MOTHER'S DAY

'Tis Mother's Day again and I am dreaming,
Commemories thronging all too dear to last;
The sweetest of life's golden days are beaming,
They'll blossom on a memory of the past.

Down orchard-lands where once we used to wander
My hand in yours in childhood's happy way;
In storming apple bloom I stand and ponder
The debt of love I owe to you this day.

— Bert Gamble.

Arlene Deobald Honored

Twenty outstanding junior women at the University of Idaho, from among next year's members of Mortar Board will be chosen, have been invited to the organization's formal Nartex Table dinner, May 5.

Mortar Board, national honor society for senior women, annually presents the invitations in May baskets during a serenade held the night of April 30. Women are chosen on the basis of scholarship, leadership and campus activities. The climaxing honor for six or seven will be tapping as Mortar Board members at the mother's week-end May fete, May 9.

Among the women receiving an invitation to the dinner was Arlene Deobald, Kendrick.

GRAIN BAG SITUATION IS REALLY SERIOUS ONE

There will be only 8,000,000 grain bags available on the Pacific Coast this year to meet the needs of a crop that is expected to require 45,000,000 bags, according to information obtained by the Oregon-Idaho Grain Marketing and Warehousing committee.

This committee, set up at a recent meeting called by the United States Department of Agriculture to study the serious grain storage problem in the Pacific Northwest, held its organization meeting late last week in Portland, and made this report to grain growers of the two states:

1. There is no prospect whatever of enough bags to go around. The last ship expected to carry burlap from India left Calcutta a month ago, and military requirements have first call on stocks of burlap that are now on hand. The supply of cotton bagging will not be sufficient to replace burlap, because much of the material must be used as a substitute for canvas. Best indications are that prices for cotton bags that may be available will be the equivalent of approximately 12 cents a bushel for capacity. Paper bags may possibly find some use in sacking last year's crop, but it is extremely doubtful if they can be used for this year's crop, and supplies of paper bags can be obtained only by those holding preference ratings, obtained from the War Production Board.

2. There is no prospect of more than restricted removal from storage of wheat now on hand, and this applies to wheat owned by the Commodity Credit corporation now sealed in farm storage. Owners of farm storage containing loan wheat undoubtedly will have to provide other storage for the wheat they will grow this season.

3. War Production Board restrictions on new construction still permit a farmer to build farm storage up to \$1,000 in total cost without obtaining a release from the board, but preference ratings must be obtained for all critical materials required, including nails. Nail supplies, now short, are expected to be easier in a month, but farmers are advised by the committee to place orders now. Lumber is not yet subject to priorities, but manufacturers have been asked to hold their production for defense needs. Farmers should make arrangements now for the lumber they may require.

4. Farmers should find out now what the storage situation is in their own communities; make plans now to provide their own storage if it is apparent elevator or warehouse storage will not be available. These plans should be made with full realization of the bag shortage and of the fact that there is no more prospect for the removal of privately owned wheat.

Committee members taking part in the meeting at which these conclusions were reached represent the growers, warehousemen, farmers' co-operators, terminal operators, bag manufacturers, railroads, lumber manufacturers and governmental agencies. Tom Kerr, president of the Portland Grain Exchange, is chairman of the committee; A. E. Sutton, manager of the North Pacific Grain Growers, Inc., is vice-chairman, and Earl Corey, manager of the Portland office of the Commodity Credit Corporation, is secretary.

FINAL RITES HELD FOR MRS. JULIUS HOPPE, TUES.

Anna Belle, one of the 12 children of Mr. and Mrs. William Craddock, was born at Colfax, Wash., March 4, 1880, and departed this life April 26, 1942. On June 30, 1898, she married Julius Hoppe, whom with their daughter Lillian, her husband, James McFadden, and their two children, Calvin and Lenora, who reside at Nampa, are left to mourn her passing. Her father, three sisters and four brothers have preceded her in death, while her aged mother, Mrs. Laura Clark of Spokane, two sisters, Mrs. Clara Albert of Spokane and Mrs. Violet Bloom of Peck; two brothers, William F. of Chicago, and Andrew F. of Worley, survive her.

She came with her parents to Southwick when but six years old, and for 56 years lived in the Southwick community. She was a member of the Southwick Community church. Her friendly disposition and progressive outlook on the higher things of life made her a great asset to the community, and her passing leaves a vacancy hard to fill.

Funeral services were held from the Brower-Wann chapel in Lewiston at 3:30 p. m., April 28, Rev. Franklin Norris officiating. Hymns were sung by Xena Weatherby. Interment was in the Normal Hill cemetery. Pall bearers were Clarence Henderson, Homer Betts, Milton Benjamin, C. A. Cuddy, John Lettenmaier and Given Mustoe.

Friends from many points attended the services. Those from Southwick included Rev. and Mrs. Tetwiler, Rev. and Mrs. Freeland Whybark, Rev. Norris, Mr. and Mrs. Oscar Lawrence, Mrs. Lizzie Lawrence and Jane, Mr. and Mrs. Alex Lawrence and Jane, Mr. and Mrs. Chester McIver and Earl, Mr. and Mrs. Arnie Cuddy, Mr. and Mrs. Milton Benjamin and Alice, Mr. and Mrs. Given Mustoe, Mr. and Mrs. Jack Travis, Mr. and Mrs. Joe Tschantz and Henry, Mr. and Mrs. Nels Longteig, Mr. and Mrs. Homer Betts, Mrs. J. R. King, Mrs. T. C. King, Mrs. Eva Wright, Mrs. Bessel Stalaker, Mrs. Elsie Grant, Mrs. Viola Martin, Mrs. Hazel Pressnall, Mrs. Ardis Gertje, Mrs. Harl Whitinger, James Devour, John Lettenmaier, Clarence Henderson, Pete Smith, Tommy King and Morrison Cuddy.

Real Downpour Monday

Kendrick and vicinity was visited by a real downpour of rain Monday evening, the storm, accompanied by thunder and lightning, lasting about an hour and a half. Gutters in the Kendrick streets were filled almost to capacity, the water bouncing a "root of the pavement" when it hit. Considerable damage was reported done to fields on surrounding ridges, deep gullies being reported washed in spring plowed ground.

By a strange freak, but a light shower fell in Julieta, and toward Genesee, on the upper end of Fix ridge, none fell.

Following the rain the skies cleared, and frost was visible on some north slopes Tuesday morning.

Commercial Club Meeting

The regular monthly meeting of the Kendrick Commercial club will be held Monday evening of next week at 6:30 p. m., but whether at the school house or church is not known at the time of going to press.

However, remember the day and the hour, and word will be passed about later as to the place — and plan to come. These meetings are always worth while, and it is understood that the decision regarding the July 4th picnic will be made at this time.

GUSTAV WEGNER, POTLATCH PIONEER PASSES AWAY

Gustav Wegner, who resided on a farm southwest of Rockland, Idaho, died at 3:30 on the afternoon of Saturday, April 18, at the American Falls hospital, at the age of 72 years, nine months and 18 days. Mr. Wegner was born on June 30, 1869, near Henderson, Minnesota. At an early age he became a member of the Lutheran church. In the year of 1897 he was united in marriage to Emma Pauline Comnick. In 1903 Mr. and Mrs. Wegner moved to a farm on Potlatch ridge, where they resided until some thirteen years ago, when they moved to the farm where Mr. Wegner was living when he became ill.

Word From Evelyn Gustafson

Evelyn Gustafson, daughter of Mr. and Mrs. Oscar Gustafson of Big Bear ridge writes:

"I just happened to notice on my last copy of the Gazette that my subscription was already run out, so decided I'd better renew it immediately. I'd surely hate to miss any of the home town news.

I really like Seattle a lot. I see a lot of home folks here, especially, it seems, I see a lot of Deary and Troy kids. I certainly enjoy seeing them, too."

Purchases Possible Now

Tuesday of this week was the first actual sugar ration purchases, and effective then, merchants must ask for the coupon books before making sugar sales to patrons.

Each of the first four stamps in the 28-stamp ration book will entitle a consumer to buy a pound of sugar every two weeks. For example: Stamp No. 1 is good from May 5 to May 16; Stamp No. 2 from May 18 to 30; Stamp No. 3 from June 1 to 13; Stamp No. 4 from June 15 to 27.

When the first four stamps have expired, June 27, the government may decrease or increase the ration allowance.

Watch the dates for your stamps, do not allow them to accumulate or become overdue.

LIEUT. RUSSELL A. BETTS MEETS DEATH IN ALASKA

Accidental death came last week to Lieut. Russell A. Betts, 31, son of Mrs. Ola Betts, Clarkston, while on a photographic mission near Kodiak, Alaska, according to a telegram received by his wife, Mrs. Mildred Betts of Peck, Monday.

The notice read: "It is with deepest regret that I must inform you of the death of your husband, Lieut. Russell A. Betts while on a photographic mission near Kodiak, Alaska. His body has been recovered and will be interred at this station. Please feel free to call on me for any assistance which I might give. Signed, Dunley. Filed Fort Richardson, Alaska, May 2."

Lieut. Betts was born Feb. 17, 1911 at Southwick. He attended school there and the University of Idaho, where he majored in education. Lieut. Betts taught at the New Hope school near Craigmont in 1932-33, and was educational supervisor in the CCC camp at Brunau, Ida., for three years before enlisting.

Following enlistment, he was sent to Anchorage, Alaska, for photographic work. He visited relatives here March 15, making the round trip by plane. He married Mildred Fairley, Peck, on August 26, 1933.

Survivors include his wife, Mildred; two children, Marion, age six, and Camille, age one; Peck; his mother, Mrs. Ola Betts, Clarkston; two brothers, Ray and Dan and a sister, Donna Jean, all of Clarkston; one sister, Mrs. Orville Skaggs, Union, Oregon; and a brother, Archie Betts, of Anchorage. His father died six weeks ago—Lewiston Tribune.

Lieut. Betts was well and favorably known here in Kendrick, having grown to young manhood at Southwick, and having been employed at different intervals during the summer vacations here, and it is with deepest regret that Kendrick residents will learn of his death.

Quota Margin At 75 Per Cent

Tabulations of the wheat growers' referendum indicated that more than 75 per cent favored continuance for another season of the federal marketing control program.

With about three-quarters of the expected total vote counted, the ballot for marketing quotas stood at 174,913. The opposition vote totaled 56,745. The vote already has been counted in most of the states where agriculture department officials expected substantial opposition, suggesting that the final figure would show approval by more than 75 per cent of those voting.

A two-thirds margin was needed for continuance of the program. The vote was cast in 40 wheat-growing states.

The wheat acreage this year is slightly less than 55,000,000 acres, compared with a peak figure of 80,000,000.

Advocates of the control program contended it was necessary because a two-year stock of wheat, accumulating from carry-over supplies and the 1942 production, would be on hand this fall. Moreover, the export market has virtually vanished. The agriculture department also contends that a reduced wheat acreage will mean that farmers will turn to production of other supplies needed in these war days, such as meat, dairy and poultry products and vegetables.

Services For Mary E. Davis

Funeral services for Mrs. Mary E. Davis were held from the Kendrick Community church Thursday afternoon April 30, at 2:00 o'clock, with Rev. Roy E. Murray conducting the services.

Later they came to Southwick where they resided for some two years, thence coming to Kendrick to make their home, and Mrs. Davis had been a continuous resident of Kendrick for 50 years, being one of the oldest continuous residents of the Potlatch section.

She was the mother of eight children—four sons and four daughters—three of whom survive: Joe of Kendrick, Leonard of Burns, Ore., and Ernest of Kendrick. She is also survived by 10 grandchildren and 13 great-grandchildren.

Burial was made in the Kendrick cemetery. Pallbearers were: Dr. G. W. McKeever, R. L. Blewett, A. C. Wilson, R. B. Parks, E. F. Nesbit and H. C. Schupfer.

what is America Fighting for?

Freedom of Enterprise!

Of the principles for which America is fighting, none is more important than our freedom of enterprise.

What is that? It is the right of every American to be his own boss, if he so chooses. It is the right of a man... regardless of race or creed or color... to buy his own stock of goods, or develop his own service, and offer to fill the needs of his neighbors. It is every American's precious right to exchange fair dealing for a fair and honest profit. Free enterprise is the principle upon which American business is built — be it the corner grocery or the great factory.

Today our free America is threatened, but the spirit that developed America's free enterprise — the initiative, the toil, the will to do — will again spell final Victory!

"Blood And Sand" At Theatre
 This week's offering at the Kendrick Theatre is said to be one of the greatest pictures ever filmed — "Blood And Sand," and in addition to its great action and story interest it is all in technicolor, which will add materially to its appeal.
 Starred in this great picture, whose action is laid in the Spain of old, are Tyrone Power, Linda Darnell, Rita Hayworth, Nazimova, Anthony Quinn, J. Carroll Naish, and a host of lesser stars.
 You will thrill to action and ecstasy, beauty, laughter, tears and action. It is said that never has there been a picture like it — never will there be another.
 Selected shorts and a cartoon will also be shown to round out the evenings entertainment.

Well, Folks — The war news looks good in spots, and pretty black in others, but on the home front sugar rationing is of prime importance at this time to everyone. As you well know, the five (5) pounds per person canning quota is not going to permit a great deal of home canning of fruits or berries — and that's where we can help out — by renting you a locker box for the modern, quick, sugarless canning method — freezing. You will find the cost of these boxes very moderate, and yet they are handy, almost like stepping into your own cellar. If you do not already have one, come in and select it today.

And don't forget, we pay spot cash for your cream. Bring us a can on your next trip into town. Save your tires, time and patience by bring that cream to us.

Coroner: "You say this woman shot her husband with this pistol at close range?"

Rastus: "Yassuh."

Coroner: "Are there any powder markets on his body?"

Rastus: "Yassuh. Dat's why she shot him."

"Why?"

"You asked Mrs. Smith how her husband was standing the heat, and he's been dead two months."

Since that time his parents have undergone considerable good-natured "ribbing" about the girls from the "down under" continent, kangaroos, etc. However, they don't mind a bit, and all are glad to receive word from one of our own lads who is doing his bit.

Clem Lyons Writes Us
Fort Lewis, Wn.
May 1, 1942

Dear Friends:
Like most of the other boys in the army, I never seem to stay in one place very long, so I'll send you my new address.

I find from reading the other boys' letters that you can't print addresses, so I'll just say that I am a lot nearer Idaho than for some time.

We came from Los Angeles by truck, and had a very nice trip, though a bit rough at times. I thought from the weather in L. A. that summer had come, but one day we drove for about three hours in a genuine snow storm — in some places there was six inches of new snow.

I've met several of my friends from Idaho since I've been here, and expect to see more of them while here.

The few days we've spent here have been used in cleaning up, resting and getting established. Beginning next week, our time will be spent in training for a while, and then anything can happen.

I'll thank you in advance for the news I'll be reading and close.
Respectfully,
Clem Lyons.

Ed's Note: You are almost but not quite right regarding published addresses. Federal regulations do not permit us to publish army number, company or other numbers; nor the location addresses of those outside the borders of the United States, or to mention destination of any soldier or group if notified they are leaving one point for another.

Word From Don Lyle

Dear McCrearys:
I would appreciate hearing the news of my old home town, and think that your paper would just serve that purpose 100 per cent. At the present time I am at the West Coast Air Corps Training Center at LeMoore, California. I am taking a course in Link Training, with the purpose of teaching cadets to fly by the use of instruments, rather than by their imagination, as has been done a good deal in the past. If I can find one of the local papers I'll send you one, and from it you can get a better idea of the whole thing.

I like the work very much, and also this post.

Link training instruction includes being able to operate and maintain a Link trainer, which is a miniature plane constructed on a universal joint. It is vacuum operated, and goes through all the maneuvers that a real plane can do. They say if the cadets learn to operate these satisfactorily that 80 per cent of all air accidents can be avoided.

Other subjects in this course include meteorology, air navigation, air mechanics, and being able to fly a ship yourself.

Please give all the Kendrick folks my best regards.
Sincerely,
Don R. Lyle.

Receives Tiny Racing Car

On Monday of this week Ed. Deobald received a midget racing car as an award for the sale of piston rings, and the tiny car is attracting considerable attention at present. The little car is about 18 inches in length, is powered by a very complete one-eighth horsepower gasoline engine. It is said that this model can do between 80 and 90 miles an hour, and from the sound of the engine when "wound-up" we believe it to be true.

"Here's where I cut a good figure," said the college girl as she sat down on a bottle.
