#### WHAT HAPPENED HERE 20 YEARS AGO THIS WEEK

The building occupied by Stanton Bros. store, and owned by E. P. Atchison, was sold this week to A. w. Perryman of Juliaetta. Mr. Perryman expects to put in an up-to-date confectionery. He is an experienced confectioner, having had a stock in Juliaetta for a number of years, which he sold some time ago to Jack Heacox. Mr. Perryman has been trying to get a location in Kendrick for a number of years but just a local affair, couldn't get a building until he purchased one. The one secured is one of the best locations in town.

Tuesday night the Potlatch Telephone Company moved the switchboard into the room formerly occupied by Dr. Moser as a waiting room for his dental office. The two rear rooms will be used by the telephone operators for light housekeeping apartments. The new arrangement gives the phone company

Crops continue in good to excellent condition in most sections and the present outlook is far more promising than a year ago in the western belt. More than normal moisture was received in spring wheat areas during the week.

Seeding is reported about complete in the Balkan coutries of Europe with indications that the wheat acreage has been maintained or increased compared with a year ago. Soil conditions are good in Italy and a normal acreage of winter wheat has been seeded despite a shortage of labor. In western Europe the crops are making satisfactory progress. Seeding of wheat is reported advanced in India with conditions fairly satisfactory although rain is needed in some sections.

The first official estimate placed the Australian wheat crop at 91,-900,000 bushels compared with the 1939 harvest of 210,160,000 bushels. Yields are irregular but the quality is reported good.
