COMMERCIAL CLUB MEETING PROVES INTERESTING

Monday evening of this week the Kendrick Commercial club met in regular session at the school house at 8:30 p. m., where, following a delicious dinner served by the Home Economics girls of the High school, under the direction of Mrs. Helen Harris, the regular business of the meeting was taken up.

Following the reading of the Minutes of the previous meeting, and allowance of bills for Christmas treats and membership in the Latah County Chambers of Commerce, the correspondence was taken up.

N. E. Walker, secretary, read a communication from the Latah Chambers announcing their regular monthly meeting would be held at Troy on Thursday evening of this week, and that a number of notable speakers were on the program, the chief of these being Colonel C. W. Jones, director of military training at the U. of I., who would speak on the Far Eastern Crisis, and other matters of real interest at this time. Committee reports were then in order.

R. B. Parks of the Agricultural committee reported that the cold and snow had brought all farm work to a standstill, even fencing being impossible at the moment. W. A. Watts supplemented the report by stating that the cash price of wheat was now above the loan value, and that some would undoubtedly be sold soon.

The Industrial committee reported that there was a very good chance that the Thomas Cannery would operate again this year, as rising prices might possibly make vegetables and fruits rise in price enough to pay the farmers to raise them, as well as permitting the cannery to again operate.

W. P. Fitzpatrick of the Educational committee reported that this week was the last one in the first semester, and that students as a whole, were really bucking down to work. He also stated that the school paper would make its appearance this week, and every three weeks thereafter. Mr. Fitzpatrick also said that the Hot Lunch program was proving a decided success, but that the high price of meats and vegetables were cutting into the little fund for their purchase, and that donations of soup meats and cuts, and vegetables suitable for soup, would be greatly appreciated. He also announced a National Assemblies program for January 21, and a basketball game for January 16.

R. L. Blewett of the Scout committee reported the troop busily engaged in collecting old papers, with a 5-ton load as their goal. He stated that Don Miller was still retaining the leadership of the group.

L. W. Mason stated that the school was having the National Geographic magazines in their possession bound into an encyclopedia form, and asked if anyone present would be willing to donate a July, 1940, issue, as that was the only one missing. The magazine was promptly given by W. A. Watts.

L. S. Thurber of the Merchants committee reported that \$53.50 had been donated for the Christmas treats. As \$43.75 were expended for the treats, the organization voted \$5.00 to the band for the purchase of new music, and the rest went to the club fund.

F. M. Long of the Fish and Game committee reported on the District Wildlife meeting at Lewiston last month, saying that organization over-rode the protests of many of its members, and directed a request to the Game Commission that the bird season again be changed, this time from Oct. 15 to Nov. 15, to October 25 to Nov. 25. He also said that in his opinion the turmoil in which the Game Commission has been for some time is now settled, and better results can be expected. He also read a letter from Walter Harris, chairman of the Latah County Wildlife Federation, pledging that organization's help in feeding game birds, should it become necessary this winter. The letter also notified Mr. Long that he had again been made chairman of the Bird committee.

R. B. Parks took the floor and stated that a Justice of the Peace had been located, and asked the club's support in recommending that Harold Thomas receive the appointment. Approval was unanimous, and the recommendation sent to the county commissioners, who are now

Extensive Remodeling Plan

The Kendrick Bean Growers store is undergoing a real transformation and face lifting operation these days at the hands of M. C. Halliday and Paul Lind.

For one thing a big balcony is being built in the rear of the store building, clear across the back. The present implements parts room is being shoved further back into a room separate from the main building, and the two private offices are being shoved back into the further corners of the building.

When these remodeling operations are completed, the partition separating the present store and the store-room, is to be removed, making the whole just one big room.

The balcony when completed will be used for the electrical supplies and appliances handled by the institution, and the added floor space used for general hardware and merchandise of a like type.

The lumber stock is being moved across the alley to the warehouse. At a later date a planing mill is expected to join their present big general purpose saw, installed in the warehouse, and a greatly increased stock of lumber will be carried.

Mrs. Lester Crocke, vice-president, and Mrs. S. Cook, president of the Kendrick Chapter of the Red Cross attended the annual Red Cross meeting in Moscow Monday evening of this week.

At the meeting Kendrick was very highly commended for its splendid cooperation in this drive. In fact, so liberally has this community responded, the next drive will not be held for a month, taking place the week of February 14, with Mrs. F. M. Long as drive chairman.

At present, Mrs. Cook said, no materials are available for sewing or knitting, due to the fact that Red Cross warehouses are being moved back from the coast. The quota is expected soon, however, and volunteer workers will be greatly appreciated.

WHEAT PRICES HIGHER IN PACIFIC NORTHWEST

Wheat futures prices at Portland were unchanged for the week ending January 9, but quotations on cash wheat were 1/2c to 1c per bushel higher as compared with the previous week, the United States Department of Agriculture reports. Light offerings by growers at the country points rather than any urgent demand from buyers accounted principally for the slightly higher cash wheat prices. Demand generally was very light and confined principally to high protein qualities for immediate needs of mills. Domestic flour business was reported rather slow and export flour sales under the indemnity plan were limited to small amounts to Central and South America. Movement of Northwest wheat eastward continued in moderate amounts, mostly to the Kansas City area, and there was some demand from California for wheat of various special types from the Pacific Northwest. These outlets, however, were not sufficient to absorb any appreciable volume of grain when compared with the demand necessary to absorb the available supplies of wheat in this area. Light current marketings were reflected in receipts of only 390 cars of wheat at Puget Sound and Columbia river terminals for the past week. Continued light offerings from growers and the limited demand for cash wheat at coast terminals made for a very quiet market situation at Portland as the period ended.

Cash wheat bid prices at Portland on January 9, showed soft white at 97 1/2c; soft white (Rex not applicable) at 99c; white club at \$1.01; western red at 99c and ordinary hard red winter at 98 1/2c per bushel, all basis No. 1 grade in bulk.

The San Francisco wheat market strengthened, largely influenced by advances in other markets, and light local offerings. Current demand, while not brisk, also showed some improvement and prices gained 2 1/2c per 100, to new high points for the current crop year. Offerings of top quality wheat were especially light. At the close of the week, bids to growers for No. 1 hard and No. 1 soft white wheat were mostly around \$1.85 per 100, country warehouse receipt basis. Offerings from Intermountain states slackened still further and were generally too high to interest central California trade. Somewhat greater interest, however, was shown in Pacific Northwest wheat, which apparently has not advanced as sharply as other markets in recent weeks.

Wheat futures at Kansas City moved up to the highest levels in about four years, and although the highest prices were not retained, the close was 1c to 1 1/2c above a week ago. The continued market strength was again influenced by trade opinions concerning price control legislation in Congress, together with the huge war effort planned for the next two years. In the background were trade apprehensions concerning the possible effect of sub-zero temperatures in winter wheat fields.

The grain market at Minneapolis maintained a firmer tone and prices showed advances all around. Extremely cold weather throughout the period curtailed country marketings and receipts of cash grain at Minneapolis diminished considerably. The smaller supplies of cash wheat moved readily at firmer premiums.

Severely low temperatures prevailed over most of the winter wheat belt, but large areas were fairly well to deeply blanketed with snow, which afforded protection. In a few areas, notably northwestern Ohio, northern Indiana, parts of central Illinois, and much of Missouri, protection was inadequate. In the southern states, winter grains are showing decided improvement with early wheat supply pasturing for livestock in Texas. There is a good snow protection in the Northwestern states, although in Washington the protection is scant in some places.

In Canada, most of the prairie grain area had little snow coverage and December precipitation was well below normal in all three provinces. Temperatures ranged as low as 30 degrees below zero. A cold wave spread over large areas of Europe and the southern countries reported near zero temperatures. Winter wheat acreage is generally smaller than expected in the Balkans and in Portugal.

The matter of a coasting place for youngsters was taken up, and considerable discussion followed regarding the closing of certain streets in order that they might coast there, but as the snow will undoubtedly be gone by the time council meets again, no action was taken. Appoint Tire Inspector

At a meeting of the tire dealers in Kendrick Saturday evening, presided over by G. W. McKeever, village mayor, a tire inspector was appointed, in pursuance to request from the Latah County Defense Board at Moscow.

Fred W. Newman of the Kendrick Bean Growers, received the appointment.

As we understand the present tire set-up, if a request comes to a tire dealer for a new casing from anyone eligible, the tire is dismantled by the dealer receiving the request, Mr. Newman called, and if he deems the tire beyond repair, and the applicant eligible, the request will then be forwarded to Moscow, where it is passed on by the county tire rationing board, and if allowed at that point, an order enabling purchase will be forwarded to the applicant, who may then go to the dealer and purchase the tire. These tires must be "mounted on the vehicle, which eliminates the spare."

Skating Party

It was a gay and happy occasion for a group of young people at the Harry Langdon home Saturday, when Erma and Buddy Langdon invited some of their friends to enjoy a skating and coasting party.

Upon their arrival at the Langdon home Mrs. Langdon served the group a sumptuous hot lunch, which was greeted with enthusiasm. Following lunch there was a mad scramble toward the skis and sleds, which furnished many a thrill as well as laughs before the afternoon was over.

Those present were Maurice Long, James Candler, Noel Thomas, Dickie McCall, Jimmy Aiken, Buddy Langdon, Jeanne Flaig, Dorothy Dammarell, Margaret Cook, Gay Deobald, Ruth Biddison, Barbara Stedman, Patty McCreary and Erma Langdon.

Wayland Davis Leaves

He did not know, at the time of his departure, where he might be stationed, but hoped to go either to Bremerton or Seattle.

Re-Organize Red Cross

The American Ridge branch of the American Red Cross has been re-organized and the following officers elected: Mrs. Frank Bencotter, chairman; Mrs. E. P. Roberts, vice-chairman; Mrs. Andrew Cox, secretary-treasurer; Norla Callison, G. T. Davidson, executive committee.

The membership is fast approaching the 100 per cent mark. The following have subscribed to this branch: Mrs. Mary Deobald, Mr. and Mrs. E. P. Roberts, Mr. and Mrs. George Davidson, Mr. and Mrs. Frank Bencotter, Mr. and Mrs. Walter Bencotter, Mr. and Mrs. Warney May, Jr., Mr. and Mrs. George Havens, Walter Big-

ham, Mrs. Sam Bigham, Mrs. Harold Roberts, Mr. and Mrs. Andrew Cox, Mrs. Leila Cox, Warren Cox, and Mr. and Mrs. Ed. Kent.

The Roll Call will be completed next week. Quite a number of members of this community have subscribed to other branches.

Many Stamps And Bonds Sold

We hear many of the larger cities reporting their records of bonds and stamps sold, and so we present Kendrick's, believing that this record will more than favorably compare with that of many of the larger centers.

Since the new issue of United States Savings Bonds and Stamps, placed on sale May 1, the Kendrick postoffice has sold, to date \$11,831.25 of bonds and Savings Stamps for the same period in the amount of \$319.10.

The Farmers Bank of Kendrick has sold Bonds to the amount of \$14,566.25.

This makes a total for the community of \$26,397.50 in bonds!

It's really a mark of which this section can well be proud.

Word From Brother

Mrs. Harry Bencotter has received word from her brother, Bill Lyle, of Peck, who left Los Angeles December 8, for Midway island, through the war department, they advising that the evacuees could have their choice of being taken to Pearl Harbor or to some other point. He is an employee of the Morrison-Knudsen construction company.

The information said the boys would be well taken care of, but that all news sent to them should be of a cheerful character. The letter went on to say that things are not as bad as they are sometimes pictured. All mail for the boys in that part of the world should be sent via Honolulu, the department advised.

Tax Stamps Soon On Sale

Washington, Jan. 12—The internal revenue bureau decided today to put the federal auto tax stamps on sale at postoffices and revenue collectors offices this week, but officials explained that there would be some points in the country which would be unable to get stamps immediately.

The original plan was to put the stamps on sale beginning the week of January 26, but the bureau decided to move the time to this week.

This, said Internal Revenue Commissioner Guy T. Helvering, was for the convenience of motorists and to avoid congestion at the sales point. The initial \$2.09 tax is payable not later than February 1. The stickers for the first tax are good until July 1, when the new ones will be sold at the rate of \$5 a year for motor vehicles.

New Venetian Blinds

The Farmers Bank, on Saturday of last week, had a complete set of new steel venetian blinds, of a light green color, installed at their windows.

These blinds are a real improvement in appearance, both to interior and exterior of the bank. They may be tilted in either direction to permit proper light at all times, or may be raised.

EDITORIAL

Well, Folks — Seems as if the Japs are still able to muster more and more forces for landing after landing — but the tide will turn, as the Germans are really discovering in Russia — and when it does the Japs will really discover how fast they can retreat (if there are any left to retreat) but in the meantime we can all do our part to help — and you folks on the farm especially so, for Uncle is calling for more milk and cream, more hogs, more chickens. So why don't you milk those cows, feed the skim milk to the pigs and chickens, and sell the cream to us? That will be doing your part at this time. Remember, with rubber at a premium for cars and trucks, the less you use your tires the longer they will last — so make a short haul of it by selling that cream to us — for Cash!

A missionary society approached Henry, who was slightly inebriated. Said she: "We are having a raffle for a poor widow. Will you buy a ticket?"
"Nope," said Henry. "My wife wouldn't let me keep her if I won."

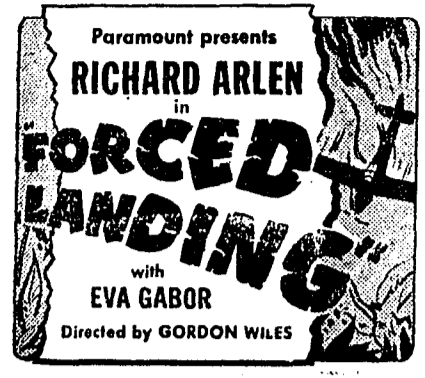

Hubby: "I'll tell you something if you promise not to repeat it."
Wife: "I promise."
Hubby: "My sister had twins!"

Dope: "If I'd known that black-out was going to last so long I'd have kissed you."
Hope: "Heavens, wasn't that you?"

Draftee: "The Sarge served me breakfast in bed this morning."
Other Draftee: "And what happened then?"
Draftee: "I woke up!"

Replacement Idaho Highways

Roads wear out in the same way as automobiles, but at a slower rate. B. J. Finch, district engineer, U. S. Public Roads administration, stated the other day.

On the basis of the results of road life studies made by the Idaho Highway Planning survey, there are over 2800 miles of bituminous surfaced state highways in Idaho and about 10 per cent have to be replaced each year.

It is estimated that it will cost in excess of \$1,000,000 annually in Idaho for the next ten years to replace bituminous surfaces as they wear out, Finch stated.

Winter weather, volume of traffic, width of surface and subgrade conditions were cited as having effect on the life of roads.

Chambers Of Commerce Meet

According to an announcement received this week the Latah County Chambers of Commerce will hold their January meeting at Troy, on Thursday, January 15 (today). Dinner will be served by the Home Economics class of the Troy high school at 6:30 p. m. in the high school building.

Lieut.-Col. C. W. Jones, head of the Department of Military Science, U. of I., and G. P. Mix, Moscow, chairman of the Latah County Defense committee, are the chief speakers of the evening, with "Defense" being the theme of the meeting.

Standing committees for the year will be appointed at this meeting.

Weather Ideal For Winter

The winter weather of the past few days has certainly been ideal — for no new snow has fallen, and the temperature has risen considerably. We have had bright sunshine for at least a part of every day since last Saturday, and the temperature has been just below the freezing mark, dropping to the early 20's during the night. Chains are required by cars on the grades, but travel conditions are not bad and some logging operations are underway.

Can Grow Potatoes

Notices of potato allotments have been mailed to all Latah County farmers. Considering the small amount of potatoes grown in Latah county very few actual potato allotments have been established. The allotment notices received by most farmers indicated a zero allotment and an appraised normal yield. Regulations permit each farmer to grow three acres of potatoes regardless of the allotment established.

Many producers growing less than three acres of potatoes have inquired as to whether they would still be allowed three acres of potatoes if the allotment had been established at zero. This is possible as no allotments of three acres or less could be established under the existing potato allotment procedure.

Skating Good

Old Man Winter, with his icy blast, has brought fun for the kids this year. With the coasting curtailed, skating has forged to the front. The creek is frozen over with a thick layer of ice and the section by the depot is in demand.

About two weeks ago, before the ice had reached a depth of safety, Sonny Daugherty had a narrow escape. It seems that he, with some of the boys, had finished skating, and were returning home. When crossing the ice near the Blewett home, he stepped into a pocket that wasn't solid and fell in, up to his waist. Tommy Long and Gordon Varo were on hand and pulled him out before he had a chance to become a permanent fixture — All's well that ends well.

Basketball Game

Tuesday evening of this week Kendrick played another of their conference games — this time with Genesee, and won by a score of 32-26.

The game was fast and plenty rough. Genesee losing two men on fouls and Kendrick one.

At the half mark the score stood 21-10 in favor of Kendrick. Genesee drew even for just an instant, and then lost the initiative to Kendrick.

Pinochle Club

Mr. and Mrs. Ross Armitage entertained the Pinochle club in their home last Wednesday evening. High scores were awarded Mrs. Frank Abrams and Billy Weyen, with low going to Mrs. Walter Brocke and Oscar Raby.

Invited guests were Mr. and Mrs. Geo. Brocke and Mr. and Mrs. Ray Hudson.

Delicious refreshments were served by the hostess at the close of play.

synthetic rubber a year. He estimated the plants could be ready by the middle of 1943, and along with other rubber sources would be enough not only to fill all military but a limited amount of civilian needs, including automobile tires.
In the meantime, Jones said, there is enough rubber to meet all essential needs of the nation until new plants can be completed.
With bicycles and horseback riding so in favor — you can't tell but that maybe walking might come into vogue again.
