

KENDRICK GAZETTE

WHAT HAPPENED HERE 20 YEARS AGO THIS WEEK

O. E. MacPhearson is spending the week at the N. E. Ware home on Big Bear ridge. Tuesday he caught a 13-inch trout in Pine creek.

Kendrick Star Rebekah Lodge No. 21, at their regular session of Tuesday, June 21, elected the following officers for the ensuing term: Mrs. Dollie Lewis, Noble Grand; Mrs. Nellie Deeter, Vice-grand; Mrs. Mabel C. Kelly, Junior Past Noble Grand; Mrs. Effie Kite, recording secretary; Thomas Sturdevant, financial secretary; Mrs. Minnie McDowell, treasurer.

In breaking up that "settin' hen" here last week, Sheriff Woody took all the celebration out of somebody's Fourth of July.

E. H. Dammarell and two sons, Kester and Edgar, and Walter McCull, left early Tuesday morning for Lake Chatoolee for a few days' fishing. They drove to the lake in the Dammarell car.

Ben Callison and two children returned from Big Island last Friday afternoon, bringing with them some beautiful cutthroat trout—several baskets full to the brim.

Mr. and Mrs. Fred Schoeffler, H. C. Wilken and Miss Carrie Buckles visited at the home of Mr. and Mrs. Frank Wilken Sunday.

There are hundreds of thousands of feet of lumber brought from the Cedar creek sawmills every summer. This summer an unusually large amount is being hauled here by auto truck, loaded on cars and shipped to market.

The highway district machinery was taken to American ridge the first of the week, and work commenced on the stretch of road from the corner near the Wade Keene place to the old Russell prune dryer. The completion of this piece of road has been on hand for many years. Its completion will mark a wonderful improvement on American ridge.

L. A. Grinolds, better known here as "Jake," arrived Tuesday from Lewiston. He said his family returned recently from a tour of California in their Dodge car. They spent 12 weeks on the trip, carrying with them a camping outfit. They saw a great deal of beautiful country, but liked Idaho better, so on their return purchased 10 acres of land in the Lewiston Orchards, where they will make their home. The land has no improvements, but they expect to build soon.

According to C. E. Mitchell, manager of the free employment office in Spokane, the minimum wage for harvesting in the Inland Empire this season will be \$2.50 per day. The following wage scale is being adopted throughout the Inland Empire, according to Mr. Mitchell: Haying, \$2.50 per day; shockers, pickers and header-box drivers, \$3.00; bundle drivers, \$3.00; flunkies, derrick drivers, pull binders and wheat haulers, \$3.00; workers in peas, \$2.50; forkers, spike pickers, jig drivers and headermen, \$4.00 a day; stackers, head-punchers, firemen, sack-sewers, \$5.00 a day; combine men, \$7 a day; separator men and steam engineers, \$8.00 a day; gas stationery men, \$5.00 a day.

Walter and Harold Thomas arrived last Friday evening in their Ford coupe from Everett, Wash. They made the trip from Everett in two days, and had no car trouble on the road. They will probably remain here all summer, at least. Walter is helping with the work in the Kendrick hardware store.

Members of the Fourth of July committee met at the town hall last Monday evening to review the work that has already been done and to perfect plans for the coming celebration. Everything is going smoothly and indications are that Kendrick will have a big day here July 4th. The Calithumpian parade at 10:30 sharp will be the opening event of the day and from that time on there will be something doing all the time. Reports are coming in that many former Kendrick residents will be here to spend the day with old friends.

Big Bear Ridge—Mr. and Mrs. Jim May and children are visiting Mrs. May's sister, Mrs. Leonard Davis, near Leland. Gabriel Forest and Albert Nelson autoed to Moscow Saturday. Mr. and Mrs. Whybark and children spent the week-end with the Dan Whybark family at Juliaetta. Mrs. Leonard Fairfield and son, Master Roy, have returned to their home on Potlatch ridge after having visited relatives here. The Wallace Emmett, Ole Lien, D. J. Ingle, Will Hecht, W. W. Reid and Frank Whitcomb families autoed to Moscow Thursday to attend the annual Farm Bureau picnic. Mrs. E. R. Porter and son of Dayton, Wash., are visiting at the home of her brother, Wallace Emmett and family.

Linden Items—Mrs. Walter Kight and son Dewain spent Friday of last week with Mrs. Vaughan. Claude Pippinger and family of Cavendish were Sunday visitors at the George Garner home. Mr. and Mrs. Arthur Bohn, have employment at Long Meadow, spent Sunday at home. Mrs. McPhee and Miss Cella were Sunday guests at the home of Mrs. Vaughan. Albert Dorendorf is to be seen driving a new car through our streets. He purchased it in Moscow last week. Miss Alta Fonberg of Arcadia, Kas., has arrived for a visit with her uncle, Ed. Fonberg.

Is Quite Ill

Mrs. A. W. Ahl is quite ill at the home of her son, Gust Luckens.

J. F. Konan Gets Bid

According to late press reports the J. F. Konan company of Lewiston was awarded the contract for construction of the new steel bridge across the Potlatch at the foot of Waucher gulch. The steel work has been in Kendrick for some months, but the contract had not been let.

The approaches to the new bridge are to be of treated timbers. It will indeed be a welcome item to the residents of the Potlatch ridge and to all who have to travel that particular section of road, to have this bridge installed, for the present one is rickety and hazardous in every respect.

KENDRICK ALL SET FOR A ROUSING DAY JULY 4TH

A special meeting of the Merchants committee, the guiding committee of the forthcoming Fourth of July celebration, and all special committees for the day, was held at the town hall last Monday evening to give the final polish of coordination to the day's plans and all indications point to a really fine day, which opens at 10:00 a. m. with a Parade of Progress, which will depict all the stages of the settling of this farming section from the days of the Indians and the pack trains, to the modern car and truck, and should really prove of interest as well as entertainment to all.

And from that time until the final foot of the musicians instruments at the big gymnasium dance, there will be something doing every minute, excluding, of course, the noon and evening intermissions.

The Hon. Burton L. French, a pioneer of this section, and known all over the United States, will deliver the address of the day.

Another feature, unknown to the committees until late Wednesday of last week, was the announcement that the Kendrick Pioneer Association would hold their annual picnic in the city park this year, instead of at Coeur d'Alene, as previously planned. This event will enable all to renew old acquaintances and to spend a quiet day in fellowship if they so desire.

But regardless of what you want in a celebration, you are pretty sure to find it in Kendrick. So plan to come, you won't be disappointed.

Elsewhere will be found a half page advertisement by local business firms containing the program of the day.

G. P. Barnum, chairman of the Parade committee, requests that anyone wishing to enter any float or other display in the parade please notify him or Wayland Davis, at least one day before the 4th, in order to do away with last minute confusion in the grouping of the entries.

Another Sailor Writes

U. S. S. Phoenix
June 6, 1941

Dear Mr. McCreary:
It was really quite a pleasure to have received the copies of the Gazette which you sent to me. There are numerous items concerning friends and events, so naturally it stirred a bit of homesickness in me.

Due to obvious reasons, what may be written in a letter necessarily is limited, but on the whole I can say that I am satisfied with naval life. When I first began my career, I was told that there were many opportunities for training in various trades, but I wasn't aware of them, because in the beginning my training was confined to the preparations you need before going aboard ship.

Upon completion of my training period, however, I was sent to a communication school, and all that I learned there has been of immense aid to me in my duties aboard ship. Due mostly to my school training, it wasn't long before I was promoted to Radioman Third Class, or in other words, a third class petty officer specializing in radio communication. At the present time am working toward promotion to Radioman Second Class, which will bring with it a substantial increase in pay, as well as added responsibilities and privileges.

I have visited quite a few interesting places, but whatever I said about them would probably sound like a course in geography. I feel that one would have to actually visit these places in order to really learn about them, their people, and customs, etc.

Thanking you again for sending the papers.

Sincerely
Jack Moe, R. M. 3-c
U. S. S. Phoenix, Div. C
c/o Fleet Post Office,
Pearl Harbor, T. H.

Announcement

At the request of the Treasury Department we announce a new feature of interest and service to many readers who are buying or will buy Defense Savings Bonds and Stamps. This will be called the "Defense Bond Quiz," and will start in next week's issue.

The questions will be chosen from among those asked by most Bond and Stamp buyers. The answers will tell what the new Defense Savings Program means to the individual, and to the Nation.

Went Fishing

Tom and Wade Keene spent the week-end on a fishing trip in the Gedney creek section of the Selway. They report quite good luck, even if the water was still quite high.

ARMY FLIGHT TRAINING FOR HIGH SCHOOL GRADS.

The following information has just been received from the War Department, Bureau of Public Relations, through the West Coast Air Corps Training Center at Moffett Field, Calif.:

"The War department announced today the creation of the grade of Aviation Cadet in the army air corps that will put army flying cadets on a uniform pay and allowance basis with those of the U. S. navy and marine corps.

"High school graduates who are ambitious to become pilots in the U. S. army air corps have their opportunity, the War department announced. Even if their educational qualifications do not admit of their becoming commissioned officers, they may still fly airplanes and look forward to careers as pilots.

"All they need to do is enlist for such training, which will start as soon after July 1st as administrative details can be arranged. They will be taught to fly, they will be paid while learning, and after they have qualified their future will be assured.

"All this is made possible by a bill which has just passed congress and which the President has just signed. It authorizes the Secretary of War to detail enlisted men in the army for training and instruction as aviation students, in their respective grades.

When they have won their wings, they will fly as non-commissioned officers, and these enlisted aviation students will be issued \$10,000 in government life insurance, the premium to be paid by the government while they are being trained, and by themselves afterwards.

Eventually, 20 per cent of the Army Air Corps pilot strength may be composed of men who have risen from the ranks to become non-commissioned officers. While all of the manifold details of selecting, training and using these enlisted pilots have not been worked out, these are some of the possibilities:

Applicants between the ages of 19 and 22 years, inclusive, will be given preference.

The physical standard required of all student pilots will not be lowered—it will be the same as that for flying cadets.

Graduates of accredited secondary schools who have credits for at least one and one-half units of mathematics will be accepted for training without examination.

A plan is being considered whereby, on completion of training as a student pilot, the high school graduate would be appointed as a Flight Sergeant, 3rd Class, ranking as a staff officer in the army, with a pay of \$108 per month, while on flight duty.

After completing a three-year enlistment, he would be appointed a Flight Sergeant, 2nd class, ranking as a technical officer in the army and drawing \$126 pay each month. Upon his third three-year enlistment, he would be promoted to a Flight Sergeant, 1st class, and rank as a Master Sergeant, with pay of \$207.90.

After nine years of service, Flight Sergeants, 1st class, would be eligible to participate in a competitive examination for appointment as Warrant officers, Junior grade.

All enlisted pilots will be entitled to clothing, subsistence and rental allowances normal to their grade in the army.

SONG OF POTLACH BEANS By Wickliffe R. Smith

Some poets sing of the grapevine swing,
And other fond childhood scenes;
While some sing of love and the stars above;
But I sing of Potlatch beans.

As the clock ticks off a quarter till twelve,
And the cook has the table all set;
My heart beats fast as my eyes I cast
On the dish of beans that I'll get.

You may prefer pumpkin and pudding;
Or even relish dandelion greens;
Or maybe you'd rather have squash,
But give me Potlatch beans.

Wherever I go my memory, I know
Will call back beautiful scenes
Of tidy cafes in the halcyon days
Embellished by Potlatch beans.

And when I cross over the border,
And I learn from St. Peter my fate:
If he bids me come in I'll go with a grin;
For I'll know 'twas the beans that I ate.

If in that blest land beyond Jordan
I discover a rent in the screens;
I'll be happy, I hope, with my small telescope,
To look down at the Potlatch beans.

Swimming Season Starts

For the second time this year the local swimming season has opened, and boys and girls alike are taking advantage of the clear, cool water of Potlatch creek for dips.

Two swimming holes are being used, the "deep hole" just above the depot, and the "Jacobs hole" near the N. E. Ware home.

"The cannibal king of the Mammas assures the world that he has given up the habit of eating small boys." Youth, it appears, will no longer be served. — Exchange.

DOINGS OF SOUTHWICK NEIGHBORS AND FRIENDS

Mr. and Mrs. Ray Whiting of Lewiston and Mrs. Elmer Fraser and baby spent Wednesday and Thursday at the Earl Whiting home.

Mrs. Ola Betts and family of Clarkston, son Archie Betts of Oregon, and Mrs. Orville Skaggs visited Mrs. Bertrman Saturday. They also called at the Glen and Homer Betts homes.

Mr. and Mrs. Gordon Harris spent Sunday with Mr. and Mrs. John Stalnaker.

Sunday dinner guests of Mr. and Mrs. Howard Southwick were Mrs. Cora Thornton, Mr. and Mrs. Angus Fry and family and Mr. and Mrs. G. C. Danforth and family.

Archie Hoehn of Wisconsin, spent Sunday at Southwick visiting old friends. He ate dinner with the Ziemann family and supper with Mr. and Mrs. Gordon Harris. Mr. Hoehn had an interest in the store several years ago with Ziemann Bros.

Mr. and Mrs. Virgil Harris visited at Gifford Sunday.

Mr. and Mrs. Pete Duet and family of Wisconsin, are guests at the home of her mother, Mrs. Anderson. Mrs. Duet will be remembered here as Miss Jane Ziemann.

Mr. and Mrs. Earl Whiting and James visited at the Neils Longteig home Sunday evening.

Mr. and Mrs. Milton Benjamin were visitors in Lewiston and Clarkston Tuesday.

Rev. and Mrs. Meske visited at the Henry Brammer home Saturday afternoon.

Wm. Brammer of Canada, is visiting at the Henry Brammer home, and with other relatives.

Mrs. Earl Whiting received a telegram from Caldwell, Ida., last week, stating the death of her "Uncle," Nelse McCall. He was in a car wreck, suffering a broken leg, broken jaw, a crushed chest and internal injuries. He lived but a few hours after the accident. Mr. McCall was an old pioneer of the lower Potlatch section, and will be remembered here by many.

Couple Say Vows

Mr. and Mrs. A. G. Peters of Leland announce the marriage of their daughter, Bernadine, to Raymond E. Hudson, son of Mr. and Mrs. Elmer Hudson of Southwick.

The wedding ceremony was held at 2:30 o'clock Saturday afternoon, May 24, at Coeur d'Alene, with the Rev. Willard E. Stanton of the Methodist church, officiating.

Those witnessing the ceremony were Mrs. Emerson Carman, Coeur d'Alene, and Walter Carman, Southwick.

The bride and groom are both graduates of the Kendrick High school, and well and favorably known here. All wish them a long and happy married life.

Surprise Birthday Party

Mrs. Gust Luckens was very pleasantly surprised Sunday afternoon by a few of her lady friends, who came to help her celebrate her birthday anniversary.

Those present were Mrs. Joe Davis, Mrs. Raymond Dunn, Mrs. L. S. LaHatt, Mrs. Hiram Galloway and Mrs. Rose Farrington.

A delicious lunch was served by the self-invited guests at the close of the afternoon.

New Minister Arrives

Rev. Roy Murray and family, arrived Tuesday morning from La Crosse, Wash., to make their home here. Rev. Murray is the new minister in charge of the Kendrick Community church, and will also serve the Juliaetta and Arrow Methodist churches.

Rev. and Mrs. Murray have two children and come with very high recommendations. They will be a welcome part of our community.

Rebuilding House

Paul Lind is busy these days installing new floor joists, new sub-flooring and flooring in the house known as the Carroll home, but now the property of the HOLC.

It will also be partially replastered and the interior redecorated, in preparation for its sale.

This is one of the choice locations in town, and will undoubtedly make someone a fine home.

Returns From Hospital

Mr. and Mrs. Clarence Hund, drove to Lewiston Friday evening and brought Mrs. Fred Zimmerman to their home here, where she spent three days, going on to her home Monday evening.

She is recovering nicely from her recent appendicitis operation, undergone at St. Joseph's hospital, Lewiston.

Work On Road Progressing

With the coming of dry weather good progress is being made on the Texas ridge road WPA project, and with the continuance of this good weather, it is hoped to complete the rock road to the highway district line before the project is shut down for the summer season.

A real effort is being made for its completion.

Logs Going Through

Logging trucks loaded to the limit are again common sights in Kendrick, with the advent of dry weather, and the Thomas sawmill is again on a full schedule.

It will be a few days yet, however, before all sections of the woods will be dry enough to permit complete operations.

Birthday Anniversary

Mrs. B. F. Flesman's birthday anniversary was celebrated at her home on Wednesday, June 18.

Those present were Mr. and Mrs. George Flesman and family of Lewiston, Mr. and Mrs. L. L. Yenini of Leland, Mr. and Mrs. Herman Johnson, Mr. and Mrs. Gordon Peters and daughters Darlene and Wanda and Mr. and Mrs. Ed. Flesman and sons Juel and John.

Eunice Specker, Mrs. Mildred Johnson and Mrs. Dora Flesman served.

The lovely dinner was greatly enjoyed by all.

JULY 1st IS REGISTRATION DAY FOR THOUSANDS

Approximately 3,364 young men in Idaho who have reached the age of 21 years since October 16, 1940, will answer the second call to register for Selective Service, July 1.

In discussing the problem of organizing in a way which will reduce difficulties of both registrars and registrants to a minimum, Adm. Gen. M. G. McConnell, Idaho's Director of Selective Service, explained that it would be necessary to modify plans issued by National headquarters.

General McConnell said: "Although original plans were to have the local boards handle registration without outside aid, geographical factors in Idaho make it virtually impossible for us to follow this procedure without some change. However, permission has been granted to provide for additional help where it is needed in isolated communities, provided such additional helpers execute waiver of pay and such additional places of registration may be obtained without cost to the government.

"Doubtless, members of the American Legion, postmasters, and members of boards will make themselves available and will be used as registering men in remote places where it would be difficult for such men to travel to the regular places of registration."

It was pointed out by Gen. McConnell that registration is for any male alien residing in the United States as well as citizens. A special provision has also been made in the President's second proclamation for any man to register on July 1, who was within the age limits at the time of the first registration and who for some reason, did not do so. The hours of registration will be from 7:00 a. m. to 9:00 p. m.

Proclamation For July Safety

Whereas—The National Safety Council is conducting a nationwide campaign to cut down the heavy July accident toll, which last year took the lives of 9,860 Americans; and,

Whereas—This terrible sacrifice to carelessness is due largely to the Independence Day holiday, increased summer traffic and recreational activities; and,

Whereas—During the month of July last year 22 persons were killed in traffic accidents upon Idaho highways, and of this number five were killed on July 3rd and 4th; and,

Whereas—The streets and highways of Idaho will be crowded with thousands on the triple Fourth of July holiday that will be observed this year and they will make an effort to get in a three-day vacation during the week-end; and

Whereas—Every citizen of Idaho is willing and eager to help reduce this toll of death, injury and suffering;

Now, Therefore, I, Chase A. Clark, Governor of the State of Idaho, by virtue of the authority vested in me, do hereby call upon every citizen to join wholeheartedly in this campaign to halt accidents on the Fourth of July and throughout the extra hazardous month of July. Let each of us use increased care in walking and driving, exercise greater caution in hunting, fishing, swimming and boating, refuse to use explosives or firearms and refrain from driving after drinking. Courtesy, caution, cooperation and consideration will prevent needless accidents.

— Chase A. Clark, Governor.

Government To Build Hatchery

A contract covering the construction of rearing ponds, raceways, drainage and water systems and a road at the Chamokane game fish hatchery near Spokane River at Ford, Washington, from which the 151-mile reservoir above the Grand Coulee Dam will be stocked, was awarded June 2, by Secretary of the Interior Harold L. Ickes, to David A. Richardson, Winthrop, Wash. The bid was \$42,720.50.

The purpose of the hatchery system is to propagate game fish to take the place of steelhead salmon and certain other fish which, due to the construction of Grand Coulee dam, will not be able to return to their natural spawning grounds.

The eggs will be hatched and the fry retained in the rearing ponds until of sufficient size to be released in the vast new Columbia river waterway. It is proposed to stock the young body of water abundantly to provide an ideal playground for sportsmen.

The hatchery plant will be constructed under the supervision of the Bureau of Reclamation and will be operated by the Game department of the State of Washington.

A stray cat has recently attached itself to this neighborhood, and we have named it Roosevelt, because we can't get rid of it. — Samantha Steele.

WHEAT PRICES LOWER IN PACIFIC NORTHWEST

Declines in wheat futures in mid-western markets resulted in a slightly lower quotation on the September option at Portland during the week ending June 20, according to the United States Department of Agriculture. Cash wheat prices also declined with principal classes showing 1/4 to 1 1/2 c per bushel lower compared with a week ago. Trading and movement in cash wheat in this area were light during the period, since growers were not inclined to offer at current quotations in view of the recently announced loan values. Demand, however, was also light at terminals and mostly confined to occasional lots of special qualities for current needs at mills.

Sales of flour in domestic markets were reported as light during the past week. Flour sales for export under the indemnity plan also were the lightest for several weeks past, with indemnity payments unchanged at 60c to the Philippines and \$1.35 per barrel to the Americas. Some inquiry for flour from North China was reported but no sales were made. Wheat millfees continued firm at unchanged prices. Crop prospects in this area continue very good, with prospective yields unusually high, according to trade reports.

Cash wheat bid quotations at Portland on June 20, showed soft white (hard white applicable) at 88 1/2 c; same with No. 1 Rex wheat applicable, 91c; white club 91 1/2 c; western red 92c, and hard red winter at 92c per bushel, all basis No. 1 grade in bulk. Cash wheat prices at Seattle on June 19 showed western white, western red and hard red winter at 90 1/2 c, and hard white (harrat) at \$1.11.

The San Francisco wheat market remained quite firm during the week, principally reflecting light offerings from central California growers, rather than any important demand. Prices of local wheat maintained the upward trend of other recent weeks and advanced 2 1/2 c to 5c per 100, in contrast with moderate declines in other areas. Offerings from the Pacific Northwest were above a workable basis and bay region mills were turning more to intermountain states for their requirements.

Denver mills were bidding 72c per bushel for No. 2 hard winter and No. 2 northern spring wheat, basis f. o. b. Colorado common points.

Recent upward trends of wheat prices were reversed at Kansas City during the week with improved harvesting conditions in the winter wheat belt outweighing most other developments as a market influence. Such factors as an improved flour demand and the strained international political situation had only a temporary effect as price supports and Kansas City futures closed 1 1/2 c lower than a week ago. Trade reports were inclined to minimize the recently reported damage and losses of wheat incident to wet weather and floods. The quality of new crop arrivals was averaging somewhat lower than usual at most markets.

Receipts of cash wheat at Minneapolis were sharply larger at 1,924 cars for the week, while Duluth unloaded 760. Mill demand continued steady and averaged fair to somewhat better.

The wheat market worked lower at Chicago during the week. The July futures closed the week at \$1.00 against the close of \$1.02 a week ago. Receipts were light with very little being offered on the spot.

Flax averaged more on the firm side at Minneapolis during the week, with some crop damage reported from Texas and California but with a generally good new crop outlook.

Harvesting of winter wheat was further delayed by rains in much of the southwest. In Oklahoma, some combining has been accomplished but fields are still largely too wet and harvesting has been confined mostly to central and western sections. Much wheat is down and harvesting operations are difficult. In Kansas, harvesting with binders has progressed from the southeastern to north central counties and some combining has been done in the southern portions of the state. Considerable loss is reported from lodging. In eastern portions of the wheat belt, harvesting is beginning as far north as central Kentucky and southern Illinois. More than normal rainfall was received during the week in Ohio and Indiana, but precipitation was light in Illinois, Missouri and Iowa. Additional rains occurred in much of the spring wheat belt, where the outlook continues promising. Spring wheat made an excellent growth in the Pacific Northwest.

Hot weather and general precipitation stimulated growth of spring wheat in the Canadian Prairie provinces and early-sown crops are well into the shortblade. More rainfall is needed in northern districts, particularly in Alberta, which province has received 78 per cent of normal rainfall compared with 89 per cent a year ago.

In the United States, stem rust is now prevalent on wheat as far north as South Dakota, and a trace to be found on barley in South Dakota and Minnesota. Present prospects are, however, that damage from stem rust will be light in the panhandle of Texas, western Oklahoma and the western third of Kansas. Eastward the condition is quite spotted. There will be some damage in northern Texas and northern Oklahoma and in central and eastern

PERRYMAN'S

LITTLE BEAR RIDGE

Cecil Emmett helped John Thomas and sons butcher a beef Tuesday evening.

Mrs. Cecil Emmett was a Kendrick visitor Tuesday afternoon. Juanita Lohman returned home with her.

Mrs. Jim Benjamin and Mrs. Gunder Reiersen and children visited with Mr. and Mrs. Vernon Banks at Harvard, Tuesday.

Mr. and Mrs. John Thomas and Earl were Kendrick visitors Wednesday. Mrs. Cecil Emmett and Juanita Lohman were also visitors there.

Roy and John Thomas, Jr., were Lewiston visitors Wednesday. On Thursday they returned to their work at the Bill Dahmen logging camp.

Henry Hanson helped Gunder Reiersen move his telephone line Friday and Saturday.

Harry Arneberg worked Friday and Saturday at the Troy elevator.

Mr. and Mrs. John Thomas and children called at the Gunder Reiersen and Harry Arneberg home Friday morning.

Mr. and Mrs. John Thomas, Mary and Earl made a business trip to Moscow Saturday, as did Gunder Reiersen. The Thomases drove on to Colfax where they visited Mrs. George Jones and baby. Mary also visited Annabel Gasser, a nurse at the hospital there.

Mr. and Mrs. Bill Nilson and baby were Moscow visitors Saturday. Cecil Emmet and Chas. Cox were Lewiston visitors Saturday. That evening they went on to Harvard to see about the cattle, returning home Sunday.

Mr. and Mrs. Bill Nilson and daughter, Mr. and Mrs. Harry Arneberg and Orland, Mr. and Mrs. John Thomas and children spent Sunday fishing in the upper Elk River basin. All returned with the limit.

Willa Arneberg attended a picnic Sunday given in honor of Clyde L. Bohman, son of Mr. and Mrs. John Bohman, who leaves Tuesday of this week for California, where he is employed in Lockheed aviation plant.

The Harry Arneberg and John Thomas families and "Porky" Fry picked strawberries Monday morning. They reported nice berries.

The beans will all be in by Wednesday of this week, and farmers here are ready to cut hay and cultivate beans already up.

Betty Lohman came up Saturday to spend a few days at the Cecil Emmett home.

Return From Vacation

Mr. and Mrs. L. D. Crocker and family returned Saturday afternoon from a two-week vacation trip in southern Idaho, spent at the home of her sister, Mr. and Mrs. Ward Howell and family at Bellview.

While there the group was joined by Mr. and Mrs. Harry Ameling and family from Tucson, Ariz., a brother of Mrs. Crocker.

While there they visited the big ice caves, witnessed an ice carnival at Sun Valley, saw the Craters of the Moon national park, ascended the Sun Valley ski lift, visited the Stanley basin, and many other points of scenic interest.

Mrs. Liddle Ameling, who accompanied them south, remained for a longer visit, and will return here with Mr. and Mrs. Harry Ameling, who are expected to arrive the latter part of this week for a visit here with relatives and friends, the first since they left Kendrick some seven years ago.

BIG BEAR RIDGE NEWS

Mesdames Claude Jones, Roy Emmett, Grant and Adrienne Clemenhagen, Lloyd Schreffler, K. D. Ingle and Johanna Nelson received their First Aid cards, after successfully taking this instruction.

Lloyd Leland and a boy friend from Spokane visited Sunday at the Oscar Slind home.

Miss Anna Lee of Deary was a recent visitor at the Halvor Lien home.

Mr. and Mrs. George Hammond and daughter Mary were dinner guests at the E. H. Jones home Sunday. Mrs. Everett Hammond returned home with them on her way to join her husband in Sitka, Alaska.

Ed. Lien returned home Monday from a vacation spent on the coast. Miss Agnes Rognstad of Walla Walla, is visiting with Mrs. Johanna Nelson.

Miss Allie Moore of Spokane has been visiting at her home here the past weeks.

Mrs. Ruth Pierce and daughter of Deary spent Monday with her grandmother, Mrs. Ida Comstock.

Mr. and Mrs. Hiram Alber and Mr. and Mrs. Lyle Burns of Spokane visited at the Ed. Galloway and Morey homes recently.

The Misses Helen and Margaret Halseth of Lewiston visited at the Ed. Halseth home Sunday evening.

"Dude" Jones of Peck visited on Sunday and Monday at the A. W. Jones home.

Arnold Halseth and "Dude" Jones were Moscow visitors Saturday.

Mr. and Mrs. Ollis Sherbon and son were recent callers at the A. W. Jones home.

Weather Warming Up

Friday, Saturday, Sunday, Monday and Tuesday were indeed welcome days to the farmers of this section, and the bark of tractors, the clatter of bean planters and the whirl of mowing machines resounded from every ridge, as they strove desperately to catch up on their spring work, so long delayed by almost continuous rains.

Of course a great deal of hay was down before the last siege of rains started, and that is almost a total loss. A considerable loss will also be felt by alfalfa growers, for the uncut alfalfa showed signs of bluing at the ground, combined with too rank and too old growth.

However, all indications now point to a fine crop in this section, so perhaps the loss could have been far greater.

Sunday was the warmest day of the lot, to date, the thermometer reaching a high of 84 degrees. This was felt all the more, as the weather has been exceptionally cool until this time.

Work Progressing on House

A crew has been busily at work the past few days building a new house on the Harold Thomas lots above town, at the back of the Community church.

The house will be a small one, which will later become a garage with the construction of the home proper.

Fine Fisherman

F. L. Gable, Boise, paid \$25.00 fine and \$3 costs in Lewiston probate court Monday for fishing with two poles. He was arrested by Game Conservation Officer Jess Robertson.

Kendrick—July 4th—don't miss it.

ITEMS ABOUT KENDRICK FOLK AND THEIR FRIENDS

Wade Keene was a Uniontown visitor Wednesday, where he attended the Uniontown Stock show and visited at the home of his daughter and son-in-law, Mr. and Mrs. George Jones and daughter, Ed. Dammarell returned home Tuesday evening from Hermiston, Oregon, where he has been employed on the government defense project there. He states that he expects to return to the job when more equipment is received.

Louis Lundens came home from his work at Craigmont Saturday evening, to spend the week-end with his family. On returning to his work Monday morning Mrs. Lundens accompanied him as far as Reubens, for a visit with her mother.

Everett Farrington, Gold Hill, has gone to Hermiston, Oregon, where he will be employed on construction work for the government.

Mr. and Mrs. E. A. Deobald were Orofino visitors Sunday afternoon, visiting his sister, Mrs. Eva Thompson, and friends.

Rev. and Mrs. Wm. S. T. Gray left Friday for their new pastorate at Hoquiam, Wash., where he will be in charge of the Methodist church at that place. Enroute they stopped to visit at the Rev. Coughlan home in Lewiston, and will visit for a short time in Seattle before going on to their new charge.

Mr. and Mrs. Clarence Hund were Lewiston visitors Thursday evening. Jay Stout and Jim Wilson spent the week-end here at their homes. They are employed at Headquarters.

Mr. and Mrs. W. A. Watts and sons Joe and Bob, and Mr. and Mrs. E. A. Deobald, daughters Arlene and Annie, and sons Teddy and John left Wednesday for a vacation trip in Jasper Park, Canada. They will be joined in Montana by Mr. and Mrs. Ralph Knepper of Salmon, Idaho. They plan to enjoy the great fishing and scenery of that section for about a week.

Mrs. Wade Keene left Wednesday for Uniontown, Wash., for a week's visit with her daughter and son-in-law, Mr. and Mrs. George Jones and their young daughter, who was taken to her home at Uniontown on Wednesday.

Mr. and Mrs. Roy Jump and children of Lewiston were week-end visitors in the home of her parents, Mr. and Mrs. Harold Thomas.

Mrs. D. A. Christensen and children returned Monday night from Salt Lake City, Utah, where they had spent a week visiting her parents, Mr. and Mrs. Chas. Snowling.

"Whiskers Court" Held Saturday

Kendrick's first "Whiskers Court" was held Saturday evening of last week at 7:00 o'clock in front of R. L. Blewett's bowling alley, in response to summons issued by various parties about town, and served by "Whiskers Constable" Ed. Long. "Judge" Jack Kuykendall presided; Marvin Long was prosecuting attorney; Ben Weatherby and G. P. Barnum were defense attorneys.

Those appearing before the court, where "justice" was lavishly and swiftly dispensed, and who, after hearing their cases plead and prosecuted, and who plead guilty to "indecent" exposure and paid their fines were R. L. Blewett, Chas. Nelson, H. C. Schupfer, Harold Hanson, Dr. G. W. McKeever and Clarence Perryman.

The case of George Brocke was appealed, and will come up at the next session of the "court."

Dr. D. A. Christensen and Otto Schupfer were adjudged fugitives from justice and "in contempt of court" due to their being out of town, and their cases were continued.

The case of Lloyd Farrington was discharged, the culprit being given another year in which to "produce."

The case of Wayland Davis was also stricken from the docket, the spotlight revealing a "real try to cooperate." It was put in the records that the "mind was willing but the whiskers were not."

"Smoky" Murphy was also adjudged a fugitive from justice, since "fuzz don't count" and "Smoky" was nowhere to be found.

Another session of "court" will be held this week for those who have not already appeared before it, since all feel that this "indecent exposure" of faces in the Kendrick vicinity must cease.

A real crowd was on hand to witness the "court proceedings" and "Judge" Kuykendall was forced to wrap for order many times during the proceedings. — Remember, folks, it's all in fun.

Social Security Pamphlet Issued

The federal social security board has issued an illustrated circular, "Make Your Money Count," explaining the importance under the social security act of employers making complete reports to the collector of internal revenue showing wages paid to each employee, regardless of the amount, and also the worker's correct name and social security number.

Employers must file this information with the collector of internal revenue at the close of each calendar quarter.

Insurance payments to workers upon retirement or to their families in case of death are based on the wages credited to their social security accounts.

Copies of the circular, intended for both employers and employees, may be obtained free from the social security board, Room 2, Post Office Building, Lewiston, Idaho.

"Ridin' On a Rainbow"

This week's offering at the Kendrick Theatre will be that well-known musical cowboy, Gene Autrey, and his cohorts in "Ridin' On a Rainbow."

This story deals with the old show-boat days, when music and fun and a six-gun ruled. Throughout the picture runs music and song, love and action, mystery and intrigue. Starred with Autrey are Smiley Burnette, Mary Lee, Carol Adams, Ferris Taylor and Georgia Caine.

In addition to the main feature selected shorts will also be shown.

GRAIN MARKET

Kansas, although it appears that the rust may have come too late to cause material damage except in the late fields. In Missouri, extensive damage is not likely. North of the Missouri river, wheat is in the hard dough or ripening stage, and it appears that most of it will escape serious damage.

Stem rust appears on wheat in Illinois throughout the wheat growing areas and a trace of rust infection has been found in central Indiana and in southwestern counties of Ohio. While it is too early to forecast probable damage there are no present indications that rust may become an epidemic in these states.

Leaf rust is prevalent in wheat almost throughout the wheat growing region and undoubtedly will cause damage in local areas. Leaf rust is likely to cause more damage than stem rust in parts of Kansas, Missouri, Nebraska and probably in the spring wheat regions.

The wheat harvest in Europe is backward because of the cold, late spring. The weather continues unseasonably cool in northern Europe. Small yields are indicated in Italy and Spain, and prospects are below normal in Greece. Below average yields are also indicated for the Balkan countries. In Russia, about 95 per cent of the spring seeding plan had been completed by June 10, with the total placed at 219 million acres compared with 204 million a year ago. Temperatures are still below normal and growth is backward. Wheat seeding is proceeding normally in Argentina according to trade reports and seeding was resumed following further general rains in Australia.

In United States markets the storage situation is causing some concern. Approximately 60 per cent of the 450 million bushel storage capacity of the elevators reporting commercial grain stocks, was occupied at the middle of June, leaving less than 180 million bushels of storage available in these elevators at that time. In the Atlantic coast markets the storage capacity of about 42 million bushels was over 50 per cent filled. Gulf coast elevators were also about 50 per cent full of grain as a result of the recent movement of central western grain to these areas. At Minneapolis and Duluth the elevator storage capacity of 126 million bushels was about two-thirds filled, while lower lake ports had space for only about 30 million bushels of grain. On the Pacific Coast, less than four million bushels were in store in elevators, with a capacity of slightly over 21 million bushels.

GOLDEN RULE

Mrs. Ola Betts and children, Ray and Donna Jean, and Mr. and Mrs. "Short" Betts were over-night guests at the Glen Betts home the first of the week. Adella Betts returned to Clarkston with them for a few days' visit, coming home on Thursday.

Mr. and Mrs. Frank Stage were Lewiston visitors the first of the week.

Ethel Cowger spent a couple of days the last of the week at the Glen Betts home. She also visited Mrs. "Short" Forest Thursday.

Mr. and Mrs. Lynn Parkins and baby and Miss Catherine Kazda were visitors at the Oscar Laurence home Sunday.

Mr. and Mrs. Carl Finke and children and George Finke, Jr., attended the Children's Day picnic at Cameron, Sunday.

The Alfred Adams family were at the Jack Kelsey home Saturday. Eddie Adams is staying for a visit. Kenneth Pearson went to Colfax this week, where he accepted a job in a laundry. His family will join him in a few days.

Mrs. Joe Charles and daughter of Cascade, Locks, Ore., are visiting her uncle and wife, Mr. and Mrs. Jack Kelsey.

Callers at the Glen Betts home Saturday were Mr. and Mrs. Orval Skaggs and Archie Betts of Union, Oregon, Mrs. Ola Betts and children and Mrs. Donna Berriman.

Burdensome We will never permit funeral costs to be burdensome. Families can rely upon being properly guided in their selection. CARLSEN FUNERAL HOME 117 PERSON, 27th & Diana Sts.

Fortunes Spent on Works Never to Be Produced

Hollywood is supposed to have spent \$1,739,000 in 1939 for new stage hits and top novels, yet its greatest activity these days seems to be re-makes.

Why does Hollywood spend such fortunes on new material, particularly when a good deal of it, for one reason or another, never reaches the screen?

A part explanation, Hollywood buys up literary works occasionally as a protection against plagiarism suits, or possible competing pictures.

Last season Cecil B. de Mille bought the stage play, "A Family Portrait." He then announced that the only reason he had acquired it was its similarity to a story of his own. He had bought "A Family Portrait" merely to shelve it, so that there would be no conflict.

And two other stories which will never reach the screen were bought for similar reasons.

Walt Disney bought Felix Salten's "Bambi's Children," a sequel to "Bambi," because he feared that another producer might buy the sequel and make a film to conflict with Disney's almost completed "Bambi."

And Sam Goldwyn bought Martin Berkeley's unproduced play, "The Wall Between," because it was similar to his "City Without Men." Sam announced he would incorporate part of the purchased play in his own film.

Attractive Draperies Depend on Length, Width

Most important to success in making draperies is accuracy in measuring and cutting—care in placing the material—sufficient space in which to work. Extend the dining table to its full length, so that you will have length and width as well, on which to work.

Remember that skimpy draperies are about as bad as none at all. Be as careful with the material allowed in width as that measured for length.

If curtains are to be hung under a cornice or valance, no heading is needed. Just allow an inch or two for hem. Otherwise the curtain may be finished with a heading of pleats, pinch or box pleats. Three inch headings are right for the average size window.

As to length, drapery may touch the floor or lie on it for a length of 6 to 12 inches, depending on the effect of luxury you want. Curtains, if not to reach the floor, should cover the window casing, so measure from the top of the window casing to the bottom of the apron below the sill for the finished length.

On unlined curtains there should be a narrow hem, about a quarter inch deep on the outside edges. A 2 1/2 inch hem at the bottom of drapery makes a satisfactory finish.

Busy Beaverbrook

A small group of distinguished men were standing around the duke of Windsor's swimming pool at Cap D'Antibes, French Riviera. They all were admiring the gleaming gold cuff links which the duchess had given the duke.

Then they began comparing each other's cuff links—all but a round little man with scanty wisps of hair. He hung back, tugging down his coat sleeves. Finally, the others turned to him:

"What've you got on, Beaver?" Sheepishly the little man displayed his cuffs.

They were held together by paper clips!

That is just one of the many stories about Lord Beaverbrook, who at 30 had made millions and who, now at 61, has the supremely important job of getting Britain's war-planes made. He doesn't care how he looks; he hasn't time for that—and he's always been that way.

How Fires Are Built

Have trouble getting a fire started in your fireplace?

Here are a few directions that should do the trick. Remember that the foundation of your fire is most important.

Crumple up three or four pages of newspapers. Don't wad them up hard as rocks, or you'll not get any tall flames. Over the crumpled papers put a double handful of kindling shavings, preferable box-wood. To this add your smaller pieces of kindling, building up to the larger pieces. Then lay on two or three small pieces of wood and on top put your log. Light your paper in several places at the same time. If you still have trouble getting your fire started, or your logs should be damp, you can fall back on a bit of kerosene.

High Flying on Ground

Technicians of the Civil Aeronautics authority have worked out several new ways of testing a pilot's reaction to the thin air of high altitudes without having the airman leave the ground. Their devices are being tested at the authority's medical science center at Kansas City, and it is predicted that they will greatly speed up the country's progress in aviation.

By a gradual cutting down of the amount of oxygen, a pilot or student aviator sitting safely in the laboratory goes through exactly the same reactions that he would if he were handling an air liner or a military plane several thousand feet above the ground. Every reduction in the volume of oxygen is the equivalent of a corresponding rise heavenward.

University Gets Library
Through the generosity of Mrs. Jerome J. Day and her daughter, Bernice, the University of Idaho receives the valuable personal library of the late Jerome J. Day of Wallace, former student of the university and a member of the board of regents from 1933 to 1938. Mrs. Day tendered the library to the university as a memorial to her late husband.

sents one of the finest Western history collections in existence," said President Dale in commenting on the gift. "It contains many rare and valuable items. Mr. Day was a keen student of western history and during his lifetime collected all the authentic material he could in this field. Because of his interest in mining, the library also contains a valuable collection on this subject. The library has not been appraised but its value easily is in excess of \$3,000."

Mr. Day has the distinction of being the only former student of the university ever to be appointed on the board of regents. His daughter, Bernice, received her bachelor's degree from the university in 1936 and her master's degree in 1937.

Never take the problems of life so seriously that other people forget to take you seriously.

NOTICE FOR PUBLICATION OF TIME APPOINTED FOR PROVING WILL, ETC.

In The Probate Court of the County of Latah, State of Idaho

In The Matter of the Estate of Amos Moore, Deceased.

Pursuant to an order of said Probate Court, made on the 11th day of June, 1941, notice is hereby given that Saturday, the 28th day of June, 1941, at 10 o'clock A. M. of said day at the court room of said court, at the Court House in the County of Latah, has been appointed as the time and place for proving the Will of said Amos Moore, deceased, and for hearing the application of Charles W. Moore for the issuance to him of Letters Testamentary, when and where any person interested may appear and contest the same.

Dated this 11th day of June, 1941. L. G. PETERSON, Probate Judge. Adrian Nelson; Moscow, Idaho, Attorney for Petitioner. First pub. June 12, 1941. Last pub. June 26, 1941.

Idaho Gas Taxes \$4,825,000
Motorists in Idaho paid \$4,825,000 in state gasoline taxes during 1940. Utahans paid \$4,056,000.

Reports of the public roads administration as announced by the federal works agency showed state taxes were imposed on more than 22 billion gallons of gasoline during the year.

Idaho's tax per gallon is 5.1 cents while Utah's is 4 cents, and Utah motorists consumed some 101,400,000 gallons to Idaho's 94,620,000 gallons.

Consumption of gasoline increased 6.9 per cent over 1939 in Idaho, and 8.6 per cent in Utah, as based on tax collections. Greatest increase was reported by the District of Columbia, with 12.7 per cent.

Receipts, tax per gallon and increase in consumption for others of the states includes: Oregon, \$11,359,000, five cents, 7.4 per cent increase; Wyoming, \$2,774,000, four cents, 5.1 per cent increase; Nevada, \$1,507,000, four cents, 6.2 per cent increase.

An Idea!
Will Franklin Delano Roosevelt please take notice? In Greenleaf the son of a family decided he would go on strike and not mow the lawn, while the daughter of the household had the same idea regarding the dishes. The mother took the matter in hand, a short session was held in the woodshed with each party and the mediation appears to have been successful as both are now blithely at work. Franklin, could you use this mother in the place of "Madam" Perkins?

Defense contracts are not apt to be sources of permanent economic benefits.

Stage Students Say 'No'; Love Course Turned Down

The younger generation turned thumbs down on instruction in love making, mass or otherwise, in a solemn vote among the 40 student members studying to be actors and actresses at Walter Hartwig's Manhattan Theater colony in Ogunquit, Maine.

The vote stood 35 to 5 on the first ballot, a clean majority, if not unanimous. The ardent but defeated five were reported to have bowed gracefully to the new order of things and the superior weight of numbers.

The question of love making came up academically during a rehearsal for an apprentice theater group's production. John Kirkpatrick, veteran director and playwright, expressed satisfaction with the progress of a love passage. A student, age 18, of Latin extraction, respectfully disagreed.

Kirkpatrick invited an open forum on the subject, offering his professional services to any who felt they needed it but suggesting that in his experience it was one of those things that couldn't be taught. Love, he felt, like Topsy, just grew.

Discussion followed. A vote was taken. Result: The students this year will search their own hearts for instruction in the delicate though admittedly important, art.

Australian Koalas Are Fighting Life Battle

The real live "Teddy Bear," the Australian koala, is fighting its greatest battle. And the humans, who almost exterminated this friendly, harmless little animal, are now trying to keep the species alive.

Forty years ago, koalas were plentiful in Australia, but disease and hunters have almost wiped out this small cousin of the kangaroo. An open season on the koala, in 1927, saw 584,000 killed for their soft, heavy fur. Koalas are now protected by government restrictions.

The koala requires a special diet of eucalyptus leaves, rarely survives captivity. Efforts are now directed toward reproducing the natural habitat in protected preserves to keep the koala alive.

A full grown koala is about two feet high, weighs about 30 pounds. The young are less than two inches long at birth, live eight months in the mother's pouch.

Koalas are easily tamed, make excellent pets. But given sweets and starches, instead of eucalyptus leaves, they inevitably die.

Antiques of Copper, Brass

Just as pewter is popular in home furnishing, so are old copper and brass. The beautiful hand-polished pieces of copper and brass may occasionally be found in our shops and add a delightful note of color to a room. Copper and brass may be found in a great variety of articles, for they, too, came into use early in our history.

In America we find large brass and copper kettles which were hammered out of sheet brass and copper brought here in the early days from Wales. In addition there are old brass candlesticks now hard to find, that is, genuinely old ones. Snuffers and trays may be found in both metals and warming pans which were in use for many, many years. Shovels, tongs and fenders, chafing dishes and ladles are rarities. Brass mortars are very much a collective item at the present time. It is to the Dutch we are indebted for the fine old milk cans, tea and coffee pots, skillets and also for the wash-bowls and pitchers now so much desired for the ranch house.

Winter Driving Perils

Two precautionary measures to mitigate the driving hazards of snow, sleet and ice on many dangerous grades were recently advocated by the City of Cincinnati.

One suggestion was that suitable containers holding sand, ashes, or cinders, which could be spread by any citizen when an emergency arises, be placed near such grades. The other suggestion was that every motorist carry in the rear compartment of his car a small box, bag or other container filled with ashes, sand or cinders.

If cities accepted these suggestions, Cincinnati officials feel that it would not only be a means of preventing accidents, but the plans would give work to many unemployed men, who could make the containers and signs to place on them, informing the public of their purpose, and could fill and refill them.

Every Object Has Center

Every object, however irregular it may be, has a center. If it were hung by the center point, the object would not tip lazily, but would balance.

When you stand on the tip of one toe, the rest of your body has to be in such a position as to balance over the toe. A rocking chair tips over when you rock so far back that the center of weight is thrown behind the supporting rockers.

Cut a piece of cardboard in any irregular shape. By resting it horizontally on a pin point, held straight up and down, you can soon find the point where it balances. Now, if you thrust the pin through this point and hold the pin horizontally, you will find that the card will stay in any position that you put it. It is said to be in equilibrium.

FARM TOPICS

CROP ROTATION GOOD ECONOMY

Increasing Yields Repay the Extra Cost, Labor.

By GUY W. MILLER
(Specialist in Rural Economics, Ohio State University)

Farmers who follow crop rotations which maintain or improve the fertility of their soil consistently obtain higher incomes than farmers who follow cropping practices which reduce their soil productivity.

Some farm operators may find it more difficult than others to change their cropping plans to a system that improves soil instead of depleting it, but in the long run, the change will pay. Immediate need of money to pay debts usually is given as the reason for following old crop rotations, but taking the money out of the soil is bad economy in the end.

Farms which have been badly depleted respond slowly to soil improvement practices and it may be possible that the adoption of these practices will reduce farm income temporarily. However, the farmer who expects his land to support himself and family must make up his mind sometime to protect the soil, and the decision should be made early enough to avoid long and costly soil improvement practices.

No rural economist advises farmers to go heavily into debt to buy soil improving materials for a whole farm at once. Applications of lime or of fertilizer can be made on a few acres at a time, and the increased yields from the first acres treated will help pay for materials used in later years on other acres.

In some cases, better use of farm manure or the adoption of cultural practices which stop soil erosion will improve the farm without the expenditure of any money. It also is possible in many cases to feed more of the crops to livestock on the farm and thereby obtain more materials for soil improvement.

Appearance Is Deceiving

When Evaluating Farms

Contrary to popular opinion, the appearance of a farm may not be a good indication of its value.

It's true that the condition of farms and buildings in a community may be taken as an indication of the productivity of that area, says H. C. M. Case, head of the economics department of the University of Illinois college of agriculture. But, he explains, a particular farm may show the effects of conditions under which it has been owned and operated.

For example, previous management may add to or detract from the farm's real value. A good soil may show to a disadvantage if poorly farmed. In fact, the difference in the way adjoining farms have been operated over the past 25 or 50 years may greatly affect their present value. Also, a particular type of soil may respond better to one kind of season than another. Fresh paint on buildings may cause one to overlook poor foundations or frames.

Case says it should be considered whether a farm to be purchased is of proper size and adapted to the type of production the farmer wants to follow. He needs to consider whether the farm is located in a good community which will provide the proper opportunity for his family in educational, religious and social aspects. Soil types, control of obnoxious weeds, available water supplies, and the condition of buildings also require consideration.

Grasshopper Threat

Smaller This Year

Grasshoppers are less threatening to crops this year than in 1938, 1939, and 1940, Dr. Lee A. Strong, chief of the U. S. bureau of entomology and plant quarantine, predicts. A grasshopper egg survey, on which federal entomologists forecast infestations of these pests, indicates that in 1941 the "hoppers will be fewer in numbers and less widespread in area. However, large numbers of grasshoppers are expected in North and South Dakota and western Minnesota.

The grasshoppers will appear also throughout western Kansas and immediately adjoining areas of other states, but not in such large numbers as in the northern part of the Great Plains, Doctor Strong says. Large numbers are expected in parts of California and Nevada, though in limited widely scattered areas.

Horse's Teeth Need Care

At least once during each year a competent veterinarian should examine the teeth of all horses, according to the department of agriculture. Generally all that will be required will be the floating or filing off of the long, sharp corners which are due to uneven wearing. This roughness first causes sore tongues or cheeks, followed by a lack of proper mastication together with digestive troubles. Older horses particularly, need proper attention.

 Epworth League at 7:00 p. m.
 Preaching Services at 8:00 p. m.

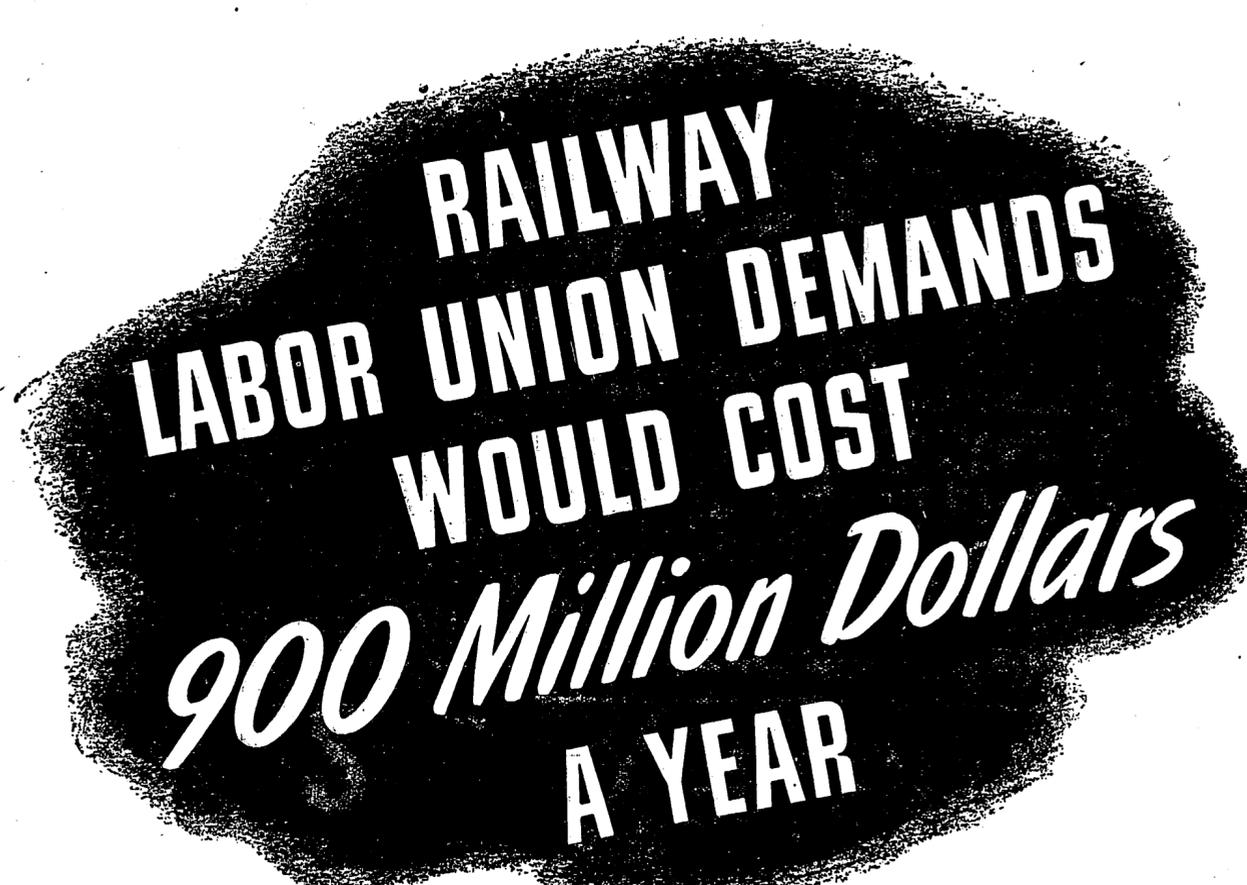

Memorial Service Held
 The second annual Memorial Service was held at the Spalding Park on June 22, with people present from Walla Walla, Lewiston, Moscow, Clarkston, Troy, Kendrick, Juliaetta, Cuddezac, Lapwai and the surrounding territory.
 C. W. Jessup of Juliaetta presided very successfully over the meeting.
 The program opened with a prayer by Rev. Malcom Sylvester. This was followed by the singing of two hymns, led by Charley White. Rev. Daniel Scott delivered the sermon and also told of his parents' conversion under Spalding's teaching at meetings near Spokane. Rev. Shangle of Walla Walla introduced himself and spoke briefly of the early missionaries. A song was lead by Charley White, after which the morning gathering was dismissed by Rev. Scott.
 After a bountiful basket dinner there was a song service, a prayer by Rev. Platt, followed by a testimony meeting, after which Rev. Christenson, preached, followed by a solo by Mrs. Dixon. The following program was then given:
 Sermon by Rev. Stephen Rubens; solo by Charley White; short sermon by Rev. Hugh Narbo.
 At the close of the afternoon services a motion was made by C. W. Jessup that the day be carried on each year on the third Sunday of June, by the following churches: The Indian Presbyterian church of Spald-

ing, The Indian Methodist church of Lapwai and the Saviour's Mission of Spalding; each church a committee and each pastor chairman of that committee. The motion carried unanimously.
 The day was brought to a close with the Benediction by Rev. Daniel Scott.
 This is a splendid way to spend the day—in memory of the early missionaries, who endured hardships to bring the Gospel to the Indians.

A "Thank You" Message
 We, the Home Hygiene club, wish to thank the City Council for taking action on the Garbage Disposal program.
 We hope everyone will realize the benefit of this service and what it will mean to the sanitation of the town. We believe this is one of the prettiest and cleanest little towns in the northwest, so let's try to make it the most sanitary.
 We understand this program will not be carried out unless residents will cooperate, and obtain garbage cans for the refuse that is to be picked up every Monday.
 Thanking the City Council, The Home Hygiene Club, Mrs. Geo. Brocke, Pres. Mrs. Ross Armitage, Sec.

WILL TAKE CARE of children or run errands, day or night—10c an hour. Jean Flaig. 26-1x

PINE CREEK GOSSIP
 Bud and Vivian Fey were in Lewiston Wednesday.

 Wm. Riley and family were Lewiston shoppers Friday.
 Mr. and Mrs. Fred Bailey and Artalee were in Lewiston Saturday.
 Mr. and Mrs. Kirk Wilson visited Sunday in the Stewart Wilson home.
 Mr. and Mrs. Bruce Glenn and daughter visited Sunday in the Roy Glenn home.
 Mr. and Mrs. Fred Bailey visited in the Jack Bailey home Sunday.
 Sunday visitors in the Wm. Riley home were Mr. and Mrs. Basil Packwood and children and Mr. Sturgis, of Lewiston, R. Darr and wife and Otto Darr of Deary.
 Artalee Bailey visited—with Leila Riley Tuesday afternoon.
 "Tell me, papa," asked Johnnie, what is a consulting physician?"
 "He is a doctor, son, who is called in at the last minute to share the blame."
 The crop of Spring poetry this season is notably small, for which we utter thanks.

THE labor unions have made their demands upon the railways of the United States—and through the railways upon the PUBLIC. These demands are vastly larger in proportion than any they have ever made. The economical and efficient operation of the railways is vital to the nation's defense effort. Therefore, the Western Railways present to the public the following facts:

The labor unions representing engineers, firemen, conductors, brakemen and switchmen are demanding a 30 per cent increase in wages, amounting to 190 million dollars a year—although their present rates of pay are the highest in history.

Other unions representing a greater number of railway employees are demanding wage increases ranging as high as 95 per cent—averaging 47 per cent—and amounting to 580 million dollars a year—although their present rates of pay also are the highest in history.

Thus the wage increases being demanded by the labor unions amount to 770 million dollars a year, an average increase in excess of 41 per cent.

In addition, certain of these labor unions have demanded advances in their pay not included in the above figures, and more rules for the creation of unnecessary jobs.

The situation, then, is this: The total cost of complying with all the demands made would be approximately 900 million dollars a year!

The average weekly earnings of railway employees are now 15 per cent higher than in the peak year 1929, while the cost of living is 12 per cent less.

The demands of the railway labor unions are being made when the entire nation has just been asked to make a supreme effort for National Defense.

The railways cannot meet these demands without a great increase in the cost of transportation. They exceed by more than 700 million dollars the income that the railways had left after paying their annual expenses, taxes and charges in 1940.

The railways have a vitally important job before them. They need all their resources to continue adequately to serve you and contribute effectively toward the National Defense Program.

EDITORIAL

Well Folks—For the last week we have certainly been blessed with a lot of dry weather. Once we had a drought of 13 whole hours—think of that! And then, Friday and Saturday were beautiful days—think of that. My, Oh My, what a lot of dry weather. Makes us almost think we are in the Sahara desert, instead of in the Potlatch country.

But seriously, Folks — The Fourth of July is coming up and Kendrick is planning one of the best little celebrations you ever saw. Nothing elaborate, nothing fancy, just plain day of fun and fellowship — and the best part of it all is that it's all free with the exception of the dance in the evening. So bring the family, come in and spend the day with us.

a little spending money, so just bring in your cream any day before the 4th and get the necessary cash! For we pay cash, you know.

A farmer took this ad. into the office of the Atchison (Kan.) Globe and asked that it be printed right away: "To whom it may concern: I am not responsible for any debts contracted by FDR!"

Reformer: "Young man, don't you realize that you'll never get anywhere by drinking?"
Stewed: "Ain't it the truth? I started home from this corner five times already."

Motor Cop: "Hey, you. Didn't you hear me say 'pull over?'"
Drive: "Why I thought you said 'Good afternoon, Senator!'"

Motor Cop (smiling): "Yes, isn't it a warm day, Senator?"

THIS AND THAT ABOUT FRIENDS AT CAMERON

Mr. and Mrs. Bob Ericson and sons and Elvin Flesham were Sunday dinner guests of Mr. and Mrs. Lyle Harrison.

Mr. and Mrs. Ernest Heimgartner and daughter Irene and son Ernest of Linwood, Calif., are visiting with relatives here.

Helen and Jerry Harris of Southwick are visiting with their uncle and aunt, Mr. and Mrs. Otto Schoeffler.

Violet Thompson of Lewiston was a guest of her cousins, Reva and Irene Schoeffler last week.

Mr. and Mrs. Chas. Schultz were dinner guests of Mr. and Mrs. Don Gruell at Juliaetta Sunday.

Mrs. Minnie Heitman of Lewiston was a visitor in the Carl Koepf and August Brammer homes last week.

Mrs. John Schwarz, Mrs. Ida Stoneburner, Miss Emma Hartung, Mr. and Mrs. Edwin Mielke and Ted Mielke were visitors in the F. W. Newman home Monday afternoon.

Mr. and Mrs. Chas. Schultz were Monday visitors in Lewiston.

Mr. and Mrs. Gus Kruger were transacting business in Lewiston on Friday.

Suzanne and Dicky Bresgal of Spokane are visiting in the home of their uncle and aunt, Mr. and Mrs. Lyle Harrison.

Mr. and Mrs. Henry Wendt were Spokane visitors recently.

Mr. and Mrs. Carl Finke and family and Geo. Finke spent Sunday evening with Mr. and Mrs. Geo. A. Wilken.

Mr. and Mrs. Otto Schoeffler were visiting with relatives in Lewiston Sunday.

Tavern Rules for 49'ers

A placard on the walls of an old California hotel in the gold-rush days of '49 stated:

"Board must be paid in advance. With beans, \$36; without beans, \$12."

"Salt free, potatoes for Sunday dinner, pocketing prohibited."

"Extra charge for seats around the barroom stove."

"Lodgers must find their own straw. Beds on barroom floor reserved for regular customers."

"Lodgers must arise a 5 a. m. in the barn, 6 a. m."

"No fighting at table."

"Anyone violating the above rules will be shot."

Hold Monthly Meeting

The Home Hygiene club held their regular monthly meeting in the park June 11th, with Mrs. Geo. Brocke and Mrs. Ross Armitage as hostesses.

It was decided that the club would hold no meetings during the summer months, re-organizing in September.

When Johnny was little, he loved soldiers and Mary loved painted dolls. Now they are grown, and Mary loves soldiers, while Johnny loves painted dolls.

Whiskers Seen About Town

Now that the Fourth of July is drawing much nearer more and more "elegant" sets of whiskers are beginning to make their appearance, and the artistry of the growers in their production is one of the marvels of the month. Those seen recently who are worthy of special mention are:

Tom Long, whose reproduction, with mustache and side burns of a dashing young blade of the south, is really something to see.

Jay Thornton, whose very, very luxuriant crop of "black alfalfa" has set many of the local producers back on their heels with a "thud."

G. S. Pond, whose white "lace curtains" present a flowing appearance that might be envied by the curtain hanging housewife.

Elmer Peeler, whose genuine "Mick" ensemble presents a very unusual appearance.

Cecil Emmett, whose "goatee" is certainly a work of art.

Wallace Emmett, who is showing the world how Big Bear ridge can produce whiskers as well as beans.

Edwin Mielke, whose "flowing, rippling efforts", and tie-in between the "curtains and chin" are certainly worth honorable mention.

Oscar Raby, with his reproduction of a screen "bad man's alfalfa" are also worthy of honorable mention.

And in the special mustache class we mention Frank Crocker and Tom Sturdevant. But when they were mentioned as prize competitors the local artists "raised the long howl," claiming that these two men wore them as "standard equipment," and that even though trimmed and cared for, they were still not eligible to compete in the "whiskers contest." Well, that's up to the judges, that is what they are there for.

Nearly 8,000,000 Trout

Nearly 8,000,000 trout will be planted in the next six weeks, bringing to approximately 11,500,000 the number planted by the Idaho fish and game department this year.

State Fish Culturist Burton Perrine said that "because of an exceptionally large take of eggs from spawners during the last few months plantings are expected to be much larger than in 1940.

The fish are from three inches to six inches long.

All of the state's 14 hatcheries and the five that are federally operated are functioning at full capacity it was stated. To date approximately 32,000,000 eggs have been taken at the spawning stations.

The number and species planted include:

Rainbows—1,042,000; cutthroats—57,025; eastern brook—400,300; and 32,500 rainbow brood stock averaging between eight and 12 inches in length.

Fish to be planted during the next six weeks include:

Rainbow, 4,706,000; eastern brook, 947,000; cutthroat, 1,496,000; blue back salmon, 281,000; German brown trout, 65,000.

In addition to this 3,600,000 white-fish have been planted in the lakes and rivers of northern Idaho.
