HAPPENINGS OF INTEREST HERE TWENTY YEARS AGO

A meeting was called at Southwick Wednesday night for the purpose of discussing and cussing the telephone situation that exists between Southwick and Kendrick. A number of Kendrick business men went up to assist in doing justice to the occasion. It seems that the commercial line between the two towns, which is not owned by anyone in particular, has been in need of repair. The local company, which has been giving free service on this line, cut it off from their switchboard recently, thus severing phone service between the two towns. Herman Schupfer, representing the local company, stated at the meeting that the line would be connected up again as soon as it was put in shape for service. Several years ago Kendrick business men furnished the money and the people of the Southwick community the labor to build this commercial line. It was agreed Wednesday night by both Southwick and Kendrick representatives that the matter be referred to the public utilities commission, but in the meantime the line would be repaired and again connected to the local board.

E. E. Bechtel, proprietor of the Kendrick Furniture store, is restocking after his recent big sale. He expects to put in a larger and better stock than before.

S. P. Callison and son Ben, and grandson, Norla, returned the first of the week from a fishing and hunting trip in the country tributary to Big Island. They had a splendid trip as the weather was fine all the time they were gone. Fishing was good and birds plentiful. They also saw otter, mink and deer along the river.

Miss Johanna Hooker of Big Bear ridge returned Wednesday from a week's visit with friends in Moscow. Claud Craig is advertising a big auction sale at Leland, selling out his stock of general merchandise. The sale will be under the direction of the Gregson Sales company.

Henry Emmett of Little Bear ridge raised a good crop of beans this year. From 30 acres he harvested 221 sacks, which was more than seven sacks to the acre. The beans were planted June 17, 18 and 19, after the heavy rain had washed the first planting out of the ground.

Harold Thomas is out of the hardware this week, taking his annual vacation.

Mr. and Mrs. Stuart Compton and children arrived Sunday from Orofino to visit in the home of Mr. and Mrs. O. E. MacPherson, and with her parents, Mr. and Mrs. N. E. Ware and family.

Mr. and Mrs. George Leith and daughter Clarice, and Mr. and Mrs. O. E. MacPherson and son Donald motored to Moscow Sunday afternoon.

Fairview Notes — Mrs. McCall and two sons, Mr. and Mrs. T. J. Fleishman and daughter Edna, and Miss Josia Wilken attended the church services and picnicked at Leland Sunday. Wayne Kuykendall and Floyd Fleishman left Saturday for Spokane, enroute to Seattle. Later they expect to visit California.

Mrs. Wolff and sons Herbert and Leonard and daughter, Mrs. Schultz, were visitors in Lewiston Friday. Mr. and Mrs. John Glenn attended the Lewiston fair Wednesday of last week.

Big Bear Ridge — Mrs. Will Hecht and daughter, Miss Ruby, and sister, Miss Wilma Fairfield, attended the Lewiston Fair last week. Anton Lien has entered the Kendrick High school. The Girls' Sewing club and a large number of friends were delightfully entertained at the home of Mr. and Mrs. Halvor Lien, Sunday afternoon and evening. A delicious supper was served and the evening devoted to singing, music, and a social good time.

Linden Items — C. Lyons is treating his house to a coat of paint, which adds greatly to its appearance.

Arley Allen and Earl Langdon attended the Lewiston Fair Friday. A number of people from here attended Given Mustoe's sale at Southwick Tuesday. Some of the neighbors gathered at the Clarence Harris home Saturday evening to help initiate their new house.

Leland Items — Archie May had the misfortune of losing a fine horse for which he had recently paid \$275.

Company 8-K-9 Volunteers

All of the shirts ordered for Company 8-K-9, Idaho Volunteers, Leland, have arrived, and those who were present at Sunday's drill received theirs. The others will be given out only on the day of drill. Be sure and be out and get yours, Sunday.

WHAT'S GOING ON IN THE LELAND COMMUNITY

The Homemakers Club, which met with Mrs. R. E. Woody last week, decided to cooperate with the school in the hot lunch program; to sew for the Red Cross, and to assist in the scrap drive. Mrs. Oral Craig will receive any amounts of old cooking fats which persons may wish to contribute, the proceeds to go into the treasury. The club voted to contribute \$3.50 to the Chinese relief fund.

Mr. and Mrs. Enoch Harrison entertained at dinner Sunday for Mr. and Mrs. Lyle Harrison and family, Mr. and Mrs. Gordon Peters and daughters, Mrs. Wm. Clem and son Junior, and Bob Haynes, Lewiston.

Miss Marjorie Beach, who is teaching the primary grades, spent the week-end with her parents, Mr. and Mrs. Harry Beach, of Winchester.

Mr. and Mrs. Donald Morgan spent from Thursday until Saturday of last week with Mr. Morgan's parents, Mr. and Mrs. Roy Morgan, of Gold Hill.

Mr. and Mrs. John Irwin and daughters, who have lived on the Wm. Davis place for the past three years, have moved to Lewiston to reside. Denzil Kuykendall helped them move Saturday.

Rev. E. A. Willman, Mrs. A. G. Peters, Mrs. Ben Hoffman, Mrs. O. A. Walker and Mrs. Harry Smith attended a Laymen's meeting in the Methodist church at Clarkston last Friday evening.

Howard Hoffman spent the latter part of last week in Lewiston.

Mr. and Mrs. Walter Crawford and daughter Kathleen, Mrs. Jennie Hund and Mrs. E. Harrison attended picnic in Spalding Park, Sunday, honoring Walter ZumHofe, who enlisted in the army Monday.

Mr. and Mrs. G. F. Cridlebaugh were Lewiston visitors Saturday. Beulah Draper and Betty Hoffman went to Moscow Wednesday, where they will enroll in the U. of I.

Mrs. Oral Craig and sons Neal and Ronald visited with Mrs. Craig's sister, Mrs. A. L. Anderson and family, of Lenore, Sunday.

Mrs. O. A. Walker and Mrs. Harry Smith are preparing the hot lunches for the school children for the present.

Mrs. Oral Craig has heard from her brothers who were recently inducted into the army. Geo. at Kearns, Utah; and Mark at Miami, Florida.

Mrs. Jacob Schmidt and Mr. and Mrs. Joe Schmidt and family, all of Spokane, were Sunday visitors in the home of Mr. and Mrs. G. F. Cridlebaugh.

Quite a few of the farmers are hauling wood from the timber.

Sunday, October 4 has been authorized by the General Conference as Church School Rally Day. The purpose is that of informing and challenging the people of the community with regard to the church's program of religious education. Plan on attending this service at the 11 o'clock hour. Bring your families and your friends. A hearty welcome and a splendid program awaits you. The young people are sponsoring this program.

School Notes
Four more students have enrolled, making our total 41.

Our cafeteria opened Monday, and hot lunches were served for the first time this term. To offset the added expense incurred the first of the term, lunches are served at 5c per day, but it is hoped that we can again return to the 3c rate soon.

Intermediate room officers for the first semester were elected last week. They are: Warren Locke, president; Betty Parks, vice president; Dorothy Thornton, secretary; Jewell Fleishman, treasurer; Warren Locke, boys' athletic chairman; Eweleya Locke, girls' athletic chairman; Dicie Stump, schoolroom chairman; Richard Kuykendall, playground supervisor; Junior Hudson, patrolman; Leon Wolff, schoolground supervisor.

Warren Locke was elected chairman of the China Relief campaign in school and appointed Boyd Thornton and Junior Hudson captains of teams in a contest to see which side can raise the largest fund for the China Relief Fund. The losers will entertain the winners in about two weeks.

A scrap metal drive will be begun this week. Each child will be given credit for the amount of scrap he or she brings in, and the money received from the sale of this scrap will be invested in War Savings stamps for the individuals collecting it.

Volunteer Guards To Meet
The first meeting of Company 2-K-1 Idaho Volunteers will be held at the ball park in Kendrick at 2:00 p. m. Sunday, September 27, and all who have signed up in the Juliaetta-Kendrick sections in Latah county, are requested to be present.

Kenneth Wolff came home from Couer d'Alene Sunday to start to school.

Mr. and Mrs. O. L. Hupp came from Seattle Friday to spend the night with his sister and family, Mr. and Mrs. Hiram Galloway. On Saturday all left for Spokane, where they met LaDonna and Jeanette Galloway, all going from there to Post Falls and Sandpoint, where Mrs. Galloway has a sister and brother.

Mr. and Mrs. Fred Poe of Weiser were overnight guests in the home of his sister, Mrs. Vera Stewart.

Mr. and Mrs. J. E. Key were week-end guests of Mrs. N. E. Long. She returned home with them Sunday for a visit.

Mrs. Marvin Long acted as one of the judges at the Orofino fair Friday and Saturday.

Mrs. Frank Lowery and two sons of Pullman spent Saturday and Sunday with Mr. and Mrs. Marvin Long.

Bean Harvest Proceeding
Bean harvesting operations are making good progress under sunny skies and good drying weather, although the heavy dew each night somewhat delays operations early in the morning.

To date there have been outstanding yields of beans reported, the average running from 3 to 4 sacks per acre (400 to 500 pounds). Bean dealers report the quality as excellent, although the beans themselves are perhaps slightly smaller in size, but they are well rounded and firm.

WHEAT MARKETS ACTIVE PRICES REMAIN FIRM

Domestic wheat markets maintained a firm tone and considerable activity was displayed in some districts during the week ending September 18, the Department of Agriculture reports. Moderate domestic flour business was reported at Portland, but sales for export flour under the indemnity program were lighter than the previous week. The trade reports an active demand from the midwest for soft white federation, white club and possibly other soft wheats low in protein content, and that rather large sales were made to those markets from country points taking a favorable rail rate. Prices were reported to have ranged from \$1.40 to \$1.44, basis Kansas City for prompt shipment east. Growers were active sellers for the first time since the present crop began to move. Prices offered were nearer the loan value and with prompt shipment the farm storage would be made available for the present crop. These two factors were probably responsible for the active selling. Cash prices at Portland averaged about 1c lower on all grades of wheat except high grade hard red winter, which was 1c higher, compared with the previous period. Wheat receipts at Puget Sound and Columbia river terminals totaled 500 cars, against 600 cars last week. Members of the grain trade with country connections report that the winter wheat harvest is practically completed in the Pacific Northwest, except in the highest altitudes.

Cash wheat bid prices at Portland on September 17, for 15-day shipment were: soft white, \$1.14½; soft white, no Rex, \$1.16; white club, \$1.17; western red, \$1.15½; hard red winter, \$1.11. For deferred shipment, warehouse receipt basis: soft white, \$1.14½; soft white, no Rex, \$1.18; white club, \$1.19; western red, \$1.18; and ordinary hard red winter, \$1.11.

The San Francisco wheat market held steady during the week, with continued light offerings from central California growers and fairly active demand from Bay region mills. AH prices held quite firm at recent advances. As in other recent weeks, growers in nearby producing areas continued to market supplies very slowly, and fairly large quantities of wheat were being placed in store to take advantage of government loans.

The trading basis on cash wheat at Kansas City closed ¼c to 1c lower for the week, after having been as much as 1½c down earlier in the period. Receipts increased to 921 cars and open market offerings expanded somewhat from recent small proportions. Following a period of indifference, demand for wheat picked up and was moderately active in the first few days. Milling outlets took barely 20 per cent of the open market supplies, storage interests and merchandisers taking the balance.

At Minneapolis trade sentiment was mixed during the past week about the line of action likely to be followed in legislation concerning farm prices and wages. A strong demand prevailed for high grade dry wheat and premiums on this type advanced 2c to 3c for the week.

Receipts of cash wheat at Minneapolis were large, with arrivals amounting to 5,269 cars, while Duluth unloaded 1,825.

Heavy rains in eastern portions of the spring wheat belt made an unfavorable week for the completion of the harvesting and threshing and caused some further damage to the grain still in the shock. In other areas, however, conditions were generally favorable and harvesting was in the final stages in northern portions of the belt.

The quality of the hard red spring wheat appears to be above average, but not quite up to that of last season. Durum wheats, on the other hand, are grading considerably below average and below early inspections last year.

The quality of the white wheats on the Pacific Coast is unusually good this season, with 92 per cent of the July and August inspections grading No. 2 or better, compared with 87 per cent for the same period last season, and an average of 90 per cent. Smut dockage appears to be less important, but a somewhat smaller percentage than last season is classified as hard white.

The 1942 C. C. loans through September 12 were: Barley, 2,052,000 bushels, of which 902,000 were in California. Wheat, 144,000,000; and corn 43,101,000 bushels.

Students Off To School
The number of students leaving this week for the various schools are almost conspicuous by their absence, the war and defense work, of course, being responsible to a great extent for the cut in attendance. However, here is a list of the group from here that will attend the U. of I., Billy and Lois Deobald, Don Fry, Rex Blewett, Bob Watts, Barbara Long, Helen Newman, Beulah Draper and Lloyd Israel.

Gun Accidentally Discharged
Last Wednesday afternoon Bob Draper had the scare of his life while running a tractor in the field. It seems he had been carrying his shotgun with him just in case a grouse got in his way. In some way the gun discharged, with the load being fired into the tractor. A few shot glanced off, hitting him in the toes on the right foot. A physician removed the shot without any serious injury resulting.

Two-Ounce Airmail Limit

A weight limit of two ounces has been placed on airmail destined for points outside the continental United States, because the volume now exceeds available facilities, the war, navy and post office departments have announced.

For the present, however, the re-

strictions do not apply to Mexico, Central and South America, the Caribbean area, Alaska, Canada and Newfoundland.

New Arrival

Mr. and Mrs. Kenneth Long, Julieta, are the parents of a fine baby boy, born September 16.

MRS. AMERICA MEETS THE WAR

Ed's Note: War touches every home and citizen. This column, based on official government information and prepared by the Office of War Information, shows how the war will affect Mrs. America and her home. With the familiar tag "100 per cent wool" getting scarcer, have you been wondering how you would know just what you are getting when buying new garments? The answer is that all woolen goods offered for sale must be labeled as to the amount and kind of wool and other fibers used. A recent War Production board order limiting the civilian use of new wool for all woolen articles, tends to stretch our decreased wartime supplies by increasing the amount available for blending with other fibers. However, in blending, the least amount of wool permitted is 20 per cent and the maximum is 65 per cent. Technical experts say that the 20 per cent minimum assures us that blended fabrics will be warm enough. One of the wartime changes in view for the nation's schools when classes are resumed this autumn will be conservation of school buses. It is expected that pupils who have less than two miles to walk or who live in areas served by public carriers will not be provided transportation. In some sections hours of classes may be staggered so that buses would be able to handle two or more schools on the same trip. At present about 4,000,000—or one-sixth of the country's students, ride to school, chiefly in busses.

But even if Junior is in for more walking along with the rest of us, there's no need to worry about keeping his shoes in good condition. The WPB has just made more sole leather available for the repair of civilian shoes.

If you see a new dress with a set of copper or copper-plated buttons, don't think there has been a violation of the WPB order. Of course, copper has been banned for the manufacture of costume jewelry since May. However, some costume jewelry accessories and buttons already made up were frozen in the hands of dress manufacturers. Since these stocks aren't particularly suitable for any other purpose, the materials already fabricated have been released and they can be used as ornaments for dresses.

Apartment dwellers without an overabundance of space often got around the guest room problem by letting Aunt Minnie sleep on the studio couch in the living room. However, after November 1, studio iron and sofa beds containing steel in innerspring construction after September 1.

With factories turning out fewer rugs and carpets, the care of those in Mrs. America's home is a wartime must. Consider that in one 9x12 wool rug there is enough jute to make 32 sand bags for use in trench warfare, and, of course, there aren't many shipments of jute from India these days. A 9x12 rug also contains enough wool to make seven pairs of army trousers, and the wool, you know, that goes into floor coverings, comes from Australia, China and South America. To help prolong the life of a rug, never beat or shake it, and it is a good idea to place carefully arranged newspaper, mats or padding under it.

And on the topic of giving extra special care to some of the household articles made scarce by the war, don't delay in having any necessary repairs made to your vacuum cleaner. Consult a reliable repair man.

Even the wooden clothespin has found its way into a price regulation. Darning eggs also were brought under a price ceiling in the regulation which covers many wood products made by turning or shaping lumber to a pattern on a cutting machine.

If you've been wondering about the availability of replacement parts in the event that something were to go wrong with your stove or furnace this winter, relax. Although the WPB has prohibited the use of iron or steel in excess of certain specified quotas for furnaces, there are no restrictions placed on the manufacture of replacement parts.

Red Cross Will Handle Messages

Until further notice, messages for members of the U. S. Army, Navy, Marine Corps, and the Coast Guard officially reported as "missing in action" may be sent through the American Red Cross.

The Red Cross cannot guarantee delivery of the messages, but it is planned to send them to the International Red Cross delegate in Japan, who will make every effort to see that they reach the service man. The number of communications should be limited voluntarily by the senders. Members of families should agree on a message and friends should defer to the family.

We are informed that the S. S. Gripsholm may soon sail again for Lorenzo Marques to exchange Japanese and American Nationals. It is hoped that many of these messages can be transported on that ship.

Anyone in Latah county interested in sending such a message should get in touch with the local Home Service chairman, Mrs. Clara S. Evans, at the office of the Department of Public Assistance in the Title Building, Moscow. Mrs. Evans will be glad to see that these messages are forwarded by air mail to the National Headquarters of the American Red Cross.

Snow Near Whitebird

Whitebird, Sept. 22—A foot of snow fell last week at Moore's ranger station near Whitebird, Harold Thompson, forest service employee, reported. Freezing temperature was also prevalent in the mountains.

It Certainly Has Grown

Chewing gum represents a retail business in the United States of more than \$100,000,000 a year. Its beginning dates back to 1860, when Thomas Adams began manufacturing chicle gum on a total investment, it is said, of \$55,000.

"Swamp Water"

This week's offering at the local theatre is a story that should hold interest for all — "Swamp Water". It is a story of the wild swamps of Georgia, of a young man who ventures into the forbidding country in search of his dog, and his discovery of a fugitive who escaped jail six years previously after being

convicted of a murder he didn't commit.

And of course there is romance, action and mystery throughout.

In addition to the feature selected shorts and the usual cartoon will be shown.

It's time to start your "scrap" drive now—Uncle Sam needs it.

what is America Fighting For?

Freedom of Education!

(One of the Essentials of a Democracy)

Of all of the essentials of a Democracy one of the most important is the right of every boy and girl to an education—untainted and untrammelled.

In the good old U. S. A. no one is denied the advantages of knowledge; the opportunity to explore the wide horizons of the sciences, the arts, the crafts—all the subjects that make for a strong, intelligent citizenship and a fuller life.

Can this freedom work? It has since 1776!

Today, Americans are the most literate people in the world—enjoying the world's highest standard of living, thanks to education, sacrifice, individual enterprise, the will to work, and full confidence in the fairness of one's neighbor.

That's what America is fighting for. With these incentives we cannot fail.

Had It All Figured Out
 Jake (to grocer): "I want to get a sack of flour. I am out of money and my family is hungry. I don't know when I can pay you."
 "How do I know you won't sell the sack of flour to get money to go to the circus?"
 Jake: "I've already got the circus money saved up."

Tax Cost Would Be Heavy
 Boise (Special) — Idaho taxpayers will face a total tax load of \$4,350,000 annually to meet the cost of Old Age assistance if the so-called "\$40-a-month" pension plan is adopted by the voters in November, according to estimates of the Idaho State Chamber of Commerce.
 If met by a tax on real property this would equal \$1.09 on every \$100 of assessed valuation, according to Earl W. Murphy, secretary of the state chamber. It would cost the owners of agricultural property \$1,700,000 a year and other property owners would pay the balance of \$2,650,000 annually.

Under the provisions of the initiative measure to be voted on November 3, all who qualify for old age assistance would also receive at state expense, free medical, dental, optical and nursing care, as well as artificial arms, legs, hearing devices and funerals.
 Old age assistance now costs the state about \$1,340,000 annually, and the federal government an equal amount. Under the proposed law the state share, Murphy estimates, would be \$4,350,000. Unless property taxes are to be raised in this amount, a sales tax or some other form of excise tax would be required.

The proposed law is practically identical with the law adopted in Washington in 1940, where total monthly costs climbed from less than \$1,000,000 per month to \$2,459,959 in June of this year, Murphy said.
 The State Chamber of Commerce is appealing to all voters to express

their opinion on the measure so that the result will be representative of the people's attitude on the question.

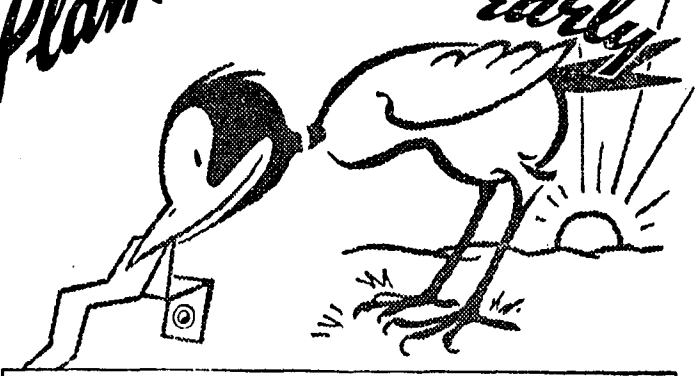

Must Care For Plates
 Idaho's 1942 motor vehicle license plates must last another year. They will be used during 1943 with the decalcomania sticker which will go on the windshield and the car numbers remain the same as in 1942. But the number must show as at present, and for that reason car owners should see that it is renewed by giving the plate a coat of clear varnish. The blue numbers and the white background are beginning to fade.
 Car owners should also have the brakes, lights, battery and other

equipment checked. A car represents an investment that is generally equal in value to all the other devices that have been purchased for the home, such as radio, electric stove and refrigerator, vacuum cleaner, etc., but seldom does it receive the attention and care that its value deserves.
 Your car must last for the duration of the war, that is, if the tires will hold up, and it should be given the best of care to insure long life.

Can Purchase Refrigerators
 Approximately 50,000 domestic mechanical refrigerators, frozen in the hands of dealers and distributors since February 14, were released to the public last week by a WPB order.

Plan Ahead — MAKE YOUR TRAVEL RESERVATIONS early!

NORTHERN PACIFIC is moving lots of war traffic these days, and Uncle Sam's requirements always come first. But, we are making every effort to maintain the kind of service that has made the NORTH COAST LIMITED a favorite with Northwesters going east.

War conditions at times make traffic particularly heavy along Northern Pacific's "Main Street of the Northwest," so when you are going east it is well to be an "Early Bird" and make your reservations in advance. We'll do our best to give you the accommodations you wish. Schedule your trip for mid-week days if you can.

JUNK
 needed for War

"What's it good for?"
 "Guns, tanks, and maybe part of a plane"

In the barnyards and gullies of farms and in the basements and attics of homes is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

Scrap iron and steel, for example. Even in peacetime, scrap provided about 50% of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually refined steel—with most impurities removed, and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines.

The production of steel has gone up, up, UP, until today America is turning out as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full

rate of production cannot be attained or increased; the necessary tanks, guns and ships cannot be produced.

The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead and tin.

The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

Will you help?
 First—collect all of your waste material and pile it up.
 Then—sell it to a Junk dealer, give it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee.
 If you live on a farm, consult your County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!

JUNK MAKES FIGHTING WEAPONS

One old disc will provide scrap steel needed for 210 semi-automatic light carbines.
 One old plow will help make one hundred 75-mm. armor-piercing projectiles.
 One useless old tire provides as much rubber as is used in 12 gas masks.
 One old shovel will help make 4 hand grenades.

MATERIALS NEEDED
 Scrap iron and steel.
 Other metals of all kinds.
 Old rubber.
 Rags, Manila rope, burlap bags.
 Waste Cooking Fats—When you get a pound or more, strain into a large tin can and sell to your meat dealer.
NEEDED ONLY IN CERTAIN LOCALITIES:
 Waste paper and tin cans—wanted only in certain areas, as announced locally. **NOT NEEDED** (at this time): Razor blades—glass.

EDITORIAL

Folks — It seems like about all we have to talk about these days is the weather, harvesting conditions; how busy you are, and various related subjects. So this week, just to vary the monotony just a bit, we're going to devote the balance of this space to fun — we hope you enjoy it, and when you've read it you remember we want to buy your cream and to rent you a locker box. Come in and see us about the latter two on your next trip to town.

There is the woman who sought a divorce from her husband because he went on a vacation without her, sending a postal card which read as follows: "Having a wonderful time, wish you were her."

Two travelers in Ireland, returning home late one night, lost

their way. Said one: "We're in a cemetery; this is a gravestone." "Whose is it?" asked the other. The more sober of the two, having struck a match said: "I don't know, but he seems to have lived to a good old age—175." "See, can you read the name?" insisted his companion. Another match having been lit — "I don't know him, some fellow named Miles from Dublin."

Jones (who has called around to see if his friend has recovered from a wild night): "Is Mr. Wozzy up yet?" Landlady (sternly): "Yes, he got up, drank his bath, and went back to bed."

Mrs. Brown: "Whenever I'm in the dumps, I get myself a new hat." Mrs. Jones: "I was wondering where you got them."

Have Real Payrolls

Payrolls of Potlatch Forests, Inc., with mills at Lewiston, Potlatch and Coeur d'Alene, and woods operations adjacent to Headquarters and Bovill, totaled \$751,883.07 for the month of August. It was announced at the general offices in Lewiston yesterday.

Of the total, \$383,806.15 was paid to wood's employees, leaving a combined three-plant payroll of \$368,076.92. Largest single plant payroll was at Lewiston, where \$199,705.37 was written in pay checks for the month. It was the largest payroll in the company's history, officials said.

All plant departments at the three mills as well as all wood's camps operate on a 48-hour week, with the eight hours of overtime figured at time and a half. The company is operating at record speed, it was said, but is experiencing difficulty in getting enough logs because of a shortage of log sawyers.

More Enlist In Navy

Enlistments in the United States navy, over the state of Idaho, jumped considerably for the week ending September 18. Idaho sent its full share of the nation's recruits, and can be justly proud of its part in the recruiting program. The actual figures on enlistments from Idaho to date are as follows: Enlisted to date, 238; balance to go to fill quota, 290. Quota for the month is 528.
