## WHAT HAPPENED HERE 20 YEARS AGO THIS WEEK

W. F. Albright was in town Tuesday from the lower Potlatch creek section. He has just completed an examination of the fruit trees on his place and states that he finds serious damage has resulted to the trees from the recent extreme cold. The peach crop will be almost a failure and all varieties of cherries will also be almost failures.

Looking over some of the back copies of the Gazette, published 15 years ago, we notice that the city fathers at some of their regular monthly meetings, talked over the proposition of macadamizing the Main street in Kendrick. Think of the agitation that this old strip of mud has caused during the past 15 or 20 years; the many heated arguments that have originated from it; not to mention the typhoid germs that have flourished underneath its sodden surface. The city fathers still meet and talk over the matter of building a strip of road that would measure up to the rest of the town. They even go so far as to pass an ordinance once in a while—but the mud will still have with us.—(Gazette, Feb. 13, 1920)

John L. Woody of Latah county was elected president of the county sheriffs' association, which met in Boise last week. During Mr. Woody's tenure of office as county commissioner, he served several years as president of the state association of county commissioners. Albert Schultz of Medical Lake, a former resident of Potlatch ridge, sold 80 acres of his quarter section to Charles Schultz. The deal was made the first of this week. The land lies one mile west of Cameron and is one of the best improved farms on the Potlatch. Charles Schultz, the new owner of the property, has farmed the land for the past several years. He states that he is well pleased with his new purchase. This land was taken up by a homesteaded hands but twice in the past 43 years. He secured the patent from the land office in 1882. Twenty years ago Albert purchased the quarter section for the sum of \$100. The price he received for half of the land from Charles Schultz was \$10,500.

G. Candler and family of Leona are moving onto the M. O. Raby place in Brady gulch. They have rented the place for the coming season.

Leland News—L. H. Daugherty of Spokane is visiting relatives and friends in Leland this week. Clyde Daugherty came down from Spokane Sunday, returning Monday, accompanied by his father, T. H. Daugherty. Clyde and family have had the flu.

Big Bear Ridge—H. L. Ingle has completed his work as census taker for Bear Creek and Texas ridge precincts. A daughter arrived at the home of Mr. and Mrs. Oscar Gustafson, January 29.

Conservation Meetings Arranged  
A series of educational meetings have been arranged for the purpose of explaining the provisions and details of the 1940 Agricultural Conservation program. The schedule of the meetings locally are as follows: Deary, Monday, February 19, at 1:30 p. m. in the Grange hall. Kendrick, Tuesday, February 20, at 1:30 p. m. in the City hall.

You are urged to attend the meeting scheduled for your community. Attending the educational and plan sheet sign-up meetings will help to decrease County Association expenses. The place to learn all about the provisions of the 1940 Agricultural Conservation program is at your educational meeting.

Below is a schedule of plan sheet meetings which follow the above educational meetings. To a farmer it is important that you study this schedule closely and attend on the day scheduled for your community.

If a plan and estimate sheet, Form WR-406, is not signed by either tenant or landlord, your farm will not be checked for compliance. You will not be eligible for a Parity Payment, Conservation Payment, Wheat Loan or Crop Insurance. However, if you sign a plan sheet, you are not obligated to carry out the provisions of the 1940 program.

Below is listed the schedule of Plan Sheet meetings:  
Genesee: Monday, February 26, 9:30 a. m. to 4:00, A to H; Tuesday, Feb. 27, 1 to N, same hours; Wednesday, February 28, O to Z, same hours—Legion hall.  
Deary, Thursday, Feb. 29, 9:30 to 4:00, A to G; Friday, March 1, same hours, H to O; Saturday, March 2, same hours, P to Z—Grange hall.  
Kendrick: Thursday, Feb. 29, 9:30 to 4:00, A to F; Friday, March 1, same hours, G to M; Saturday, Mar. 2, same hours, N to Z—City hall.  
Troy: Thursday, Feb. 29, 9:30 to 4:00, A to F, same hours; Friday, March 1, K to R, same hours; Saturday, March 2, S to Z, same hours—Grange hall.

February 29 is the last day any farmer may insure spring wheat with the Federal Crop Insurance corporation. If you are interested in this insurance, see your local committee, and they will assist you at the plan sheet meeting.

Junior Pinochle Club  
Members of the Junior Pinochle club were entertained last Wednesday evening in the home of Mr. and Mrs. Ed Reglin.  
High scores for the evening were awarded Walter Brocke and Mrs. James Keeler, while low went to Mrs. Walter Brocke and James Keeler.

## Many To Genesee

It is believed that almost half the spectators in attendance at the Kendrick-Genesee basketball game at Genesee last Friday night were Kendrick, Leland, Southwick and Cameron residents, and the Potlatch section rooters made themselves heard in no uncertain terms.

At the half time Kendrick was in the lead by a score of 15-10, but as the second half progressed the Genesee Bulldogs turned on more heat; gradually drew even, and then jumped into the lead, which was never wrested from them—the final score being 36-25 in favor of Genesee.

A large majority of the Potlatch section fans disapproved of the referee provided—all being in favor of one from an outside town, and accordingly could not agree with many of his decisions—and perhaps they were right. However, that is all water under the bridge now.

## COMMERCIAL CLUB HOLDS LENGTHY SESSION MONDAY

The regular monthly meeting of the Kendrick Commercial club was held in Fraternal Temple Monday night. Dinner was served at 6:30 by Mrs. Paul Lind and Mrs. Edgar Long, assisted by Barbara Long. Nineteen members were present.

N. E. Walker reported that Mr. Humphrey of the highway department was here a few days ago and went over the road situation quite thoroughly, and from the information he gave out, it might be possible to get the old road between Kendrick and Juliaetta gravelled this year, but that further than that there was little hope of having the "missing link" put in order for another year, at least. However, if that is the best we can get, we will take it—and say "Thank You," for if ever a road needed overhauling, that one does.

County Agent G. T. McAlexander expects to put in some real work doing soil conservation work on Big Bear ridge, and it might be possible to get a small SCS camp established in this territory, reported Don Lyle.

A. O. Kanikkeberg and R. L. Blewett made reports on Scout work and were very enthusiastic as to the future. Mr. Blewett stated that he headed a delegation of 15 Scouts to Lewiston on Thursday last week, which was designated "Boy Scout Week" throughout the country. He also mentioned very favorably the display of his handiwork in one of his store windows, which is commented on in another place in this edition.

A petition was placed before the Club by Walter Brocke, asking their endorsement of his truck line, plying between Kendrick and Lewiston, which endorsement was given.

At this time Supt. L. W. Mason gave a very complete report of the educational meeting held at Boise recently, bringing up many points of interest regarding the raising and distribution of taxes for school purposes. Practically all educators of the state are in favor of a sales tax to meet the necessary school expenses which, of course, will have to be settled by a referendum. The outcome is awaited with much interest, our sales tax law of the past having been voted out by a large majority.

## LINDEN NOTES

Mrs. Ernest Goodnight and Mr. and Mrs. Ray Lyons and son Ted of Nampa, Ida., arrived early Wednesday morning to be with their mother, Mrs. Emma Longfellow, who is very seriously ill.

Mrs. Behrens, Juliaetta, is visiting her daughter, Mrs. Jake Grindolds.

Mrs. Butler, Juliaetta, arrived on Saturday to visit her parents, Mr. and Mrs. J. H. Hunt and daughter, and with Mrs. G. Erlwine and family.

Mrs. Gordon Harris called on Mrs. McPhee and Mrs. Starr Friday afternoon.

Mrs. Addison Alexander visited Aunt Carrie Allen Sunday afternoon.

Mr. and Mrs. Dan Lyons and daughter of Spokane arrived Saturday to visit his parents, Mr. and Mrs. F. C. Lyons and his grandmother, Mrs. Longfellow.

## INTERESTING NEWS ITEMS FROM KENDRICK SCHOOLS

All the Kendrick school students were disappointed when told that the Sub-District Tournament, which has been held in Kendrick for the past two years, was to be held in Genesee this year, the main reason being, "How will we get to the games?" But many of us managed to get there Tuesday night, and again today (Thursday) practically every student in school is trying to find a way to get to the game to root for the boys. The good old Tigers appreciate the support Kendrick boosters are giving them, and it makes them feel good when they see a whole line of Kendrick folks sitting in the bleachers in the Genesee gym, yelling their heads off for them.

Naturally we were disappointed not to get this tournament, but we really have to hand it to Genesee for doing their part to make these games a success. Printed schedules of the games to be played, the ratings of the teams, and the players of each team are given to each person attending the games. This is indeed a grand idea, for not only do you know "Who's Who on Who's Team," but as most of us know, they make swell souvenirs. (We like to hang them on the walls of our rooms.) Between the half of each game a special number is presented, thus making this period seem much shorter, besides providing a great deal of pleasure and amusement for the spectators. Genesee certainly does deserve praise for trying to make this a "bigger and better" tournament.

Last Friday night Genesee defeated our Kendrick Tigers in their last conference game of the season. Thus, Kendrick placed third in the valley conference, having won six games and lost four. As usual, the boys put up a good fight, but just wasn't very lucky. During the first half Kendrick led, but something happened during the remainder of the game to make the final score 35 to 24 in favor of the Genesee Bulldogs. High point man for the Tigers was "Little Jay" Armitage.

Last week certificates were awarded Betty Boyd, Annie Deobald, Marie Havens, Mary Havens, Helen Newman, Bill Cuddy, Vern Wegner, Harold Brammer, Dick Reid, Kenneth Wilkens, Burton Harrison, Darlene Cardinal, Laurene Craig, Bob Watts, Melba Patterson, Clara Mattoon, Velma Mills, Billy Deobald, Everett Farrington, Ruth Cuddy, Harry Newman and Allan Johnson, members of the bookkeeping class, for having completed the required amount of work during the first semester to earn them. As a reward to members of the class with the highest averages, bronze pins were given, this being a complete surprise, as no one by Miss Fattu, the instructor, and Mr. Mason, knew anything about them. Those receiving pins were Kenneth Wilkens, Dick Reid, Harold Brammer, Vern Wegner, Helen Newman, Marie Havens, Annie Deobald, Betty Boyd and Mary Havens.

Report of the Genesee game Tuesday night follows: Genesee and Culesac, one-two finishers in the valley sub-district campaign, opened tournament play with victories over Kendrick and Lapwai respectively.

The host Bulldogs had a rocky time before they finally came through with a 32 to 30 victory over the Kendrick Tigers while the Culesac quintet encountered little difficulty in getting a 38 to 17 decisions over the Lapwai Wildcats.

Nearly 500 fans saw the tournament openers and left few unoccupied seats in the Genesee gym.

The tournament continues Thursday night with Genesee meeting Culesac at 7:30 and Lapwai tangling with Kendrick an hour later.

The winner of the first game becomes sub-district champion and enters the district playoff at Lewiston February 29, 20 and March 1 and 2. The loser will play the Kendrick-Lapwai winner for the No. 2 spot, also good for a district tournament berth Saturday night.

In Tuesday's first game, Genesee led throughout except briefly in the third period when Kendrick went in front with Kuykendall leading the attack. At the half, Genesee 15 to 12.

Kuykendall, who potted half a dozen one-handed pushers from back of the foul circle during the second half, led the scorers with 13 points. Lathan was high man for Genesee with 11, three teammates, Armstrong, Springer and Moore, and Thornton, Kendrick, contributing six points apiece to the totals of their teams.

The game was fast and well played, both teams showing exceptional ball handling.

Grade School News  
"Judy," the gold-fish, died February 1940. Our guess is that we gave her too much to eat. "Puck," the other fish, is still alive.

## Boy Scout Display

Saturday morning of last week the Boy Scouts of Kendrick were very busy fixing up their window display in honor of National Boy Scout Week, which they are now observing.

A field trip was taken, the boys returning with great quantities of moss, fir and cedar boughs, and necessary timber pieces with which to put on the display.

And we want to say that a really fine job was done. The window illustrating many phases of Boy Scout activities.

Many who have viewed this window and those in Lewiston, say that the Kendrick display is much better than those in Lewiston.

The display is in Blewett's Grocery window, and is well worth a real inspection.

On Sunday morning at 11:00, Rev. Gray, in honor of Boy Scout Week, delivered a very pleasing and appropriate sermon. The Scouts, as well as all others in attendance, greatly enjoyed it.

## GEORGE BUCKALLEW, FIDELITY, PASSES AT JULIAETTA

# COMMUNITY LIFE -- COMMUNITY SUCCESS -- DEPEND ON COOPERATION

Let's — for the purpose of comparison — consider a field of wheat. In the spring or early fall, when the farmer considers the ground right — the field is sown. From that day on the success of that field depends upon the co-operation of the elements. If fall wheat, the rain must come, germinate the seed. The sun gives warmth and light — the seed grows. Then comes the snow to protect that stand of wheat from the winter's cold. In the spring growth again begins — the rain, the sun and the good earth all co-operating have produced a crop of wheat. The better the seed, the better the soil, the more rain and sunshine — the better the crop — and the better the crop the more the returns.

As it is with a field of wheat — so is it with a town. Merchants can start a town — but it takes cooperation between the residents of that town's trade area and the merchants themselves for that town to live and grow. The closer the cooperation between all — the better the town.

Credit, perhaps more than any other item — is a bond of cooperation between farmers and merchants. But the ability to "get credit" in a town should not alone be the reason for trading there. For schools, churches, parks and other institutions are likewise a basis for cooperation.

It's something really worth considering. Why not make up your mind to "make Kendrick your home town?" — For it really is, you know!

We are prompted to sponsor this message to the people of Kendrick and vicinity through our interest in community welfare.

HAROLD THOMAS, Editor

## EDITORIAL

Well, Folks—We'll have to confess that we are beginning to believe that the Indians were wrong in their predictions — and that winter may be over. For the grass is certainly getting green—birds have made their appearance, flowers are starting to poke their heads out of the ground — and well — all signs point toward spring.

With the coming of spring, comes an increase in the flow of cream — and with that your income can increase. For if you take care of old bossy, she will bring in the cash from the till of the Thomas Creamery — and when we say cash — we mean CASH!

We invite you to try our service and our cash. You'll find our cash will buy just lots of things. Try it yourself.

Englishman (in poker game): "Well, I'll wager a bally pound on this."

American (holding four aces): "I dunno much about your darn English money, but I'll raise you a couple of tons."

Husband: "I've decided to agree with you, dear."

Wife: "You needn't bother, I've changed my mind."

Chuck: "Well, did you have any trouble getting home last night?"  
Floyd: "I'll say I did. I got to the foot of the stairs and undressed so I wouldn't disturb my wife. Then I crept quietly up the steps, but when I reached the top—it was the elevated station!"

We are all manufacturers — making good, making trouble, or making excuses.

Read the Bullitin—keep posted.
