No Tire Inspector

Following the resignation of Fred Newman as local tire inspector, no one has yet been located by the Latah County Tire Rationing Board to accept the position.

More Rattlesnakes Reported

We are beginning to wonder if this year is not another "rattlesnake year," for more of the poisonous reptiles have been reported killed so far than for some seasons.

Monday of this week Alva Craig killed a big fellow, carrying but six rattles, part of the string having been broken off at some previous time.

PLANS COMPLETED FOR PICNIC JULY FOURTH

Committee heads of the Kendrick Commercial club have been quite busy the past few days putting the finishing touches on plans for Kendrick's big Fourth of July picnic and general get-together, which opens at 10:30 a. m. with a program of sports, and with the exception of intermissions, provides entertainment of some kind all day long—and with the exception of the dance in the evening, the entertainment is free.

Marvin Long, chairman of the dance committee, announces that Vincent's orchestra has been secured to furnish music; that the big gym floor is in No. 1 shape, and so a "dancing good time" can be assured.

Monday of this week Mrs. W. A. Watts received word from Walter Thomas, secretary of the Kendrick Pioneer Association, that that organization would again hold their annual meeting and picnic in Kendrick on July 4th - which is just a lot of good news for everyone.

Edgar Long of the concessions committee reports that there will be plenty of free ice for those who may wish it - and that he would much have preferred to furnish lemonade - but Uncle Sam said: "no sugar!"

At the same meeting Frank Harris, Lewiston, was chosen manager of the necessary 550 cows had been signed up, and since expressions of intention on hand were sufficient to assure the required number, the project is listed to receive the necessary government loan, and success seems assured.

Mr. Harris is the former manager of the Mutual Creamery in Lewiston, and operated it very successfully over a period of years, including the darkest days of our depression, so there is no doubt but that Mr. Harris thoroughly understands his business and will give every effort to assuring the success of this co-operative venture.

Just when the new institution will take over the Thomas Creamery is not known at the time of going to press, but it is expected to be within about ten days.

As we understand it, plans call for a partial rebuilding and renovation of the present creamery quarters in line with new ideas, and this, of course, will take time. The severe shortage of labor and materials will also have some effect on present time schedules.

Health Nurse Arrives Miss Loretta Schuler of Nampa, who has been appointed health nurse for this section, arrived Tuesday evening and has taken an apartment with Mrs. Bina Raby, where she may be found by anyone who may wish to contact her. She will be permanently located here.

Forever May It Wave!

AND STILL THE RUBBER COMES ROLLING IN

It is very interesting to note the radio and press reports regarding the progress of the drive for old rubber, and that this section and that section are not coming up to their quotas.

Adding the WPA total to the 42,000 pounds, we have 45,500 pounds (and probably more) for the Potlatch section. The government wished a total of 31 pounds per person of population - so we believe this section has hit that total.

Many and varied are the articles of rubber or rubber content that have come in - car, truck and tractor tires, old implement tires, tires from toys, rubber toys, old rubber boots, wringer rolls, chair cushions, floor mats, rain coats, in short almost anything you can think of that is made of rubber.

Children have brought in parts of their toys, and Wade Keene even donated the rubber ring off his most prized ash tray, and so it goes. Just how much more will come in during the next ten days of the drive, remains to be seen, but well venture to say that it won't be a great amount in this section, since residents have been really doing a job of it.

Ralph Richardson brought in two tires that he said he knew were made before World War 1, size 30x3; and Oscar Slind brought in another, size 32x3 1/2 that he said he knew was also in use before World War 1. Ole Kleth also brought in some that would make history - size 30x3!

Word has been received in Kendrick announcing the marriage of Miss Myra Kanikkeberg, daughter of Mr. and Mrs. A. O. Kanikkeberg, Kendrick, to Judson I. Lee, also of Kendrick, the marriage taking place at the Chapel, Marine Base, San Diego, Calif., the ceremony being performed by the Lutheran chaplain.

Mr. Lee is in the dental department of the Marine Corps, and has been stationed there for some time. Both young folks are graduates of the Kendrick High school, both going on to higher institutions of learning, but had their studies interrupted by the war.

NEW BEAN PICKING EQUIPMENT NOW IN OPERATION

The new electric eye bean picking equipment, work on the housing and installation of which has been going on for some weeks, was practically completed Tuesday evening and a test run started immediately, the results of which were said to be highly satisfactory.

The bank of machines, looking for all the world "like something from Mars" receive the beans from a large overhead bin, and are fed by gravity. The bin itself is in turn fed from a conveyor belt connected to the bean cleaning and polishing equipment installed across the street.

From the pickers the good beans go by another endless belt to bins on the floor below, where they will be sacked and labeled for shipment. The new "picker" building being adjacent to the railway tracks, far easier loading and handling will be possible than heretofore.

During the test runs which were witnessed by quite a number about town, red beans, pink beans, pinto beans, yellow beans, were carefully dropped into the machines, and without fail they were rejected by the "electric eyes" of the pickers.

This is a day of marvels, and these new machines are certainly no exception to the "marvels" and most modern ever designed, and after seeing them in operation, we can well believe such is the case.

Right and left, up and down the street you hear complaint after complaint regarding the unfairness of the sugar rationing - between Nez Perce and Latah counties - and all are wondering, and rightly so - why there should have been this difference.

In Nez Perce county the home canners drew 1 pound of sugar for every four quarts they put up last year, some families of two drawing as high as 80 pounds, and others of five from 150 pounds on up.

Another is: "It seems like we're not getting a square deal on this sugar rationing, but by golly there's an election this fall!"

Notice To Correspondents

Owing to the change taking place July 1 in the Star Route to Southwick, items mailed Tuesday evening or Wednesday morning will not reach us until 3:30 Wednesday afternoon, which is too late to permit their composition for the paper Thursday morning.

In order to maintain our publication schedule, we are forced to ask our correspondents whose items come over that route, to mail them a day earlier. We dislike very much to do this, but the circumstances are beyond our control.

Therefore, won't you please help us out and mail your items Tuesday morning. We assure you this favor will be greatly appreciated.

WHAT KENDRICK FOLKS ARE DOING THESE DAYS

G. S. Pond, our local shoe repair man, returned last week from Bayview, where he had been employed, and has again opened his shoe shop for business. Local residents will be glad to learn of his return, since mail-ordering shoe repairs is highly unsatisfactory, at best.

Henry Emery returned to Kendrick Saturday after a ten-day visit with a sister and other relatives in Spokane.

Mr. and Mrs. R. L. Blewett and Rex were Grangeville visitors Sunday, spending the day with Mr. and Mrs. Don Holmes.

Mrs. W. L. McCreary and Parker went to Spokane Sunday, where they will spend a week with her father, F. E. Griffith and wife.

Billy Deobald returned Monday evening from Bayview, where he is employed to register at home for the Selective Service act.

Mrs. Roy Jump and children left last week-end for their home at Pasco, after spending a week with her parents, Mr. and Mrs. Harold Thomas. The children had been visiting here for some two weeks.

L. W. Mason, who is employed at Bovill by P. F. I., spent the week-end here with his wife and son.

Charles Deobald and Gordon Varo, who are employed at a blister rust camp near Clarkia, spent the week-end at their homes here.

Emulus Brown, who is employed by P. F. I. spent the week-end at his home here.

Mr. and Mrs. Wade Keene were Uniontown visitors Sunday afternoon, taking their little granddaughter, George-Anne Jones back to her home here.

Ed. Brown and family were fishing on Meadow creek over the week-end. They report the catch as rather "slim."

Mr. and Mrs. Ray Dunn spent Saturday night at the home of his brother and family in Moscow, and Sunday all drove to lake Chatcolet on a picnic and fishing trip.

Mrs. Silvie Cook and daughters arrived in Kendrick Tuesday evening to look after home property. They returned to Bayview today (Thursday).

Wallace, Donald and Arthur Fraser, who are employed in Seattle, Wash., spent the week-end here visiting their parents, Mr. and Mrs. Everett Fraser.

Robert Fraser and Walter McCall, Jr., who are working in a blister rust camp near Clarkia, spent the week-end at their homes here.

Mrs. Chas. Westendahl was a Monday passenger for Moscow, returning that same day.

Mrs. Bina Raby and Mrs. Paul Lind were Lewiston visitors Monday.

Mrs. Rose Farrington returned on Monday from Pomeroy, where she had been visiting her sister, Mrs. M. Fransen. Mrs. Fransen's granddaughter, LaVaun, whose home is at Scott's Bluff, Neb., came home with her for a visit.

Miss Arlene Deobald returned on Monday evening from Madison, Wis., where she had been attending a convention of Phi Chi Theta Sorority, as a delegate from the U. of I. chapter. She also visited relatives at Tonicia, Illinois, for a few days. She had been away about two weeks.

Mr. and Mrs. W. A. Watts and son Bob went to Pullman Thursday of last week to attend the funeral of their nephew, Jimmie Davidson, son of Mr. and Mrs. Byard Davidson, who lost his life in an accidental shooting.

Miss Anne Deobald left Sunday for Uniontown, Wash., where she will visit Mr. and Mrs. George Jones for a time.

Mr. and Mrs. Clyde Burns and daughter Betty of Craigmont visited in the W. A. Watts home Tuesday evening.

Mr. and Mrs. Oscar Raby and family came up from Clarkston on Sunday for a short visit with his mother, Mrs. Bina Raby.

Mr. and Mrs. Chas. Pitcher and son Howard of Cavenish were visitors in the home of Mrs. Bina Raby Sunday evening.

Mr. and Mrs. Ira Havens, Mr. and Mrs. Edgar Long and Mrs. A. C. Deeter drove to Clarkston Sunday afternoon to visit Mrs. Lester Hill.

A group picnic was held in the Clarkston park honoring Mrs. Hill's birthday anniversary.

KENDRICK HAPPENINGS OF TWENTY YEARS AGO

Mrs. B. N. Emmett expects to leave the last of this week for Tina, Mo., where she will make an extended visit with relatives.

The heavy rains that visited this territory several weeks ago washed out 50 acres of beans for Harry Hupp on Little Bear ridge. Harry re-planted the patch and this week he said the beans came up in fine shape and are almost as far along as some of the first he planted.

The McConnel, E. Bechtol and Knepper families spent a very pleasant week-end along the North Fork of the Clearwater river, above Dent. Fishing was very poor, but the drive along the Clearwater is a beautiful one and is well worth the trip.

Ben Callison and son Norla, returned Wednesday from a fishing trip to Elk River. They report the fishing as good—but mosquitoes entirely too plentiful.

Mr. and Mrs. Geo. Leith and family and Mrs. O. E. MacPherson and son Donald were Lewiston visitors Wednesday, making the trip in the Leith car.

What came very nearly being a fatal accident occurred last Saturday when a Ford car, driven by Frank Eilers, was crossing the track in front of a train near the R. F. Bigham home. Mr. Eilers, his wife and two children and a young lady friend, were making the trip in their car from Tacoma to visit Mr. Eilers' mother in the Fairview neighborhood.

In attempting to cross the track the car engine lost power just as it reached the track. Mr. Eilers neither heard nor saw the train until it was so close that he hadn't time to check the car, so he kept going and the locomotive just grazed the rear fenders as it went by. The young lady in the car jumped on the track when she saw the train coming, and rolled off just before the train reached her. She was badly bruised but not seriously injured.

Miss Gertrude Keeler, daughter of Mrs. Elmer Keeler of Linden, was married to Albert Dorendorf at Moscow, Thursday. Mrs. Keeler was present at the wedding. After a short honeymoon trip the bride and groom will be at home on a farm near Linden.

Mr. and Mrs. Alvin Benson, who left Clarkston a few weeks ago for Portland, met with a painful accident when the car in which they were riding collided with another car, one day last week. Mrs. Benson is better known here as Resebud Brown, daughter of Mr. and Mrs. J. F. Brown. The injured persons were treated at the Emergency hospital, where it was found that Mrs. Benson sustained severe lacerations and contusions of the right hip. Mr. Benson's right shoulder was dislocated.

It begins to look very much as though the lowly bean would once more pull the Potlatch farmer out of the sea of despondency. Shortly after the war, when beans went down to almost the level of worthlessness, they were about the most unpopular commodity in this section. Now, with wheat crops looking considerably below normal, and the bean crop looking never better, there is a fair prospect that the little white Navies will be king here next fall.

Big Bear Ridge—Mrs. F. Hupp and daughter Miss Adeline were visiting their daughter and sister, Mrs. K. D. Ingle, last week. Miss Nettie Lacey of Lewiston was a week-end guest of Miss Johanna Hooker and Mrs. D. J. Ingle.

The Misses Agnes, Hattie and Nellie Larson arrived here Thursday from Grand Forks, N. D., for a visit with their grandfather, A. J. Aas and aunt, Mrs. Ed. Lien.

Cameron News—Frederick Mielke left for Washington, D. C. Saturday to procure a residence, while his wife and children remained until he has gotten located. Mr. and Mrs. Carl Lohman and family motored to Genesee Sunday morning, returning Monday afternoon. Herman Silflow was a Lewiston visitor last week. Last Thursday evening a surprise party was given for Mr. and Mrs. Frederick Mielke. The young folks spent the evening playing games while the older folks enjoyed "500". At 11:30 ice cream and cake were served.

Texas Ridge—Albert Pierce has decided to become a Dearyite. He has purchased the Red Gloum grocery store. Mrs. Roy McKay and children of Moscow are visiting her parents, Mr. and Mrs. McGraw. Mrs. Harry Stanton and children of Kendrick are spending a few days on the ridge.

Linden Items—Mrs. John Carr and Miss Anna Smith went to Lewiston Thursday, returning home Friday. Mrs. Joe Perry of Juliaetta visited at the home of her parents Wednesday, returning home Thursday, accompanied by her mother, Mrs. Jim Garner. Mort Jenks, who is working at the rock crusher near Southwick, visited at the Lou Alexander home Sunday. Mr. and Mrs. Ed. Darby and family visited at the John Darby home at Crescent Sunday.

Jake Michael arrived this week for a visit with his brothers, John and Jesse. Lester Weaver is working on the fire patrol for the Potlatch Lumber company. Mrs. Sylvia Jenks returned to Lewiston last week after a visit at the Lou Alexander home.

Parents Of Daughter Mr. and Mrs. C. W. Rathbone of Santa Monica, Calif., are the parents of a daughter, born Tuesday night, June 30. The little Miss has been named Karen Arlene.

Mrs. Rathbone was formerly Miss Barclay, daughter of Mr. and Mrs. H. E. Barclay, of Little Bear ridge.

ITEMS OF INTEREST FROM THE CAMERON SECTION

Vern Wegner returned to Spokane Tuesday to resume his studies at a radio and telegraph school after spending a few days with his parents, Mr. and Mrs. A. F. Wegner.

Mr. and Mrs. Herman Lohman and Mr. and Mrs. Walter Siflow and family were Sunday guests of Mrs. Ida Siflow.

Mr. and Mrs. Wilbert Brunseik, Mr. and Mrs. A. H. Blum, Mr. and Mrs. Henry Wendt, Mr. and Mrs. F. W. Siflow, Mr. and Mrs. Gus Kruger, Mr. and Mrs. Herman Meyer, Rev. Meske and August Brammer attended the Mission Fest at Gifford Sunday.

Mr. and Mrs. Chas. Schultz were Lewiston visitors Saturday.

Mr. and Mrs. Chas. Schultz and Mr. and Mrs. Gerald Schmidt were Sunday guests of Mr. and Mrs. Fred Gladden on Big Bear ridge.

Mrs. Ida Siflow returned to her home last week-end after spending the past month in Pullman and Spokane.

Mrs. Ervin Lohman visited with Mrs. Edwin Mielke Saturday afternoon.

Miss Helen Mielke, Henry Mielke and son Henry, Jr., were dinner guests of Miss Emma Hartung and Mrs. Ida Stoneburner Thursday.

Mrs. A. O. Wegner and son Harry of Pullman, visited with relatives here Thursday.

Mr. and Mrs. A. E. Spekter were in Lewiston Monday, visiting with Pete Spekter, who is seriously ill with stomach ulcers.

Mr. and Mrs. A. F. Wegner, Vern and Gladys Wegner, Mr. and Mrs. F. W. Newman, Harry and Glen Newman, Mrs. Ervin Lohman and Mrs. Leo Lohman and daughters were Lewiston visitors Monday.

Miss Helen Mielke and Henry Mielke left for their home in San Francisco Friday, after visiting with relatives for two weeks.

Haying Making Progress

Farmers are making real progress with their hay the past few warm days — the first of these being Sunday, and many tons of it are now in sheds, in stacks or shocked and ready for hauling.

A great deal of hay was down on the ridges, especially Potlatch) when the rains of Friday and Saturday hit. Of course some bleaching will result from the drenching rain, but on the whole the past few days of hot, dry weather has made possible the saving of the crop.

Move To McCreary House

Mr. and Mrs. L. W. Mason and son Jimmie moved Saturday of last week from the E. H. Dammarell house, in which they have resided the past two years, to the P. C. McCreary house, where they will reside for the coming year.

JIM LYLE WRITES INTERESTING "ARMY" LETTER

San Francisco, Calif. June 22, 1942

Dear Bill: Now that Doris and the youngsters are down here, I am writing to ask if you will change our address for the Gazette from Lewiston to 1651-40th Avenue, San Francisco.

I was ordered here on May 22nd, and have since been located for the summer at the above address. I was originally assigned to a Military Police Company, and we took six weeks special training in this work at San Luis Obispo, Calif. Our company was then ordered to Norden, California, which is on Donner Summit in the Sierra Nevada mountains. We did guard duty there for the Southern Pacific railroad for several weeks and were then ordered to Reno, Nevada, for the same type of work. When we left Norden on May 1st, we had 19 inches of new snow that night and a total of 58 inches on the level at that time. They had about 17 feet of snow there during the winter. It could snow the most and easiest in that place of any place I've ever seen.

Reno, I think, well lives up to its reputation of being "The Biggest Little City in the World." We were short of men and consequently had to checking guards over a territory of approximately 80 miles. I was ordered here on May 22nd, and was assigned as Assistant Recruiting Officer in charge of the Women's Army Auxiliary Corps for the San Francisco District. Bill, this is really an assignment. We started taking applications May 28th, and had 1,700 apply for Officer's Training, and at that time there would be 28 selected from this group. We got back 560 applications, weeded out 300 on the first elimination, had 260 come in for aptitude tests, weeded out 80 by this method, 35 on medical examinations and finally ended up with 111, whose applications were sent to Salt Lake. Sixty of these were called in and we got them off on the train from Thursday night to Saturday night of this past week. Lord knows what will come up next. I can't fancy this kind of a job for the duration, but in the Army you do what you're told.

Doris sent the Gazette to me each week, needless to say I enjoyed very much reading the news of that region. I hope if any of the Kendrick people are in this city during the summer, they will either call or stop in. My office address is 444 Market Street, Room 303.

I find it a little hard to adjust myself to the clanking of street cars after getting used to the peace and quietness of Main Street in Kendrick. I do not know if I will get a furlough or not, but if so, I hope to get up north during that time. This is listed as a permanent assignment, but permanency in the Army may mean one week or one year — whatever time they decide.

I hope your Dad, Floy and the youngsters are all well. Tell Eddie, Mace and all the boys "hello" for me.

Sincerely,
 Jim Lyle,
 1st Lieutenant Infantry,
 Asst. Dist. Rctg. & Ind. Officer.

P. X.—I had one of my office force "fluent" title at the end. I haven't learned yet how to tell them to do everything, but breathe. Tel Hank Emery if he'll come down here I believe I can locate him a wife — no guarantee, however. — J. L.

Note — On Henry Emery's recent trip to Spokane, his nephew, Elmer Emery, who is stationed at Gieger Field, gave him a picture taken from the San Francisco Chronicle, showing Jim Lyle, his commanding officer, and a woman applicant for the Women's Auxiliary. Jim may not care much for his job but judging from the picture, it hasn't given him any gray hair or stooped his shoulders.

U. S. O. Fund Campaign

A report of the progress of the USO drive up to June 24, as disclosed by the actual cash received at the state office, follows:

The following 12 counties have remitted their full quota, or more: Ada, Boise, Butte, Cassia, Clearwater, Elmore, Gooding, Idaho, Nez Perce, Owyhee, Power and Teton. The full quota for these counties was \$18,600. They have remitted \$21,961.04.

The following seven counties: Bonner, Canyon, Jefferson, Jerome, Lemhi, Lincoln, Payette, had a total quota of \$11,950 and they have remitted \$9,864.58; the following seven counties: Bannock, Blaine, Boundary, Caribou, Latah, Madison, Shoshone had a quota of \$15,750 and they have remitted \$9,593.21; Bear Lake, Clark, Fremont, Gem, Kootenai, Minidoka, Twin Falls and Washington had a quota of \$15,000 and they have remitted \$6,279.33. The last of the list, Adams, Benewah, Bingham, Camas, Custer, Franklin, Lewis, Oneida and Valley had a quota of \$8,700, and they have remitted but \$735.69.

Total quotas for all the counties is \$74,000 and the total cash paid to the state treasurer to date is \$48,433.85.

Mrs. Cortez Powell Passes

Mrs. Sena K. Powell, wife of Cortez Powell, who celebrated her 63rd wedding anniversary January 12, died Friday morning at her home at 1259 Elm in Clarkston. Services were held at 10 a. m. Monday at the Advent Christian church, with burial at Lenore, Idaho.

Other survivors are two sons, Winfield and Clifford, Clarkston; six daughters, Mrs. Hester Hollingsworth, Clarkston; Mrs. Laura Gillespie, Lewiston; Mrs. Hulda Frisbe, Juliaetta; Mrs. Elsie Hoffman, Leland; Mrs. Pearl Baumgartner, Genesee; and Mrs. Mary Gillespie, Hermiston; two sisters, Mrs. Stella Crabb, Orofino, and Mrs. Jessie Ferguson, Ahsahka; six brothers; 29 grand-children and 21 great-grandchildren.

Plenty To Read

A report of operations just issued by USO shows that its clubhouses here and overseas have a total of 64,300 periodicals and 66,227 books. Many of the latter are technical and speed promotions.

SOLDIER BOYS WRITE

Pearl Harbor, T. H. June 25, 1942

Dear Friends: As this may be the only chance I will have to drop you a line in thanks for the Gazette which I have been receiving ever since I joined the navy, first by my parents, and later by subscription, I had better write now.

I notice there are many graduates from high schools, the universities and hospitals, many of whom are people from Kendrick, and those who join the services, I wish you luck.

I have been stationed here since February, 1942. As far as duty and saving money is concerned it can be said it is "4.0", yet it is nothing like being in the states, for one's time can be well taken care of here.

Seems as though everyone gets some kind of a nick-name, and I am no exception, as all the fellows have given me the name of "Dad." It's "Dad will you get me up at 5:00 in the morning," or "Dad, I've some money I want you to keep for me, so that I can get Mom, Dad, or the girl friend something or other that I have always wanted to get them."

So it goes, day after day, yet I must say I get considerable enjoyment out of it. May I close, saying "thanks, friends, for the paper."

Sincerely,
 an air-minded sailor,
 Jim (Dad) Langdon.

Richmond Air Base June 23, 1942

Dear Friends: Just a few lines to let you know I have been receiving the Gazette and that it is a real joy to read about what is happening at home.

I am stationed here in Virginia for a while, and it is a very interesting country. Lots of tobacco fields and hardwood forests.

I saw lots of country while on the way here from New Mexico, and we passed through most of the southern states. I saw a number of cotton fields and several wheat fields in Texas and Oklahoma that were being harvested.

Thanks again for the Gazette,
 Cpl. John D. Jones.

Hello: Well, I'm still at sea. Boy! I didn't know there was so darn much water. I always thought it would be fun to cross the ocean, but now I don't know. It has been a nice trip, however.

We will be in Australia in a few days. I won't get to write to anyone else, so you will have to tell them "hello." I got your letter just before we left.

Boy! It sure was hot when we crossed the equator, but it's cold enough now for a coat. We are on a heck of a big ship. It used to be a luxury liner, and it sure is fixed up swell. We get a paper every day, so get to read a lot of the news.

We sure had fun the second night out. We hit a storm, and you couldn't hardly walk down the halls. The waves broke out some windows and tossed some of the fellows out of bed. It will sure feel good to land and get something under my feet that won't roll all the time. I'm writing this letter on the bar, but there isn't a drink in the house. Ha, ha.

Well, everyone is falling out for training, so guess I'll have to make it snappy. Will write every chance I have, but don't expect many letters. We will probably be darn lucky to mail any letters.

Love to all,
 Dale.

Editor's note: The above letter was written by Cpl. Dale Hughes, to his mother, Mrs. Sylvia Browning, and is published with her permission.

May 23, 1942

Dearest Mother: Received your letter today and was certainly glad to hear you are getting along O. K. Tell all the folks I would like to write them, but I never get time.

Besides not having time, there isn't much to write about, so will close. I just wanted to let you know everything is O. K. with me. Take good care of yourself and don't work too hard.

With love, your son,
 Revas.

Note: The above letter was written by 1st Sgt. J. R. McAllister of the Marine Corps, to his mother, Mrs. Chas. Hicks, Juliaetta, and reprinted with her permission.

Harold Thornton Advances

An army dispatch to the Gazette states: "Aviation Cadet Harold A. Thornton of Southwick graduated this week from Minter Field, army basic flying school near Bakersfield, Calif. He has successfully completed his basic flying training and now enters Advanced school, the final phase in the rigorous course of instruction prescribed by the Army Air force for its flying officers."

"Upon completion of his training he will be awarded the silver wings of a lieutenant in America's mighty aerial armada."

Detwiler Wants To Be Governor

At a recent gathering of republicans at Jerome, a club was formed to work for W. H. "Bill" Detwiler for governor.

In case Mr. Detwiler should be nominated and elected, we sincerely hope he will do something else besides issue "proclamations" and try to empty the penitentiary so as to make room for a new crop of criminals—or those returned to the institution after they have been pardoned or paroled.

Mr. Detwiler is a veteran of World War I, and has served three sessions in the State Legislature.

Files For Prosecutor

J. M. O'Donnell, attorney, residing in Moscow, has announced his candidacy for the office of prosecuting attorney of Latah county, on the Republican ticket.

Robert W. Peterson, our present prosecuting attorney, we understand, has also announced that he will file on the Republican ticket, in an effort to succeed himself.

Both men are graduates of the University of Idaho, and practicing attorneys at Moscow.

Cotton Price Ceiling Set

Practically every product of the cotton textile industry will now be under OPA price ceilings as a result of an extension by OPA of maximum price regulations to all types of carded grey and finished cotton goods not previously covered by schedules. The new order, effective May 4, sets manufacturer's maximum prices at levels below those now prevailing for such important finished textiles as blankets, towels, bed spreads, gingham, table cloths and napkins, corduroys, diapers, cottonades, whipcords, flannels and chambrays.

New Aluminum Plant
A plant which will increase by millions of pounds monthly the aluminum forgings necessary to expand aircraft output in the United States, will be erected by Chevrolet, it has been announced.

The new plant will be one of the largest of its kind in the world. Construction and operation of the new factory by Chevrolet has been authorized by the U. S. government. The plant will be built on ground adjoining another Chevrolet war production unit.

Output of the new aluminum forge plant will augment Chevrolet's large aircraft engine contract, which is already in production.

WOOD VITAL IN WAR — SHOOT, WEAR OR EAT IT

As the nation's defense efforts gather momentum, the use of wood will more and more swing into the picture, according to the U. S. Forest Products Laboratory, Madison, Wis. In Germany, field marshal Hermann Goering has placed wood second in war necessities.

American chemists can match Germany in turning wood into ammunition, motor fuel, sugars, synthetic "wools" and "cottons," and many other "ersatz" materials, but as yet it has not been found necessary. Our war uses of wood are being put to other purposes. They include such things as cantonments, barracks, hangers, ships, wharves, bridges, pontoons, railway ties, telephone poles, shipping containers, plywood for airplanes, prefabricated houses, truck bodies, paper surgical dressings, and many others.

A score of towns to house our soldiers are being built and with few exceptions they are of wood because of the ease of procurement and fabrication. It is estimated that 1,500 feet of lumber are required for each enlisted man housed in barracks and \$25 feet of lumber for each man housed in a tent camp.

The great defense program will take advantage of many recent results of research. A new type of paint containing borax, developed at the Forest Products Laboratory for prevention of the spread of flames on timber, is of special interest for protection against incendiary bombs. The laboratory is also helping in the design and testing of shipping containers for war commodities. The re-design of a wooden container for the shipping of bombs uses aspen instead of the more expensive white pine, requires less cargo space, less lumber, less weight, yet has greater strength than the original container.

A new synthetic resin treatment of wood developed at the laboratory offers important possibilities for such exacting uses as airplane propellers, wings, fuselages, and other parts. Other defense problems which are or may become critical as the nation's defense efforts gain momentum include the faster drying of walnut gunstock blanks. These are only a few of the modern uses for wood, aided by research, that can build a strong and secure defense for this country, say experts at the Forest Products Laboratory.

It Makes Us Tired!

The daily papers are devoting columns of space to the proposed founding of a C. P. A. (Columbia Power Authority) to distribute the huge electric power generated by the Bonneville and Coulee dams, and as a part of the program the politicians propose the purchase of all power companies in the states of Oregon and Washington, either by direct negotiation or by the slow and costly process of condemnation. And of course they are wrangling among themselves over the type of commission that "should be erected" to handle this gigantic set-up, and the amount of money needed, etc.

One politician even went so far as to state that a government agency was the only thing capable of administering the tremendous amount of power these two states are capable of producing.

This sort of thing, coming as it does at this time, certainly "makes us tired." The private power companies were getting along nicely, and as far as we know, still are. And this senseless and foolish talk, involving (admittedly) politics and worst of all coming at a time when all should be subordinated to the war effort, seems indeed very unnecessary. Least of all should the millions of dollars sure to be involved, be spent at this time for purposes other than war.

Even school children are digging deep into their pockets for nickels and dimes to help finance the war along with John Q. Citizen. So, for goodness sakes, let's lay politics and wrangling of this type aside until the Japs and Nazis have been brought to their knees.

Let's let our present tax-paying and admittedly efficient power companies alone.

Numerology

With the draft well into its second year, officials are now able to come up with a group of statistics about it. For example:

In World War I, the first number drawn was 258. In 1940 it was 158.

In the '41 draft lottery, the chance of any number being drawn in its proper sequence was about one in a billion. Yet it happened: the 666th number drawn was 666.

In 1917, young men in Danville, Ind., Albany and Syracuse, N. Y., drew draft numbers 1430, 6 and 856. Twenty-three years later, the sons of these three men drew exactly the same draft numbers as their fathers.

A Baltimore lady told her husband his draft number would be 679. It was.

A Baton Rouge, La., doctor's draft figure was 6088. It was also his telephone number.

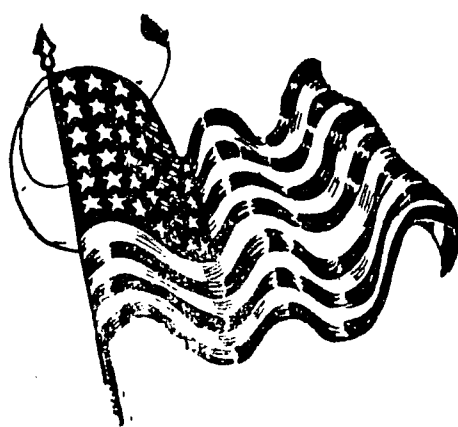

The first name of a boy in St. Petersburg, Fla., is Columbus. His number is 1492.

Rules Govern Auction Sales

Rules governing auction sales, which will prevent goods from being sold at auction at prices above the legal maximums, have been announced by OPA. The rules provide that, in general, the price of bulk lot of goods sold at auction, must be no higher than their aggregate ceiling price under the general maximum price regulation. In other words, there will be no means by which a seller can secure a higher legal maximum price through an auction than by some other method of sale.

War Construction Hit High

War construction is running at a rate of about \$12,500,000 a year, WPB estimates. A further increase is expected to send the volume of essential building past the \$13,500,000 mark by the end of the year, topping by 20 per cent the total construction of 1941 when an all-time record was set. Of construction put in place through mid-June, all but 22 per cent was war work.

Two Shows Scheduled

The local theatre has two separate shows scheduled for this week.

The first of these will be the regular one of Friday and Saturday evenings, "A Yank In The R. A. F.," which features Tyrone Power and Betty Grable. It's a thrilling story of the present conflict, built about "Dunkirk," which will live forever in the pages of history. The press release states that the aerial battles filmed are authentic, and were taken over Germany, France and England with the full cooperation of the British Air Ministry.

But not only does this film depict war as it is today, but through it all runs music, songs, dancing, and a delightful love story.

The second show, a Fourth of July special, shown in the afternoon only is "Charley Chain In Rio." This Chan pictures need no introduction to anyone, and this one is said to be one of his best thrillers.

A cartoon and comedy will be shown at each show.

Suffers Gash On Head

Maurice Long, son of Mr. and Mrs. Tom Long suffered a painful but not serious gash in the top of his head Tuesday afternoon, while swimming at the "Deep Hole." He miscalculated the water depth in a dive and the injury resulted.

Registration Light

The Selective Service registration for young men 18 to 20 years old, was very light in Kendrick, with but eight registering. Most young men of this age are away on defense work.

Well, Folks — Blacker and blacker seems to grow the war news, the great American victory off Midway island apparently being the United Nations last win of any consequence — but then, a war is never over until the last shot is fired — and you can trust our boys to fire the final and winning shot — "we've done it before — we can do it again."

But to get down to local problems, such as canning: Are you taking advantage of the sugarless canning possibilities of a locker box? If you aren't, why not? It is quick, easy and economical — and you can save your sugar for home canning of fruits that cannot be frozen.

Need a little money for the 4th? It's easy to get. Just bring us a can of cream your next trip into town, and you'll have it. And when you get home you don't even have to wash the cream can,

we steam-sterilized it for you.

Game Warden: "Hey, you, don't you know that the bass season isn't open yet? What are you doing with that big one on your string?"

Angler: "Why, you see, warden, he's been taking my bait all morning, so I tied him up until I'm ready to go home."

"Have a quick one?" asked Jones.

"Don't drink," replied Smith.

"Have a cigarette then."

"No thanks, I don't smoke."

"Ever have any headaches?"

"Yes, pretty often these days."

"Just as I thought. Your halo's too tight!"

Dimwit: "If a cat has nine lives, I reckon it has to die nine times before it's dead."

Dimmer: "Yet, but that's nothin. I used to own a pet bullfrog that croaked every minute."

Warm Weather Here?

Folks are almost beginning to believe that summer has come at last, for the past few days have certainly been the finest, sunniest and warmest since the calendar crept into 1942.

Sunday was warm and bright, Monday the thermometer hit a high of 90 degrees here in the canyon, and touched almost the same point Tuesday.

With the large amount of moisture in the ground, and the bright sunshine, one can almost see things grow, wheat, beans and gardens especially.

Turn In Much Rubber
The Washington Water Power company and its employees have turned in more than 12,500 pounds of scrap rubber direct to collecting agencies, it was announced this week by J. E. E. Royer, vice-president and general manager, at Spokane. "While many employees turned in scrap rubber at service stations early in the drive, many brought their rubber to company garages and offices, where it was added to the materials salvaged from company equipment," said Mr. Royer. "Included in the material salvaged from the equipment were battery cases, hose and rubber mats stripped from company-owned automobiles."

TEAKEAN GOSSIP
We are having fine weather this week and everyone is happy about it. The men are busy in the hay fields, and those that have strawberries are busy picking and canning. Mrs. R. E. Brock and children have been visiting in Seattle the past week. They are expected home any day now. Mr. and Mrs. Orval Choate returned home from Canada last week, where they had been visiting relatives for two weeks. Rev. Earl Gaskill from Cream ridge preached here at the Brethren church Sunday afternoon. Mrs. Asa Choate called at the home of Mr. and Mrs. W. Groseclose on Tuesday. Mrs. Carroll Groseclose has been suffering with tonsillitis, but is now on the way to recovery. Chas. Kime and daughters, Luella and Katie and Rev. Gaskill called at the Wm. Groseclose home Sunday afternoon.

The reason congress is having such a battle with taxes is that the average American, what with automobiles and taxes, has become such a good dodger.

Why Editors Leave Town!

From Decatur (Ill.) Herald-Review: "It is proposed to use this donation to purchase new benches for our park, as the present ones are in a very delapidated condition."

From Albion (N. Y.) Republican: "A son belonging to Clarence Gracey of Lyndonville last week gave birth to 20 pigs."

From Tulsa (Oklahoma) World: "Rumor is rife around Washington that the president will create a new cabinet post in the very near future."

From Kulpmont (Pen.) Advertiser: "Attending the couple was Miss Helen Reppe, sister of the bride, who was dressed in a corsage of pink roses and gardenias."

From West Hollywood (Cal.) News: "University students presented the famous old play 'Uncle Tom's Cabin' Friday night. Thomas Rains starred as Uncle Tom, Betty Martin made a loveable Little Eva, and Grace Lacey was Topsy."
