E. E. McDowell, who owns the old Powell place below Kendrick, has decided to start a dairy and will furnish milk to the people of Kendrick the year 'round. He expects to keep in the neighborhood of 30 cows, so will have plenty of milk to supply the demand.

Miss Nell Ameling has written a very interesting article, which appears in this issue of the Gazette. It concerns a survey of 15 farm homes on American ridge and gives a great many details that prove the fact that American ridge farm homes are away above the average in the possession of modern conveniences.

## Machinery To Arrive Soon

Work on the new building which will house the new electric eye bean picking equipment for the Kendrick Bean Growers association, is all but completed, and just in the nick of time, too, for George Brocke, manager, received word last Sunday from the manufacturers, stating that shipment had been made, that the machinery should arrive in Kendrick Friday or Saturday of this week, and that the erection expert for the company would arrive in Kendrick next Sunday.

This equipment will be but one of a few in the entire northwest, and had its purchase not been made when it was, it is doubtful if it could have been obtained.

## 201 Pupils Given Tests

County Superintendent Horace J. Woodworth reported last Thursday that 201 taking the eighth grade examinations in Latah county last week chalked up a higher group of marks than any class in the past several years.

Only 14 showed an inability to do high school work. He asserted that only the geography results were under those of past years and pointed out that world conditions are "changing the map" to such an extent that many elders are having a difficult time keeping up with the shifts.

Eleanor F. Paulson, and LaVerne Erickson, Troy, and Richard Hammond, Bovill, with grades of 99, topped the 201 taking the tests.

Among others in the high brackets was Gay Deobald, Kendrick, daughter of Mr. and Mrs. W. B. Deobald, who was in fifth place.

In individual tests: Literature—Gay Deobald, Kendrick, and Colleen Kinsella, Pocatello, were first; Geography—Gay Deobald, Kendrick, and Clarice Howe, Genesee, first; Richard Hammond, Bovill and Jim Aiken, Kendrick, second.

In elementary science, Gay Deobald was one of six in second place. To the credit of Ross Armitage, their instructor, and to the pupils themselves, it may be added that of the 14 who failed in taking the state tests, not one was from Kendrick; all passing with good grades.

## 1,300 Magpie Heads To Date

Lewiston has been raising quite a fuss about their 800 magpie heads so far since the bounty went into effect—but we fail to see where they have anything to crow about, for Marvin Long announces that to date Poflatch section youngsters have brought in 1,300 heads.

This is something of a record, and they are to be congratulated on the good work they are doing, as well as the good they do by destroying these pests. It also means a neat bit of pocket change for those taking part, since Marvin pays cash upon presentation of the heads, and the signing of the proper receipt.

## No Fires After June 1

Manning Onstott, state fire warden for this district, announces that no fires may be set after June 1st, without a permit, which must be obtained from him.

He further says that due to the danger of sabotage, now that we are at war, the very strict fire laws now in force, must be obeyed to the letter.

So far as we have been able to learn, Manning has not yet selected an office and tool building here in town, but that will come as soon as the necessary arrangements can be made.

## Another Red Cross Donation

The latest donor to the local Red Cross is listed as Mrs. May McCall, giving \$1.00.

Those present were Floyd Millard, Fred Newman, Billy Weyen, Bernard Jones, Walter Brocke, Frank Abrams, George Brocke and Kenneth Brocke. High score was awarded Bernard Jones, and low to Frank Abrams.

Delicious refreshments were served at the close of play.

## Bridal Shower

It was a happy occasion for Miss Marie Havens Saturday afternoon, when several of her friends honored her with a bridal shower, in the home of Mrs. Roy Ramey.

Several guessing games were played, after which the honor guest opened her many gifts.

Dainty refreshments were served at the close of the afternoon by the hostesses, Mesdames Silvie Cook, Edgar Long, Roy Ramey and Miss Myra Kanikkeberg.

## Pneumonia Takes Baby

The little seven-months-old baby daughter of Mr. and Mrs. Albert Nelson of Big Bear ridge, succumbed to pneumonia last Thursday morning. The child had been ill but 24 hours.

Funeral services were held Monday.

## SUGAR FOR HOME CANNING LIMIT IS ILL-CONSIDERED

Wm. Garfitt, executive vice president United Fresh Fruit and Vegetable Ass'n., sizes up the sugar situation correctly in the following statement, says the New West Trade:

"Millions of pounds of berries, peaches, grapes, apricots, pears, rhubarb, cherries, plums, currants and other essential foods are likely to go into the discard this summer—next month, in fact!—because the American housewife is allowed only five pounds of sugar per family member throughout the rest of the year with which to do her home canning and preserving."

Meanwhile, the commercial processors of these same foods will get all the sugar they need to put up all the fruits and berries they are able in all the tin cans and other containers they can buy, provided only that they must not use more than 90 per cent per can or other packaging unit of the amounts of sugar they consumed during the 1941 season. In other words they get a ration nine-tenths of last year's amount.

At the same time manufacturers of soft drinks, soda pop, ginger ale, coca cola, and the like—are allowed 75 per cent of the sugar they used last year; while the industrious housewife, who wants our natural and protective foods for her family's nourishment during the months when they are scarce and expensive, will be permitted to buy from 5 per cent to 20 per cent of the preserving sugar she needs.

This is not a protest against government conservation of sugar for lend-lease shipments to our country's allies, or for its conversion into alcohol for the manufacture of smokeless powder. We have no quarrel with the government's conservation program, but we feel the five-pounds-per-head sugar ration for home canning and preserving has been set without realization of the dangers it involves.

In the last week we have received dozens of letters, telegrams and long distance calls urging us not to let up on our drive. We have received dozens of copies of letters and wires to government officials, senators, governors and congressmen, urging them to enter the fight as a means of conserving the housewife's food dollar and of protecting the farmer's labor and investment.

Mr. Garfitt might have stressed more the fact that canners, with their limitations, cannot come within shouting distance of making up that enormous difference due to limitation of home canning even if that greater and weak fresh, and quickly perishable tonnage could be transported to their plants, which is doubtful. So there would be waste and loss of millions of dollars worth of fresh fruits and berries.

Retail food dealers are interested and affected, too. If you think something should be done, write your governor and your congressman at once.

## July 4th Committees Announced

L. S. Thurber, chairman of the Merchants committee of the Kendrick Commercial club, committee in charge of arrangements for the 4th of July Picnic and Get-Together announces the appointment of the following chairmen of committees for that day as follows:

Dance committee: F. M. Long. Entertainment: N. E. Walker. Sports: R. L. Blewett.

Decorations: H. C. Schupfer. Concessions and Police: Edgar Long.

Finance: Frank Abrams. Advertising: W. L. McCreary. Each chairman is to pick his own assistants to help him with the job.

The club wishes to make it clear that the Get-together this 4th is not a celebration. There will be no parade, fireworks display or other trappings commonly associated with the 4th. However, the day as tentatively planned should afford all a pleasant and inexpensive time.

## Pig Causes Downfall

Harry Harris, son of Mr. and Mrs. C. E. Harris of Cedar ridge, had the misfortune to fall and injure his left knee while chasing an elusive pig last week.

The injury was severe enough to require a cast, which he is now wearing.

## Farm Work Far Behind

This season, so far at least, is another like last year's, with all farm work from two to three weeks behind schedule. The intermittent and more or less heavy rains have kept fields in such a soggy condition that they have not been able to work them.

Farmers from the various ridges state that there is a good deal of ground yet to be plowed, and that bean fields are still un-workable, and that many who planned to seed oats have as yet been unable to do so.

Saturday afternoon and Sunday afternoon and Monday morning are the only bits of real sunny days we have had for a week—and rain fell between the two days!

## Foregoes Annual Hike

C. W. Jessup of Juliaetta, who came to American ridge in 1890, and settled in Juliaetta in 1910, celebrated his 80th birthday on May 13. This was to have taken place at the Jessup Camp on his ranch, with Tena Bigham, who came to American ridge in 1889, and Mary Deobald, who came in 1891, as guests, but rainy weather prevented. However, the dinner was held at the Jessup home in Juliaetta, the dinner consisting of lettuce, spinach, asparagus and radishes fresh from the Jessup garden.

Those present were Grace Stinson, who came to the country in 1887, and to Juliaetta in 1923; Pearl (Pierce) Scott, whose parents came to Juliaetta in 1878; Johnny Johnson, who came to Kendrick in 1891, and his wife Florence (Stevens) Johnson, who came to American ridge in 1893. They moved to Juliaetta in 1942.

With Pearl Scott at the organ, and Grace Stinson assisting with her guitar, a good old-fashioned sing was enjoyed by all.

## DOMESTIC WHEAT MARKETS WEAKEN DURING WEEK

Domestic wheat markets developed a materially weaker tone during the week ending May 15, according to the U. S. Department of Agriculture. This reflected in part the official crop report, showing a large prospective production on a much smaller acreage, continued pressure of large old crop supplies and little improvement in domestic flour business. In the Pacific Northwest, cash wheat prices were down around 10¢ per bushel compared with a week ago. This reflected the weakness in futures markets together with a continued slow demand from all classes of buyers in this area. Trade reports indicated another extremely quiet week in cash wheat trading in the northwest, reflecting light offerings at country points, along with the very dull demand. Lack of shipping instructions to mills on old flour orders has caused a rather acute storage problem in mill warehouses, with their storage space for both wheat and flour now well filled. This has resulted in a slow cash demand from mills, who have furnished the principal outlet for cash wheat offerings during recent weeks. Carol receipts of 370 cars of wheat at Puget Sound and Columbia river terminals for the week, were very largely the movement of government owned wheat, for both feeding and milling purposes, to coast terminals. Cash wheat trading was mostly restricted to the light needs of feeders and small requirements of mills. Some local damage to the growing wheat crops is reported from cold and windy weather, but generally trade reports indicate favorable new crop prospects in the Pacific Northwest producing areas.

Cash wheat bid prices at Portland on May 14, showed soft white at 98¢; soft white (no Rex) at \$1.00; white club at \$1.01; western red at \$1.01 and ordinary hard red winter at 97¢ per bushel, all basis No. 1 grade in bulk.

Trading in cash wheat at Kansas City was active during the week, but of rather limited volume due to the fact that only a part of the arrivals were available for open market disposition. Receipts were 474 cars and after the "to arrive" lots and diversions were deducted, probably only half that number appeared on the sample market.

Demand for cash wheat at Minneapolis, although not aggressive, proved steady enough to absorb the week's receipts at about unchanged prices as compared with a week ago. Minneapolis arrivals of all classes of wheat during the week amounted to 1,043 cars, while Duluth unloaded 643.

Trading remained slow in the San Francisco wheat market, but light local offerings tended to offset lack of any important demand and declines in other areas. Prices of California wheat remained practically unchanged compared with a week ago. Marketing remained light.

Widespread rains were received in western sections of that continent. Temperatures, however, remained low over a large part of the country and winter and spring crops are still backward because of the cold, dry weather. Available trade reports indicate below average harvests in Italy and unfavorable crop outlooks in Germany, and below average prospects in Norway, Denmark and Finland. Moisture supplies are generally satisfactory in the Danube basin, but the acreage planted last fall was small.

## Co-operative Creamery Meeting

Wednesday afternoon of last week a meeting was held at the city hall looking toward the final organization of the Kendrick Co-operative Creamery.

As the first step an election of a permanent board of directors was held, with L. J. Southwick elected president; Mrs. Mabel Hayward, vice-president; Geo. Davidson, secretary-treasurer. This board will hold office until the next annual meeting, which will be in June of 1943.

It was further decided that the fiscal year of the organization would run from May 1 to May 1 of each year.

At the conclusion of the organization meeting other business was taken up. This section of the meeting embraced Phillip Borup of the Farm Security Administration of Boise; Wayne Thomas, F. S. A. of Moscow; Dr. Hanson of the agricultural department of the U. of I., and Frank Harris, Lewiston, former manager of the Mutual Creamery of that city.

All the necessary papers for the organization were signed up, and taken personally by Mr. Borup to Portland, Oregon, where they will be considered at a regional F. S. A. meeting held there Tuesday of this week.

Preliminary surveys of cream flow possible, and net financial proceeds from such an institution showed that such a business venture should be a success.

At the time of going to press, no further information was available. However, should all papers be approved and the necessary money made available, it is not believed that it would take long to bring the organization into the active field.

## Claude Woody Home

Claude Woody was brought to the home of his parents, Mr. and Mrs. John L. Woody, last week, following a major operation in a Spokane hospital last month.

He is reported as slowly improving.

### INIQUITY OF GENERAL PRICE FREEZE SHOWN

Whatever its justification, the flat general price freeze, if it is wholly and rigidly maintained, is the most serious threat yet to retail business, which is mostly composed of a multitude of Small Businesses, but which, in the aggregate, is the nation's greatest business. Unfortunately, it is not effectively organized; it is almost hopelessly "inarticulate." So the three big "bullies"—Labor, Government and Big Business—trample over it—in fact, help each other kick small business around.

After Pearl Harbor the government pleaded with retail merchants to keep prices down, as a check against excessive price inflation and to help poor consumers in this trying period. Retailers generally, especially in the more staple (small profit margin) lines of merchandise, responded nobly to that appeal. They remembered the disastrous price deflation of 1920, and kept competition between retailers helped them to keep prices down. Retailers did not raise their prices anywhere near as fast and as much as manufacturers and wholesalers raised theirs.

The retailer soon found himself in the position where the article he sold at retail for 8c he must now buy back at wholesale at 9c. No fun in that! Does he receive even thanks? No! Instead Uncle Sam now virtually says what he buys from now on at 9c wholesale he must continue to sell at retail at 8c. Positively no fun! "Of course such action on their part was unbusinesslike; they know they should have followed the market."

Unless there is official recognition of this situation and some speedy relief, thousands of retailers face inevitable bankruptcy.

Appleland News well says: "Sound price control means, first, a reasonable ceiling on the most dangerous inflationary factors. Then the balance between wholesale and retail prices must be carefully and fairly established. 'Blanket price fixing' which does not take into account the wide lag between wholesale and retail prices and which leaves labor free to make any additional wage demands it wants, would be ruinous to our economy. And small business will be hit first and hardest." —New West Trade.

### Open Grange Meeting

Tuesday evening of this week the Kendrick Grange held an open house meeting, honoring ex-service men and their wives, and a goodly crowd was in attendance.

The program of the evening opened with a short welcoming talk by Ira Foster. This was followed by two vocal solos sung by Wm. Fitzpatrick, accompanied by Lois Deobald. Mrs. Herman Schupfer then played two musical numbers on the "Solovox."

The musical numbers were followed by an address by Dr. Charles Simmons, past state commander of the American Legion.

The program closed with the singing by the audience, of one song honoring each branch of our services, the Marines, the Navy, and the Army.

All then adjourned to the banquet room, where refreshments were served by the hospitality committee. Boutonnieres of red carnations and ferns were given each ex-service man present.

**U. S. O. Drive Set**  
"You help someone you know... When You Give U. S. O." — is the slogan of the United States Organizations. The U. S. O. is a united organization of the Y. M. C. A., Salvation Army, and four other organizations giving service to the enlisted men of the nation. It is authorized and organized under the direction of our government, but privately directed and financed. The U. S. O. provides for our soldiers and sailors "a home away from home" when off duty and out of camp. This organization has 450 huts where reading, recreation and companionship are provided under respectable surroundings. At least one local boy is said to have found a lovely wife in wholesome U. S. O. surroundings.  
The U. S. O. is raising \$32,000,000 for its work during the coming year. Of that amount \$150 has been allotted to Kendrick and American ridge. Rev. Roy Murray is chairman of the local drive to raise that sum. Other members of the committee are Wade T. Keene, Richard Blewett, Dr. Geo. W. McKeever, L. D. Corcker and Mrs. Ella Bensecoter. They plan on visiting every home in the community this week to receive contributions. The committee reports that individual gifts should average between \$1 and \$2, if the goal is to be reached.  
Mrs. Ella Bensecoter has been appointed U. S. O. chairman on American Ridge, and asks all in that district to please stop at her home if at all possible.

**Dear Friends:**  
Just a few lines to let you know that I have received several copies of your paper and certainly appreciate them. I want to thank you very much for it.  
I have been here at San Diego about five weeks now, just how much longer I'll be here I really don't know myself.  
Since arriving here I have met several fellows from the Potlatch section, met a high school classmate from Southwick the first week I was here, and it surely seems good to run across fellows you used to know.  
Now if any of my friends want to write to me, I would appreciate it, and they can get my address from my folks.

I appreciate getting the paper from my old home town very much. By accident I met Walter Sparber here the other day, so made him a visit Sunday. We talked of many things that used to happen around town. He is in the anti-aircraft unit here.  
We both enjoy the army life here, as there is always plenty of excitement — all of the time.  
Yours for more news,

**Another Double Feature**  
Another double feature is on tap for the coming week-end at the local theatre, offering two widely divergent types of pictures.  
The first offering stars Tim Holt, Ray Whitley and Lassie White in "Six Gun Grind." A story of the old gold and cattle days, when the six-gun made the law, and the best and fastest shot was king.  
The second offering of the evening, "Look Who's Laughing" stars those favorites of the air waves, Edgar Bergen, Charlie McCarthy, Fibber McGee, Molly McGee and Lucille Ball.  
It's a laugh riot from start to finish, and the kind of laughs that everyone enjoys.  
In addition the usual cartoon will be shown.  
Remember, Kendrick will have a big old-time picnic on July 4th.

HAROLD THOMAS, Editor

**EDITORIAL**

Well, Folks — On May 18 the government set a price on lots of products, but cream and butter were not included in this list — all of which bears out the contention we have so long maintained — that it pays to milk the old cows and bring the cream to us. You see, we pay spot cash for that cream, there is no waiting, no fuss, no bother. And in addition, we return a steam-sterilized, ready to use cream can.

And while we are thinking about it, it's time to come in and pick out that locker box — have it ready for your spring butchering, and for that sugarless canning of berries and vegetables, that will of necessity come this summer. Better make your selection on your next trip to town.

Passenger: "One and half, please."

Conductor: "You must pay full fare for that boy—he must be over fourteen."

Passenger: "How can he be fourteen when I've only been married twelve years?"

Conductor: "Madam, I am here to collect fares, not to receive confessions."

Critic: "How did you ever learn to paint such a wonderful landscape?"

Artist: "I studied abroad for two years."

Critic: "Hmm, then why isn't she in it?"

A shoulder strap is what keeps an attraction from become a sensation.

"Is that a genuine bloodhound?"  
"Sure — Oscar, come over here and bleed for the man!"

### WHAT'S GOING ON IN THE KENDRICK SCHOOLS

#### High School News

This seems to be the last week of school, before summer vacation. The joy of the coming closure of school is unbearable for some—and others seem to be dreading it. One of the thoughts of sadness is the loss of our teachers, who have slaved to get education through to us. On behalf of all the pupils of Kendrick High, we wish them happiness and good luck.

This year's "Hell Day" will be very memorable to both Seniors and Juniors. Everything was planned for Friday, May 15. It was a cloudy day, but believing nothing could stop us—we went. We all labored at pulling the grass away from the S. H. S. and the '41. The Seniors placed their '42 and whitewashed it, while we fixed the K and whitewashed part of the number. But to our dismay it started raining, so we went up and ate our lunch under the trees and then started home. We were suddenly soaked from head to foot, however, by a heavy shower. We finally reached home in perfect condition.

Baccalaureate services were held in the Methodist church last Sunday evening, with Rev. Roy Murray delivering the address. The church decorations, prepared by the Sophomores, were lovely. A large crowd was in attendance. Special numbers were sung by Bill Davidson, Joyce Lyons, Betty Halseth and Robert Lind.

Commencement Exercises were held in the gymnasium, which was beautifully decorated by the Juniors. The band, under the direction of Wm. Fitzpatrick, furnished special music. Leona Wilson delivered the Salutatory address, and Lois Deobald the Valedictory.

The Juniors gave a farewell party to the faculty and Seniors last Friday night. Most of the evening was spent in dancing. Refreshments of ice cream and cookies were served, following short talks by most of all the faculty.

All departments in the school have been taking an inventory. It is really hard work.

Marvin Powell, our Ag. instructor, has accepted a teaching position at Homedale, Idaho. We wish him great success, and can truthfully say that we will miss him.

The positions of Music and Science instructors have not yet been filled, nor do we have a first and second grade teacher — but hope to obtain them soon.

The three Davises — Evelyn, Joe and Richard, left school Tuesday. They will leave for the coast soon.

A horse-shoe tournament is being held at the school grounds. Four-bits will be given to the one who can make the most rings out of 24 pitches.

Athletic letters will be awarded this week to "Porky" Fry, Wally Newman and Walter McCall, and Jordan Kanikkeberg, manager. They have changed the idea of giving a letter for each sport. A stripe will be given, and a plaque placed in the Senior room, telling how, why and when.

**Save Cosmetics Containers**

American women can help the war effort by saving the increasingly precious metal containers in which they buy their lipsticks, hair toiletries and other beauty aids. Adequate supplies of lipsticks, cleaning cream, powder and other beauty items probably will be available, but women must make certain that there is no waste of containers, many of which will no longer be manufactured because of metal and plastic shortages.

A printer in setting the type for a poster to advertise an address by a militant suffragette, the subject being: "Woman, without her, man would be a savage." When the speaker called for the posters, the proof-reader and printer had to leave town suddenly, for the flaming sheets read: "Woman, without her man, would be savage."

**Can't Be Everything**  
An exchange says: Husbands are never more than 50 per cent perfect. The good provider is a poor companion; the good companion is a poor provider. If a husband is a good gardener, he will not wash dishes or do his bit with the family laundry. If he is willing to refinish second-hand furniture, he is a dub at a card party. If he is a genial host, he never stays at home. If he is a bear, you can't drive him from his own fireside.
