Another Double Feature
The first show of the double feature to be shown this coming Thursday, Friday and Saturday nights at the Kendrick Theatre, will be "Power Dive," said to be one of the greatest airplane pictures yet made. Which one is the real hero? The man who tempts death daily five miles up, or the woman who loves him and can only cheer him on? Here's the thrill-charged saga of today's devil-diving test pilots—500 miles per hour. Richard Arlen and Jean Parker have the leading roles.
"The Parson of Panamint," with Charley Ruggles, Ellen Drew and Phillip Terry, will be the second offering. The parson faces the fury of a mad mob! "String him up!" The howl of the mob grew louder, but the parson didn't give up without a fight! It's a Peter B. Kyne story. The usual cartoon will also be shown.

RED CROSS AIDS ARMY MORALE

Red Cross workers are on the job in all Army and Navy camps and stations throughout the country to assist in the important task of maintaining morale. Above, an Army flier leaves unfinished personal matters for the Red Cross field director to take care of while he embarks on an emergency flight across country. The Red Cross is the official means of communication between service men and their families back home.

Red Cross Helps Solve Problems Of Our Recruits

Through Its Directors in Camps Red Cross Links Men With Home

Washington, D. C. — On the home and military fronts the American Red Cross is turning its focus on the man in uniform. In his behalf, more than 10,000 nurses are being recruited. Volunteers are donating their blood for a huge plasma bank. Red Cross women in chapters throughout the country are making 40,000,000 surgical dressings, and knitting sweaters for men in outlying posts and sailors on patrol.

But these are just fragments of the story. In military and naval stations, the Red Cross is concerning itself with the personal problems of the service man, helping him adjust himself to military life. For the disabled, the Red Cross is on the job in service hospitals, helping to speed recovery of the sick through a morale-building program.
In mobilizing a 2,000,000-man fighting force, the personal problems of the able-bodied man in uniform have in turn become problems of the morale divisions. Red Cross field directors stationed in all camps and reservations have been entrusted with the task of helping to solve these problems.

Speaking in a nation-wide broadcast recently, Chief of Staff Marshall, of the Army, addressed the following words to Red Cross field directors:

"When you help straighten out any of the great variety of tangles that human beings seem unable to avoid, you are helping to maintain morale on the home front and on the military front; you are helping us in training for defense."

The disabled man in a service hospital also can look to the Red Cross for help in speeding recovery. Medical-social workers, trained for their specialized assignment, are on duty at Army general and Navy hospitals to aid service physicians, to act as a medium of communication with the families of hospitalized men and to conduct recreational programs for convalescents.
