Tire Failures Cause Accidents

Frequency of serious traffic ac-cidents directly attributed to failure of tires under the stress of fast driving calls for special attention at this time, says Harry M. Rayner, commissioner of law enforcement.

Tires cost much less than hospital or funeral bills. It is folly to travel on the highways unless tires and brakes as well as lights have been pronounced in first-clas sconditionby an expert.

Folks—That certainly Well, was a real rain, and what a relief it was, cooling the air, washing the dust from shrubs and trees, and clearing the air of smoke. It was a big help to the beans as well, assuring well-filled pods, but we're afraid it arrived too late for much help to the spring grain. No in that con-nection, let us suggest that old bossy take up the spring grain loss. Cream, you know, is cash with us. We are never off the market. Take a little better care of your cows and cash in on them. By the way: Have you time to churn this busy harvest time? We'll rather bet you haven't, so

let us do it for you. As about this cream-butter angle.

Remember—You can buy our butter at any of the local stores or if you prefer—at the creamery.

Roll _____

A discouraged traveling salesman wired his home office: "If Hitler wants still more territory, he can have mine."

Father: "Did I hear the clock strike 3:00 when you came home

last night?" Son: "Yes, Dad. It was going to strike 11:00, but,I stopped it so it wouldn't wake you up."

She: "I'll return everything you ever gave me. I'm through." He: "Begin with the kisses."

Then there was the guy, asked if he'd heard the last "Confucious Say," who answered: "I hope so!"

"Total drunkeness is passing out," says a reformer. Exactly!
