W. S. C. S. Meeting

Last Friday evening the W. S. C. S. met in the church basement with Mrs. Kanikkeberg presiding. Following the reading of the minutes and treasurer's report, Rev. Murray was called on to make a number of announcements, the first being a pot-luck supper, to be held in the church basement Thursday evening of this week, with everyone invited. He also announced the Christian Education conference to be held in Lewiston on the 18th, 19th and 20th.

A short business session was held in which expense for minor parsonage repairs was allowed. The group also voted to buy two tables from Mrs. M. O. Raby, and the decision to serve the lunch for the Kendrick Bean Growers Instutitue Tuesday and Wednesday, made.

Circle chairmen gave reports on their first meetings, and it was announced the American ridge ladies had decided not to organize a Circle of their own, but would meet with those here.

Mrs. Roy Ramey then led the group in a devotional service, after which the program was announced by Mrs. Edgar Long. The first number was a song: "The World Children," by Patty Long, Marilyn Schupfer and Patty Brocke, accompanied by Mrs. H. C. Schupfer.

Mrs. Long led the discussion of racial problems, entitled "We Are Not Divided." Mrs. L. D. Crocker, Mrs. Marvin Powell and Mrs. W. L. McCreary assisted in the discussion.

Small cost, large results.

Don't Wait--Do It Now!

Today, more than ever before, conservation is a real necessity, not only of the tires on your car, pickup, truck, tractor, combine, mower, or other farm equipment, but of machinery as well.

In line with requests of our government, and the immense needs of our rapidly expanding national army, the huge plants devoted to the making of cars and trucks are now devoted (or soon will be) to the production of planes, plane motors, etc., and farm machinery production units are busily building tanks, gun carriers, etc.

It's up to us as loyal American citizens to do our bit by making our present vehicles and machinery go further than they ever have before. We believe that all of you realize this need as well as we do and will co-operate to the utmost.

If you know of repairs that need to be made on your vehicles or machinery before the coming of another crop year, we urge you to bring them in now — don't wait. Give us a chance to secure the necessary parts, some of which may take time don't tie up your machinery when you need it, and perhaps put your neighbor "in the hole" by causing a shortage of parts that may result from some accident, or other unfortunate circumstance.

Bring that car, truck or tractor in today. Don't wait. Not only will it help you but the boys who need guns, tanks, planes and ammunition.

Well, Folks — Here we are "right spang in the middle" of a little private war of our own with congress over the pension situation, and frankly, we think that something should be done and done immediately. The bundles for congress idea was all right, but it didn't go far enough. The hides of some of those congressman and senators (especially those who do not come up for re-election this fall) seem to be powerfully thick — and every bundle should be equipped with a dart or arrow to assure pene-tration of his hide, and well as carrying the supreme idea of dislike and distrust thot goes with it. Congressmen seem to have forgotten Pearl Harbor in their effort to grab for themselves.

And of course, we mustn't forget Eleanor and her actress and dancer friends! They too are de-

serving of "bundles" in more ways than one! In fact, we believe that a good "tossing-out on their ears would probably show them the fighting frame of mind in which the American people find
