her

I tarried, But later she married a shipmate of mine."

Crab: "What do you do when you get tired of hearing a girl's empty chatter?" Shaw: "Igive in and take her to a restaurant."

Remember Those Leland, Cameron and Kendrick bazaar dinners. Congratulations to all these.
