Mr. Peters said that when he got off the bus at Portland Sunday on his way home, the news of the Japanese attack literally "exploded" in his face, and that people apparently thought he should be going the other way, since he was in uniform.

His discharge on the 6th marked the end of his second three-year period of enlistment.

Lads Flock To Enlist In Service

Seattle, Dec. 9—Hundreds of men swarmed into Seattle today by train, bus and automobile to form long lines at the army, navy and marine corps and coast guard district recruiting offices. They came from Idaho, Montana and all sections of Washington.

Captain A. B. McElhoo, army recruiting district adjutant, said one early train brought 25 men from Yakima, and that at least 200 applicants were milling in the hallways within 90 minutes after the office opened today. He forecast more than 1,000 volunteers would apply today. Yesterday the army took 500 applications here.

Major F. R. Armstead, marine corps, said he expected 300 volunteers by the time the office has to close for the blackout at 11 p. m. Yesterday he received 250.

Conserve Your Machinery
Latah county farmers this week, in a letter from the county U. S. D. A. Defense board, were asked to make their farm machinery count for the most, and to make scrap iron and steel in discard piles on their farms available for re-use in defense production.

The U. S. D. A. Defense board, made up of representatives of Department of Agriculture agencies operating in the county, pointed to curtailment of iron and steel for civilian use, including manufacture of new farm machinery, and urged farmers to check their equipment immediately "so manufacturers of repair parts will know how great the demand will be while they are able to make plans to meet it."

We ask every farmer in the county to check all his machinery right now and to place his order for repair parts and materials. Equipment that is worn out should be salvaged for usable parts, and the remaining metal hauled to town for sale as scrap.

While the scrap metal on farms may not bring much in the way of money, it offers farmers a chance to be of service to their country at a time when all metals, even scrap metals, are dangerously scarce.

Since the scrap will increase the total supply of metals available, it will result in more material being

available for use in farm machinery, and will thereby benefit the farmers as well.

"Shepherd Of The Hills"
Harold Bell Wright's "Shepherd of the Hills" will be this week's offering at the Kendrick Theatre, and we do not believe that this great story needs any introduction to anyone, for the book has been read by almost everyone.

In the film version John Wayne, Betty Field, Harry Carey and Beulah Bondi.

And this film is all in technicolor.

In addition the usual shorts will also be shown — and cartoon.

Circle Has Christmas Party

EDITORIAL

Well Folks — Now that the little brown devils from across the wide Pacific have jumped on Uncle Sam we've all got a job to do. It may be a long hard one, so its best for all of us to prepare to put our shoulders to the wheel and produce, for the boys in uniform must be fed and fed properly. They can't live on a handful of rice. They need butter, meat, milk, eggs, and other things to put the job over. Do your part by producing more cream and meat. And here's a suggestion: Sell that cream to us for "cash on the barrel head" and store the meat you need for your own use in one of our locker boxes. You'll find both ideas really worth while.

Remember folks its up to us to support Uncle Sam and his "wife, 'Antie-Aircraft!"

Definition of Petting: "The study of anatomy by the Braille system."

A Canadian newspaper carried the following: "The body lay in state at the family home here today, while thousands of friends and admirers passed the beer."

Son: "What is experience, Dad?"
Pop: "Experience, my lad, is what you have left after you've lost everything else!"

"Are you the barber who cut my hair last?"
"I doubt it. I've only been here six months!"

"That's the guy I'm laying for," said the hen as the farmer came into the yard.

And while we're about it — a debutante is like an expensive gown . . . tight in the best places.

GRAIN MARKETS

Continued from first page)

Great Britain, prices of home-grown wheat were advanced to approximately \$1.61 per bushel. Imported wheat was quoted at London warehouses at the equivalent of \$1.49 per bushel.

The grain storage situation at the terminal markets was eased slightly during the past month with commercial stocks of all grains at the first of December, including the Canadian grain in store at American markets, totaling approximately 381,000,000 bushels compared with 386,000,000 bushels a month earlier. The reduction occurred in practically all important markets. Stocks in Atlantic coast markets were down about a million bushels on December 1, compared with a month earlier.

TEAKEAN GOSSIP

The weather is quite cold here now, but not much snow.

The meeting advertised last week was indefinitely postponed, as Miss Bonat, the evangelist, was called home to Portland, her mother being very ill.

Ernest Church came back from Coeur d'Alene, instead of going on to his home in Iowa, although he expects to go soon.

Merton Preussler has been suffering with his eyes.

Alice Choate has recovered from the mumps, and is back in school. There are no new cases at present.

Roy Conger was here last week to get a load of wood.

Orval Choate and Elwood Brock hauled posts to the church to put in the new fence.

Milo Schliefer, little son of Mr. and Mrs. Fred Schliefer, fell and badly sprained one elbow last week-end.

A big gray wolf has been seen in this section by several parties. Two men got a shot at it, but did not hit it.

Joe Choate left last Saturday, expecting to go to Honolulu, thence to Wake Island. We have received no word of where he is at present.

Wm. Groseclose and Carroll are working on an order for cedar posts. Raymond Fraser of McDoel, Calif., has been visiting friends here for a few days.

German War Losses Huge

Pravda, Communist party organ from Moscow, Russia, estimates the Germans had lost approximately 6,000,000 in killed, wounded and captured during the first five months of fighting in Russia.

It also estimated that the Germans had lost more than 15,000 tanks, about 13,000 aircraft and 19,000 guns.

DNE, official German news agent said that nearly 10,000,000 Soviet troops had been "put out of action" since Germany invaded Russia last June.

Butter And Cheese Production

Creamery butter production in Idaho during October was estimated to be 2,900,000 pounds, or the same amount that was produced in September. This is the largest October production on record for Idaho, being 11,000 pounds larger than the October 1940 production and one-fifth more than the 10-year October average.

American cheese production of 1,370,000 pounds was a 50,000 pound increase over September and 425,000 pounds over October 1940.

Christmas Windows Appearing
Christmas display windows in all the Kendrick stores are fast making their appearance, and a truly fine variety of goods are being offered this year, with stocks probably larger and more complete this season than for a long time.

The Kendrick Bean Growers Association were the first to open a Christmas display, to be followed in quick succession by the other stores.

In these windows may be seen everything from toys to clothing, and to our way of thinking it is not the least bit necessary to go further than Kendrick to do your Christmas shopping.
