Wheat receipts at Puget Sound and Columbia river terminals continued relatively heavy at 1,644 cars for the week, against 1.525 cars last week, but mostly represented movement to coast terminals for storage, rather than current marketings. Flour sales under the indemnity plan remained light and about the same as those for the past two weeks. Indemnity payments remained unchanged. Wheat millfeeds markets held very firm at recent advances. Rains delayed harvesting some during the period but good progress was made gen erally, with winter wheat harvest completed in some areas and spring wheat mature or approaching maturity. Despite the higher prices, central California growers continued to hold their remaining supplies very firmly and current marketings chiefly represented wheat not eligible for government loans, or in areas where. storage is not available. Offerings from Pacific Northwestern and Intermountain shippers slackened very materially, compared with other recent weeks and this was an important factor in advances at San Francisco. Prices at that market on August 8, showed California grown No. 1 hard white and No. 1 soft white at \$1.90 to \$1.95 per 100, sacked, and white club at \$1.871/2 to \$1.90 per 100, sacked basis.

Sharp upturns in wheat prices occurred at Kansas City during the early part of the week with a rush of flour business which was covered by mill buying of wheat and a strong upturn in corn prices, as a result of reported heat damage. Buying interest subsided somewhat later in the period, but gains were mostly well maintained and at the close of the period was 61/2c to 8c higher than a week ago. Sharp upturns in wheat prices oc-

Most trading as the week was closed was based on \$1.08 for No. 1 hard winter. Marketings at nine points dropped to 4,418 cars compared with 6,324 for the previous week and 1,927 a year ago.

Although movement of new crop grains was getting under way, the movement at Minneapolis developed slowly because of the storage space situation. Receipts of cash wheat at that market totaled 2,099 cars of all classes during the week while Duluth unloaded 910 cars. The arrivals included about 150 cars of new crop spring wheat and the early receipts indicated a slightly lower grade than last year.

Demand was good and offerings small at Ogden, where quite a volume of high grade milling wheat is being shipped in from Montana. Prices, basis No. 2, Ogden mills, on Aug. 8 were: dark hard winter and dark northern spring, 95c; hard winter and northern spring 86c; hard white \$1.04; soft white 94c and western white 92c per bushel. Denver mills were offering 84c per bushel for No. 2 hard winter and No. 2 northern spring, basis f. o. b. Colorado common points.

Mrs. Wilbert Poechel called on Mrs. Wm. Groseclose Monday.

Whoops, My Dear! They were admiring the twins.
The owner of the twins said: "I moved to St. Paul, the twin city, and my twins were born there." Number Two said: " How strange! My triplets were born in Three Rivers, Michigan."
A bride-soon-to-be ran

telephone after hearing the conversation and this was overheard: 'John, I've decided that we shall not go to the Thousand Islands on our honeymoon!"
