KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, JUNE 18, 1942

NO. 25

## KENDRICK HAPPENINGS OF TWENTY YEARS AGO

The Callison-Green fishing party returned from the North Fork the first of the week with glowing accounts of the splendid fishing there. They got the limit.

Considerable damage was done to the Walter Housley place, just outside the city limits at the lower end of town, by the heavy rains last week. Much of his garden was completely destroyed, much soil was washed down Brady gulch and was swept over the flat around the house, completely covering the plants in the garden.

A number of farmers in the Potlatch country had to replant their beans this week on account of the heavy rains, which washed the soil in many places as deep as it was plowed. One bench rancher on Little Bear ridge had his well completely filled up with soil and rocks that had been washed from the hillside.

Arthur Wegner, son of Carl Wegner of Kendrick, returned from dental school at Portland Tuesday evening. He will spend the summer in the Potlatch section.

Jesse Hoffman of Leland has filed as a republican candidate for the office of county commissioner of the third district, Nez Perce county. Leroy J. Southwick has also filed as a candidate to succeed himself, having held the office of county commissioner for the past eight years. He is now chairman of the board of county commissioners.

Miss Edith Compton arrived Tuesday evening from Boise, where she had been teaching school during the past year, for a short visit with her parents. She left Thursday for Portland, where she will join a party of girl friends from Boise, and from there they will leave for Los Angeles, Calif. She will spend six weeks attending a normal school at Berkeley.

Mr. and Mrs. George Davidson and family and Mr. and Mrs. Byard Davidson and family of Colton, Wn., left Wednesday for an automobile tour covering some of the principal coast cities. They will drive to Seattle and Portland and return over the Columbia river highway. They will carry a complete camping equipment, so will be independent of hotels and restaurants, and can stop when and where they please.

The Idaho license tags for 1923 will be made at St. Paul at a cost of 11.8 cents a pair. They will have a silver background with gold letters, which will be very appropriate for a mining state. The contract calls for 60,000 pairs.

Miss Grace White, daughter of Mr. and Mrs. F. D. White of Juliaetta, was married Tuesday of last week to Mr. Leslie Roberts of Kendrick. The wedding took place at the home of the bride's sister at Orofino, and came as a complete surprise to the friends and families of the young couple. Probate Judge Snyder performed the ceremony. Mr. and Mrs. Roberts have rented the D. R. White residence in Kendrick, where they will make their home. Mr. Roberts is in the garage business here, being associated with his brother in the Kendrick Auto Co. Wednesday of this week a large crowd of friends of the happy couple assembled at their home and gave them an old-fashioned charivari.

Friday afternoon about 3:00 a cloudburst and hailstorm visited Juliaetta and did considerable damage to growing crops, as well as to roads, and buried 70 feet of railroad track under three feet of dirt and rocks. Trains were held up for a day until the track could be repaired. Many gardens were completely buried under soil washed from the hillside. Watermelon, tomato and potato patches were completely ruined. Considerable damage also was reported on Fix ridge. Damage was also done to the Brady gulch road, which was closed until the debris could be removed.

Harry Langdon and his little son, residing on American ridge, had a narrow escape from death last Friday afternoon during the heavy thunderstorm. They were in the barn taking care of the horses when a bolt of lightning struck the building, following a 6x6 timber at the front of a stall, knocking Mr. Langdon, his son and two horses down. When Mr. Langdon regained consciousness he was lying at the rear of the stall. His son was screaming from fright and the two horses were lying in a heap, apparently dead. Mr. Langdon carried the boy to the house and after learning that he was not injured, returned to the barn, where he found one horse dead and the other still in a "shell shocked" condition. The big timber at the front of the stall was broken in two like a match, and although the barn was full of smoke, there wasn't a sign of fire anywhere.

Linden News—Mrs. Hattie Alexander returned Friday from a week's visit in Lewiston. She was accompanied home by four of her grandchildren. Mrs. S. H. Fry arrived Saturday from Moscow for a few days' visit with her son and family.

Miss Anna Smith, having just graduated from the Lewiston Normal, returned home Saturday with her sister, Eva, who attended the commencement exercises. They were accompanied home by Mrs. Olive Hopkins, teacher. Considerable damage also was reported on the Kilburg home on Burnt ridge. Travelers over the Kendrick road greatly appreciate the recent work done, which has put the road in fine condition.

Picnic and visit in the home town Kendrick — July 4th.

## IDAHO COMING ELECTION TO INVOLVE 559 OFFICES

This year Idaho voters will select 559 public office holders, accept or reject four proposed constitutional amendments and more than likely pass upon a move to provide monthly pensions and medical benefits to persons over 65 years old.

The primary election August 11 will see party nominees named for United States senator, both congressional districts, eight state executive posts, 44 state senators, 69 representatives, 88 commissioners and 44 sheriffs, assessors, treasurers, probate judges, county superintendents of public instruction, coroners and attorneys and 31 surveyors, some counties not electing the latter.

Two supreme court justices and 16 district court judges are to be named. It is possible for them to be both nominated and elected in the non-political judiciary election. Available candidates for the 559 positions probably will number more than 2,000.

In some states elections for public officers are conducted only once in four years, with the exception of congressmen, but in Idaho the voting is every two years with the exception of district judges, who have four-year terms, and county commissioners. Of the latter, one of the three commissioners in each county is always elected for four years to assure one hold-over member.

The number of state representatives again is fixed at 59. It was 64 in 1940, but the 1941 legislature increased the population requirement to 12,500 per representative rather than 10,000, which moved the number back to the old level.

The pension movement, under a proposed initiative measure backed by the Townsend clubs, will not be voted upon until the general election November 3, when the four constitutional amendments also will be on the ballot.

To place the initiative on the ballot petitions bearing 23,853 signatures (10 per cent of the total gubernatorial vote in 1940) must be filed with the secretary of state not later than July 2.

Orland Scott of Coeur d'Alene, national representative of the Townsend clubs, has expressed confidence enough signatures will be obtained.

One of the four proposed constitutional amendments would reduce the selling price of state land from \$10 to \$5, a figure adherents say would be closer to its actual value. Large tracts of desert are included.

The other three proposed changes would substitute a three-man non-political board of correction for the present state pardon board and board of prison commissioners and also would vest the pardoning power in the governor.

The present pardoning system, under which the governor, secretary of state and attorney general sit as a board, has drawn much criticism on the grounds it does not provide sufficient emphasis on rehabilitation.

Backers of the status quo argue a non-political board sitting quarterly would be able to investigate cases more closely than the present board and claim all that is necessary are funds for an adequate advisory staff.

Jack Schneider, John Treuhs, Mrs. Melba Baldwin of Lewiston and Mr. and Mrs. Walter McCall and family of Kendrick.

Mrs. John Davis has spent the past two weeks in Pullman with her daughter, Mrs. L. Brannon, and has been receiving treatments. She returned home Friday.

Mrs. K. Shaver and daughter Willean and Miss Betty Griffith of Moscow were callers in the John L. Woody home Tuesday evening.

## FOURTH OF JULY PROGRAM RAPIDLY TAKING SHAPE

The program of the day for Kendrick's big Fourth of July Picnic and program is rapidly taking shape, the posters announcing the event making their appearance Tuesday morning, and day by day the chairmen of the various committees are bringing plans ever nearer to completion. Here's the way the program and hours take shape:

At 10:30 a. m., and lasting until about 12:00 noon, will be a program of sports of all kinds for all ages, with cash prizes for the winners. From 12:00 noon until 1:30 p. m. will be the big community picnic and general get-together.

From 1:30 until 2:30 p. m. there will be a patriotic program in the park, with the Hon. Burton L. French of Miami University, Oxford, Ohio, and a native of the Potlatch section, as the speaker. There will also be music and the reading of the honor roll of the men from this section who are now in our armed services.

At 2:30 there will be a Tug-O-War and free baseball game at the ball park. It has been some years since Kendrick has seen a tug-o-war such as is promised for that day, since two of the best known huskies of this section captain the teams: Geo. Wilken of Potlatch ridge, and Bert McAntire of Cedar ridge. These men are busy choosing their teams and in general putting on an intensive training campaign. So far we haven't heard any threats of "mowing down" the other fellow's team, but rather imagine they will get around to that when their teams are better organized for the grueling ordeal.

It is not known at this time whether the free ball game will be baseball or softball. R. L. Blewett of the Sports committee not yet having this phase completed. Following the ball game all will return to the city park, where an Old Fiddlers' Contest will be staged. This part of the program replaces the "Whiskers Contest" held last year, and undoubtedly promises a great deal more entertainment for all, since the whisker wearers of last year vowed "never again." The Fiddlers' contest should take place about 5:00 p. m. There are many in this section who play the fiddle, and real contest may be expected.

Following the Fiddlers' contest an adjournment will be taken until 9:00 p. m., when dancing will begin at the big high school gymnasium. Marvin Long, chairman of the music committee has not yet announced his orchestra, but a good time may be expected.

Plan now to come to Kendrick and spend the Fourth. A royal good time is in store for you.

Stock Sale Now On

Anyone who has not signed up for their stock in the new Kendrick Co-operative Creamery is urged to do so at once by the directors of this organization. This may be done at the Farmers Bank with Mr. Kanikkeberg, or the Kendrick Bean Growers, with Mr. Brocke. Mrs. Mabel Hayward at Southwick, and Miss Eva Smith in the Gold Hill district will also be in a position to accept signatures in their respective communities.

Mr. Harris will be at the Kendrick Bean Growers on Saturday, June 20, to accept applications for stock and to explain any phase of the new organization to anyone interested. This sign-up must not be confused with the preliminary survey which was made several weeks ago, as this will be the last action required before the new firm is put into production, and constitutes the final phase of the permanent organization.

The directors are convinced this new firm will bring a lasting benefit to the community in providing a cash market for farm produce at home, and should have the whole-hearted support of everyone.

On another page in this issue, will be found an advertisement noting the urgency of the sign-up. Read it.

Proud Parents

Mr. and Mrs. Chas. Kime of Lenore are the proud parents of a 7-pound daughter, born to them on Thursday, June 11.

## May Receive More Sugar

If you can believe what you see in the daily papers we are likely to get more sugar, the amount to be controlled by the amount of fruit each registrant declared they wished to can, when they were allowed nine pounds per person for canning purposes, plus 1 pound per person for jams and jellies.

If the last decision is to be final, then each housewife in Latah county will be allowed one pound of sugar for every four quarts.

It was on this basis that Nezperce county received their canning sugar. The date for securing this sugar will be announced later.

The bride-to-be was then seated at a lovely lace covered table, centered with a crystal bowl and pink roses, to open her gifts.

**Local Strawberries Here**

Local strawberries made their appearance on the markets here last week, and, despite the heavy and continuous rains, the quality and flavor is said to be very good. The season is late this year, and just when these berries will reach their peak for canning is problematical. Local retail prices are three boxes for a quart.  
 Gooseberries were said to be excellent this year, but owing to the sugar shortage and rationing the local crop went begging.

**Old Rubber Rolling In**  
 In response to the President's call for old rubber, of any and all kinds, residents of the Potlatch section responded with a total of 4,242 pounds the first day — Monday, and it is still rolling in at a good rate, although the speed has slackened considerably.  
 Frank's Service Station and the Kendrick Garage are receiving it, and paying 1 cent a pound for it. Old tire casings, rubber garden hose, rubber gloves, rubber boots, old overshoes, rubbers, hot water bottles, door mats, or any other articles whose basis is rubber, are acceptable.

That people of this section really respond to a call when the need is urgent has been clearly demonstrated here by the shipment of more than four cars of scrap metal by the Kendrick Bean Growers — and now the call for rubber is being loyally responded to. If other sections of the country meet the call with results such as the Potlatch section has shown — there certainly will be no rubber shortage.  
 So far as we have been able to learn "Buck" Weaver brought in the largest load of old rubber to date, 1,285 pounds of it, and the proceeds were promptly turned into Defense Stamps by the owners of the rubber (children).

**Card Of Thanks**  
 May we take this method of thanking our neighbors and friends for their kind expressions of sympathy in our bereavement. Their help has been deeply appreciated.

 A very pretty wedding was solemnized in the Christian church at Clarkston, Sunday afternoon, June 7, when the Rev. Frank Carter united in marriage Miss Anita Hayward of Lewiston and Vernon Ellsworth of Clarkston, the single ring ceremony being used.

The bride wore a formal gown of white taffeta and net, with a finger-tip veil held in place by a band of pearls, and carried an arm bouquet of shaded pink peonies, white rose buds and double syringa, with streamers of white satin.  
 Miss Audrey Hayward, sister of the bride, acted as maid of honor. She wore a powder blue formal gown and carried a bouquet of white peonies and yellow rose buds.

Jack Florence acted as best man. Ushers were Weston Baker, Matt Cox, Tony Kissenmocher and Fred Deniger.  
 The groom, best man and ushers wore the conventional dark suits.

The church was beautifully decorated with large baskets of roses and peonies.  
 Mrs. Bernard Williams sang two songs, accompanied by Mrs. Earl Cook at the piano, who also played the wedding march.

A wedding reception and luncheon was held in the church parlors, at which forty guests were present.  
 The happy couple left on a honeymoon trip to Yakima and Seattle, after which they will make their home in Lewiston Orchards.

**Infant Daughter Passes**

Ann Annie Weaver, infant daughter of Mr. and Mrs. Sanford Weaver of Cedar ridge, was born March 25, 1942, and passed away June 11, at the age of two months and 17 days.  
 The little girl was ill about three weeks, having contracted whooping cough, which later turned into pneumonia. When the seriousness of her illness was realized, the baby was brought to Kendrick, and apparently was on the way to recovery, when a turn for the worse was taken.  
 Funeral services were held at the Gold Hill church at 10:30 a. m. Saturday morning, Rev. A. R. Fike of Moscow, bringing the message. Music was furnished by Eva Smith, Mrs. F. C. Lyons, Mrs. A. Alexander and Mrs. Wm. Whybark, accompanied by Joyce Lyons. Pallbearers were Rose Ann Cuddy, Wilma Cuddy, Iva Jean McCoy and Eileen Garner. Interment was in the Moscow cemetery, with Short's chapel in charge.

She leaves to mourn her passing her father and mother, Mr. and Mrs. Sanford Weaver; two brothers, Elmer and Larry Weaver, a grandmother, Mrs. H. S. Weaver, all of Southwick. Three great-grandmothers, eight uncles and nine aunts also survive.

**Fire Destroys Machine Shed**

Sunday evening the big machine and tractor shed at the L. H. Daugherty place on Potlatch ridge, farmed by Mrs. Bertha Klopfer, was completely destroyed by fire, and with it went a Model M Allis-Chalmers tractor, some 90 gallons of gasoline, a barrel of transmission oil, a barrel of cylinder oil, pressure lubricants, some tools and other equipment, cultivators, harrow and other like farm machinery.

Joe Wilson, employed on the farm, had just finished lubricating the tractor, filling the tank with gasoline, and was cleaning the sediment bowl and air cleaner on the tractor, when the wrench he was using slipped from his hands, struck a battery cable, and the resultant spark set fire to the gas fumes which filled the air. In an instant the whole shed was a mass of flames, and Mr. Wilson, whose clothing was aflame, as well as the gasoline burning on his bare hands, ran from the building and threw himself on the ground, rolling about until the flames were extinguished.

Help was summoned, and although the shed was completely destroyed in but a few moments, the fire was held to that one building.  
 Mr. Wilson was brought to town that evening, where his badly burned hands were cared for by Dr. Christensen. He also suffered singed eyebrows and eyelashes.

It is not known at this time whether insurance was carried on the destroyed machinery or not.

**Sawmill Changes Hands**

Friday of this week a deal was closed whereby the Morthland Lumber Co., whose headquarters are in Seattle, became the owner of the Thomas sawmill, situated on the east edge of town. The company also purchased from Mr. Thomas the timber on about 1,000 acres of land. Not only was pine timber purchased, but also fir, tamarac and spruce.  
 The consideration was not revealed.

Mr. Morthland arrived in Kendrick Wednesday morning to meet local employees, looking toward the immediate resumption of operations.  
 Plans are said to call for the construction of a larger log storage "dump," and mill wrighting and logging operations are expected to begin at once.

It is understood that local employees will be used as far as possible.  
 The company is said to hold large government contracts, and is expected to remain in steady operation.

**Side-Lights On The Fourth**

On hearing that the "Whiskers Contest" had been eliminated from the Fourth of July program this year Bill Watts remarked: "They'd better have made it a long-hair contest, since we haven't a barber in town anymore."  
 Ted Deobald agreed with him but added: "The prize should be awarded on length and quality — not quantity."

**Rev. Murray To Stay**

The Rev. Roy Murray and family received their appointment Monday, and will be with us for another year.

**Trucking Economies Ordered**

In a move to counteract a rapidly dwindling supply of motor trucks in the face of the country's increased demands on transportation facilities, the office of defense transportation has ordered the trucking industry to put its operations on a more efficient basis. The orders, effective June 1, forbid less-than-capacity loads, place ceilings on overloads and call for the elimination by circuitous routes.

**Program Well Attended**

The Cameron Children's Day program was well attended, around 150 being present. Following the program races and sports were the order of the day, and in the afternoon a ball game was played between the married and single men — the married men winning.

**Another Double Bill**

This week's offering at the Kendrick Theatre will be another double feature. The first of these is that well known western star, Gene Autrey, in "Sierra Sue." This is a story of the cattle country wherein a weed and not rustlers, form the main hazard to the ranchers. How the problem in solved makes the story.

The second offering of the evening is "Yokel Boy," starring Joan Davis, Albert Dekker and Eddie Foy, Jr. It's a story of the trials and tribulations of a big film company, when it becomes mixed up with a modern gangster, and mixed in is real comedy and plenty of action. Of course, there's a love story in it, too.

In addition the usual cartoon will be shown.

**SCRAP RUBBER 1c lb.**

## EDITORIAL

Well, Folks — Seems like about all there is to talk about these days is the weather, condition of bean ground, and the fact that we want to buy your cream and rent you a locker box.

Of course we could talk about the war, but sometimes news from that is good and sometimes bad, so we'll leave that to the daily papers, and use the balance of our space for our "laugh section."

He (throwing stones into the water): "I am only a pebble in your life."

She: "Well, you ought to be a little boulder."

A real estate salesman of West Texas had just finished describing the glorious opportunities of that part of the country. "All West Texas needs to become the

garden spot of the world is good people and water," he said.

"Huh," replied the East Texan, "that's all Hell needs!"

He: "I'll be tickled if we find a gas station soon, the gas is running low."

She: "I suppose I'll be tickled if we don't!"

The boys' class was organizing a baseball team and, being short of equipment and money, decided to ask the minister for his assistance. So the captain wrote to the minister saying: "We should be glad of any financial assistance you could give us. Also, could we please have the use of the bats which the janitor says you have in your beifry?"

Stop and let the train go by  
It hardly takes a minute.  
Your car starts off again intact.  
And better still—you're in it!

# SEE THAT SHELL!

## Only WOLVERINE SHELL HORSEHIDES

Have This 3-Ply Shell Leather In Both Soles and Uppers!

SHELL HORSEHIDE is the strongest, toughest of leathers. It is found ONLY in that part of the hide over the horse's hips. The inner-shell is the center layer — a tough substance like a cow's horn, or your fingernail. Its resistance to wear is much greater because the wear comes on the end of the grain, like the wear-resisting wood in a butcher's meat block! Wolverine's exclusive, secret, triple-tanning formula makes this tough inner-shell leather buckskin SOFT, yet retains all its extra strength.

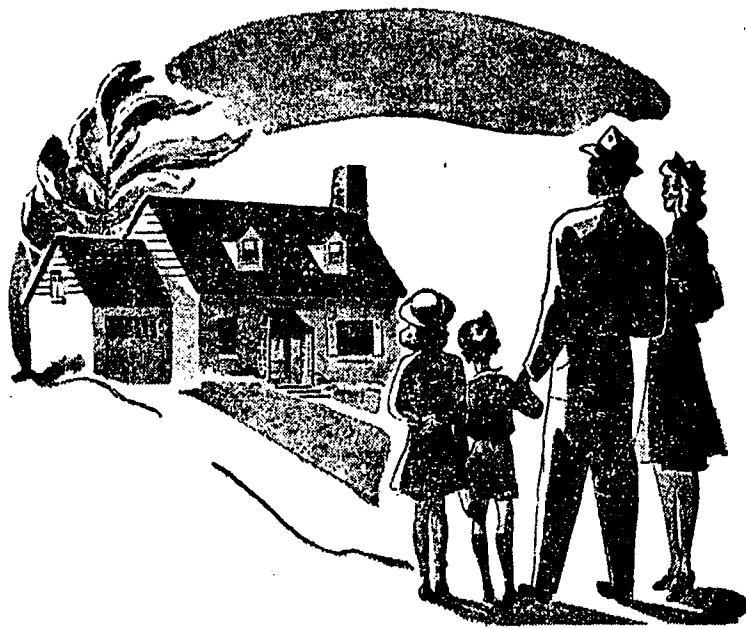

Try on a pair at our store . . . then you'll understand why MILLIONS of men agree that wearing WOLVERINE'S is one sure way to save your feet and your dollars!

## What is America Fighting For?

## The Right to Own Property

(One of the Essentials of a Democracy)

American principles are precious and worth fighting for. One of the most sacred is the right to own property, to enjoy your own home, to live by the land that belongs to you, to reap the rewards of your labor.

The right to property ownership, and the protection of that right, has been America's inspiration in building the greatest nation on earth. This principle has stimulated the thinking and working of America's genius. It has inspired the sweat and toil of Americans who knew they would have an inalienable right to the fruits of their labors. Respect for the property of others has formed the very foundation of our American way of life.

In this land of the free, this passion for liberty, this right of a man to stand on his own feet, and with his own efforts create security for himself and his family will bring to this nation of ours ultimate Victory!

Result: Robert was badly frightened and slightly burned, and school in that room disrupted for some time.
