#### WHEAT PRICES WEAKER IN THE PACIFIC NORTHWEST

Wheat markets in the Pacific Northwest declined during the week ending September 26, despite advances in important midwestern fluence in the cash wheat market. Mill demand was reported slow, due principally to the lack of export flour business in volume, and only moderate domestic demand. Feed wheat buyers were reported holding off in expectation of obtaining rain damaged supplies, sales of which recently have been at 5c to 10c per bushel discount. Sales of Northwest wheat to central western markets were much lighter than in some recent weeks, since current prices are out of line for such movement. Flour sales to the Philippines and Americas under the indemnity plan were reported slightly better this week, but still of light volume. Payments remained unchanged. Growers were not offering wheat freely at country points since current quotations are under Federal loan valsuits them.

The enrollment of the Kendrick public school has reached the 175 and Mrs. Herman Meyer, Rev. and coming. Fifty-one are enrolled in the High school and the primary room is crowded with its 44 little. Carl Kruger and Walter Heitman people. Several more seats were people. Several more seats were attended services at the Mission with friends.

In Uniontown Sunday.

In Uniontown Sunday ues. Wheat receipts at Columbia able for germination. The wheat millfeed market held very firm at recent advances.

Cash wheat bid prices at Portland on September 26, showed soft white at 96%c; soft white with rex not applicable at 99½c; white club at 99½c; western red at 99½c and ordinary hard red winter at 931/2c per bushel, all basis No. 1 grade in bulk. Cash wheat quotations at Seattle on September 26, showed soft white at 96c; soft white, no rex, at 98c; hard red winter at 93c and western red at 98c. all

basis No. 1 grade in bulk. The San Francisco market was dull but steady during the past week with no important changes in the local situation. While demand was slow from practically all classes marketings provided a sustaining influence. Prices held at or only slightly below the highs for the seadealers accumulated fairly large stocks of wheat in other weeks and were mostly using these supplies rather than make replacement purchases. Feed wheat was also meeting somewhat greater comnetition from new crop Milo. Shippers in Pacific Northwestern and Intermountain states were offering supplies somewhat more freely than in other recent weeks and in some instances were making price con-

Wheat quotations September 26, basis No. 2 f. o. b. Ogden mills, ern spring at \$1.00; hard winter at at 91c; hard white at \$1.04, soft white at 99c and western white at 97c per bushel. Denver mills were bidding 90c per bushel for No.- 2 northern spring and No. 2 hard winter, f. o. b. Colorado common

Cash wheat prices at Kansas City followed the firmness in futures. Toward the close of the week the basis steadied and advanced slightly following recent prolonged weakness. Arrivals dropped to 514 cars, the volume or grower offerings decreasing as market values slipped back to or below Federal loan values, plus accrued charges. Demand for open market supplies was good thorughout the week with evidence toward the end that somewhat more grain than was available could have found an outlet. Millers were the mainstay of the market. Marketings at nine points amounted to 1,551 cars compared with 1,904 a week previous and 807 a year ago. At the close of the week No. 2 hard was quoted at Kansas City at \$1.13 to \$1.15.

The range in cash grain prices at Minneapolis and their prevailing Mrs. Ida Stoneburner and Miss discounts under the basic option Emma Hartung of Cameron were price was again chiefly controlled now the element of doubt is very thoroughly entrenched.

It is said that some of the early femily were supported by the volume of spoiled grain making ing its appearance. The matter of moisture content was the important of Mr. and Mrs. George Baugh of of all grains further widened their discounts under that base. Cash receipts were large as Minneapolis took in 4,057 cars of wheat while Duluth unloaded 1,945. With a very As for beans still out — and most Mrs. O. A. BE SURE CANNED FOODS ARE SAFE FROM BOTULISM

Idaho homes and school lunch onded the recent proclamation by centers which use foods processed by untrained operators using unreliable equipment were given a warning suggestion by the state Nutrition Defense committee to regard such foods as a hazard because of the possibility of botulinus poison- 25

The fact that these foods have been processed in steam pressure cookers does not guarantee their safety, the committee stated.

Steam pressure gauges often are inaccurate and therefore the necessary processing temperature may truck and bus inventory will pronot have been obtained, explained vide information for federal of Dr. W. V. Halversen, University of ficials in planning improved high-Idaho bacteriologist.

Commercially canned non-acid foods are safe, it is explained, because they have been processed by trained operators who use accurate thermometers for temperature con-

trol during the processing.

Precautions which will prevent 1. Destroy all cans of non-acid foods which have bulging ends due to gas pressure, or whose contents

show any signs of spoilage such as rancid odor, cloudiness and softness. The methods used in destroying these products should be of such nature that livestock can not come in contact with it. It is deadly to

2. Thoroughly boil in an open container all non-acid foods which have been processed at home or in a community welfare center.

be boield before tasting. Large particles such as meat should be boiled in an open container for 30 minutes, so that all particles can be penetrated by the heat. Smaller particles can be penetrated by the heat. ticles such as vegetables, peas and corn, should be boiled in an open container at a rolling boil for 10

Because the botulinus poisoning develops in a sealed can, every pre- W. S. C. S. met with the local work at this time. caution must be used in the util- committee Monday afternoon in the caution must be used in the utilization of low-acid foods such as vegetables and meats. Tomatoes are an exception because of their high

acid content. These precautions should be very familiar to every person dealing with food, whether in the home or the school lunch. Botulinus poisoning is deadly and no chances should be taken with it.

Advertising is "the salt of the earth" in business.

## on all models

## Ford Dealers — Lewiston, Idaho

J. L. Balderston, Idaho Commissioner of Motor Vehicles, has sec-Gov. Chase A. Clark, regarding the national defense truck and bus inventory, and announced that 35,000 questionaire cards had been adfressed to truck and bus owners and sent in the mail on September

"With four and a half million trucks in this country today, compared with about a half million in the first World War, the United non-acid way transportation facilities for national defense.

The inventory offers an opportunity for truck and bus owners to make a contribution to the defense of the nation. With complete returns from the survey, it will be possible to make detailed records of all available highway transportation facilities by regions and on a central basis. With such records the country can be organized to meet any

transportation emergency. Two units of the Federal Works Agency will conduct the inventory in cooperation with the state. The Public Roads administration will direct the inventory and the WPA will analyze and list the returns.

performing a great service. On a ton-mile basis, trucks haul about 3. Any questionable food should neight as much freight as the railroads, and taking into account is about the same on busses and railroads. These highway facilities also afford a great unused capacity distances traveled, passenger travel that should be available in the event of a national emergency.

#### GRAIN MARKETS

(Continued from first page)

ages are planned in most areas. Continued rains in Northwestern sections of the domestic spring IN THE MATTER OF THE wheat belt have caused further spoiling of the grain in the shock, AND FLORIAN SCHUPFER, particularly in northern North Daparticularly in northern North Da-BOTH DECEASED kota, where about one-half of the NOTICE IS HEREBY GIVEN, crop is still out. Some reduction in the quality of spring wheat, rye and barley is shown by inspection reports from representative markets for the first half of September. Reports of herd red spring wheat in the spring wheat wheat in the spring wheat in the spring ceipts of hard red spring wheat in-spected during this period graded best bidder, upon terms and conlower than early arrivals with 44 ditions hereinafter set forth, and per cent grading heavy and No. 1, subject to the confirmation by the compared with 51 per cent for the above named Probate Court, all the first half of August.

highest point since the summer of them had at the time of their re-1937, and while some decline has spective deaths, as well as all the taken place, prices of domestic right, title, interest and estate spring wheat at Buffalo, on Sept. which has since accrued, by oper19, were about 14c per bushel higher ation of law or otherwise, to the than quotations on Canadian wheat of comparable quality c. i. f. that market, duty paid. Large imports are being prevented, however, by import quota restrictions on wheat counties, state of Idaho, to-wit: Evangelistic Service at 8:00 p. m. and flour.

The average loan price of about 98c per bushel to the U.S. farmers has placed U.S. farm prices well above those of other exporting countries. Based on market prices, the average received by U.S. producers on Sept. 15 was about 96c per bushel compared with 50c per bush-Juliaetta United Bretheran Church el for Canadian, 41c for Argentine

and 59c for Australian. World exports of wheat during the 1940-41 season totaled about 490 million bushels, according to estimates by the Food Research Institute of Stanford university. Heavy British takings of overseas wheat during the last quarter of the season accounted for the larger exports than were expected earlier. Imports into the Axis dominated areas were notably light and wheat carry-overs throughout that territory were considerably reduced.

Wheat loans by the Commodity Credit corporation to September 20 totaled 206,399,000 bushels. Of this quantity, nearly 63 million bushels were in Kansas; 19 million in Nebraska; 16 million in Oklahoma; 14 million in North Dakota; and about the same in Texas. Nearly 24 million bushels of the total were in the Pacific Northwestern states of Wash-

#### India's Population

The counting of one-fifth of the world's population in India is being completed. Some say the census will reveal a population of over 400,000,000. India is overtaking

"In India a man's religion is a very important matter," says Missionary Donald F. Ebright, of Cawapore, United Provinces. "As was feared, the Hindus and Moslems have been terrorizing villiage Christians and forcing them to enter themselves as Hindu or Moslem. Some groups have been told that if they do not record themselves as Hindu they could not graze their goats and cattle on village land, nor get wood from the village trees, or would have to leave town. We may expect for some time these 'census refugees'. The cause springs from communalism. It is expected that all Hindus must agree politically with all Hindus, all Moslems with all Moslems. There can be no advance in India until the tyranny of communalism ceases."

McFarland: "Are you fond of moving pictures, Honey?"
She (hopefully): "Yes, Mac."
McFarland: "Then, maybe, lass, you'll help me get a half dozen doon out o' th' attic."

Statement Of The Ownership, Management, Circulation, Etc., Required By The Acts Of Congress Of August 24, 1912, and March

#### **EDITORIAL**

Well, Folks-The warm, dry weather of the past two weeks has certainly been a boon to all
—for many an acre of wheats,
oats and barley given up as lost
has been salvaged — and many
of those acres produced a reasonable yield, even considering the rain damage loss.

rain damage loss.

And as for beans — well they are still something of an egnima — they may and they may not be worth harvesting, thances are the returns will be substantial— if they're not worth harvesting— chances are good for a total loss.

However, there is always old bossy — her crop is always worth harvesting, and it's never any trouble to sell cream. Try us, if you doubt that statement!

us, if you doubt that statement!

Gob: "What do you think of a !-

men who deliberatly makes a girl blush?" Pal: "I think he's a genius!"

"Do I really need brushing off?" asked the passenger in the

Pullman. "Does you!" exclaimed the porter with great emphasis; "Boss, I's broke!"

Sailor: "Can I have a room with a shower?"

Innkeeper: "Wal, young feller,
I can give you a room that leaks,
but I'll be derned if I kin guarantee rain!"

Betty (recently engaged) —
"Do you know what it's like to
be in love, to sit next to the man you adore and feel your innermost soul vibrate?"

Barbara: "Sure I do. I feel like that every time yoe takes me out in that second hand car of
