

KENDRICK GAZETTE

VOLUME XXXIX

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, DECEMBER 21, 1939

NO. 51

DOINGS OF LELAND FRIENDS AND NEIGHBORS

Mr. and Mrs. Ed. Heinrich were Lewiston visitors on Saturday. Mr. and Mrs. Gordon Peters and daughters were dinner guests of Mr. and Mrs. A. G. Peters Saturday. Denzil Kuykendall, Ernestine and Gene and Mrs. Fred Arnold and children were Lewiston visitors on Saturday.

Wanda Lee Peters spent Wednesday with her grandmother, Mrs. A. G. Peters.

Herman Heinrich spent Saturday with his grandmother, Mrs. Alex Larson.

Mr. and Mrs. Charles Hoffman were Sunday guests of Mrs. Minnie Blankenship at Lapwai.

Mr. and Mrs. Jesse Thornton were Lewiston visitors Friday.

Several ladies of the community gave a kitchen shower for Mrs. Herman Johnson on Thursday. Many useful gifts were received.

Mr. and Mrs. Donald Morgan spent Friday night with Mr. and Mrs. Charles Hoffman.

Mr. and Mrs. Laurel Flesman were Sunday evening guests of Mr. and Mrs. Herman Johnson.

Mr. and Mrs. Donald Morgan spent Saturday with Mr. and Mrs. Orval Walker.

Mr. and Mrs. Dallas Hepler were pleasantly surprised Sunday when several friends and neighbors gathered at their home with basket dinners to help them celebrate their silver wedding anniversary. Those present were Mrs. Cook, Miss Erickson, Walter-Cook, Charles and Carl Larson, Mrs. Anna Hartinger, Mr. and Mrs. Archie May, Mr. and Mrs. Alex Larson and Ray Jones.

Ray and Homer Jones and Angus Fry were Orofino business visitors on Saturday.

Mrs. Stewart Heffel, Mr. and Mrs. Robert Draper and Mrs. Wm. Wolf were guests of Mr. and Mrs. Roy Craig Wednesday, the occasion being Mrs. Craig's birthday anniversary.

Mr. and Mrs. Orval Walker-motored to Pomeroy Thursday to visit with Mrs. Walker's sister.

Mr. and Mrs. Gordon Peters and Darlene, Mr. and Mrs. Lloyd Craig and Marcella and Marvin Vincent were Lewiston visitors Wednesday.

Mr. and Mrs. Orval Walker and Ronald and Mr. and Mrs. Roy Craig spent the week-end with Mr. and Mrs. Charles Craig and Mr. and Mrs. George Baugh.

Mr. and Mrs. O. A. Walker and Neal and Mr. and Mrs. Orval Walker were Sunday dinner guests of Mr. and Mrs. Roy Morgan.

The Leland Home Demonstration club met in the basement of the church Monday for their Christmas party. A pot-luck dinner was held and an exchange of gifts. They then had a business meeting, followed in turn by a lesson in "First Aid," given by Mrs. Siefert, the health nurse.

Mrs. L. L. Yenni called on Mr. and Mrs. E. F. Flesman Sunday afternoon.

Mrs. Willard Turner called on Mrs. Prussel Sunday afternoon.

Emma Lou Vincent spent Saturday night with Beulah Drener.

Mr. and Mrs. Harry Smith visited in Southwick Sunday.

Bill Dzuk has gone to Fresno, Calif., where he has employment for the winter months.

The Ladies' Missionary Society observed a week of prayer services in church Thursday.

Elgin and Melvin Flesman visited relatives here Friday evening.

Rev. Walbeck and Mrs. Bill Dzuk were Lewiston visitors on Thursday.

Eight Deaths in Seven Days

Eight deaths in seven days is the traffic record for Idaho the first part of December, says Harry M. Rayner, commissioner of law enforcement.

All the work of peace officers throughout the state, all the effectiveness of the safety campaign waged during the year—making possible a bare nine per cent reduction over last year—all may be swept away in a few moments by careless, reckless or drinking drivers, Rayner said.

In a bulletin being prepared for the Governor's Safety committee, the bureau of safety again calls attention to the failure of many to conform to the law requiring all accidents to be reported to the department of law enforcement.

Traffic engineers find a fixed ratio exists between traffic deaths and the number injured.

Using Idaho's 149 traffic deaths as a basis, the bulletin records the number of injuries reported in Idaho, the number reported by the average of all states for the same actual fatalities, and the number actually injured, according to the National Safety Council.

For 149 traffic deaths: 630 Idaho, injured reported

Average all states reported 2615

Actually injured (N. S. C.) 5215

In other words, the bulletin states that, compared with the average of all states, Idaho reports one-quarter of those injured—and only one-eighth of those actually injured; although the National Safety Council admits that there is much variance between regulations in many states that this figure is relative.

Work At Gym Progressing

Work on the showers and dressing rooms below the Kendrick gymnasium is progressing, although a definite date of completion has not yet been set. The concrete work is almost completed, but the stucco work, the installation of fixtures, and considerable painting yet remains to be completed.

A Christmas Prayer

Dear Father give us just a cross
A cross on which to nail
The things of life that weigh us down
Here in this sin sick vale

Help us to keep the narrow way
Christ's bleeding feet have trod
Give us a star to lead the way
From darkness back to God

Teach us that greening shoots of hope
Will always come with spring
There will be sunshine on old fields
Keep us remembering

Help us to live a life so good
So pure, so undefiled
That in the manger of our hearts
We will find a little child.

—Bert Gamba.

INTERESTING NEWS ITEMS FROM KENDRICK SCHOOLS

Christmas vacation will begin on Friday afternoon, after our annual Christmas party, and will last until Wednesday morning, January 3. All this week the students have been humming bits of Christmas carols, many of them humming at the wrong time. Because of this quite a bit of memory work has been done.

Don't forget the annual school Christmas program tonight. Entertainment will be offered by both the Grade and High school students. Santa Claus will be there with treats for the youngsters and with a good word for the High school students. Be sure and come—Thursday evening at 7:30.

Though the Kendrick Tigers put up probably the best fight they have so far during this season, they lost a basketball game to Culesac on Tuesday evening, by a score of 36-34. This was the second conference game of the season, and the first conference loss for the Tigers. However, the girls' team did very well Tuesday evening, winning from the Culesac girls by the margin of 39 to 20.

Last Friday night the Tigers won from Lapwai in their first conference game of the season, by a score of 27-25. Kendrick had a good lead over their opponents until the last quarter, after which they had to fight pretty hard to keep their lead. Well, anyway, they won. The second string also played an excellent game. However, they weren't quite as lucky, for they lost by one point, the final score being 24-23 in favor of Lapwai.

Our next game will be with Anateone on December 28. Let's show the team we appreciate their fighting for us by all being there to root for them. Both boys and girls will play.

You are asked not to forget the F. F. A. turkey and merchandise shoot this coming Saturday, December 23. Come on out and show them how much better shot than the Lone Ranger, you are. And be sure and bring your own shootin' "iron."

Tuesday morning the grade school entertained the High school students with a very clever assembly program. First, a dramatization of the "Butcher Boy" was presented, after which the first and second grade rhythm band offered a few selections. The program, under the direction of Miss Grimm, was thoroughly enjoyed by the entire school.

The Band, under the direction of Mr. Fitzpatrick, played at the basketball game Tuesday night, and believe us, they really sounded fine. Isn't it surprising how much it helps to have the band playing?

During the past week Miss Graham has been spending most of her vacant study periods reading jokes. Her favorite, so far, is: "A lawsuit is a policeman's uniform." We thought it sort of funny, too.

Christmas Program

Don't forget the annual Christmas program and treats, to be given at the Kendrick Gymnasium on Thursday evening, December 22, at 7:30 o'clock.

This program is not only for the patrons of the local school district, but for everyone living within the Kendrick trade area—and you are cordially invited to attend.

Following the program Santa will appear an distribute treats to all the youngsters below the eighth grade.

This program is sponsored jointly by the Kendrick Commercial Club and the Kendrick P-T-A.

New Dance Hall To Open

Friday evening, December 22, will see the opening of a new enterprise for this section, a modern dance hall, to be known as "Stuart's Silo," located on the Compton farm, one mile west of Kendrick.

Mr. Compton took the old barn, remodeled it, both upstairs and down, providing two dance floors. The interior has been lined, and the whole indeed presents a very nice appearance.

He has announced his opening dance with music by the Wyoming Renegades. He further announces that the institution will be open every night of the week, with music available for those who may care to dance. There is ample parking room for all.

Soft drinks and bottled beer will be sold.

On another page will be found Mr. Compton's big announcement advertisement.

Dinner Well Attended

The Ladies Aid chicken dinner and fancy work sale in the church basement last Thursday evening, was attended by a large crowd, even considering that the rain was falling in a steady downpour.

The program given afterward was greatly enjoyed by all present.

Our Wish, To One And All Merry Christmas

Our Apology

It is with real regret, that we fail in this issue, for the first time in our ten years of ownership of the Kendrick Gazette, to put out our regular Christmas edition. However, the illness of P. C. McCreary, and our inability to obtain help, and due to the demands of job printing, we are unable, in this year to issue a special Christmas paper.

Realizing, however, that illness is no respecter of persons or work we beg your indulgence and pardon this year.

DOINGS OF SOUTHWICK NEIGHBORS AND FRIENDS

A few friends and neighbors gathered at the Wm. McClelland home last Wednesday evening and pleasantly surprised them. Those present were Mr. and Mrs. Julius Hoppe, Mr. and Mrs. Climer, Mr. and Mrs. L. J. Southwick, Rev. and Mrs. Turner, Dick Winegardner and sons and Mrs. Grace Wells. Refreshments were served.

Mr. and Mrs. L. J. Southwick and Mr. and Mrs. John Stalnaker were Sunday dinner guests of Mr. and Mrs. Dick Winegardner.

Mr. and Mrs. Roy Gertje and soa visited in Walla Walla Saturday and Sunday, returning home Sunday evening.

Rev. and Mrs. Turner and daughters were dinner guests of Mr. and Mrs. Given Mustoe Sunday.

Gorden Harris and sons have purchased the Conner place. There are 440 acres of land, and it joins the corner of Mr. Harris' 40 acres of timber land, which he has owned for some time.

Mr. and Mrs. M. N. Benjamin and family and Mr. and Mrs. Wm. Henderson were Sunday dinner guests in the Clarence Henderson home.

Mr. and Mrs. Given Mustoe spent Tuesday at the Otto Schoeffler home, helping with butchering.

A number of men gathered Tuesday and cut wood for the church.

L. Climer and family of Jerome, Idaho, are guests in the home of his brother, Mr. and Mrs. J. Climer.

Mr. and Mrs. Dick Winegardner and John Stalnaker were Kendrick shoppers Tuesday.

Gorden Harris is suffering with an attack of rheumatism.

Lewiston visitors Tuesday were L. J. Southwick, Jack Kelsie, Math Kazda, Virgil Harris, James Skinner, Ben Fessnal, Mrs. John Lettenmaler and son Johnny and Mr. and Mrs. Earl Whitinger.

Word has been received that Mrs. Morrison Cuddy of Kamiah passed away at the St. Joseph's hospital in Lewiston Tuesday night. Those surviving her are her husband; one son and two daughters. No arrangements have been made at this writing.

Among The Sick

Mrs. Elwood Pearson, who has had a long siege of illness, climaxed by some time in the hospital, is again up and about, and has been down town a few times lately.

Vester Daniels, seriously injured last fall, and now recuperating at the Silas Cook home—is coming along very nicely, although he will be confined to the house for a while yet.

P. C. McCreary, who is recovering from an attack of pneumonia, is up and about the house again, but it is not expected he will be back on the job before the first of the year.

Mrs. N. B. Long, who suffered a broken hip last fall, is quite herself again, and goes about her home as usual. For one of her age, the recovery made was miraculous.

Mrs. John Laws was taken to St. Joseph's hospital, Lewiston, Monday, seriously ill. No further information is available at this time.

Mrs. John Waide is still confined to her bed, but is slowly improving.

Songs To Be Distributed

If there isn't song in the heart of every school child in the state of Idaho this Christmas, it won't be the fault of Potlatch Forests, Inc. More than 2,000 copies of "Here We Have Idaho" were being mailed this week from the company's offices in Lewiston, to be distributed to each school as a gift "that the children may love the song and be proud of their state."

Covers of the sheet music are symbolic of the University of Idaho and the lumber industry. On the front is a picture of the engineering building at Moscow; on the back a series of views of logging, river driving, transportation and manufacture of lumber and by-products.

Masons Elect And Install

On Thursday evening, December 14, at their lodge hall in Kendrick, the Masonic lodge held their election and installation, with the following taking office: E. V. Weeks, W. M.; F. H. Rider, S. W.; E. A. Deobald, J. W.; Wade T. Keene, secretary; Wm. Freytag, treasurer.

SEEK GOVERNMENT AID FOR LOCAL ROAD JOBS

A resolution seeking to have state and federal agencies give consideration to three projects in Nez Perce county next year was passed on Thursday, December 14, at a joint meeting of the county planning board and the county commissioners.

The first project is the completion of a four-mile stretch between Juliaetta and Kendrick. The adjoining sector, from Juliaetta to Arrow, has been completed at a cost of \$95,000.00.

It was also recommended funds be allocated for improvements and completion of the secondary system from Kendrick, via Southwick, to the Orofino-Cavendish road.

Looking forward to the possibility of re-routing the North and South highway, improvements were recommended for a road connecting the Lewis-Clark highway, one-half mile from Myrtle at Cottonwood creek to Maggie gulch, Gifford and Reubens, connecting with the North and South highway near Coldsprings, two miles from Craigmont. — The Spokesman-Review.

Completion of the Magpie Gulch-Gifford road would connect up with the county road system completed by the planning board, and the expenditure of more than \$40,000.00. — Lewiston Tribune.

Conducted Book Drive

Mrs. M. A. Deobald of American ridge conducted the book drive in that section, going as far as Juliaetta in the search for used (or new) books, for which the owners had no further use, and which they were willing to donate to those less fortunate.

The books were divided into suitable age groups and given out to hospitals, poor farms, orphanages, Salvation Army and other worthy institutions and cases.

Many, hearing of the drive, took books to Mrs. Deobald, and many she went after, in all, driving her car 63 miles in this cause. In all, she received 46 books. These were shipped to Spokane, in the care of radio station KFPY — and Mrs. Deobald received the following letter:

Mrs. Deobald received the following letter from radio station KFPY, to which point the books were sent: "Dear Mrs. Deobald: Received your card the other day, and the splendid box of books came shortly after. It certainly is a fine collection of books, and we want to thank you sincerely for all the trouble you took to get them for us."

Sincerely, Be Hurd."

Mrs. Deobald sincerely wishes to thank one and all who helped make her drive a success.

Idaho Banks Serving

That banks in Idaho are actively serving the credit needs of their state is indicated by figures announced by the American Bankers Association showing that the commercial banks of the state made more than 45,000 new loans totaling \$14,000,000 to business firms and individuals during the first six months of 1939 and renewed 21,000 outstanding loans, totaling \$10,000,000 during the same period.

These figures are based on reports received from 21 banks, or 41 per cent of the 51 commercial banks of the state and make allowance for the concentration of lending activity in the area of Boise.

The 21 banks reported they made 28,050 new loans totaling \$8,804,838 between January 1 and June 30, 1939, and renewed 12,378 outstanding loans totaling \$6,541,603. In addition they reported 297 new mortgage loans to home owners and other real estate owners totaling \$744,780.

The average number of new loans per bank was 1,336 and the average loan was for \$314.

The average number of renewals per bank was 589 and the average renewal was for \$523.00.

The average number of new mortgages reported per bank was 13 and the average mortgage was for \$2,669.00.

A Lot Of Them

Approximately 19,000 magazines, 2,080 daily papers and 10,600 weekly newspapers are currently published in the United States — which is certainly a lot of them.

Closing Date December 31

The county AAA office has recently received notice that the closing date for the acceptance of original 1939 Price Adjustment applications has been established at December 31, 1939. The Latah County Agricultural Conservation Association, Moscow, therefore, cannot accept any original application for payment under the 1939 Price Adjustment Program subsequent to December 31. It is also noted that any claim for adjustment of payments under the 1939 Price Adjustment program must be filed within fifteen days after the check issued under the original application is delivered to the applicant.

WHAT AMERICAN RIDGE FOLK ARE DOING

Miss Annie Corhill left last Thursday for Portland. She expects to return shortly after the first of the year.

Mr. and Mrs. Tom Crosin and family of Lewiston spent the week-end at the home of Mr. and Mrs. Melvin Procunier and family.

Mr. and Mrs. Donald Barnett (newly weds) were given a rousing charavari at the home of Mr. and Mrs. Walter May Saturday night. Mrs. Barnett is the former Alva Kelberg of Troy. They were married at Coeur d'Alene last Monday.

Mrs. Frank Benschoter and son Don and Mrs. Harry Benschoter were Lewiston visitors Monday.

E. P. Roberts and Geo. Davidson and Mr. Berthoff butchered hogs at the Harry Benschoter home Monday.

The ladies on the upper end of the ridge are entertaining at "Gallop-ing Tea" parties.

Mrs. Doris May spent the past week at the Walter Q. Taylor home and is still there, taking care of Mrs. Taylor, who is quite ill.

John Wilson visited Sunday evening at the home of Mr. and Mrs. Geo. Havens.

There will be a program at the school house Friday evening, with a Santa Claus and candy for the children. Everybody welcome.

Moscow visitors Tuesday included Abner Corhill, Mr. and Mrs. Roy Corhill, Mr. and Mrs. John Wilson and daughter, Robert Cain, Mr. and Mrs. Harry Benschoter, Mrs. Sam Bigham, Walter Bigham and Walter Benschoter and Geo. Havens.

Byrad Davidson of Pullman called at the home of Mr. and Mrs. Geo. Davidson and family Tuesday.

Mr. and Mrs. Harley Eichner were Lewiston visitors Saturday and Monday.

George Davidson, Jr., is working in Lewiston during the Christmas holidays.

Mr. and Mrs. Geo. Davidson and family were Lewiston shoppers on Saturday.

Mr. and Mrs. Andrew Cox and Warren Cox were Lewiston visitors Monday.

Mr. and Mrs. Ed. Kent of Genesee were visitors of Mr. and Mrs. Andrew Cox and Mrs. Wm. Cox a couple of days last week.

Mr. and Mrs. Perry Mattoon were Moscow visitors Friday. Bobby and Edward Goldner returned home with them for the week-end. On Sunday their mother, Mrs. Jessie Goldner, was a guest at their home and the boys returned home with her.

Mr. and Mrs. Norla Callison were guests of Mr. and Mrs. Wade Keene of Kendrick Monday evening. Connie Mattoon stayed with Nancy Lee.

Mr. and Mrs. E. P. Roberts were Lewiston shoppers Saturday.

Mrs. Harry Langdon attended the Red Cross class in Kendrick Tuesday. Don Barnett and Walt May called at the Robert Cain home Tuesday.

Mr. and Mrs. Warney May and Warney, Jr., were Lewiston visitors Saturday.

Mr. and Mrs. Clarence Johnstone and Mrs. William Wolf were in Lewiston Saturday.

William Wolf was a Lewiston caller Wednesday.

Mrs. Mary Deobald was a dinner guest of her son and family, Mr. and Mrs. E. A. Deobald, Monday.

Claud Woody of the U. of I. spent the week-end at home with his parents, Mr. and Mrs. John L. Woody.

Harold Roberts was in Lewiston Wednesday.

The Weather And Christmas

The kind of weather we have been having this fall is certainly not calculated to greatly imbue one with the spirit of Christmas, for warm it has been, with a good bit of rain accompanying it. Pussywillows are said to be coming out full tilt — and many of the roses and shrubs about town are still retaining their leaves.

However, Christmas decorations and plans are going on as usual. Edgar Long has erected the big city tree with its colored lights in the Village park, and even though it lacks a snowy background, it is a pretty sight.

The Kendrick Rochdale Company have put out their big star on the side of the building, with its many colored globes, and it attracts a great deal of attention.

WHEAT MARKET ADVANCES TO NEW HIGH FOR SEASON

Domestic wheat markets advanced to new high levels for the current season during the second week in December, the Agricultural Marketing Service states in the Weekly Grain Market Review. Further deterioration in winter wheat, additional advances at Winnipeg as a result of the continued active demand from England and disappointing returns from the Argentine harvest, were the main strengthening influences. Rye was independently firm as trade reports indicated some export business. Feed grains strengthened with wheat with little change in market receipts or in demand for current offerings.

Crop conditions in the United States and Argentine and the more critical political situation in Europe were dominant influences in the general wheat market situation. Drought conditions were gradually becoming worse in the western wheat belt and in central and eastern portions the outlook was little changed. Winter wheat continued mostly fair to good condition in the Ohio Valley, in Missouri, eastern Kansas, as well as Nebraska and eastern Oklahoma. In the northern great plains, eastern great basin and Rocky mountain states, drought remains unrelieved and prospects were poor. Considerable drifting of soil was reported in Wyoming, south Dakota, Kansas and Oklahoma.

The southern hemisphere wheat crop this season will be about 180 million bushels short of last year's harvest if present estimates of production are realized. The Argentine crop now being harvested is officially estimated at 146,937,000 bushels compared with 336,201,000 bushels for the 1938-1939 crop. The Australian harvest, however, is better than last season with the crop estimated at 182,568,000 bushels against 154,426,000 bushels last year. No official data are available on the carry-over of old wheat either in Argentine or Australia. Trade reports, however, suggest a carry-over of around 75 million bushels would be available for export from Argentina during 1939-1940 season and about 150 million bushels from Australia. European demand for both Argentina and Australia wheat has been fairly good and the Argentine government has raised the price of old wheat to exporters from 55c to 60c per bushel FOB vessel. Hostilities in Europe have apparently intensified the European demand for foreign wheat and also resulted in increased British seedings. English farmers have been given every assistance to increase production of food grains. All restrictions on acreage have been removed and the standard price of native wheat has been raised from \$1.05 to \$1.16 per bushel in terms of U. S. currency. Effective Dec. 1, the marketing of home grown wheat is strictly controlled. Registered farmers will sell their grain to approved buyers who are either millers or grain merchants authorized to give certificates under the Wheat Act.

Domestic cash wheat markets turned sharply upward along with futures and most classes sold at \$1.00 or more per bushel in central western markets. The higher prices and need for funds for tax payments resulted in somewhat larger offerings by growers but only small quantities of wheat were reported moving to market. Growers were still making applications for loans and on Dec. 11, nearly 164 million bushels were under loan on farms and in warehouses. This compares with slightly less than 56 million bushels under loan a year ago. Milling inquiry was fairly active and the premiums for cash grain were well maintained. Export trade remained negligible but fairly large quantities of flour were reported sold for export. The indemnity payment on flour was \$1.20 per barrel from Gulf and Atlantic ports and \$1.30 from Pacific Coast ports except to the Philippines where the indemnity was only \$1.20 per barrel.

Cash wheat markets in the Pacific Northwest advanced along with futures with principal classes showing gains of 4/8c to 5c per bushel for the week. At Portland, Dec. 15 soft white wheat was quoted at 86 1/2c; western red 85c and ordinary protein hard red winter wheat at 85c per bushel, all basis No. 1 grade bulk. Protein premiums on hard red winter over ordinary were 1/8c for 11 per cent; 3/8c for 12 per cent; 6/8c for 13 per cent and 13c per bushel for 14 per cent protein. While ordinary protein hard white (baart) was not quoted at 92 1/2c; with 13 per cent at 95 1/2c; and 14 per cent protein at 98 1/2c per bushel. Average protein on 19 cars hard white (baart) tested by the Oregon state laboratory at Portland during the week was 12.56 per cent; low 11.50 per cent; and high 14.50 per cent. This compares with an average of 13.96 per cent on 16 cars a year ago. Average protein on 43 cars dark hard winter tested during the week was 12.53 per cent; low 10.25 per cent and high 15.30 per cent, compared with an average of 12.13 per cent on 38 cars a year ago. Wheat receipts at Puget Sound and Columbia river terminals were moderate at 482 cars for the week. No new sales of wheat were reported made from the Pacific Northwest ports during the week. Prices here were several cents out of line for rail shipment to Midwest markets. Trade reports, however, indicated steady flour business from this area to the southeast. Farmers were not offering wheat freely during the period, on the advancing markets. Mills furnished the principal outlet for current offerings. Wheat mill-feeds markets remained firm.

DR. GEO. W. MCKEEVER

PERSONAL MENTION

Carl Siefert, who is attending the Cheney Normal, came Friday night to spend the week-end with his wife, Mrs. Siefert, public health nurse for this district.

Mrs. Roy Ramey left Wednesday morning for Spokane, where she will meet her mother, Mrs. Annie F. Crosby, of Jacksonville, Florida, and accompany her here, where she will spend the winter in the Ramey home.

Mr. and Mrs. Paul Griffith and Jerry and Mr. and Mrs. N. L. Rhodes of Lewiston were dinner guests in the McCreary home Sunday.

Mr. and Mrs. Oscar Anderson and family of Moscow and Mrs. Daisy Anderson of Garfield, Wn., were dinner guests Sunday in the O. E. Havens home.

Mr. and Mrs. Ira Havens had a dinner guests Sunday Mr. and Mrs. Henry Brammer and son Werner and Mr. and Mrs. George Havens and sons and Erna Wegner.

Theo Shepard spent the week-end here with her mother, Mrs. Stewart.

Mr. and Mrs. James Emmett were Moscow visitors Sunday, spending the day in the E. R. Porter home.

Mr. and Mrs. Kermit Waide and Mr. and Mrs. Darrell Waide and children of Deary spent Sunday in the John Waide home.

Mrs. W. A. Ferryman and mother, Mrs. O. Dumbauld of Juliaetta, were Lewiston visitors Monday.

Tax News Of Interest

John R. Viley, Collector of Internal Revenue for the district of Idaho, today called attention to the fact that December 31, 1939, is the last day for taxpayers to file claims for refund of Federal taxes paid under the Agricultural Adjustment Act and claims with respect to inventories held on January 6, 1936, on which processing taxes had been paid. The time limit for filing these claims originally expired many months ago, but the last Congress extended the filing period to December 31, 1939.

Federal income tax forms covering the calendar year of 1939, will be mailed from the Internal Revenue office in Boise on January 3, 1940, to all taxpayers in Idaho who filed returns for 1938, Viley announced. All other persons who are required to file for 1939, must secure forms from the collector at Boise or the deputy collectors located at Coeur d'Alene, Lewiston, Twin Falls, Pocatello and Idaho Falls.

Failure to receive forms does not excuse the taxpayers from penalties imposed for failure to file a return. The Federal personal exemption is \$2,500.00 for married couples and \$1,000.00 for single persons. State, county and city employees, and public school teachers must now file Federal returns for the first time as the result of action by the last congress.

Collector Viley also announced that all internal revenue offices in Idaho will be closed Saturday, December 23 and Saturday, December 30.

Did you try to buy it in Kendrick?

LATAH COUNTY IN LITTLE DANGER FROM WEEVIL

Although this is a "weevil year" for grain in storage, according to agricultural experts, Latah county is likely to have little infestation of wheat stored in farm granaries as collateral for commodity loans.

Such was the opinion this week of J. Ralph Naylor, chairman of the Latah County Agricultural Conservation Association.

We have had reports that weevils are especially bad in the mid-west this winter, because of the mild winter weather and favorable propagating conditions last year. Some weevils have been found in Idaho recently, but not to a large enough extent to cause alarm.

The county AAA committee is responsible for seeing that all wheat stored in Latah county as security for farm loans from the Commodity Credit Corporation, is protected from such hazards as weather, burglary, fire and insect infestation.

Loan wheat is inspected at frequent intervals to see that it does not deteriorate. We have been warned that weevils are prevalent this winter and the inspection will reveal them. Then it will be the responsibility of the farmer who has borrowed on the wheat to fumigate it and rid it of the pests.

The saw-toothed beetle, or "bryan bug" is the principal offender in Idaho. This type of weevil breeds and infests the bins only, never getting out into the field. New bins, and bins that are thoroughly cleaned each year should not be infested.

Use of heavier than air fumigant is effective in controlling weevils. Precautions should be taken that water does not enter the bins to bring about heating of the wheat, which encourages activity of the pests.

THUMB-NAILS OF IDAHO HISTORY
By Glenn Balch

The Four-Million-Dollar Jack

Undoubtedly the most famous animal that ever trod Idaho trails was a little mouse-grey donkey known as "Kellogg's Jack." For years he was the toast of the Coeur d'Alenes. When he died he was given an elaborate and swanky funeral, and for many years thereafter his likeness in oil, held the place of pictorial honor in Dutch Jake's famous sporting establishment in Spokane.

"When you talk about the Coeur d'Alenes
And all their wealth untold,
Don't fail to mention 'Kellogg's Jack',
Who did that wealth unfold."

Kellogg's Jack was no ordinary animal. Jim Wardner says he was a "diminutive but thoroughbred specimen of the Spanish jackass." His head was nearly as large as his body. He was cunning and tricky, but withal "the best pack mule in the Coeur d'Alenes."

The donkey was really the property of Cooper and Peck, although at the time of this story he was in the possession of N. S. Kellogg. Cooper and Peck had grub-staked Kellogg and his partner, Phil O'Rourke, and use of the jack was part of the bargain. The young Irishman, Con Sullivan, was along, too.

The party, cursing the usual luck of the prospector, camped one night at the mouth of a creek near the Mullan road. The donkey was turned loose to graze. In the morning he was nowhere to be seen. Roundly condemning this truancy, the men set out to find the animal.

Tracks and signs led up the creek, through an exasperating tangle of down timber. Even the men had difficulty getting through. There was no apparent reason why the donkey should have selected this direction no reason why he should have continued over the difficult barriers—but he did—and Kellogg and his partners were forced to follow.

Eventually they came to the canyon proper, where the country was more open, and there, up on the side of the hill, stood the jack. He was frozen on a point, his long ears thrown forward. The men climbed up, ready to deal with the truant vigorously. Then they saw what he was looking at so intently. It was a great broad splash of mineralized rock that reflected the sun's rays like a mirror—good rich galena ore right on the surface.

It is reported that the jack heaved a big sigh of relief when presently he was certain the men had seen his find. They called the ground where the animal stood "Bunker Hill" and the big chute they named "Sullivan," after the Irishman.

The property proved rich beyond all expectation and later a lawsuit was had over ownership. The court ruled that since the jack, who actually discovered the mine, was owned by Cooper and Peck, these men were entitled to "a half interest in the Bunker Hill and a quarter interest in the Sullivan."

As a result of this the little Spanish donkey became known throughout the Coeur d'Alenes as "the four-million-dollar jack."

It is said that half the unhappiness in the world is caused by the failure of plans which were unreasonable in the first place.

We understand a prominent New Deal professor joined a nudist colony and then resigned because there was no chance to pad the figures.

Cause of 'Singing Sand'

Problem for Geologists
"Singing," "musical" and "barking" sand are names given to certain sands and gravels which emit peculiar sounds when shaken, stirred with a stick, walked upon, or driven over with a vehicle.

There is a difference of opinion among geologists as to the cause of musical sands, notes a writer in the Indianapolis News. Strictly speaking, the sound produced is not musical. According to the United States geological survey, it is better described as something between a crunch and a squeak, similar in some respects to the sound produced by snow when it is trodden upon or driven over in cold weather. But it has, as a rule, a fairly definite pitch and a tone relatively pure, and therefore, while it is not a musical note, it is more than a mere noise. Such sand was known to the ancients and is mentioned in the works of many early writers.

Marco Polo, the celebrated traveler, found singing sand in the deserts of central Asia. A hundred or more localities where the phenomenon has been noted have been described or listed in geological literature. It is found chiefly on beaches where it is usually confined to the dry relatively firm sand above the ordinary water level but moistened by the waves during storms or high tides. Beach sand that is continually moist, as well as the loose dry sand heaped by the wind beyond the reach of the waves, generally does not "sing." However, occasionally musical sand is found in dunes and in deserts, far from any body of water, where all the sand is perpetually dry and is constantly moved about by the wind.

The phenomenon seems to have no relation to the composition of the water, for singing sands occur on shores of the ocean, of salt lakes and of fresh lakes. Nor does it appear that the shape of the grains forming the sand and gravel is responsible for the phenomenon. Some musical sand consists largely of sharp, angular grains, with few smoothly rounded particles, while some consists almost wholly of even, smoothly rounded and well-polished grains.

Some specimens of singing sand retain their "musical" property after being kept in cans, bottles or sacks for years, whereas other specimens completely lose it. Two investigators found that nearly all samples, when shaken or rubbed together for a considerable time, gradually lost their musical property until it finally disappeared completely.

People Require Tons of Food, Drink in Lifetime

Do you realize that if you live to be 70 you will have consumed 1,275 times your own weight? asks a writer in London Answers magazine.

The average person requires over 100 tons of food and drink during his lifetime.

Every day 1 1/2 ounces of tea is needed for you, so that by the time you are a septuagenarian a ton of leaves has brewed 10,000 pints of tea for your delectation.

Two tons of bacon and 12,000 eggs are needed, too, for your nourishment during that period, not to mention the beef from 20 full-sized bullocks, 8 tons of potatoes, 6 tons of fish, half a million green peas, and enough lettuce to carpet a tennis court.

Upon your lifetime's loaf, weighing nearly 15 tons, you will spread a pat of butter weighing over 2 tons, and your accompanying wedge of cheese will weigh some 3 cwt.

Presidents as Slave-Owners

Ten men who have occupied the presidency were owners of slaves. They were Washington, Jefferson, Madison, Monroe, Jackson, Tyler, Polk, Taylor, Johnson and Grant. The first eight of these were slave-owners in the full sense of the term and most of them had slaves while holding the office of President. Andrew Johnson bought a few slaves whom he kept as personal servants, but he never sold one of them. Ulysses S. Grant was at one time joint owner of at least one slave and accordingly was technically a slave-owner. After his marriage his father-in-law presented a slave boy to him and his wife.

Gathering Camel's Hair

The manner in which camel hair is secured is unique and interesting. The hair is not sheared, plucked or cut off. In the springtime the camel sheds its hair, and in the trail of caravans there follows a man whose job is to gather up the clumps of hair as they fall, placing them in a basket on the back of the last camel in the caravan. The hair is usually sold in the first town the caravan reaches, eventually being transported over desert and mountain passes to various dealers in the shipping ports of China, where it is sorted for shipment to the western world.

Snow and Blue Geese

Unlike Canada geese, the snows seldom fly in V-formation. Adult snow geese have pure white bodies with black wingtips, with pink or pale purplish bills. Blue geese, about the same size as snows, have white heads and necks, grayish-brown bodies (not blue as the name indicates), dark red bills and purplish-red legs. The young are sooty-gray or brown.

FARM TOPICS

URGES RUBBER TIRES FOR FARM TRACTORS

Work Faster, Rutgers Researchers Find.

By E. R. GROSS
The rubber tire constitutes one more step in the progress of farm machinery. It costs about the same to operate a tractor at part load as at full load, and tractors on rubber tires work faster, more economically and last longer than they do on steel, it has been determined by tests at Rutgers university.

Farm machinery and wagons also have lighter draft on rubber. The rubber tire increases the effectiveness of the machine and the operator by making it possible to do more work in less time and with less wear and tear.

The farmer is interested in tractor use because it is cheaper to feed a tractor during the time of operation than to feed horses all the time. This is one of the reasons why tractors have superseded horses to so great an extent. Other reasons include: The tractor conserves man time; it does not need to rest at night; it can work in extreme summer heat; it reduces farm chores; it requires little attention when not working. These things the farmer recognized and appreciated as soon as he learned that he could place dependence in the tractor.

The tractor is being improved steadily. Additional operating speeds and rubber tires are among the important improvements made so far. The tractor will travel faster with less slippage and will pull more with less fuel on rubber tires than on steel rims with lugs. This is a general statement but conditions vary so much for different jobs that one cannot reduce it to an exact per cent of extra power and fuel or time saved.

Rubber tires are also being used on other farm machines and wagons. They reduce draft and make it possible to pull heavier loads with the same power. The rubber tire has opened new possibilities of tractor loading, using the right size machine, combinations of machines and selecting proper operating speeds. The greater use of high gear for field operations and for hauling on the road is now recognized. So, with rubber-tired tractors, farm machines and wagons, the farmer can work faster, save time and fuel and, at the same time, reduce the jolting and strain on equipment generally increasing its life.

American Oats Output Exceeds Other Nations

The United States' oats crop, like our corn crop, far outranks that of any other nation in the world. According to reports of the United States department of agriculture the American oats crop for 1937 totaled 1,146,258,000 bushels. This was 38.56 per cent of the world total of 4,429,000,000 bushels.

In the drought year of 1936 the United States produced 785,506,000 bushels, or 19.4 per cent of the world crop of 4,043,000,000 bushels. In the preceding year domestic production reached 1,194,902,000 bushels, or 39.4 per cent of the world crop of 4,715,000,000 bushels.

Other leading oats producing countries in 1937 were Germany, with 404,304,000 bushels; France, 313,987,000 bushels; Canada, 291,622,000; Poland, 166,034,000; United Kingdom, 165,000,000; Czechoslovakia, 94,545,000; Sweden, 86,475,000; Argentina, 48,915,000, and Finland, 46,159,000. Accurate figures on the Russian oats crop are not available but it is generally considered to be among the largest.

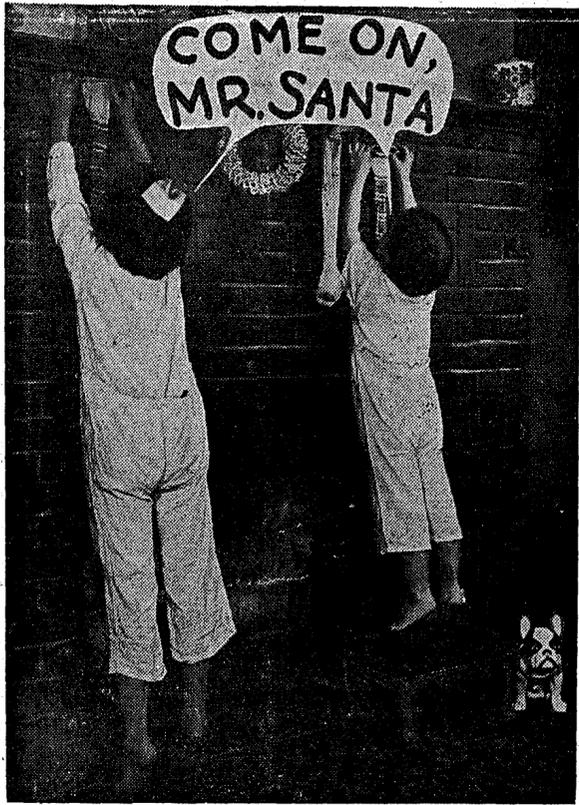

In bushels produced the oats crop ranked second to corn, which totaled 5,050,000,000 bushels. The other principal crops were wheat, barley, and rye in that order.

Hard Corns on Fowls

Hard corns may be seen upon the feet of many old fowls without appearing to cause the bird any inconvenience. When abscesses form through infection, however, the condition may be more serious. The commonly advised curative measure, says the Rural New-Yorker, is to open the abscess freely, flush out the cavity with some simple disinfectant, and place the affected bird upon soft, clean litter. Joint abscesses may be caused by tubercular infection of the joint, when no treatment is indicated except to get rid of the possible carrier of the infection to healthy fowls.

Farm Population

Farms continue to be the chief sources of increased population in the United States. More than 719,000 babies were born on farms during 1937, and 341,000 of the farm population died. This leaves a net increase of 378,000 persons. In addition to this number, 238,000 more people moved from farms to town than those that moved in the other direction. The net increase in farm population in 1937 was, therefore, 90,000 persons.

A Personal Christmas Present
by Helen Waterman

MRS. GREENE sighed as she rummaged through the old trunk for the Christmas decorations. Sighed, and also felt ashamed. For why should she be lonely, with two fine grown sons, successful enough to satisfy any mother?

But Mrs. Greene missed her tousled-headed lads, and as she fingered the battered drum, the outgrown mittens, the books and souvenirs, she felt a deep pang that no one needed her any longer.

She found the decorations and bustled down. Mary, the housekeeper the boys provided, had finished. There was really nothing left to be done. She thought of other tired Christmas eves, and could stand the oppression of memories no longer. "I'm going out," she said, and with no other explanation set out into the night.

It was crisp and starlit, and she walked far. The light and warmth of a cafe attracted her, and she stopped for tea. Over the rim of her teacup her eyes met those of a small boy just outside the window. He drew back shyly, leaving a moist spot where his nose had touched the pane. He looked very hungry, not just the healthy hunger which her sons had brought home from school, but as though he were really in need. Mrs. Greene smiled and beckoned. "Come in," she invited. The boy shook his head, started to go, but the temptation of warmth and food was too much.

"That's better," Mrs. Greene approved, when he was seated opposite her, with a great bowl of soup. "I just needed someone to talk to." And before long she had heard the boy's whole story. Having no folks, he lived with an uncle, but he wanted to get out on his own. There

He Sure Was Here

The CHRISTMAS HARVEST
By ALSON SECOR
In Successful Farming

OLD SANTA CLAUS—
Some don't believe in him because He makes them spend.
They like to borrow, but never lend
That Christmas cheer
Which permeates this time of year.

*They are tight-fisted cynics, these. They never know how presents please
The little kids, and others;
The sisters and the brothers;
The care-worn dads and weary mothers.*

*They never learned to live
Because they never learned to give.
You've got to plant before you reap.
If all you get you keep
Your soul gets barren, sterile, sour,
It takes the power
Of cheerful giving
To give a zest to living.*

were so many little ones, and after all, he didn't really belong. He'd get by. He knew where he could get a paper route right now, if he only had a bicycle.

"I know where there's a bicycle standing useless in an attic corner," said Mrs. Greene. "It belonged to my sons. You shall have it."

His shining eyes made the whole

And Before Long She Heard the Boy's Whole Story.

night seem brighter. They left together. There was more than the bicycle. It seemed a shame, Mrs. Greene said, for mittens not to be used, and these books, now, and—well, why not? Mary would be scandalized, and her sons might not understand—but there was their room, never opened now—

"Listen, lad," she said. "I've been aching my heart out for a son. And you need a home. Couldn't we give ourselves to each other for a Christmas present? Won't you be my son?"

"Geel!" cried the boy, voicing a wonder of love and gratitude. "You can sure have me, and Merry Christmas! Merry, Merry Christmas, Mother!"

ENGLISH PLUM PUDDING

THERE are those to whom Christmas dinner would not be Christmas dinner without ending with plum pudding. Scald 2 1/2 cups stale breadcrumbs with 1 cup cream. Cream 1/2 pound beef suet and add to it 1/2 cup brown sugar, 1/2 cup corn syrup, 5 well-beaten eggs, 1/2 pound chopped citron, 1/2 pound currants, 2 teaspoons baking powder and 1/2 cup brandy or rum. Turn into a buttered mold and steam for 24 hours, 12 hours one day and 12 hours the next. Turn into a tin and seal until ready for use, when it must be reheated for serving. Serve with a sauce of choice.

Proves Faithful Dog Is 'Four-Footed Missionary'

If human beings would study the dog this world could be a far happier, more peaceful place, according to a British titled dog lover, the duchess of Hamilton, in an article, "The Dog Is a Four-footed Missionary," in the A. K. C. Gazette. Believing that the dog approaches closer to the true principles underlying Christianity than does any human agency that has tried to promote good will among mankind, she cites many instances of the dog's blind devotion and unselfishness, writing as follows:

"Before and after the Christian era, the dog gave many outstanding examples of fidelity which have come down through history. We all know the story of Ulysses' dog as described in the Odyssey, who, neglected and despised, was the only one who recognized and welcomed his master after an absence of many years.

"When Titus Sabinus was the chief conspirator in a plot against Nero, he was flung into prison, an outcast to whom no human heart extended pity or sympathy. But there was a heart that felt intensely. His little dog remained outside the prison door and refused to be driven away until the time came for Sabinus to suffer and die. Sabinus was flung to his death. The dog struggled madly to get through the crowd. He succeeded, and ran to his master, howling piteously.

"Someone in the crowd threw a piece of meat to the dog, but the little animal, in his devotion, refused to eat himself and laid the meat on his master's lips. When the body of Sabinus was flung into the river, the dog sprang in and tried to hold up his master's body and swim to shore. But worn out at length, he sank; and the Romans of that day learned the meaning of 'faithful unto death.'"

Benjamin Franklin Had Interest in Home Town

Benjamin Franklin's interest in architecture and pride in the beauty of his home city we find in a paragraph from a London newspaper in 1779, says the North American Review:

"Doctor Franklin has recommended to congress, to beautify Philadelphia, all the improvements adopted in London within these 20 years, in respect to lighting, watching and paving. Likewise to modernize the roofs of the houses, to slate them and new sash them in the present English manner. He has also sent them the ingredients of Leardet's newly invented stucco, advising them to face all their brickwork with it. As Philadelphia has the most regular plan and the finest streets of any city in the world accompanied with the noblest rivers in the universe, trade and the curiosity of rich Europeans will render it the wealthiest town that ever existed, for which purpose great encouragement will be given to a school of architecture, that their buildings may be beautiful and not, like London, ill placed. Their first attempts will be a church, equal, if not superior to St. Peter's at Rome, with walls so thick as to admit of the dome being all stone, which St. Paul's in London should have been. No sculpture or paintings are to be introduced but what shall be adapted to the architecture, and as fine as those in St. Peter's in Rome. It is the hope that the philosopher's zeal will stimulate England to improvements of equal consequence."

'Dun' Written on Clay

In Babylon, in days of old, they used to write their letters on clay tablets—the first "printed" words known to man. Here is the translation of a letter written in Babylon, on a clay tablet, 4,000 years ago, and dug up—literally. It is from a Mr. Sin-urish to a Mr. Elmeshum and reads, according to Edward Chiera in "They Wrote on Clay": "To Mr. Elmeshum speak: Thus saith Mr. Sin-urish: May the God Shamash grant thee life. You say you do not know how you can pay back more than one bushel of grain out of the five bushels which you are supposed to give me. If in truth you are my brother, repay at once the grain which you mention so that my field will not lie fallow. Further: I have written you about the money of Mr. Zidanum. Collect it and bring it also."

Mighty 'White Dwarfs'

In the depths of space are a number of planetary nebulae—clouds of stars—the center stars of which are the hottest known to astronomy. Abnormally hot and abnormally small, these center stars are known as "white dwarfs." One such is about half the size of this earth, but is so dense that it contains 1,000,000 times as much substance—its density being 36,000,000 times that of water. In other words, while a cubic foot of water on earth contains 1,000 ounces, a cubic foot of matter in this star contains 1,000,000 tons. A pin head of this starry matter would crush a man to death, says London Tit-Bits magazine.

Applying the Term Free Lance

Sir Walter Scott and later writers applied the term free lance to professional soldiers of the Middle Ages whose services were purchasable by any feudal lord willing to pay the required price. Sometimes the free lance was a roving knight who had a small band of armed horsemen under his command.

FARM TOPICS

NAIL ASSORTMENT HELPFUL ON FARM

Cost Is Negligible, but Uses Numerous.

By E. R. GROSS
The well-equipped farm shop includes an assortment of nails so that the proper size and type may be chosen for each job, whether it be repairing a building, constructing a fence or mending a fragile chair, says the agricultural engineering department at the New Jersey college of agriculture, Rutgers university.

The cost of an adequate variety of nails is negligible. From one-half pound to three pounds, according to size, of each of a dozen varieties makes an excellent kit of nails. Tin cans are handy containers.

The sturdiness of the nailed joint depends upon the friction between nail and wood, hence it is determined by the choice of size and kind of nail, the number used and the proper assembly of the wood parts. Good nailing is important, not only to get lasting results, but also to avoid accidents due to improper nailing.

Using the proper length of nail requires that two-thirds of the nail should penetrate the piece of wood receiving the point. Thus the length should be at least three times the thickness of the outer piece. When thin materials prevent proper penetration, use additional nails to provide an equivalent area of surface contact in the wood receiving the point.

Farm practice allows "clinking" nails which penetrate through the wood. Bending the point of the clinched nail across rather than with the grain of the wood greatly increases the strength of the joint. A firm blow in clinching should form a hook imbedding the nail point in the wood. Use plenty of nails as the strength of the joint increases directly with the number of nails. When the wood tends to split, use boxing nails which are thinner than common nails.

Whenever the use permits, drive nails perpendicular to the surface. The slanting drive to "draw the wood" has little advantage. "Shiners" or nails coming out of the side of the piece, weaken the joints and are likely to cause injury, hence should be removed at once. Nails in green wood, wet wood, or those driven into the end of the grain are not effective. Use dry, seasoned wood. Properly constructed joints usually permit driving the nails into the side of the grain and not the end.

Consider Price Reports In Planning Egg Program

In urging poultrymen to study monthly egg prices before outlining their year's management program, F. P. Jeffrey, poultry instructor at the New Jersey college of agriculture, Rutgers university, offers some figures which indicate that large eggs are relatively more valuable in the fall, while small eggs are generally more profitable during spring months.

"According to the United States department of agriculture figures," he says, "53 per cent of the annual egg production occurs during the four spring months of March, April, May and June. Management factors such as use of artificial illumination in the laying house and date of hatch bear some relationship to the seasonal distribution of the egg yield.

"During the last eight years, there has been a tendency for a rapid decline in the egg market during December and January because of greater receipts during these months. At New York, in the period of 1924-30, 5.6 per cent of the annual receipts of eggs arrived during January, while in the period of 1931-37, 7.4 per cent arrived during the same month."

Vitamins for Better Eggs

That the quality as well as quantity of vitamins in hen rations affects the quality of eggs produced is the conclusion of Dr. F. M. Bethke and associates after careful investigation at the Ohio experiment station. Among the results obtained were: 1. A ration low in vitamin D caused a low egg production, poorer shells, and low hatchability. 2. Good cod liver oil was superior to ergosterol as a source of vitamin D. 3. Hens getting the most vitamin D produced eggs richest in this substance. It was also concluded that the vitamin D secreted in the egg by the hen is the same biological form as that which she ate.—Country Home magazine.

Lights for Poultry Houses

Once a mining post, Fort Yukon is now chiefly noted for its fur trade. Like other towns of Alaska, its chief problem used to be its chickens, for those canny birds tried to take advantage of their sunlit nights and to work and scratch around the clock. Distracted by their worthy efforts, they lost weight and would not lay, until Alaska solved the problem by providing them with houses which are artificially darkened during the night.

THUMB-NAILS OF IDAHO HISTORY

By Glenn Balch

Some of the largest and richest mineral strikes ever made in the west were made in Idaho. Time was when the name "Idaho" was almost synonymous with gold. People actually believed that if once they could reach the big strike areas they could pick up nuggets by the bucketful from the stream beds. Few found nuggets but many did locate rich claims and wealth flowed freely throughout the region. There was a period of unbelievably rich discoveries: Canal creek find in the Clearwater region by Pierce; the Boise Basin discovery by the Grimes party; Warren's strike in the Salmon river drainage; the amazing outcroppings of the Coeur d'Alenes. The era sparkles with romantic

names such as Buffalo Hump, Elk City, Ora Grande, Florence, Warren, Placerville, Idaho City, Leesburg, and others.

A strike in those days was something to run to. One stampede after another occurred. Boom towns mushroomed unbelievably. In those days nobody was barred. All the capital a man needed was a shovel, a fifty-cent gold pan and a strong back. Many found riches; many didn't. Some made fortunes, many lost everything. Even in those days mining was a big gamble.

It is said on good authority that the Salmon river drainage basin is today the greatest potential gold field in the world. Recognized geologists have advanced the opinion that mineral deposits now in the area far surpass in actual value that which has been taken out. There is conclusive evidence that

minerals and metals still constitute one of Idaho's greatest resources. The future of Idaho and the future of the mining industry are inseparably linked.

But the whole picture with regard to mining has drastically changed. Riches are no longer lying on the surface, to be taken by a pick, a pan and a strong back. Mining has become a science, a life-time profession. The ores lie in the bowels of the earth, and skill and work—not by one man but by scores and hundreds laoring with the assistance of machines and power-driven tools—are required to find them. Mining has become a problem of arriving at a delicate balance where the output is sufficient to show a profit over the cost of production. The question is no longer one so much of finding ore but rather of handling it profitably, and this in turn

involves perplexing problems of volume and overhead.

One mining engineer has said: "Big mines are no longer found, they are made." He characterized the expensive process of investigating mining property with the practical assertion: "It costs \$25,000 to walk up on a dump." Many thousands of dollars are required to develop a big mine today, and extreme care and judgment is necessary to successful operation.

The mining fraternity has evolved statistics which show that only one out of every five carefully selected prospects turns out to be a successful venture financially.

Thus the great mountainous section of central Idaho challenges the finest brains and skill of a great industry.

Bogus Dust

Someone discovered many years ago that "all that glistens is not gold," but every generation produces new suckers who have to find it out for themselves.

Back in the days when the Clearwater country and the Boise Basin were pouring forth their riches in gold, a unique and clever method of counterfeiting was evolved. The currency of the day was gold dust, and trade was conducted in pounds and ounces. A miner making a purchase poured from his buckskin poke until the scales balanced, then took his goods and went away while the merchant dumped the dust into the tin can kept handy for the purpose.

The merchants early learned the trick of testing dust with nitric acid to establish its purity, and it would seem that to create a passable substitute would be a difficult task. However, no task that promises easy riches is too difficult for crooks to attempt, and even when gold was fairly flowing from the gravel bars merchants began finding spurious dust in their strong boxes.

It is said that most of the bogus dust was manufactured in San Francisco. The process was to cut lead bars into small pieces, resembling in size the gold particles taken from the streams, and pass it through a galvanizing process that would cover the surface with this coat of gold. Dust so made, it is reported, would even withstand the well-known acid test for a short time.

One of the favored practices for disposing of dust of this character came under the heading of "leaving money for a friend." One crook would go to a merchant and tell him that he wished to leave a certain amount of money for a companion. The amount would be weighed out in gold dust, which in this case happened to be lead coated with gold, and the unsuspecting merchant would dump it into his can, the common receptacle for all dust he received.

At a later date the "friend" would put in an appearance, ask if any money had been left there for him. On being informed that it had, he would ask that it be delivered and the merchant would weigh it out of the can. If business in the interim

had been sufficient, the second crook stood a good chance of not receiving any of the spurious dust that had been left by the first, and the merchant would not be aware of the deception until he sent his accumulated dust to the mint.

The tricks of this counterfeiting were soon learned, however, and the shrewd merchants were not long in convincing themselves of the identities of the offenders. One of the first duties of the vigilantes, after their organization, was to call upon these unwanted characters and issue them gun-backed invitations to leave the country within "twenty-four hours." It is significant that most of them disappeared while still having a comfortable margin of time before the "dead-line."

London's Oldest Bank

London's oldest bank is Hoare's, the age of which cannot be certainly stated; but there is in existence a receipt dated 1633 for money deposited there in that year with Lawrence Hoare, who was in business as a goldsmith.

Society of Students

The Swiss legation says "Zofingue" (in French), "Zofingen" (in German) is a small town in the canton of Argovie (Switzerland), whose name has been given to a society of students which was organized more than a hundred years ago and has chapters in all the universities of Switzerland. —Washington Star.

JULIAETTA ITEMS
 The Juliaetta School has been increased by the addition of two N. Y. A. students. These students, Jack Moe and Betty Scott do all office work to be done at the school.
 The Epworth League is going to carol in Kendrick and Juliaetta Saturday evening beginning at 7:30. Christmas Eve, the league is having a spiritual program of songs and readings lead by Bonnie Albright.
 The Juliaetta High School Student body gave the play, "Good Gracious Grandma" last Wednesday evening. From reports we received everybody got their money's worth of laughs.
 Mr. and Mrs. Otto Schupfer and daughter Marian were visitors in Spokane Wednesday.
 Glen Stevens, Mr. and Mrs. Marion Stevens, Mrs. Hoisington, and Clarence Heimgartner, all of Juliaetta left Monday morning Dec. 5, for Los Angeles until after the New Year.
 Mr. and Mrs. Ted Taylor of Moscow were Sunday visitors in the Mrs. J. C. Groseclose home.
 Mr. and Mrs. John Glenn were Sunday dinner guests at the E. K. Carlson home Sunday.
 Mr. and Mrs. E. R. Carlson and Lester Stead were Lewiston visitors Monday.
 Mrs. Halliday, John and Janet were Lewiston visitors Monday.
 Mrs. Louis Martin left last Sunday for Seattle where she will spend the Christmas holidays.
 Louis Martin was a dinner guest of Mr. and Mrs. Chester Westling Sunday.
 There will be a community program, to be given at the High school auditorium on Thursday, Dec. 21. The school is giving the program. After the program, treats will be given out for the children. Everyone is welcome.
 Mr. and Mrs. Claud Clark were host and hostess at a bridge party given in their home Saturday evening. Those present were Mr. and Mrs. Wayne Barney, Mr. and Mrs. W. Grantham, Mr. and Mrs. Eugene Taylor, Mr. and Mrs. M. C. Halliday, Mrs. Ed. Carlson and Mrs. Margaret Covington.

THINK IT OVER
 F. R. Stevens
 At this season we turn from serious political problems to do honor to the Prince of Peace.
 All God-fearing people now look to the Christ of the Christian world, the gentle teacher whose words give strength and freedom.
 Standing before the Temple in Jerusalem He gave the world one message that was first understood in all its purity by founders of our country: "Render therefore unto Caesar the things which are Caesar's and unto God the things that are God's."
 This message was ignored when the Romans burned the Christians at the stake and when Spain banished the Mohammedans. It was ignored again when the Spanish Inquisition brought terror and suffering and when the Catholics were persecuted in England. Even nearer home it was ignored when Colonial Massachusetts executed the Quakers and when Hitler drove the Jews from their homes to be scattered over the face of the earth. These black spots disgrace the history of human development as surely as they retard our approach to Freedom.
 The founders of our country clearly heard that message from Jerusalem over 1700 years of wars and persecutions. It came to Patrick Henry in the House of Burgesses; to Jefferson at Monticello; to Washington at Valley Forge; to the mass of patriotic soldiers of the Continental army. With that message

NOTICE OF MEETING

came the strength to found a new nation based on the principle that a man's religion is his personal right —beyond the reach of law. Into this nation's foundation stone is written: "Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof." Let us lay aside as far as possible our cares for the day and in happiness do honor to him whose message laid the foundation of our freedom and to the God from whom will come strength to maintain it.

FAIRVIEW ITEMS
Entertain In Honor of Anniversary
 Mr. and Mrs. Wilber Corkill entertained at a pinocle party Thursday evening in their home in honor of their second wedding anniversary. Three tables were in play. High score for the ladies went to Mrs. Paul Dagefoerde, and high for the men to Pete Stump.
 Refreshments were served at the close of play.

 Among the Lewiston visitors Tuesday were Mr. and Mrs. Hugh Parks, Mr. and Mrs. R. E. Woody, Mr. and Mrs. Albert Heimgartner and Mr. and Mrs. Eldon Heimgartner.
Bad Weather — Slow Driving
 Fog and rain, slippery roads and poor vision are now due to make travel along the highways more hazardous.
 Several bad accidents have already occurred by reason of fog. It is well to remember that dimmer lights give protection in fog at dusk. There is one rule to observe always—as vision grows less, speed should also grow less. If you can't see where you are going—don't go. If you must travel keep over on your own side of the road and be content to creep along.
Afternoon Bridge Club
 The Afternoon Bridge club met at the home of Mrs. Lowell Mason Wednesday afternoon, with Mrs. F. M. Long, Mrs. L. D. Crocker, Mrs. O. E. Havens, Mrs. John Henry and Mrs. Silvie Cook as guests.
 Mrs. F. M. Long won high score and Mrs. Harold Thomas low.
 Delicious refreshments were served by the hostess at the close of play.
Wayne Herres Ill
 Word has been received in Kendrick of the illness of Wayne Herres, who has been confined to his bed since the first of this week.
 Texas agricultural experts have isolated the poisonous principle of the "loco" weed and now they call it "locoine."

HAROLD THOMAS, Editor

MERRY CHRISTMAS

EVERYBODY

Most of the Jones's Sunday motor trip had been marred by a violent quarrel. On their homeward journey they passed a pasture just as a donkey brayed loud

and long.
"Is that a relative of yours?" he asked spitefully.
"Only by marriage, dear," she replied sweetly.

Model: "The artist made me pose with a rifle in my hands."
Another: "Is he doing a war picture?"
Model: "No, he doesn't trust himself."

"Was your wife's slimming diet a success?"
"Rather—she disappeared completely last Friday!"

The oddest girl you ever saw
Is young Mary Carters—
She wears a smile upon her lips
And mouse traps on her garters

He: "You've a faculty for making love!"
She: "Oh, no—just a student body!"

Kendrick Theatre FRI., SAT., DEC. 22nd-23rd

LITTLE BEAR RIDGE

Tuesday night the "galloping tea" members gathered at the John Bohman home. Those present were Mr. James Benjamin, Mr. and Mrs. John Bohman, Mr. and Mrs. Gunder Relerson, John Thomas, Katherine Ward and Mrs. Boyer Nilson. The evening was spent in visiting and playing cards.

John Thomas, Jr., visited in Troy Thursday.

The "galloping tea" gathered at the John R. Johnson home Thursday evening. Those present were Mr. and Mrs. John Bohman, Mr. and Mrs. Harry Arneburg, Mr. and Mrs. Leonard Nelson, Mr. and Mrs. Gunder Relerson and Mr. and Mrs. John A. Thomas. The evening was spent in playing cards.

Friday Roy Thomas made a business trip to Kendrick and Joe Nilson and Gunder Relerson made a trip to Troy.

Joe Nilson spent Friday night at the John Thomas home.
Mrs. Harry Arneburg attended the Auld Home Ex. Xmas party at Leo Arno's on American Ridge Friday afternoon.

John Thomas, Jr., spent Saturday in the Gunder Relerson home.
Mr. and Mrs. John Thomas and three children and Katherine Ward went to Lewiston Saturday. Katherine Ward staying over the weekend.

Sunday the "galloping tea" gathered at the Harry Arneburg home. Those present were Mr. and Mrs. John R. Johnson and children, Mr. and Mrs. John Thomas and children, Mr. and Mrs. Gunder Relerson and children, Mr. and Mrs. John Bohman, Mr. and Mrs. Leonard Nelson and son Larry. The day was spent in playing chinese checkers, cards and visiting.

Willis Arneburg spent Sunday evening in Troy.

Mr. and Mrs. Gunder Relerson and two children, Mrs. John Benjamin, Mrs. Boyer Nilson, Mrs. Laura Emmett helped sack candy at the Jim Benjamin home Sunday evening for the Yellow Rose school.

The "galloping tea" gathered at the Jim Benjamin home Sunday night. Those present were Mr. and Mrs. Harry Arneburg and son Orland, Mr. and Mrs. John Bohman, Mr. and Mrs. Leonard Nelson and two children, Mr. and Mrs. John Thomas and three children. The evening was spent in visiting, playing cards and chinese checkers.

John Thomas Jr., and Roy Thomas made a business trip to Troy on Monday morning.

Willis Arneburg visited in Troy Monday evening.

THIS AND THAT ABOUT FRIENDS AT CAMERON

The teacher and pupils of the Cameron school will present their program for Christmas at the school house on Friday evening, December 22. Everyone is cordially invited.

Among the Lewiston visitors last week were Mr. and Mrs. August Brammer, Mr. and Mrs. Carl Koepf, Mr. and Mrs. Otto Sillow, Mr. and Mrs. Henry Wendt and Mr. and Mrs. F. W. Schoeffler.

Mr. and Mrs. Walter Denner, Tom and Martin Denner were Sunday visitors in the John Schwarz home.
Mr. and Mrs. Edwin Mielke and Ted Mielke were Orofino visitors on Monday.

Miss Emma Hartung and Mrs. Ida Stoneburner entertained at a pinocle party Friday evening. High scores were won by Mrs. Otto Schoeffler and F. W. Schoeffler, and the consolations by Miss Lily Henningsen and Gus Kruger. The "galloping goose" awards went to Mrs. G. F. Cridebaugh and August Brammer. A delicious lunch was served by the hostesses at the close of play.

Mr. and Mrs. Ervin Lohman and Mr. and Mrs. Edwin Mielke spent Sunday evening with Mr. and Mrs. Leo Lohman.

Helen, Glenn and Harry Newman entertained High school friends at a pinocle party Saturday evening, with eight tables in play. High scores for the evening were awarded Laurene Craig and Ervin Draper. Low scores went to Myra Kanlikkeberg and Harold Brammer. The "galloping" was won by Betty Boyd. A dainty lunch was served after play.

Among the Lewiston visitors on Monday were Mr. and Mrs. F. W. Newman, Mr. and Mrs. Glen Wegner and Mr. and Mrs. Edwin Mielke. Willard Schoeffler, F. W. Newman and Helen Newman attended the basketball game at Lapwai Friday evening.

PINE CREEK GOSSIP

Mrs. Roy Glenn and Mrs. Fred Bailey attended the Ladies Aid Xmas party Wednesday afternoon in the home of Victor Anderson.

W. H. Head of Deary is visiting this week in the home of his daughter, Mrs. Fred Bailey.

Mr. and Mrs. Fred Bailey were Moscow visitors Saturday.

Artalee Bailey visited Saturday in the Glaser home at Troy.

Mr. and Mrs. John Laws were in Troy Sunday.

Little Dee Bailey stayed with his grandmother Sunday night and Monday.

Mr. and Mrs. Roy Glenn were Kendrick visitors Monday.

Mrs. John Laws was taken to a Lewiston hospital Monday. Her mother Mrs. L. A. Bartlett is staying with her.

Cecil Emmett, Frank Wilken and Everett Weeks butchered hogs Tuesday. Mrs. Emmett and Mrs. Slead visited Mrs. Weeks.

Artalee Bailey visited in the Wm. Riley home Tuesday.

The three little Glenn girls visited Tuesday in the Frank Wilkens home.

"The Star Maker"

This week's offerings at the Kendrick Theatre will feature Bing Crosby, Louise Campbell, Linda Ware, Ned Sparks, Laura Hope Crews, Janet Waldo, in "The Star Maker."

It's a story chock full of interesting things, there's music, there's singing, there's dancing, there's fun—and pathos too. You get a glimpse of the things that go in the poor districts of New York—as well as a peek at the bright spots.

Not only do Bing and Louise enliven the story with music and song, but Ned Sparks, and radio puts in his "two-bits" worth.

In addition there will be the usual short and the thirteenth episode of "The Lone Ranger."

Young People's Meeting

The Young People of the Community church met for their regular weekly gathering at the church on Sunday evening, with Myra Kanlikkeberg leading. Following the regular meeting, choir practice was held. The young folks are turning out very nicely for this activity.

Ladies Aid Not To Meet

The Ladies Aid of the Community Church will not meet this Friday due to the Christmas rush.

May Christmas Be A Very
Happy Day For Each
And Everyone

FOOD FOR THOUGHT — Taken from the Book of Luke 2:10-11:

"And the Angel said unto them, 'Fear not, for I bring you good tidings of Great Joy, which shall be to all people.'

"For unto you is born this day, in the city of David, a Savior, which is Christ the Lord."
