DOMESTIC GRAIN MARKETS HIGHER DUE TO REPORTS

NO. 13

United States grain markets were mostly firm and higher for the week ending March 23, states the Agricul-tural Marketing Service in the Weekly Grain Market Review. Developments in the war situation in Europe and continued dry weather in the southern great plains area, were strengthening influences. An improved mill demand in some important midwestern markets, reflecting some improvement in flour business, was an additional firming influence in the cash wheat market.

Little change occurred in crop conditions or the general market situation for wheat during the third week in March. Winter wheat was beginning to green northward to the Ohio valley and was reported doing well in part of the Pacific Northwest. Conditions were only fair in the Ohio valley and were reported poor in portions of Illinois with little progress made in Missouri. The crop is still mostly dormant in western Kansas but was showing in drill rows in eastern portions of the state

and was rapidly greening in Ne-braska. Precipitation since the first of September is well below normal throughout the winter wheat belt and in spring wheat areas except in the Pacific Northwest, where total pre-cipitation this season is now up to

or better than average except in Oregon. Prospects in Europe are still uncertain with indications of above normal abandonment in many sections. Plowing for spring grains is active in western Europe. Pros-pects for wheat in India continued very favorable.

Movement of wheat from the southern hemisphere has been mod-erate. About 55 million bushels remained for export in Argentine at the middle of March. Under an official decree millers were permitted. to secure from the Grain Regulating Board 40 per cent of their year's milling requirements at approximate. equivalent of 56½c per bushel, basis Beunos Aires. These purchases, however, must be completed by March 31. Lack of shipping space and a slow European demand for Argentine wheat has made the movement South American countries are expected to absorb about one-half of this surplus, but a market for the remainder will have to be found in other areas. No official data are available on Australian stocks but trade reports indicate relatively large supplies with shipments to Europe restricted by limited shipipng space. No sales of United States wheat

shipped during the week ending on March 16, and brought the total exports of wheat alone since July 1. to approximately 19,500,000 bushels. On the basis of current ocean freight. in Kendrick Wednesday on official new Argentine wheat for April ship-business, as was District Deputy ment would cost nearly \$1.50 per ment would cost nearly \$1.50 per bushel delivered to the Continent. while No. 2 Manitoba from Montreal would cost around \$1.40 per bushel. The area in which loans on 1939 farm stored wheat may be renewed rado, 22 counties in Oklahoma and 27 counties in Texas. Spring wheat acreage in 1940 as indicated by reports from farmers is 19,425,000 acres, an increase of about 11 per cent over the 17,532,000 acres seeded last spring. Indicated seedings in Washington are 1,038,000 acres and in Oregon 250,000 acres, an in-crease of 45 and 35 per cent respectively over the 1939 spring wheat seeding in these states. Oats acreage is placed at 35,818,000 acres, or about 1 per cent above the 1939 acreage. An increase of 10 per cent 150,000 acres is indicated for California. Washington and Oregon acreage is placed at 240,000 and 371,000 acres respectively. Barley acreage is placed at 14,606,000 acres. with a decrease of 8 per cent from 1939 seedings indicated. The sharp advance in wheat futures in important midwestern markets was only partly reflected in Pacific Northwestern futures markets during the past week. Cash wheat markets advanced about 2c per bushel from a week ago on the principal classes at Portland. Cash prices in this market March 21 were: soft whitet 84%c, western white 84%c, western red and hard red winter at 84c per bushel, all basis No. 1 grade in bulk. Wheat receipts at Puget Sound and Columbia River terminals were moderate for the week at 622 cars. Export flour indemnity payments were reported at \$1.15 to the Philippines and \$1.40 per barrel to China and Hong Kong. The general cash wheat situation was rather dull during the past week in the Northwestern markets. Mills were not actively in the market since a lack of water freight space was restricting flour sales to the southeast and Atlantic seaboard markets. Exporters and elevator operators were taking the moderate market offerings fairly readily at current prices. California demand continued slow. Crop conditions remained generally favorable in this area. Wheat millfeeds markets held about steady as the period ended.

O. Kanikkeberg, their manager in the previous game.

The teams in the game were almost identical with those of the previous one (not including centers) with the exception of the club, as Earl Alden became one of the mainstays, and Silvie Cook another substitute.

Miniature Cloudburst

Tuesday night between 8:30 and 9 o'clock this section of the country was visited by a miniature cloud-burst that swept the caynon sides almost clean of all the debris that was left from the big fire of last summer and caused a rock slide above the "old swimming hole" that sent tons of rock and other debris rolling down the steep hillside, the noise sounding almost like that of a train, with the exceptioin of the sharp click of the large rocks that came rolling down.

The valley and surrounding country, too, was well soaked by the heavy downpour.

New Arrivals

Mr. and Mrs. Anton Dale are the proud parents of a 8½-pound boy, born March 20, at Southwick.

Mr. and Mrs. Manning Onstott are the parents of a 8-pound son, born March 27. Mothers and babes in both in-

stances are doing nicely.

Among The Sick

Mrs. Herman Schupfer is confined to her home with flu.

L. W. Mason, superintendent of Kendrick schools, has been confined to his bed since Saturday, suffering to help plant and landscape the a relapse of the flu. grounds.

New Bridge Arrives

Friday afternoon of last week tate highway crews were busy near the depot unloading the new bridge which is to span the Potlatch at the foot of Wauncher gulch. The new bridge is of steel, rated at

carrying capacity of two loaded 15-ton trucks. The bridge was taken to the state

highway shed, where it will be stored until the creek goes down and the concrete piers can be built on which to set it. It will probably be the latter part of June before the mstallation will be completed.

Town To Oil Streets

Definite plans have finally been formulated for the oiling of Ken-drick's Main street and the School house hill. This work will be undertaken at the same time the state oils the Juliaetta-Arrow highway, for the purpose of perfecting an constructed late last summer, and now being allowed to settle.

Definite figures on costs, width to be oiled, etc., are not yet available, but we have been assured that the oiling will take place this year.

Make Park On Bear Ridge

Farmers and road district members of Big Bear ridge are planning a park adjoining the Lutheran church. Planting of evergreens, locust, Russian elms and other trees being planned. This will make a landmark for future generations and a beauty spot for people of today.

Game Warden Jess Robertson. J. D. Lewis, Division Manager of

the Washington Water Power Co., Last Tuesday night, the Freshman with offices at Pullman, and Kim-class entertained the Sophomores at ball I. Jack of Spokane, advertising ness visitors Wednesday afternoon.

Many Pedestrians Killed

Forty per cent of all motor vehicle deaths last year were pedes-trians, according to figures of the National Safety Council. And for everyone killed, 23 persons were more or less seriously injured. In Idaho only 29 were killed and but 28 reported injured.

Three causes are given for more than half the fatalities: Crossing between intersections (jaywalking)

ed cars, 8, totaling 51.9 per cent. The fact that 40 per cent of all traffic deaths in the country were pedestrian and only 17 per cent in Idaho, is no evidence that pedestrians in this state are any more careful than elsewhere. The difference is due to traffic flow.

As a matter of fact the habits of Idaho pedestrians are bad. In every people walk from behind parked they do as they feel inclined, with little or no thought of safety. And police authorities do not interfere.

Entertained At Luncheon

The ladies of the Afternoon Bridge club held their annual 1:00 o'clock visitor Wednesday. James Whitinger spent Tuesday Mountain Gem Abbey, Lewiston. New State S the six holding high scores for the year.

> The tables were attractive and gay with spring flowers. Following luncheon bridge was played at three tables, with high score for the afternoon going to Mrs. F. H. Rider and low to Mrs. W. A. Watts. Hostesses for the afternoon were Mesdames D. A. Christensen, R. H. Ramey, Harold Thomas, L. W. Mason, Edgar Long and Geo. Leith.

Community Sing Tonight

THE KENDRICK GAZEITE THURSDAY, MARCH 28, 1940

And With It Comes a Change In Life's Attitudes

With the coming of warm, sunshiny spring weather our outlook on life changes. The lassitude of winter gives way to the desire to be up and doing. Many express that desire by motoring trips, squirrel shooting expeditions, picnic lunches and other spring and summer activities. Many express the urge to be up and doing by working in their gardens, improving their lawns, painting, papering, and similar home improvements.

And with the coming of spring comes a change in the desires for food. The call of winter for hearty nourishing meals passes with the season, and the urge is for vegetables, fruits, and other lighter items.

Cars and farm trucks, tractors, etc., are being put in condition in preparation for the farmers work season, or perhaps new ones purchased to take their places. Refrigerators are considered, new clothing to fit spring needs must be purchased - and so it goes. Spring is a season of activity for all.

No one realizes these needs any more completely than the merchants and business men of Kendrick, who have made every preparation to supply the re-quirements of spring. It isn't necessary to mail-order an item, nor to drive miles to get it, nor pay exhorbitant prices for transportation for this need or that. The merchants and business men of Kendrick are ready and willing to supply every need for your farm, your business, your home and your family. If you will make a careful check of prices you will find them as cheap, if not cheaper, than in out-of-town or mail-order houses, quality for quality, item for item. Low overhead costs enable Kendrick merchants and businessmen to meet competition. You will find that they do meet it - and often best it.

Money sent away, money spent out of town, is gone forever. No part of that dollar will ever return to you. Money spent at home, in Kendrick, will and does return to help your vital interests - schools, churches, road programs, labor situation and enlarges, thereby, the market for your products.

Stop and think it over — we believe you will agree with us — home is the place to trade.

families.

Mr. and Mrs. John Thomas, Mary

Let's Look at the Figures and See What You Get in the FARMALL-B

What do you get when you buy a McCormick - Deering Farmall-B Tractor?

Here are the specifications. Look them over and see if this new power partner measures up to what you want for your work:

ENGINE: 4 cylinders, 3-inch bore, 4-inch stroke. Engine R.P.M., under governor control, 900 to 1400. Replaceable cylinders. IHC magneto with automatic impulse coupling. Oil-type air cleaner. Oil filter with replaceable element. Fuel filter. 16inch fan.

SEAT: Offset, featuring "Culti-Vision." You can see your work

WHEELBASE: 74 inches; 71/2-ft. turning radius (with wheels set to 66-inch tread). GROUND CLEARANCE: 21 in

ches. FORWARD SPEEDS: 214, 35%.

4%, and 10 m.p.h. on 8-24-ir. tires. CLUTCH: 9 inches; brakes ex-

ternal contracting on differentia'. drums, pedal-operated.

Doesn't that sound like a lot of tractor? We think it does. Better start thinking about a new Farmall-B for the coming year's work. Certainly wouldn't do any harm to come in and talk things over. You'll be surprised when you hear about from where you sit-in comfort. the low price on the Farmall-B.

She is as well as could be town, Wn expected. John Thomas, Jr., spent Saturday

Milo Slind of Spokane visited his mother, his brother Oscar and famn Troy and Kendrick ly, and sister, Mrs. Halvor Lien,
