VOLUME 52

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, OCTOBER 15, 1942

NO. 42

## HAPPENINGS OF INTEREST HERE TWENTY YEARS AGO

Lester Crocker returned Wednesday from Clarkston, where he has been working in the First Bank of Clarkston as assistant cashier. He has given up his work there and will remain at home for a while.

Claud Stanton and Chauncey Compton, while out bird hunting in the Pine creek country last Saturday, shot a black bear weighing 250 pounds. The dogs treed the bear near Al. McKee's orchard, about five miles from town. Claud had a shotgun and Chauncey a .22 rifle. Chauncey shot the bear as soon as the dogs treed it. Many shots from the small rifle and a couple more from the shotgun in the hands of Claud seemed to have done the work as the boys found the animal dead in the brush near where the last shots had been fired.

The Kendrick Hardware Co. has bought the stock of furniture owned by E. E. Bechtol, located in the Fraternal Temple building. The furniture stock will be moved to the spacious hardware rooms, occupying the east half of the front, the west half being used for hardware. The Thomas brothers stated this week that they expect to have a large stock of goods to add to their present stock sometime before the holidays. They will carry a complete line of hardware, furniture and implements.

L. G. Peterson (now probate judge for Latah county), former office deputy in the sheriff's office, was appointed city clerk of Moscow the first of the week. Mr. Peterson has been a deputy sheriff since 1919. He served as mayor of Kendrick for two years and is very thoroughly familiar with the details of conducting a municipality.

Big Bear Ridge — Mrs. Otto Alber is enjoying a visit with her mother and sister from California. Miss Ruth Dammarell of Kendrick began teaching at Fern Hill school on Monday. Oliver Vogt, who is attending W. S. C. spent the weekend with his cousin, Miss Johanna Nelson. The Girls' Sewing club was entertained by Misses Emma and Neva Nelson Friday afternoon. Joe Bowers, A. N. Rogstad and Wallace Emmett will finish bean threshing on the ridge during the week. Ole Lien and sons Henry and Emret, and Ed. Lien were Moscow visitors Saturday. Adolph Forest and Milo Slind were attending the Lewiston Fair last week.

Fairview Notes — Mr. and Mrs. Hugh Parks were Leland visitors Sunday. Mrs. Herman Koepf was a visitor at the Virgil Fleschman home Friday afternoon. Mr. and Mrs. T. J. Fleschman have received a letter from their son, Floyd, saying he did not like Seattle, so left by boat and is now at San Francisco.

Leland Items — Mrs. Dick Winegardner and two little daughters, Helen and Gene, are visiting relatives here this week. Mr. and Mrs. Mushlitz of American ridge visited Prof. and Mrs. Mushlitz over Sunday. Jesse Hoffman started filling his silo Tuesday, but has been delayed by rain.

Cameron News — Mrs. Rein gave a miscellaneous shower for Miss Martha Silflow Saturday evening at the Silflow Brothers' home. Miss Martha received many useful and beautiful presents. A delicious lunch was served at 1:30. Everyone present enjoyed a good time. Gus Blum went to Genesee Sunday and from there left for Montana, accompanied by his cousin, Carl Flomer. They expect to harvest there for some time. The Carl Koepf family are moving from Southwick to Cameron, where they expect to make their home.

Linden News — Mrs. McPhee visited with Mrs. Longfellow Monday afternoon. Harry A. Thatcher and Mr. Burr of Moscow were shaking hands with the people of the ridge Saturday. Louis Otness was a business visitor on the ridge Friday of last week. Mr. and Mrs. Clem Israel arrived Sunday from a six-weeks' visit with Mr. Israel's father, at Flora, Ill. Mr. and Mrs. Frank Lyons and two oldest sons left Thursday for Red River Hot Springs on a hunting trip. They are making the trip by team and expect to be gone about three weeks.

## Junk Comes Rolling In

George Brocke, manager of the local junk drive, reports real success, despite the fact that the Potlatch country put on a really intense drive some months ago, shipping out during that time 480,000 pounds of scrap metal and 42,000 pounds of used rubber — or a total of 520,000 pounds of salvage material in the previous drive.

To date George reports for the last drive 150,502 pounds of scrap has been received, and it is still coming in at a good clip. Despite the fact that the Kendrick official drive ended last Saturday evening, the government sponsored scrap metal drive rolls on — so you are asked to bring in all your scrap — whether big or little — and add it to the growing mountain near the railroad tracks.

Bring in your scrap — help send a Christmas message to Moussolint, Hitler and Hiro Hito (not to mention Tojo).

The Japs have been wanting to buy our scrap metal for years — let's give it to them via bombs, guns, shells and planes. Roll up your sleeves and make a final search of your premises for metals of all kinds. Uncle Sam wants them!

It takes 50,000 man-hours of work to build a medium bomber, against 200 for an auto.

## Mason Elected Vice President

Lowell Mason, superintendent of Kendrick public schools, was elected first vice president of the district Idaho Educational association, held in Lewiston last week-end. The Lewiston Tribune of last Friday carried a very good likeness of Mr. Mason.

The Tribune reports that the entire meeting was a splendid success, there being 482 teachers and educators present from various parts of the country.

John W. Shepherd, representing the Lewiston Chamber of Commerce, welcomed delegates to the city, which was responded to by Supt. Mason.

## COMMERCIAL CLUB HOLDS INTERESTING MEETING

The regular monthly meeting of the Kendrick Commercial club was held in the school building Monday evening, with President L. S. Thurber in the chair as presiding officer. There were 22 present and the meeting proved very interesting.

The first thing on the program, of course, was a splendid dinner, served by the Homemaking class and their advisor. It was nicely served and all it should be in tastiness.

Minutes of the previous meeting and a gist of communications of various kinds were taken up and disposed of. Several of the communications were from our senators and congressmen regarding an educational bill pending at Washington regarding the sale of school lands etc. for Federal assistance to the public schools of the country. Supt. Mason explained the workings of the bill, but no action was necessary as the Club had endorsed it at a previous meeting, and the communications from Washington were in acknowledgment.

Other committee reports were made, including one from N. E. Walker regarding work on the Cedar Ridge highway, which, Mr. Walker said, would not be built at this time. He also said that there was about 500 yards of rock to be crushed and spread, which would be done as soon as they could get at it. Wade Keetel reported that to date about 99 per cent of the bean crop had been, or would be saved, and that most of them were of excellent quality.

Frank Harris, manager of the new Kendrick Co-operative Creamery, reported that ceiling had been placed on cream and said he expected butter rationing by the first of the year, or soon thereafter.

R. L. Blewett, chairman of the Civic Improvement committee, reported all of the old circus bills had been removed from windows of the vacant buildings, which have been causing a good deal of unfavorable comment from those who have been trying to keep our pretty little city looking as though it were really alive, instead of dead and covered up with unsightly posters.

Supt. Lowell Mason reported the hot lunch program proceeding very nicely and stated that, starting on Monday of next week, children eating lunches at the school each noon would be furnished one-half pint of milk each at a cost of 1c per pupil. This is, indeed, one of the finest things that could be done for the youngsters. He also stated that he had contacted County Agent G. T. McAlexander regarding instituting a 4-H club in the Kendrick schools in lieu of the discontinued F. F. A. Mr. Mason said that some of the former members of that organization had succeeded in raising some fine stock and had received many other benefits. It is hoped that 4-H clubs can be started here in the near future. They include both boys and girls and are a source of real benefit to those taking part.

Ross Armitage stated that only soft ball and touch football would be played out-of-doors this year, and that they would go on the "wildcat" plan, playing any and all teams they could get dates with. To date 10 games have been scheduled. He also stated that physical education for all students would be stressed and that many forms of games can and will be played in the gym, and will give all children a chance to get necessary exercise.

Herman Schupfer stated that the local Health Nurse, Miss Schuler, had asked about what the club thought of making an effort to get use of a traveling library. Mrs. Raby has said that she would allow the use of the large room now used for the Red Cross meeting place if arrangements were made for obtaining the books. There was considerable discussion on the matter and it was finally decided that the matter be left to the P.-T. A. as it hardly came under the activities of the club. All agreed, however, that such a library would be very beneficial.

Mr. Stroth, new band leader, reported on the band, its needs and activities. He stated that he hoped to have 50 members enrolled by spring, but that the present membership of 30 was getting along very well.

L. S. Thurber reported that he had about 6 1/2-pounds of old keys that had been turned over to him by Beverly Schupfer and Margaret Cook, which would be turned over to the proper channels and made into presents for Hiro Hito, Hitler and Mussolini.

A financial report of Salas Day was read and approved. There being no further business the meeting adjourned to meet again on November 9th.

The "Old Oaken Bucket" is coming back; WPB is encouraging the manufacture of wooden pails and tubs requiring not more than 15 per cent metal.

## SALES DAY PROVES POPULAR AND SUCCESSFUL

Kendrick's Annual Sales Day, held Saturday of last week, proved to be quite successful, even though attendance, due to lateness of fall work and absence of many in the mountains, brought attendance below the usual figure.

Opening the day's activities was the auction sale, with Roy Glenn acting as "master of ceremonies," and ably assisted by N. E. Walker, clerk. In all, something less than \$200 worth of various and assorted articles were disposed of.

After the auction came the noon recess.

At 1:30 there was a short band concert by the Kendrick High school band under the direction of Mr. Stroth.

At the conclusion of the concert and march of the band sports contest under the direction of Ross Armitage and R. L. Blewett were the order of the day, and here are the results:

Sunday's downpour of rain put an abrupt finish to the scheduled drill of Company 2-K-1 Idaho Volunteers at Jullietta last Sunday. Only about 20 braved the elements to meet, and they were abruptly routed by the deluge that fell shortly after 2:00 o'clock.

The next meeting will be held on the Kendrick ball diamond next Sunday at 2:00 o'clock, and again you are asked to make a special effort to be present in order that complete squads may be formed and reports sent in to Boise.

## DOINGS OF INTEREST IN THE KENDRICK PUBLIC SCHOOL

Home Economics I served for the Commercial Club Monday evening. It was reported that everything went off very well.

The band elected officers Tuesday morning. They are as follows: Chas. Deobald, president; Irene Peters, vice president; Paula McKeever, secretary-treasurer.

A number of new pieces of music have been received by the band, as follows: "Bennett Band Book No. 1," "King Cotton March," "Westward Ho Selection," "In a Moostary Garden," and "Three Bears."

The Journalism Club met Monday and elected the following officers: Bill Davidson, editor; Ossie Kanikkeberg, assistant editor; Mr. Stroth, advisor; Gazette and Grade news, Donna Wallace, Assistant, Betty Halseth; Sports, Sonny Daugherty and Ossie Kanikkeberg; High School classes, Alice Gustafson and Fern Clemenhagen; Music, Paula McKeever and Irene Peters; Features, Bill Davidson and Jean Crocker; Cover Design, Irene Peters and Gossip, Joyce Lyons and Dale A. Miller; Typists, Lois Largent and Betty Halseth; Mimeographers, Paula McKeever and Vivian Draper.

The name chosen for our publication was "The Waggin' Tongue." The first edition will be out Friday. Pictures shown during the week in Visual Education were: Leaves, for biology; Vernier Scale, for physics and math; Colonial school, for the 5th grade.

It may be interesting to this community to know that there has been several articles written by Mr. Stroth in a few of the most popular music magazines. The first of these was in "Educational Music Magazine," in March and April of 1938. It is under the title of "The Melting Pot" and the item is "The Music Supervisors in the Small School." This was written when he taught at Welsey, S. D. The second was in "The School Musician," September, 1941 — "Ideas for Band Parents Club." The Scotland school band also appeared in this issue. The third is also in "Educational Music Magazine," for September-October, 1942, in "The Melting Pot" under the title "Keep Your Music in Order," and describes the system which is being used in the Kendrick music library.

We have hopes that he will write an article while he is teaching here for one of these magazines. We hope he doesn't break his record now.

This Thursday an assembly program will be given in the assembly by Charles T. Collins of Seattle.

Some of the people in this community may have known him while he was going to the U. of I. He will start his program at 8:00 p. m. His is a personality show of outstanding inspiration. It is filled with rollicking songs and patter as well as some of the classics. His brief inspirational talk on the problems of the blind and the use of the Braille system is most interesting.

Mr. Alexander, from Moscow, is planning to come down to start a 4-H program for the boys interested. Many of the F. F. A. boys will probably wish to carry on with the work.

Mr. Kelly came to school Monday with a slightly hoarse voice. He reports that the vacation was too much for him.

Next Monday the hot lunch program will start serving a half pint of milk to all children who wish to drink it. There will be no extra charge — other than the daily 5-cent costs for lunch.

The Biology class has been studying bugs and insects. The science room has come alive with the pests. Geometry class has been trying very hard to "congruent" a triangle. We hope they keep up the good work.

The physics class has been experimenting with solids and liquids. On Tuesday morning they saw a picture on "Measurement With Instruments."

Northwest History has been studying the Lewis and Clark expedition, and the Indians.

Mr. and Mrs. L. Yenni of Teakcan visited relatives and friends here Sunday.

Mrs. A. G. Peters received a card Monday from her son, Leo, stating that he had arrived safely at a foreign port. The trip evidently took about four weeks, as that time had elapsed since she had heard from him.

Paul Jones visited his mother, Mrs. Alex Larson, a few days before enlisting in the army. Mr. and Mrs. Larson accompanied him to Lewiston last Monday, from which point he left for Fort Lewis.

Ervin Draper, who has been called to leave with the next draft contingent, is enlisting in some branch of the navy today (Thursday).

### Speed Limit Now Thirty-five

Every motorist and truck driver should remember that the national speed limit is now 35 miles per hour, and should obey that limit in every sense of the word.

If caught and convicted of driving over that limit, the conviction will be noted on the drivers license and motor vehicle registration card, and the driver so convicted stands a very good chance of having a gas rationing book refused him — and that certainly is a stiff penalty. So, it is always better to be safe than sorry — and remember 35!

### Gone After Big Game

Roy Michelcheck and Ray Butler left Monday morning for the tall timber in search of big game — just anything that gets in their way.

### Davidson-Fleshman Nuptials

Of interest to their many friends is the recent marriage of Miss Barbara Davidson, daughter of Mr. and Mrs. George Davidson of American Ridge, to Elwin Fleshman, son of Mr. and Mrs. Virgil Fleshman of Clarkston.

The marriage ceremony was held in Lewiston, Sunday.

Both young people are well known here, as they are members of pioneer families in this section.

Mr. Fleshman is with the Medical Corps of the Army Air Force, and stationed at Mather Field, Calif. The marriage taking place while he was home on furlough.

Mrs. Fleshman is employed in Spokane, and will continue with her job until arrangements are made for her to join her husband.

### INTERESTING NEWS BITS FROM SOUTHWICK SECTION

Mrs. Harvey Bales of Grangeville is spending a few days at the home of her parents, Mr. and Mrs. Nels Longeteig.

Mrs. Alma Thornton of Frazier spent the past week at the home of her sister, Mrs. Roy Southwick.

Mrs. George Ziemann and children of Lewiston visited at the Axel Anderson home Sunday.

Mr. and Mrs. Gordon Harris spent Sunday evening visiting in the Roy Southwick home.

Many Southwick residents attended the "Sales Day" activities at Kendrick last Saturday.

Mr. and Mrs. Howard Southwick and Mr. and Mrs. Asa Choate are away on a hunting trip.

Mr. and Mrs. Wade Candler spent Sunday evening in the Alvin Shenaman home.

Kenney and Sandy Holmes of Lewiston spent Saturday night at the Virgil Harris home, and Sunday with Mr. and Mrs. Russell Rodgers.

Miss Martha Shenaman of Pullman is spending a few days here with her parents, Mr. and Mrs. Alvin Shenaman.

Mr. and Mrs. Lawrence Thornton and family and Mrs. Cora Thornton, of Oregon, are here visiting relatives. Mrs. Cora Thornton plans to remain here for the winter.

Lloyd Southwick of Lewiston spent the week-end here.

### Friday Bad For Cars

Friday proved a rather tough day for cars in this section.

Joe Langdon had the misfortune to have his Ford roadster get the "shimmies" not far from Long's slaughter pen, and do a flip-flop into the ditch. Joe emerged unhurt, and the car suffered but minor damage.

That same evening a pickup driven by George Barclay, and containing Mr. and Mrs. Ben Westendahl and Charley Candler as passengers, was descending the hill back of the school house. George turned out to hunt a smooth place on the culvert about two-thirds of the way down the hill, but weeds obscured the end of the culvert and the pickup plunged down the hill, rolling over four times in the descent. All were quite badly shaken up, but suffered no serious injuries. The pickup received numerous dents, but it also was able to proceed on its own power, since it landed on its wheels after the last "flip."

### Faithful Always

Much has been written about the dog being man's best and most faithful friend, and we certainly have an outstanding example of this faithfulness in our own community.

This summer when Orville and Walter Sparber left for service in our armed forces — one with the air corps, the other with an anti-aircraft unit, they left their old dog in charge of their home, and he is right there today, watching and waiting for their return.

He is being fed and cared for by Mr. and Mrs. C. L. Johnston, who also are taking care of the Sparber ranch, but consistently refuses to leave to make his home with the Johnstons — for the boys might come home and he wouldn't be there to meet them.

Where can you find a greater example of faithfulness?

### Kerby Cole Meets Death

Kerby Cole, 18, until recently a high school student at Moscow, was killed Monday night while working at the Bunker Hill mine at Kellogg.

Kerby Cole met death when two mine cars collided in the mine workings. He had lived at Moscow six years.

The youth was born at Leland. Survivors are his parents of Moscow, Mrs. G. L. Hilton, a sister, Robert, Mac and Charles, brothers at Moscow; and Quentin, another brother, who is with the armed forces in Puerto Rico.

Funeral services will be held Friday at the Short Chapel.

### Open Grange Meeting

## MAIL SOLDIERS' XMAS GIFTS BEFORE NOVEMBER 1.

**READ THE RULES**—The following rules, issued by the Postoffice Department in cooperation with the Army Postal Service of the War Department, apply to the mailing of Christmas parcels for members of our Armed Forces serving outside the continental limits of the United States.

**TIME OF MAILING**—Christmas parcels and greeting cards should be mailed during the period beginning October 1 and ending November 1, 1942, the earlier the better. Each parcel should be endorsed "Christmas Parcel." Special effort will be made for delivery in time for Christmas.

**SIZE AND WEIGHT**—Christmas parcels shall not exceed 11 pounds in weight, or 16 inches in length or 42 inches in length and girth combined. However, the public has been urged to cooperate by voluntarily restricting parcels to the size of an ordinary shoe box and the weight to six pounds.

**USE CARE IN PREPARATION**—Remembering the great distance this mail will be transported and the necessary storage and frequent handling, it is absolutely necessary that articles be packed in substantial boxes or containers and be covered with wrappings of sufficient strength to resist pressure of other mail. Each parcel is subject to censorship and delay may be minimized by securing covering to permit ready inspection of contents.

**PROHIBITED MATTER**—Intoxicants, inflammable materials, poisons or compositions likely to damage mails are unobjectionable. No perishable matter should be included in parcels.

**HOW TO ADDRESS PARCELS**—Addresses must be legible. Parcels addressed to overseas Army personnel should show in addition to the full name and address of the sender, the same rank, Army serial number, branch of service, organization, A.P.O. number of the addressee and the postoffice through which parcels are to be routed. Units located within the continental United States may be addressed direct, using name, rank, organization and location.

**POSTAGE MUST BE FULLY PREPAID**—The rate on parcels of fourth-class matter (exceeding eight ounces) being the same rate applicable from the postoffice where mailed to the postoffice in the care of which parcels are addressed.

**GREETING MESSAGES PERMISSIBLE**—Inscriptions such as "Merry Christmas", "Don't open until Christmas" and the like may be placed on the covering of the parcel if it does not interfere with the address. Cards may be enclosed and books may bear a simple dedicatory inscription.

**INSURANCE AND REGISTRY**—Gifts of value should be insured. Articles of small size and considerable value should be sealed and sent as first-class registered mail.

**MONEY ORDERS**—The Army Postal Service recommends use of postal money orders to transmit gifts of money to members of Armed Forces outside the United States. These are cashed at A.P.O. in local foreign currency at rate of exchange on date of presentation.

ALL-OUT FOOD PRODUCTION GOAL SET FOR YEAR 1943

All-out war food production for every small and part-time farm in Latah county is the goal of a six-point wartime program assigned by the Federal Security Administration by Claude Wickard, secretary of agriculture, announces G. Wayne Thomas, County FSA supervisor, Thompson Abstract Building, Moscow, who returned this week from a two-day staff meeting at Spokane, where the new Food for Freedom orders were received.

"Farm labor and equipment shortages are already handicapping food production of many larger operators in this area at a time when food rationing is already a possibility and food needs of our armed forces, factory workers and lend-lease are increasing. Only the farmer with enough family labor and experience to add several cows to his herd, expand his hog enterprise or increase his poultry flock, can help meet unprecedented 1943 war food demands."

Secretary Wickard's six directives ask FSA to:  
1. Put every small farm operator with idle labor and resources on the nation's food production line by extending the necessary operating credit, health protection and secure tenure.

2. Establish planned food production goals for present FSA borrowers to meet local shortages.  
3. Aid and develop food processing, storage, marketing and transportation facilities for small farmer production.

4. Provide housing and transportation for farm labor mobilization.  
5. Secure best and fullest use of available farm land in assisting the farmers to secure leases, and supplement present inadequate unities.

6. To help meet local shortages of equipment, machinery and services by organizing cooperative groups of small farmers for joint purchase and use of machines, sires, transportation equipment, repair centers and other services.

Food for Freedom loans, up to \$2,500, are now available to every small and part-time farmer in this area who can increase production of fighting foods for home use or market and is unable to secure adequate credit from local banks or PCA. Loans can be made for livestock, feed, seed equipment, cooperative services, and building repair. Bearing 5% interest, these are repayable over a five-year period on recoverable goods and one to two years on non-recoverable goods, such as feed and seed.

Although loan funds available this year are less than last year, an attempt will be made to reach more farmers with smaller loans, explained Thomas. Information and applications for FSA loans may be secured at the County FSA office in the Thompson Abstract Bldg., Moscow.

Pocatello Tribune Comments The Pocatello Tribune comments with some vigor on the recent analysis of the state auditor's report. Editor Ifft says:

"People are showing considerable dissatisfaction over the recent report of State Auditor Calvin Wright, which shows that the Chase Clark administration, during its first 18 months, collected \$4,050,512 more in taxes from the people than was collected during the similar period of the Bottolfsen administration. As the taxpayer sees it, the Chase Clark administration not only followed the short-sighted policy in falling to reduce state taxes in the face of the inescapably vastly higher federal tax loads, but also greatly impaired the ability of Idaho people to meet the increased demands of the federal government essential to the war effort. This situation does not escape the taxpayers."

"They have been forced, under the Chase Clark administration, to pay property and excise taxes of over four million dollars more than they paid under the C. A. Bottolfsen administration and they realize that federal taxes will be several times higher this year (and last year they were double what they were the year before). This places a terrific burden on the people of Idaho, and the recent reduction in the state tax levy, broadcast from the dome of the Capitol, is not going to relieve anyone much. The ad valorem cut, as a matter of fact, only will amount to \$1,141,000. People are not going to be fooled by a tax cut of \$1,000,000 in the face of an increased collection of \$4,000,000. Very simple arithmetic shows them that they are stuck for \$3,000,000 in the process. It has been apparent to everybody, excepting only the Chase Clark administration, that the demands of the war program of the federal government must be met at any sacrifice. To attempt to carry on the state program as usual would have been enough in all reason. But had to have an extra four millions—and he took it from the taxpayer. It is inexcusable. While other states were reducing state taxes to help people meet enormously increased federal taxes, Chase Clark took four millions more from an already overburdened people."

Paper Supply To Be Cut An order calling for a 10 per cent curtailment in production of all types of paper has been prepared by the war production board, but a last-minute hitch of undisclosed nature has held up its appearance, a WPEE spokesman disclosed.

Newspaper was included in the limitation order, which was to have been accompanied by simultaneous orders from the Canadian government for a similar cut by Dominion paper mills, which turn out 75 per cent of the newspaper used by the United States newspapers.

Money Shower Hits Town Aurora, Ind. — A swirling cloud of greenbacks amazed residents of this town as they were showered with \$1 and \$5 bills. One man snatched \$300 from the air, while the depot agent standing in one spot, stuffed \$500 into his pockets. The utopia was short-lived, however, when it was discovered that the money was coming out of a mail bag that had fallen under the wheels of a Baltimore & Ohio Limited as it roared through town. More than \$2,000 was retrieved, but how much was lost was not known.

Rolling Comedy At Theatre This week's offering at the Kendrick Theatre will be a rollicking, comedy mystery drama, having as its principals Gary Cooper, Barbara Stanwyck, Oscar Homolka and Henry Travers, assisted by a number of other well-known stars.

The story revolves about a young college professor who is helping in the compilation of a dictionary, and when he goes to the underworld to get the latest in slang and "translate it" the fun really begins. These two actors need no introduction to movie patrons, and the whole promises an enjoyable evening. In addition selected shorts will also be shown.

"Hello, dear!" said a lady meeting a friend in a store. "You seem busy."  
"Yes, I'm trying to get something for my husband."  
"Had any offers?"

Mrs. Smith rushed into her living room.

"Oh, John!" she cried, as she panted for breath. "I dropped my diamond ring off my finger and I can't find it anywhere."  
"It's all right, dear," said John. "I found it in my trouser pocket."

The click of knitting needles, the creak of the rocker and the ticking of grandfather's clock were all that disturbed the silence of the room. With childish curiosity little Ellen sat watching the puris and stitches.  
"Why do you knit, Grandma?" she asked.  
"Oh, just for the hell of it," the old lady replied.

A man wandered into a tennis tournament the other day and sat down on the bench. "Whose game?" he asked. A shy young thing sitting next to him looked up hopefully. "I am," she replied.

And don't forget — we want to buy your cream!

## ABOUT SOLDIER BOYS

Fort Belvoir, Va. October 7, 1942

Dear Friends:  
Received seven copies of the paper yesterday, and was very pleased to read what all the Kendrick and Juliaetta people are doing. I have been here in Fort Belvoir for five weeks, and like it very much. I think it a very pretty country.

I also think Washington, D. C., is a beautiful spot, and I am glad I was sent to this part of the country and had an opportunity to see it.

I really appreciate the paper, and thank very much for sending it. Tell everybody "hello" for me.

Yours truly,  
Pvt. Lloyd Nye.

Somewhere With The Navy October 2, 1942

Dear Mac:  
I received seven copies of the paper recently. Some of them were pretty late, but had a mighty good time reading them. I want to thank you again for sending them to me.

I think this "V" mail is sure the thing! — it saves me money and has just about the right amount of space in which to write. I always look over the columns of the paper for word from any of the other men in the armed services. You are sending a lot of papers by now, and we all appreciate this greatly.

I will have a new address soon, and will let you know.

Sincerely,  
Wayland Davis.

Wayland Davis Coming Home

Word was received Wednesday morning that Wayland Davis had arrived in San Diego, and was expecting to come home soon on a furlough.

**A Correction**  
It was stated in the paper of last week that Mrs. Clarence Johnston had undergone an operation. The item should have read Mrs. Roy Johnson.

## STONY POINT VICINITY

(Delayed)  
Mr. and Mrs. Lawrence Heimgartner are the parents of a daughter, born Friday evening, October 2.

Miss Flora Heath returned to Washington, D. C., after a two-week visit at the home of her parents, Mr. and Mrs. Newt Heath. Her visit was saddened by the death of an aunt.

Mrs. Heath's sister, during the visit, Mrs. A. E. Deane, who formerly taught in the Lewiston schools, is again "in the harness" and has gone to Canfield, Ida., to teach a school there. We are glad to report that Mrs. Deane's health seems greatly improved.

Our university boys were home over the week-end.

Most of the men of this neighborhood are in the mountains, hoping to bring home their limit of elk and deer.

Among the Lewiston visitors Saturday were Mr. and Mrs. Eldon Heimgartner and children, Mrs. Albert Heimgartner and daughter Bernice, Betty and Vernie Heimgartner, Bonnie and Marie Daniels, and Mrs. Hugh Parks and daughters.

Albert Heimgartner's infected elbow is troubling him again.
