WHAT HAPPENED HERE 20 YEARS AGO THIS WEEK

The Millard boys of Juliaetta and Julius Giese of Fix ridge had a collision on one of the curves on the Fix ridge grade Sunday. The Millard boys were driving a Ford and Mr. Giese a Willys-Knight. Both cars were badly damaged and the boys badly cut by flying glass from the windshields. They also suffered bruises, but nothing really serious.

The marriage of Miss Geraldine Daugherty, daughter of Mr. and Mrs. T. H. Daugherty, and Mr. Lyle Harrison, son of Mr. and Mrs. Enoch Harrison, all of Leland, was solemnized in Spokane Thursday morning of last week. The ceremony took place in the office of the probate judge at 11:00 o'clock in the presence of Enoch Harrison, T. H. Daugherty and Mrs. Gertrude Gant of Spokane. The bride and groom are popular young people of the Leland community. They will make their home on the Harrison farm, near Leland.

Stewart Heffel of Potlatch ridge, while returning from Moscow with his family Wednesday afternoon, went over the Wilcox grade on the lower point of American ridge. The grade is steep and his brakes got hot and it is thought he leaned over to make some adjustment of the brakes, when the car ran off the grade, turning over twice. There were four people in the car, but no one was seriously hurt.

It rained fish here Friday morning. At least a big squaw fish fell from the skies and splashed around in the mud on Main street. The force of its fall was sufficient to cause one of its eyes to pop out, which would lead one to believe that it dropped several million miles or more. Probably took a high dive from Mars, thinking Main street in Kendrick would be a nice, slippery, oozy place to spend the winter. Some advanced the theory that the fish might have been dropped by a hawk.

The Linden hunting party consisting of Clem Israel, Francis Stevens, Abe Dorendorf, Gus and Jim Farrington returned from the Pot Mountain country this week with two elk. They said game was scarce in that section and that many hunters failed to get even a deer.

Miss Ada Bean of Big Bear ridge killed a full-grown coyote with a club Thursday morning of last week. The animal had been chased by hounds until it was practically exhausted. It was sitting on its haunches not far from the house when first seen. As the men were all in the field working, Miss Ada told her younger sister to run to the house for a gun. She returned with a shotgun but was told that would not do, to go and get a rifle. The second gun brought was an old-style army gun. This weapon was not suitable either, so Miss Ada became impatient and securing a club, walked up to the animal and knocked it in the head.

Emulus Brown purchased the James Sterling property in Kendrick last week. There are a number of fine lots in this property which can be made valuable. Mr. Brown expects to tear down the old house and barn and rebuild them.

Miss Maude Eichner, who teaches the American ridge school, left for Lewiston Saturday afternoon to attend teacher's institute.

Frank Millard of Juliaetta spent the week-end in Kendrick with the W. A. Perryman family.

Herman Wilken went to Lewiston the first of the week, where he expects to take a business course. As a disabled veteran he gets his school expenses paid by the government.

Misses Ruth Dammarrell and Clara Bailey, who are teaching near Deary, spent Sunday at the E. H. Dammarrell home. They left on the evening train to attend teachers' institute at Lewiston.

Leroy Southwick returned Thursday from Lewiston, where he attended a meeting of the board of county commissioners of Nez Perce county.

Farmers of the Potlatch country are taking advantage of the splendid weather to get their fall work well along. In spite of the fact that there is insufficient moisture to make good plowing, many of the farmers are getting as much done as possible, so as to lighten the load next spring.

Mr. and Mrs. Carl Wegner spent the week-end in Cameron in the home of their son August.

Mr. and Mrs. Wm. Freytag arrived the first of the week from Lewiston and will spend the winter here.

American Ridge—Ed. Kent drove over from Tacoma last week. Harvey Roberts was on the ridge Tuesday. Mr. and Mrs. Ira Havens and son George drove to Moscow Sunday. Mrs. Nona Nelson and little son are visiting at Frank Benschoter this week. Mrs. Watts' Sunday school class of girls and Mrs. Havens and her class of boys spent a very enjoyable time at the home of Mr. and Mrs. Wm. Watts Hallowe'en evening.

Linden Items—Ben Smith and Arley Allen were business visitors in Moscow and Lewiston Wednesday and Thursday of last week. Mr. and Mrs. A. W. Longfellow and Mrs. A. L. Longfellow spent Sunday afternoon at the Dick Winegardner home. Mrs. Lou Alexander and children and Mrs. Sylvia Jenks spent Thursday with Mrs. Clem Israel. John Michael closed a deal Friday in which he sold 80 acres of timber land to Lester Weaver. The price received was said to

A Note To Soldier Boys

We would appreciate very much prompt notification of the Gazette of any change of address occasioned by transfer or moving of any of the boys in our armed forces now receiving the Gazette. If the government notifies us we "must bail out" these changes at so much per while if you fellows in the service notify us we can make the changes more promptly and our overhead is thereby cut down.

We would also appreciate it if the boys would write us a letter that may be used for publication once in a while. These letters are interesting to all our subscribers, as well as to the boys in other branches of the service.

DISCHARGED ARMY MEN REQUIRED TO REGISTER

With thousands of men who have been serving in the army scheduled for release from the armed forces before Christmas, Gen. McConnel, state director for Selective Service, today warned that such men must register under the Selective Training and Service Act upon their discharge.

Although, under certain conditions, the director said, some men discharged from the army will not be liable for further peacetime training and service under the Selective Service Act, it is incumbent upon them to register upon expiration of their service if they are within the age group of 21 to 36, on October 16, 1940, and if they have not already registered.

Gen. McConnel said: "The Selective Training and Service Act is specific in requiring registration of men within the age group of 21 to 36, who have served in the army. Those men who were in the active National Guard in October 16, 1940, and who have completed six or more consecutive years in that service are relieved from peacetime liability for additional service and training, but they must register. Men who were members of the National Guard and who have completed less than six years of service are relieved neither from registration nor training. The Act also provides that any person who shall have satisfactorily served as an officer or enlisted man for at least three consecutive years in the regular army, navy, marine corps or coast guard; or any enlisted man who has been or is hereafter honorably discharged from the regular army or the coast guard or for the convenience of the government within six months prior to the completion of his regular three-year period of enlistment shall be relieved from additional peacetime training.

"Any person who is an officer in the Officers' Reserve corps on the eligible list at the time fixed for registration, and who shall have satisfactorily served therein on the eligible list for at least six consecutive years, is also not liable for additional peacetime training."

Although the War department has ordered organization commanders to warn the men that they must register when discharged, Director McConnel said it was his opinion that some of them released thus far failed to have themselves enrolled and recommended that such men visit local board offices at once.

Girl Scout Court Of Awards

Friday afternoon was a happy occasion for the Girl Scouts when a Court of Awards was held in the home of Mrs. W. L. McCreary.

The session was opened with a flag salute, after which Beverly Schupfer gave a brief biography of Juliaetta Low, founder of Girl Scouting in America.

The girls were then presented their awards by Mrs. Marvin Long, which were the Second-Class rank badge and the Cooking badge. Each girl was then called on to tell in her own words some activity she had taken up and completed during the past year.

The mothers of the six graduates wishing to join in with the girls were invited guests. Refreshments were served by the troop committee—Mrs. A. O. Kanikkeberg, Mrs. L. Mason, Mrs. W. B. Deobald, Mrs. Marvin Long and Mrs. Wm. McCreary.

Robert Alexander Promoted

Word has been received from the public relations office of the United States army air corps basis flying school at Bakersfield, Calif., that Aviation Cadet Robert J. Alexander, son of Mr. and Mrs. Louis Alexander, Southwick, Idaho, was graduated from the United States Army Air Corp Basic Flying School at that place on October 28, after having completed ten weeks study there.

He will go to the Air Corps Advanced Flying school at Luke Field, Phoenix, Ariz., where, after successfully completing ten weeks of training he will be commissioned a second lieutenant in the Army Air Corps Reserve.

Return From Canadian Hunt

Mr. and Mrs. Archie May returned Sunday afternoon from a Canadian big game hunting trip, bringing out a fine bull moose and many big trout.

Mr. and Mrs. May report a most pleasant trip, Archie having lots of fun hunting, fishing and boating. He brought with him many pretty pictures of the Cash Creek section where they hunted. He also brought out a paper containing an account of the catching of a 21-pound trout in Okanagan Lake. The big fish being caught by Bunny Wills.

Grade News

The seventh and eighth grades are very proud of that new window box of theirs, donated by Mrs. Nelson. They are also contemplating the arrival of a new bulletin board. Their softball team went to Juliaetta last Thursday and came back the winner, the score being 15-14. Don Riley, one of their number, has killed a deer, and are they proud of him! Tumbling is being offered during the noon hour to those who wish to take it.

Fifth and Sixth Grades—This room held their Hallowe'en party on Thursday, the 30th. The decorating committee prepared the room with orange and black crepe paper, pumpkins, witches and cats. They played a few rounds of bingo and then pinned the tail on the donkey. Kenneth Brown received first prize, a bag of black jelly beans, and Mrs. Deobald received second, a box of caramels. The refreshments were apples, cookies, pop corn balls and caramel suckers.

Third and Fourth Grades—We have elected officers for the third month as follows: Patty Brocke, president; Patty Long, vice-president; Roy Riley, secretary and treasurer. We have been having wood burning in art, hot pads and work ends being made. The whole room has been very busy selling red hearts for the Children's Home at Lewiston for Thanksgiving. They have received \$7.00 already. Patty Long and Marilyn Schupfer have sold the most.

The Second graders have some new work concerning Thanksgiving, which they are beginning. The first graders have some new puzzles and picture color books, from which they learn the words about the picture. They have also been rearranging their room and some of the pupils are now working at tables. They have been having visitors, too. Mrs. Emmett visited the room last week and Mrs. Clemenhagen and Mrs. Gladden were guests this week.

Rain, Frost, Finish Beans

The heavy frosts of last Thursday night, coupled with the rain that has been falling intermittently since Sunday morning, is said to have been the final blow on beans yet in the field, and that fertilizer is their only remaining value.

Many beans have been stacked in the past few days, and their value is highly problematical, as some are said to be heating in the stack. Many who threshed beans during the past two weeks and hauled them to town, are trucking them back to the farms to be mixed with oats, barley and other dry materials, to get them dry enough to market. They are said to be spread out on grainery and machine shop floors, barn floors, and other places in the dry, in an effort to remove the surplus moisture and prevent their moulding.

Go To New Home

Mr. and Mrs. Alvin Steigers and family moved this week from the Herman Lohman place on Potlatch ridge to a farm of their own near Culecidas, which they purchased this fall.

Mr. and Mrs. Steigers are well and favorably known in this section, and it is with real regret that we see them leave.

They were 14 months in active training, and with something going on every minute both say it seems rather good to loaf a bit, but expect that it will get rather humdrum after a time.

They stated that four per cent of their division was being released each month, with National Guard members, those over 28, and married men receiving the preference.

GRAIN MARKETS QUIET IN PACIFIC NORTHWEST

Wheat futures markets at Portland remained steady during the week ending October 31, according to the Department of Agriculture. Cash wheat was down from 1½¢ to 2¢ per bushel for the principal classes as the period ended. Export flour sales under the indemnity plan were reported as somewhat improved with inquiries from both the Philippines and the Americas. The indemnity prices on flour were unchanged from last week. In the Pacific Northwest general dullness prevails with a very limited outlet for wheat. Mill buying was reported fair with requirements limited and confined mostly to the domestic trade. Carlot receipts at Puget Sound and the Columbia river terminals during the week totaled 403 cars as compared with 287 cars last week.

Shipments of wheat by rail from the western mountain districts to mid-west points have slackened off very materially with most of the movement from that section being to California mills. Inquiries for feed are reported softening to some extent, although the output continues light. There is a fairly broad demand for feed wheat with damaged wheat going into this trade on a good scale.

Cash wheat prices at Portland on October 31 showed soft white at 93½¢; the same with Rex wheat not applicable at 97½¢; white club at 97½¢; western red 97½¢; hard red winter at 90½¢ per bushel, all basis No. 1 grade in bulk. Seattle May futures closed at 96¢ and December at 89½¢, about 1½¢ down from last week.

The San Francisco wheat market was quiet but maintained a steady tone during the last week in October, with light offerings tending to offset the only moderate demand. While trading and movement were quite narrow, prices held about unchanged from a week ago. Bay region demand was only fair, since most local dealers and industries were using rather heavy supplies accumulated earlier in the season. Most factors were inclined to await further market developments before making additional commitments. Mills, however, entered the market for scattered lots to complete milling mixtures with flour business reported as fair.

Kansas City wheat futures displayed an easier tone during the last week in October, influenced by easiness in cotton and securities, exceedingly quiet flour business and uncertainty concerning congressional action on price control legislation. Some recovery was noted in the last two days of the week, but closing prices at Kansas City were down 1½¢ to 2¢ per bushel. Light open market offerings restricted trading in cash wheat at Kansas City. Arrivals for the week totaled only 232 cars, and more than half of this movement was direct to millers and merchandisers. Demand remained good from mills, elevators and other buyers, and the premium basis retained its recent firmness. Fresh flour business was reported as dull as at any time on the crop, with bookings on some days as low as 10 per cent of capacity.

At Chicago the cash basis for No. 2 hard wheat was up ½¢ to 1¢ for the week, and No. 2 red 1½¢ up. At the close of the week No. 2 hard was quotable at \$1.11 to \$1.12; No. 2 red at \$1.11½. The cash market for wheat was practically unchanged from the previous week. Demand from mill buyers showed slight improvement at the close of the period, but they were interested in good quality only. Poor grades appeared to be in very light request. Most of the offerings of wheat originated in Illinois and Indiana, and the quality appeared to be either good or poor, with receipts of in-between grades very light.

Wheat futures prices at Minneapolis worked irregularly lower during the past week, but premiums on cash grain strengthened sufficiently to offset the decline in futures. The general trade interest was dull with flour demand slow. Receipts of cash wheat diminished considerably with 1,290 cars received at Minneapolis during the week, while Duluth unloadings dropped to 752 cars. The smaller offerings enabled the market to clean up well from day to day.

Denver mills were bidding 88¢ per bushel for No. 2 hard winter and No. 2 northern spring, f. o. b. Colorado common points.

Ogden quotations, basis No. 2, f. o. b. Ogden mills showed dark hard winter and dark northern spring at 97¢; hard winter and northern spring at 90¢; hard white at 90¢; soft white at 96¢; western white 94¢ with prices f. o. b. country shipping points 14¢ under Ogden.

Early seeded winter wheat is generally up to good stands and making excellent growth except in the Atlantic area where germination has been spotted because of dryness. In Kansas seeding is practically done, except where delayed by wetness in many eastern counties. In northwestern Texas and southwestern Oklahoma much seeding is yet to be done on account of the fields being too wet to permit work. In the Pacific Northwest conditions are generally favorable.

The Canadian Bureau of Dominion Statistics reports weather conditions have seriously hampered cutting and threshing of wheat in western Canada. The area hardest hit was central and northern Alberta, chiefly in the Peace river district and in

There are a good many vacancies now including assignment to the Philippine Islands and Panama. Hill said most of the applications are for the air corps ground force, but that there are vacancies for aeronautical training for those with two years of college who can't quite make the physical requirements for aviation cadets and flying officers.

Applications are being received and the first classes have started for the new enlisted pilot training.

Any enlisted man between the ages of 18 and 22, a high school graduate, with 1½ credits of mathematics is eligible to apply for enlisted pilot training. The classes are the same as aviation cadets, 7½ months, and the graduate is rated staff sergeant pilot at \$108 per month plus allowances.

Sings In Lewiston For Elks

Wm. Fitzpatrick, director of music in the Kendrick Public schools, attended a meeting of the Lewiston Kiwanis club last Saturday evening and was one of the entertainers, singing two solos.

Mr. Fitzpatrick has been soloist for the Elks lodge at Lewiston for the past several months and has been made music director for that organization. He also sang at a meeting of the Country Club at Clarkston Friday night.

Hallowe'en Quiet

Hallowe'en, this year, was probably one of the quietest, if not the quietest ever seen in Kendrick, many of the store windows escaping even their usual waxings.

A few signs were pulled up, some woodpiles upset, and other minor "fun" indulged in, but on the whole, nothing was damaged or carried away.

The rainy night probably accounted for the lack of window waxing by the smaller group, and the older ones apparently displayed no interest in the date.

Another Freak Carrot

Mrs. C. J. Bower of Big Bear ridge brought a freak carrot to the Gazette office Monday afternoon.

The carrot, from a large body at the top, divides into two perfect divisions, which in turn form a half twist, going exactly half a turn. They are of the same length and size, and the half-turn made is perfect. We have this freak on display in our window.

Able To Be Up Again

A. C. Deeter, who has been so seriously ill for several weeks, has staged a "comeback" that surprised all his friends. He is so much improved as to be able to leave his bed and be up again. There is a county nurse with him now.

Defense Bond Quiz
 Q. Has the government set a quota to be raised through the sales of Defense Savings Bonds?
 A. No. There is no quota and no time limit. The Defense Savings program is to be a continuing effort, and both Defense Bonds and Stamps should be purchased steadily and regularly.
 Note—To buy Defense Bonds and Stamps, go to the nearest post office, bank or savings and loan association; or write to the Treasurer of the United States, Washington, D. C. Also Stamps now are on sale at many retail stores.

No Tuberculosis Found
 Not a single case of tuberculosis was found among 800 new students at the University of Idaho this fall. Physical examination revealed that this year's group, while predominantly healthy, included the usual percentage with other ailments and physical defects. Corrective measures are advised for such students. A few are rechecked at regular intervals, warned Dr. Henry Lighter, study leader, or occasionally urged to drop out of the university to regain their health.
 Required entrance examinations for all new students are the foundation upon which the university health service prevention program is built. It is financed by a student health fee, which amounts to group health insurance. In return, students are entitled to the services and facilities of a modern infirmary staffed by Dr. H. D. Cramer, physician-director; six graduate nurses, and a laboratory technician—all full time.
 From September to June last year an average of 94 students a day were cared for at the infirmary. Eighty were routine clinic calls for minor ailments and mishaps of every description. Bed patients averaged 14 per day—the majority for colds.

Tomato Bread Is Good
 Naturally, you might expect that tomato bread would be colorful. It is. Also, you might expect that it would have a delightful flavor. It does. But when you are told that army bread, using tomato juice or canned tomatoes instead of water to mix with flour and other ingredients, is actually higher in vitamin content than ordinary bread, you may agree that the achievement is of some importance.
 However, let no one be of the opinion that the Quartermaster Corps of the United States army is making any substantial proportion of its bread with tomato juice or canned tomatoes. In normal times, tomato bread is seldom served. It is regarded as a novelty. However, inasmuch as the Corps leaves nothing to chance in seeing to it that the American soldier is the best fed, best clothed and best housed soldier in the world, army bakers are trained to manufacture tomato bread in the field, if there is a temporary shortage of suitable water.
 Milk is provided in powdered form and added to the mix. Then the bakers simply employ canned tomatoes or tomato juice, as we have mentioned, important articles of diet which are usually included in the army field rations in ample quantities.
 Dieticians will be interested to know that the vitamin value of the bread is increased. Mothers will be glad to know that the boys like it a lot better.
 And so, again, the Quartermaster Corps of the army demonstrates not merely resourcefulness, but also the ability to make constructive progress along lines of definite value to America's defense movement—now.

We Sure Hope So!

 central and southern Manitoba. Reports in mid-October showed only 60 per cent of the Alberta crop had been threshed and 80 per cent of the Manitoba crop. Operations in Saskatchewan were almost completed. The quality of the crop was being impaired by unfavorable harvesting weather, but the full extent of the damage cannot yet be accurately measured. In Argentine general rains over the week-end improved soil conditions and threats to the growing crop have been removed for the time being. Trade estimates place the new Argentine wheat crop at 180,000,000 bushels, or about 20,000,000 bushels less than previous estimates and about 90,000,000 bushels under that of last season.
 In Europe the weather has been cold and frost has been unusually early in the southern countries. Plowing and seeding is being pushed, but is still generally backward.
 Some trade estimates for the 1941 wheat production are being further reduced due to the damage during harvest. As a result, it is now believed that the total outturn of wheat in the continent will show little or no increase over last year's poor harvest.
 In Australia recent rains have been beneficial for growing wheat, and there is a tendency to raise estimates somewhat, although the total outturn is still expected to be slightly under normal due to unsatisfactory outlook in New South Wales.
 Wheat under loan on October 25 totaled 272,117,809 bushels. Of this quantity 70,775,913 bushels were stored on farms and 201,341,896 bushels were stored in public warehouses.
 Make 1,000,000 Pillowcases
 In keeping with the policy of the War department to distribute defense contracts among as many small groups as possible, the Quartermaster Corps has turned to patriotic blind workers. In 25 institutions in 14 states, sightless but skillful workers are now producing 1,000,000 pillowcases for the army.

EDITORIAL

Well, Folks—Seems like the Democrats have finally regained control of the weather — and just look at the water that has fallen the past few days. However, what can we poor Republicans do? They seem to have us completely outclassed when it comes to political machinery. Of course John L. Lewis seems to tell the emocratic chiefs what to do — but he isn't interested in the weather.

By the way, don't forget we pay "cash on the barrel head" for your cream. Bring in a can today — and we still have locker boxes to rent.

Enough of this seriousness, and on with the fun — we hope you enjoy them.

Drunk (looking at reflection of moon in river): "Shay, what ish that I can shee down there?"

Companion: "Why! It's the moon, of course!"
Dunk: "Then how'd I get way up here?"

Little Boy (knocking at door): "Lady, do you want to buy some horse-radish?"
City Bred Lady: "Goodness no! We haven't got a horse!"

"And what would you be?" asked the kind old lady of the smartly dressed officer.
"I'm a naval surgeon," he replied.
"My goodness!" exclaimed the kind old lady, "What won't they think of next!"

Pa: "It's 2:00 o'clock. About time Sally's boy friend went home."

Ma: "Now, Pa, remember how we used to court!"

Pa: "That settles it! Out he goes!"

Ned Harless made a car trade recently. He is driving a beautiful one now.

Some of the men who didn't go elk hunting decided to wait until the season opened on this side of the river, feeling sure they could get their deer, as they were plentiful near here. But now, when they go out with their guns, the deer seem to have moved away and left no forwarding address.

Grange Meeting

The regular monthly meeting of the local chapter of the Grange met Tuesday evening in Fraternal Temple and the usual good time was had after business of the order had been disposed of, and of course there was plenty to eat, as there always is. If you are a member and weren't there, well, you just missed a good time.

Bags Fine Deer

Ed Brown of Kendrick and Roy Weber, Juliaetta, left late Friday evening for the Bungalow country. They returned home Sunday afternoon, bringing out a fine four-point buck, killed by Ed. Brown.

Stored Wheat in Idaho

Wheat stored in Idaho warehouses, elevators and interior mills on October 1 was estimated to be 11,800,000 bushels. This would be 1,700,000 less than the 13,500,000 bushels in storage on October 1, a year ago.

Wheat on Idaho farms October 1, was estimated at 11,496,000 bushels or 280,000 more than the estimated 11,216,000 bushels of wheat on farms a year ago. This greater amount on farms, however, does not make up the decrease in mill, elevator and warehouse stocks. The combined holdings in the two classes of storage total 23,296,000 bushels this year compared with 24,716,000 a year ago.
