KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, SEPTEMBER 5, 1940

NO. 36.

WHAT HAPPENED HERE 20 YEARS AGO THIS WEEK

The Juliaetta cannery this season has canned about 30 tons of cherries, and some beans, although the or crop of beans made the run ather light. The cannery will start oon on the tomato crop. Mr. Mahon, proprietor of the cannery has about 400 tons of his own tomatoes that he raised in North Lapwai. He is aying \$20 per ton for tomatoes. He has also contracted for between 75 and 100 tons of pears, which will soon be ready for canning. Tuesday about noon while R. B.

Parks was on his way to his thresh-ing outfit near Leland and Mr. Robbins was returning home from Sam Craig's funeral, the two men met on a sharp turn about one mile east of Leland, the turn in the road being of such a nature that they didn't see each other and the two cars collided while going at about 25 miles per hour. Mr. Parks was able to go to his machine, but Mr. Robbins was badly used up. Dr. Kelley of Kendrick was called and the doctor was soon on the scene. Mr. Robbins was taken to the Claud Craig home, and while he received some very bad bruisis, Dr. Kelley is not apprehensive of any serious results. The Nash car belonging to Mr. Parks is practically demolished, while the Overland of Mr. Robbins is badly broken.

Dr. and Mrs. Moser moved their household goods to Lewiston this week. Mrs. Moser and their three daughters are in Lewiston and Dr. Moser is looking after his farming interests on Potlatch and Texas ridges. He expects to open his dental office here later in the fall and will divide his time between Kendrick and Lewiston.

There is a freak well on the B. E. Callison farm on American ridge that has caused much interest in years gone by. It was bored about 12 years ago and is 350 feet deep. It is located near the house, which is on the highest point on American ridge. Just before a storm the well begins to suck air. A handful of chaff thrown over the mouth of the well will be drawn down immediately. As the storm approaches the well begins to blow out the air and during a severe storm the rush of air can be heard fifty yards away. One day during a heavy rain storm some boys made willow whistles and held them over the well. Mr. Callison said the rush of air was hard enough to blow the whistles.

Wade Keene believes the Jenkins club wheat raised on his place by the Benscoter boys, has established a record for this locality this season. The field consisted of 81 acres.

Car Turns "Flip-Flop" Wednesday morning of this week pick-up truck, belonging to Alex

Larson and driven by Paul Jones, did a flip-flop in the loose gravel near the N. B. Long & Sons slaughter house and feed yards. The machine skidded in loose

gravel, turned completely over and then landed on its wheels. The two occupants, Paul Jones, Leland, and Roy Davidson, son of Mr. and Mrs. Byrad Davidson of Pullman, were quite badly shaken up and bruised. Roy Davidson, in addition, suffered severe laceration of the right wrist, having two tendons severed. Their injuries were cared for at the office of Dr. Christensen.

Southwick Folk Meet In Park

Former school boys and girls of the Southwick section, who are working in various sawmills at Lewiston, Potlatch, Kinzwa, Ore., and local mills, desiring to see old school mates and neighbors, held a picnic and get-together in the pretty park at Kendrick on Sunday, September 1. And a pleasant, jolly gathering resulted. The time was spent in renewing old friendships and wishing each other future happiness and

success. When their old school teacher, W. B. McClelland, asked some of the

boys why they had been absent from school for so long, honest old grandfathers owned up they had been playing hookey.

If the girls played hookey too, they learned to be good cooks (like their mothers, when they cooked for threshers).

The girls, (some grandmothers) served a splendid dinner and the Long Bros. generously supplied some fine large ice-cold watermelons.

We will try to name some of the neads of families and the number of years since coming to Idaho: A. W. McCoy and A. C. Baker, 58 years; Ben Baker, 57 years; L. S. Whitinger, 56 years. Labor Day Was "Labor Day"

Labor Day was really a "Labor" day in Kendrick. The bank and postness as usual.

However, the State Game Commission's collective ears must have the closing of the forests to hunting! Nobody seems to know just who was responsible, but two days of the season are gone!

Just such a mixed-up mess happened last year, the local hunters have not forgotten it, and won't as the saying goes: "Once is enough market. --but twice!"

The way this whole affair has been handled from start to finish we are almost of the opinion that it would be better if the system ware "back in politics!"

Seal-Coating Streets

edges. The dust did roll from this broom and other operations, but not a word of complaint was heard, since all realize this is the final step in a real improvement of the Kendrick streets.

September oats were 1½c per bushel higher at Chicago. Cash prices were 1c to 1¼c higher with the increase in the basic futures. No. 2 white oats were quoted at 2c to 2¼c over the September price.

Kites Here Monday

Mr. and Mrs. John Kite were visiting at the Edgar Long home Monday morning, and with other friends here. They moved some two weeks ago to Council, Idaho, where Mr. Kite will be employed by the Boise-Payette Lumber Co. Their son, Mrs. Kite say they dislike leaving this section of the country, but feel ter where they are going.

In the primary ment; land clearing; wildlife con-room there are 15, with 19 in the servation; fire prevention; range upper grades room. By grades the enrollment is: First grade, 4; sec-ond grade, 1; third grade, 5; fourth grade, 3; fifth grade, 5; sixth grade, 6; seventh grade, 4; eighth grade, 4. Of the total enrollment 18 are boys and 16 are girls. It is planned that as rapidly as the soil surveys can be completed in and 16 are girls. On Monday the students of the upper grades were divided into two parties and in convention nominated a conservation plan for his farm. According to Mr. McAlexander, the soil surveys have been completed in a few communities and planning will start early next month.

New Power Line In Use

Last week the electricity was turned onto the wires of the new Brady gulch power line, serving the homes of Walter Sparber, Wm. Mat-toon, Wm. Wolff, Clarence John-ston, John B. Davis and Conrad Kahler, following some weeks of work in its building.

In this new line, erected by the W. W. P. Co., the new type steel and copper wire was used. This wire permits longer spans, thereby saving on poles expense. About a month ago this same type

of line was erected to serve the Everett Fraser home on the north edge of Kendrick.

Rain Falling

The first good rain of the season considerable progress has been made began falling Tuesday night, and trict. At a previous meeting, some of the conservation problems of the district were discussed by farmer committees from the entire county and a tentative plan of action agreed continued most of Wednesday.
