NO. 10

WHAT HAPPENED HERE 20 YEARS AGO THIS WEEK

The Standard Lumber company last week closed a deal for the buildings and grounds of the Sturdevant Lumber yard. Mr. Sturdevant retains the machinery, etc. The purchase of this yard will give the Standard Lumber company extra room for a storage yard and a loading point for the lumber that is hauled in from the small mills in the territory adjacent to Kendrick. The deal had been pending for some time and was finally closed last week.

Work on the new power line to Juliaetta has been progressing very rapidly during the good weather of the past few days. If nothing unforeseen happens there will be electric lights in Juliaetta the first of next week. The town will be only partially lighted at first as the greater part of the system will have to be rebuilt. The work of rebuilding will begin immediately after the power line is finished from here to Juliaetta.

The Kendrick Highway district bought two dump wagons the first of the week. The wagons have been used for a short time but are practically new. They will be used on work in the road district, the tractor furnishing power to haul them both at once, when filled with dirt or gravel. They are constructed so they can be pulled from either end. The price paid for both wagons was \$900, delivered at Pullman.

Mr. and Mrs. John Kite entertained the Circle Card club at their home Tuesday evening. It was in the nature of a Washington's birthday party and the rooms were decorated with the national colors and red axes, emblematic of the man who made the little axe famous. The game played was "500" and Mrs. Boyd and Mr. MacPheason held high scores for the evening. Those present were Messrs. MacPheason, Rogers, Lett, Boyd, MacPheason, Kite, Ivy, H. H. Stevens, Harry Stanton and Miss Dorothy Stanton.

A contract was awarded Friday by the state highway commission at Boise for the construction of two bridges on Project No. 33 of the Lewis and Clark highway, between Arrow and Spalding, to the Lord Construction company, for \$19,600. One of the bridges is to be over Potlatch creek, at Arrow, and will be of wood and steel construction, 128 feet long. The other will be a five-foot concrete bridge over Catholic creek. The completion of these bridges will be the finishing of a stretch of four miles of road between a point two miles east of Spalding and one-half-mile this side of Myrtle.

Walter Thomas, who was assistant cashier of the Commercial Bank of Snohomish, Wash., until recently, is now cashier of the Everett Trust company of Everett, Wash. His many Kendrick friends will be glad to hear of his rapid promotion. Harold, his brother, who also held a position in the Snohomish bank, is now with a wholesale stationery and office fixture firm at Everett.

Born to Mr. and Mrs. Charles Hoffman, residing near Leland, Monday, a boy.

Byard Davidson, who is farming near Pullman, arrived Saturday to spend a few days with relatives on American ridge.

Cameron News—The store and postoffice are being moved into the Andrew Emtan building this week. The new location will be more satisfactory for everyone. Mr. and Mrs. Carl L. Wegner and two daughters returned home Sunday after visiting relatives at Bovill. The Misses Henrietta and Minnie Blum and Wanda Brunseik were visiting at the Fred Wegner home Sunday. Friends and relatives gathered at the John Schwarz home Sunday to help him celebrate his birthday anniversary.

Southwick Items—At a sparring match recently Charles King suffered a dislocated knuckle and Geo. Ziemann a broken nose. They are all patched up again and ready for another bout. Born to Mr. and Mrs. Harold Whitinger, a daughter, Margaret Evelyn. Mother and child are doing fine.

Selway Preserve Stay

Boise, Mar. 4.—Following recommendation by Senator Goff (R., Latah) the Idaho senate rejected a house-approved measure to abolish the Selway game preserve.

Friday the body voted to eliminate the Clearwater game preserve and so far today notice of consideration might be asked had not been given. "Sportsmen at meetings at Kendrick, Orofino and Lewiston have recommended abolition of these preserves," said Goff, "but I don't think they realize the legal effect of the action."

He said preserves once eliminated were set up again and said he believed the sportsmen "short sighted." "The Clearwater preserve might be cut out without much loss," he added, "but the Selway is practically a primitive area. It is wonderful country and almost untouched. In view of the divided sentiment I have found among sportsmen regarding it I urge that it be retained."

Happy Birthday Party

Mrs. Mildred Rider was pleasantly surprised last Wednesday night after the basketball game when members of the Afternoon Bridge club gathered at her door, singing "Happy Birthday." Even though the hour was late birthday cake and ice cream were enjoyed and pleasant wishes extended for "many happy returns."

Move To New Offices

On Monday of this week the business offices of the Lewiston Grain Growers were transferred to their new warehouse and elevator in the west part of town, from which point business of the company in this section will be transacted.

The move will permit of greatly increased office facilities, as well as the faster handling of materials and storage for the company and consumer.

A man will be in charge of the old warehouse, at least for the time being. All are cordially invited to call and inspect the new building and its equipment.

Joke Bill Is Passed

So this is what "legislators" are sent to State Capitols for?

This bill was passed over at Olympia the other day—and taxpayers pay good hard-earned cash to would-be legislators to run such rot through the political machinery.

Read it—and weep—for such weak-minded stuff.

Drug stores would be prohibited from selling radios, refrigerators, spring-filled mattresses, horse collars and buggy-whips under the terms of an amendment tacked on to a pharmacy bill today by the house.

Rep. Al Henry (D., Klickitat) offered the amendment in a jocular vein and it was supported by 51 members.

Then in a sober vein, representatives spent ten minutes attempting to eliminate the amendment, but so many preliminary technicalities were raised that the amendment still remained in the bill when the house was declared "at ease."

Birthday Party

Saturday afternoon was a happy occasion for a group of little boys, when Mrs. D. A. Christensen entertained at dinner for them in honor of her son, Douglas, on his tenth birthday anniversary.

Those present were Bobby McColl, David Crocker, Danny Crocker, Eugene Brocke, Raymond Mattoon, Parker McCreary and Charles Christensen.

CULDESAC WINS EXHIBITION GAME FRIDAY EVE.

Friday evening of last week saw the close of a very successful sub-district basketball tournament in the Kendrick gymnasium, with Culdesac defeating Southwick in an exhibition game as the evening began.

For the first half of the game it looked like it might belong to either team, the score at the end of the first quarter being 4 to 3 in favor of Southwick. At the end of the second quarter the score stood 13-13, with Culdesac having two free pitches at the basket coming as a result of a foul just as the gun announced the end of the half. Culdesac failed to convert on either try, and the score still stood 13-13.

In the third quarter, however, Culdesac began to turn on the heat, and that quarter ended 30-17 in favor of Culdesac.

In the fourth quarter Culdesac lengthened their lead still further, with the final gun seeing the score read 39-22 in favor of Culdesac.

The second game of the evening, that of determining whether Lapwai or Genese occupied the runner-up position for this conference, turned out to be a really hotly contested game from start to finish — for both teams knew their participation in the Lewiston tournament this week depended on the outcome of this game — and did they fight.

The end of the first quarter saw Lapwai heading Genese by a mere two points, the score standing 5-3 for Lapwai.

When the gun sounded at the half-time mark the score stood 8-9 in favor of Lapwai.

The beginning of the second half saw both teams turning on more heat, Genese marking up but two points, and Lapwai four, with the score at the end of the third quarter standing 10-13 in favor of Lapwai.

When the whistle marking the beginning of the final quarter was blown, both teams were "rarin' to go," and both put forth the supreme effort. However, Lapwai's quintet proved too much for the Genese Bulldogs, and the final score was 20 to 14 in favor of Lapwai.

At the close of the game, L. W. Mason introduced Wayne Barney of Juliaetta, who presented the trophies of the tournament.

The first gift was that of the ball used in tournament play, with the two losing teams, Genese and Juliaetta, flipping a coin for the ownership of this ball. Winifred Grantham, Juliaetta center, called it "right," and took the ball home.

Following this the trophies, beautiful base-mounted statuettes of basketball players, donated by the Kendrick Bean Growers Association, were awarded by Mr. Barney.

Russell Gray, captain of the Lapwai team, and winners of the second place in this division, received the cup for the Lapwai boys — and were they a happy group.

Next came the presentation of the winners' award, won by Kendrick on Wednesday evening, with Bob Watts, as Kendrick's captain, receiving the award in behalf of the team.

The awarding of trophies at a tournament of this kind is something new, and the Kendrick Bean Growers deserve the sincere thanks of all for their fine donation.

Following the close of these ceremonies, a dance and refreshments were announced for all the visiting teams and their friends, with Kendrick as the hosts — and a royal good time was reported by everyone present.

Grain Growers Buy Plant

Lewiston Grain Growers, Inc., offering a bid of \$9,010, were declared the purchaser of the elevator and grain warehouse at Craigmont on the site of the old town of Vollmer, according to word received by Manager John W. Shepard from A. G. Black, Washington, D. C., governor of the farm credit administration.

Plans have been made by the Lewiston company to start preliminary work immediately, tearing down a part of the warehouse and erecting a 250,000 bushel capacity elevator. The present elevator has a capacity of 77,320 bushels and the sacked grain warehouse 160,000 bushels.

It is planned to increase the total elevator capacity to 450,000 bushels, said Shepard. Lewiston Grain Growers, Inc., held a lease on the plant expiring June 30.—Lewiston Tribune.

Spring Seems To Be Here

It almost seems as if spring were really here in the Potlatch — for crocus and buttercups are in full bloom, tulips and daffodils are up from three to five inches, lilacs are leafing fast, as are bridal wreath and on the hill at least one forsythia is starting to bloom.

Marvin Long is starting to put in his early garden, which is another sure sign of spring in this section, and most everywhere folks can be seen raking lawns and digging in flower beds.

Another sign of spring is the heavy movement of new tractors and other farm machinery, showing that "it won't be long now" until farm work will be going full tilt.

The regular monthly meeting of the Kendrick Commercial club will be held in the Kendrick School building on Monday evening, March 10, at 6:30 o'clock, with the girls of the Home Making class preparing the dinner.

Mrs. Lamb's place has been filled by Miss Iris Tunney of Moscow, a graduate of the U. of I. with last spring's class. Miss Tunney will teach three classes of Typing, World History, one class in Shorthand, and one class in English.

COUNTY AGENT TELLS OF POTATO PEST CONTROLS

There is a growing interest among potato growers in this section about control measures for the various insects attacking potatoes, says G. T. McAlexander, county extension agent.

Concern about insect troubles started several years ago when it was reported in some sections of the state that the potato psyllid was present. This pest has been troublesome in the midwest. However, surveys conducted by the U. of I. experiment station entomologists during the past two growing seasons has not found the psyllid present anywhere in the state.

This experience led the experiment station to make a complete survey of the potato insects now causing trouble or likely to cause trouble. Before any control program could be undertaken it would be desirable to know what insects are or have caused economic loss to this important farm crop.

This complete survey of the regions reporting the most insect troubles has been made during the growing season, and out of it has come a small publication giving the essential facts on potato insects in Idaho.

Insects enumerated, together with the suggested control measures in the leaflet are: wireworms, Colorado potato beetle, western leaf beetle, seedcorn maggot, intermountain potato leaf hopper, legume bugs, white grubs, red spiders, blister beetles, tomato worm, false chinch bug and potato aphids.

Copies of this leaflet, Number 49, are available without cost upon request at the office of the County Agent.

George Washington Party

The members of the Masonic and Eastern Star lodges enjoyed a Washington birthday party last Thursday evening in the Fraternal Temple, with 60 in attendance.

A sumptuous six-thirty dinner was served, after which the following program was enjoyed: A song by the girls' trio, a whistling selection by LaDonna Galloway, two vocal selections by Wm. Fitzpatrick, two numbers on the accordion by Mrs. Harold Thomas, and Mel Murphy played several selections on the harmonica.

Bridge and pinochle were played following the program in which Mrs. Wade Keene and Marvin Long held high scores, with Mrs. Neal Nelson of Peck and E. A. Deobald receiving low.

For pinochle Mrs. Geo. Davidson and Louis Lunders held high scores and lows went to Mrs. Mel Murphy and Wade Keene.

Out-of-town guests were Mr. and Mrs. Neal Nelson of Peck.

New Bridge Completed

A. E. Jones and his son Arthur last week finished the construction of a new foot bridge from the James home across Potlatch creek to connect with the main road to Kendrick.

Some years ago Rev. Jones had a fine bridge, but the terrific high water of the past washed it away, together with its anchorages, and since that time has taken out a number of lesser bridges.

This new bridge, however, is put up to stay, it being of sufficient length to permit it being anchored well above the highest high water mark of years past.

It is built of 3-4-inch main cables, laced with lesser ones, and the floor wired to the main cables. It represents many hours of hard labor, but the permanence of its construction and its convenience should more than compensate for the work.

Boy Scout Card Party

The Boy Scouts gave a card party Tuesday evening in the High School. Both bridge and pinochle were played and a very enjoyable evening was had by all present.

High scores for bridge went to Mrs. Roy Ramey and Dr. Christensen, with low going to Mrs. R. L. Blewett and Bill McCreary.

High scores for pinochle went to Mrs. Oscar Raby and Walt Bencoter with high scores for the students going to LaDonna Galloway and "Porky" Fry.

Doughnuts and coffee were served at the close of play.

Squirrels Coming Out

Despite the fact that Galloway Bros. brought in a live squirrel some six weeks ago, the little pests have not been out generally, but are now starting to emerge from hibernation enough to interest the local gunners. It is also said that groundhogs are starting to come out enough to permit shooting, at least during the warmer part of the day.

However, we rather imagine that it will be some time before there are enough "above ground" to furnish a full quota of targets.

CASH WHEAT PRICES HIGHER IN PACIFIC NORTHWEST

Strength in wheat futures in important midwestern markets was reflected in an advance of 1c per bushel in the May delivery at Portland during the week ending February 27, according to the Agricultural Marketing Service. Cash wheat prices did not follow the full advance in futures, with prices on the principal classes at Portland showing ½c to 1c per bushel higher at the close of the week, compared with a week ago. Demand at the principal North Coast terminals was not urgent during the period and growers were not offering freely at country points. The light trading and movement in cash wheat was indicated by carlot receipts of only 337 cars at Puget Sound and Columbia river terminals for the past seven days. Domestic flour business was only moderate, according to trade reports, and sales to the Philippines and the Americas under the export indemnity plan were reported under average of other recent weeks. A feature of the market situation in the Pacific Northwest during the past week was the reported sale of around 20,000 tons of wheat to Japanese interests, for prompt shipment from this area. This sale was reported on an f. o. b. basis with destination not announced. Wheat millfeeds markets were only barely steady most of the period, although firmness in the cash wheat market resulted in a somewhat firmer undertone toward the close. Winter wheat crop prospects in the Pacific Northwest continued generally favorable, according to trade reports.

Cash wheat quotations at Portland on February 28, showed soft white at 74c, western white at 74½c, western red at 76c and ordinary hard red winter at 75c per bushel, all basis No. 1 grade in bulk. Indemnity payments on export flour held at 60c to the Philippines and 90c per barrel to the Americas. Cash wheat prices at Seattle on February 28 were: western white and hard winter at 74½c, western red at 75c and hard white (baart) at 81c.

The San Francisco wheat market turned firmer during the last week in February, influenced principally by advances in other domestic markets, together with slightly improved local demand. While trading and movement were far from good, prices advanced around 2½c per 100, compared with a week ago. Central California growers continued to market remaining supplies quite slowly, with selling pressure considerably lighter than usual for the last week in February. Mill takings were mostly of Intermountain and Pacific Northwestern wheats.

At Kansas City wheat prices turned up rather sharply early in the week and although fluctuations were erratic later, most of the gains were retained. Final prices at Kansas City were 2½c to 3c higher than a week ago.

Movement of cash wheat from the spring wheat territory was light, with 227 cars of all classes received at Minneapolis, while Duluth unloaded but 233 cars. Locally, demand was not particularly aggressive, but with receipts so small, a firm trading basis was readily maintained with the approach of lake navigation.

The abnormally cold weather in southern portions of the belt, which was without snow protection was hard on winter wheat, but temperatures were continuously low and no important heaving was reported. In central and western Kansas, 3 to 5 inches of snow was received and precipitation was rather widespread to the southward of that date. Reports of winter killing in Kansas were conflicting. In the southwestern portions of the wheat belt the crop made little growth because of low temperatures, but the general condition remained favorable. Favorable conditions were also maintained west of the rocky mountains.

Reports from Europe continued to indicate below average prospects in most of the wheat producing areas. Floods were subsiding in the Balkan countries, but considerable damage has occurred in some sections and fairly heavy abandonment is expected. Late reports indicate that the acreage seeded to wheat last fall was smaller than earlier reported.

In Italy trade reports indicate considerable winter killing. Recent storms caused damage to crops in Spain and Portugal. In western Europe, prospects are only average or below.

The Indian crop is approaching maturity in good condition. In Australia the government has announced that no reduction in acreage will be required because of drought losses last season, but no increase will be permitted.

The Brazilian government is encouraging domestic production in an effort to reduce the country's dependence on imported wheat. The most recent measure was a decree law of January 15, 1941, which provides for the distribution of home grown wheat to the country's mills on a quota basis.

Afternoon Bridge Club

The ladies of the Afternoon Bridge club met Wednesday afternoon with Mrs. G. W. McKeever. Delicious refreshments were served by the hostess at the close of play.

Another Double Bill
This coming Friday and Saturday nights, at the Kendrick Theatre, another double bill will be offered. The first "Moon Over Burma" stars Dorothy Lamour, assisted by Robt. Preston and Preston Foster, and of course the "Chimp" who is with Miss Lamour in almost all of her tropical pictures.
And then comes Bob Burns, "bazooka" and all, in "Comin' Round the Mountain," in which you will also see Uncle Ezra Watters, who operates the "powerful little five-watt" down in Rosedale. It's a hill-billy show that all will enjoy, no matter whether you've ever been down in the Ozark mountains or not.
The usual cartoon will also be shown.
Did Salads Do It?
An Ohio woman shot her husband because he made her pull a plow in the field. Women can't work like they did since they have acquired the habit of living on salads. But they seem to be handier with a gun.

WHAT'S GOING ON IN THE KENDRICK SCHOOLS

The band has received several new pieces, which will be used at the Music Festival to be held at Nez Perce. Some of these are: "Hill Toppers," "On The Field of Glory," "Westerners," "Pacific Moon." The band has been playing for conference games and at the sub-district tournament games. The band has a full schedule for the rest of the semester, as they will be practicing for the two coming festivals. They plan on beginning marching as soon as the weather permits.
The Glee Club has received four new pieces "Waltzing In the Clouds," "The Good Humor Man," "San Antonio Rose" and "Santa Fe Trail." The annual publication for the Kendrick High School, "The Tigers' Paw" is causing that group more than a little worry. So far all the money for advertising has been collected, pictures have been taken, and the staff has practically "gone nuts" trying to keep all the material together.
Pictures for the book were taken February 18, and of the 20 pictures taken, probably 19 will appear in the annual. This year both pictures and write-ups will be printed, which will make a neater and more attractive book. And, too, this year a candid camera page will appear, a new and possibly surprising feature.
The publication has a blue imitation leather cover with gold lettering, is spiral bound and a most modern appearing book. A total of 101 annuals will be made, and of that number 97 have already been sold. The entire Senior class, and in particular, the staff editors, Mary Havens and Harold Brammer, and the business managers, Harry Newman and Annie Deobald, hope it will be the best book of its kind ever published from Kendrick High.
The Girls' League sponsored a student dance after the last game Friday evening. The students of the six teams in the valley conference were invited, and a good representation present from each. New records were purchased and this provided music for dancing. The Cowgirls' Trio presented several numbers which were very much enjoyed. The members of the Girls' League baked cakes and served them with coffee. The evening was a big success and seemed a delightful way to end the tournament.
The school is very sorry to learn that Mrs. Lamb is leaving. She has been an instructor here for nearly three years and is highly thought of by the entire student body. We all wish her the best of luck.

Well, folks—Here it is the first week in March — and we have certainly had one of the so-called "Banana Belt" winters. This mild winter has brought out all the more clearly the advantages of a locker box at our establishment, for the weather has not been cold enough to keep fresh meat "fresh" at home. And to those of you, who plan on last minute butchering, let us suggest that if you are not already using one of these locker boxes—see us and get one today.

And don't forget, "Pride O' The Potlatch" Creamery butter is on sale at all of the local stores, or at the creamery if you prefer.

And we pay spot cash for your cream.

Old Man: "To whom are you writing?"

Sailor: "To my girl."
Old Man: "Then why in heck are you writing so doggone slowly?"
Sailor: "Because she can't read very fast!"

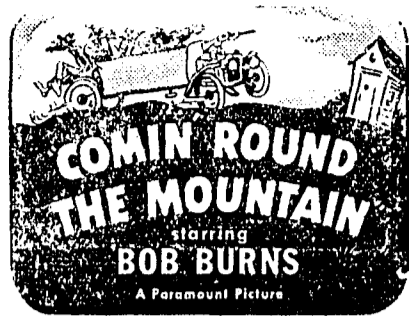

Two English washerwomen were discussing the German bombings of the war. One said: "Any night now we may be blown into maternity!"
"Yes," replied the other, "and with these blackouts we will never know who did it!"

Then there is the one about the firefly who flew excitedly up to another firefly in Hyde Park, London, and said: "Put out that light. Douse it! Don't you know this is a black-out?"

To which the other firefly replied: "Sure, I know, but how can I help it? When you gotta glow, you gotta glow!"
