## KENDRICK LOCALS AND PERSONALS TWENTY YEARS AGO

Albert Wegner arrived the first of the week for a visit with his parents, Mr. and Mrs. Carl Wegner.

Virgil Flesham of the Fairview community is making preparations to plant several acres of onions in the spring. He says that at present prices he can make more on onions than anything he knows of. Mrs. Koopp of Leland raised 50 sacks of onions on a half acre last year, which ought to represent a fair margin of profit.

Hank Bleck of Southwick was a Lewiston visitor this week.

At a meeting of the Potlatch Highway commissioners last Saturday at Leland the principal business transacted was the appointing of road overseers for the various districts, as follows: Stony Point—William Stephens; Fairview—Virgil Flesham; Leland—Lloyd Kuykendall; Cameron—Gus Blum.

Bob Spencer was a Spokane visitor the first of the week.

Buckles-Wilken—Miss Carrie Buckles of Lewiston, daughter of Mr. and Mrs. Jeff Buckles, was married to Mr. Herman Wilken last Sunday morning at 9:30, Rev. D. J. W. Somerville, rector of the Episcopal church officiating. The wedding took place at the home of the bride's parents at Lewiston. The bride was attended by her sister, Miss Nellie Buckles, and George Wilken, brother of the groom, acted as best man. Following the ceremony a dainty wedding breakfast was served to the bride party, which included a few intimate friends and relatives of the contracting parties. In the afternoon the happy couple left for their home near Fir Bluff, where Mr. Wilken is engaged in farming. Mrs. Wilken has taught very successfully at Cameron and Kooakia. She is a graduate of Kendrick High school and Lewiston Normal. Mr. Wilken was in the mercantile business and was postmaster at Cameron a few years ago.

Dr. W. A. Rothwell, who is now the pioneer resident of Kendrick, stated this week that the mild weather experienced in the Potlatch section during the past several weeks doesn't signify anything to him. He has a picture on the wall of his office that was taken on the first of March a good many years ago. It shows a frozen waterfall that came from the old millrace near where the old flour mill used to stand. Several people were sitting on this huge block of ice. The temperature on this particular day was 12 below zero and ice houses were being filled with eighth-inch ice. Two weeks prior to the day the picture was taken buttermilk were in full bloom along the slopes of the Potlatch.

Installation of officers of the Rebekah lodge took place last Tuesday, Mrs. Pearl Long, district deputy, acting as installing officer.

Milton Benjamin of Southwick while cutting wood on the Finke place, met with rather a serious accident. An axe which he had driven into a tree above his head, fell and cut a deep gash in his scalp. He was taken to Leland where the doctor took five stitches to close the wound.

Leland Items—Mrs. Denzil Kuykendall is visiting her sister at Dayton, Washington. The Ernest Schmidt family were visitors in the Claude Craig home last Sunday. Little Miss June Parks, weight six pounds, arrived at the home of Mr. and Mrs. Hugh Parks Sunday and bids fair to be a very popular little Miss as she is the first and only grandchild in the Parks or Hund families. Mrs. Lucy Hoffman is visiting her children here. Mr. and Mrs. Koopp dined Sunday with Mr. and Mrs. Lloyd Kuykendall.

Cameron News—Mr. and Mrs. Gus Kruger entertained the following at dinner Friday evening: Ida, Herman, Otto and Walter Silflow, Henry Wendt, August Brammer, Wanda and Wilbert Brunseik, Gustav, Laura and Minnie Blum. Misses Martha Finke and Henrietta Blum went to Lewiston last week, where they are working. Announcements and invitations have been received for the wedding of Miss Martha Meyer to Sam Whidman of Spokane. The ceremony took place on Wednesday of this week in Spokane. Miss Meyer is a well-known community and Mr. Whidman is a young business man of Spokane. The young people will make their home in Spokane. The following invited guests left Tuesday to attend the wedding: Mr. and Mrs. Carl L. Wegner and children, Mr. and Mrs. August Meyer and children, Mr. and Mrs. Fred Utke and son, Miss Wanda Brunseik and August Brammer. Miss Brunseik acted as maid of honor and Mr. Brammer as best man. Mildred Wegner and Martha Groh, both nieces of the bride, acted as flower girls.

## NOTICE TO SUBSCRIBERS!

According to an A. P. O. (Army Postoffice) ruling just received, it will no longer be possible for parents, relatives or friends to come in and request that the Gazette be sent to their son, husband, etc., who may be in the armed services of our country.

The new ruling requires that the service man himself send in a written request to us for the paper! All this means, of course, is a change in the method of requesting the Gazette. Instead of your requesting it for him, he must write and request it himself.

So, if you want him to receive the paper, write and tell him to write us — it will be sent promptly if he is a bonafide resident of the Kendrick trade area.

Men in the armed forces who are now receiving the paper, are in no way affected!

P. S. — We mailed 109 Gazettes to local boys in the armed services this week!

## MARY BELL PRESSNALL BRIDE OF ELMER E. NEAD

A simple but pretty wedding took place at the home of Rev. and Mrs. B. W. Pressnall, Sunday, January 10, when their elder daughter, Mary Belle, became the bride of Pvt. Elmer E. Nead of McChord Field, Wn. Pvt. Nead is a son of Rev. and Mrs. Walter J. Nead of Colton, Oregon.

The couple were united under a canopy of pink and white crepe paper streamers, bordered with potted geraniums. The bride wore a floor-length dress of teal green, and a finger-tip veil, held in place by a band of white roses. Her bouquet was of pink and white rose buds.

The groom was attended by his cousin, Dewey McAllister.

## Thermometer Gets Workout

Locally, thermometers got a real workout in this section over the week-end and the fore-part of this week.

Saturday, while the thermometer was not low, a cold north wind blew, but died away Saturday evening and the mercury started a nose dive for the bottom.

It checked itself Sunday morning about daybreak with a neat little zero to 2 below here in the canyon, and readings of 5 to 10 below on the hills.

It rose slightly Sunday, but that night again headed for the bottom of the tube, recording 8 to 10 below Sunday night in the canyon, and from 16 to 21 below on the hills.

Monday it began to moderate, and Monday evening had climbed back to about zero on the ridge.

Tuesday the climb continued until a maximum of 25 above had been reached, and Tuesday night it held about steady, with a few particles of dry snow falling.

So far as we know no frozen car radiators were reported, but plenty of pipes in homes and business houses went down for the count, and Edgar Long and the city thawing apparatus was pretty busy for a couple of days thawing them out.

Attend Class Of Instruction

Mrs. H. Galloway, Mrs. Everett Fraser and Mrs. A. O. Kanikikber spent Saturday in Moscow attending the Red Cross school of instruction for surgical dressings. These ladies are now qualified to instruct the women of the community on how to wrap and prepare surgical dressings.

Undergoes Major Operation

Gayd Craig, daughter of Lewis-Clark, underwent a major operation for cancer of the breast at the hospital in Moscow.

At last week's meeting was getting along as well as expected. Mrs. Craig is now staying in Lewiston.

## DOINGS OF INTEREST IN THE KENDRICK PUBLIC SCHOOL

Grade News

The first graders have begun a new book. The second grade has finished an Eskimo story and made freehand drawings of Eskimo life.

Bobby McCall, Delmer Riley, Dolores Cox, Lloyd Arnett, Orville Halseth and Buddy Clemenhagen of the third and fourth grade room have been absent this week.

All but a few plants in the school building froze over the bitter cold week-end. Most of the plants in the fifth and sixth grade room were geraniums and cacti.

The fifth and sixth grade pupils that were not absent or tardy the first semester were Blanche Diehl, Danny Crocker, Roy Riley, Janice DeLoel, Joretta Holt and Maxine Dammarell.

The fifth grade is working on fractions in arithmetic and the sixth grade on decimals.

January 14, the Juliaetta grade school challenged the Kendrick grade school to a basketball game in the Kendrick gym. It looked bad for Kendrick at the half, but they finally got to rolling them in, and when the whistle blew at the end the score was tied 21-all. Overtime was then played and Kendrick won 27-23. Don Brown was high point man with four baskets.

The boys are getting suits together and will dye them black. They also are planning to return Juliaetta's game soon.

High School News

The high school attendance has been down lately, due to illness and cold weather.

Arrangements have been made to carry the Hot Lunch Program on for the remainder of the year. Cooperation of the following districts made this possible: 22, 66, 10, 102, 91, 32, 38, 92 and 24. As long as surplus commodities are still available, the quality of the program should remain as high as usual.

Cold Cuts Attendance

The Farm Machinery Repair school being operated by the government in the Kendrick Bean Growers warehouse, and under the direction of Bob Clemenhagen, has suffered considerably in attendance the past few days, due to the extreme cold weather and icy roads.

Bob said it was almost impossible to keep warm enough to work comfortably, and besides that farmers were so busy caring for chickens and stock (necessitated by the cold) that attendance had been very poor, but would pick up again with the coming of warmer weather.

The importance of this school can hardly be overestimated, and it is to be hoped that all farmers will attend as regularly as possible.

If you have machinery you wish worked on during school hours, see your district committeeman. He can make the necessary arrangements for you.

## Bridge Club Dinner

The Bridge club enjoyed a 6:30 supper in the home of Mr. and Mrs. L. W. Mason on Wednesday evening of last week.

## Purchased Bowling Alleys

A deal was consummated recently whereby Kenneth Brocke purchased the Dick Blewett "duck pin" bowling alleys, and last week-end M. C. Halliday and Tom Sturdevant finished their installation in the Brocke building in the room formerly occupied by the Curtis Hardware.

A door was cut through from the coffee room and the alleys are now ready for plenty of use.

## P. T. A. Variety Program

The Kendrick P. T. A. will give a variety program Monday evening at 8:00 o'clock in the High School. A small admission of 5 cents will be charged for children and a dime for adults.

A short business session will precede the program which is scheduled to start at 7:30 p. m.

Everyone is invited to attend. The proceeds will go to the school.

## Farm Machinery Mobilization

Idaho's farm machinery mobilization week, scheduled for January 25 to 30, has been planned to obtain a complete check of all farm machines available for 1943 production, explains Hobart Borenford, agricultural engineer with the University of Idaho college of agriculture.

The need for the exchange and sharing of machines is becoming apparent as the shortage of labor and equipment is realized, he explained. As part of the plan, idle machinery pools have been proposed wherein equipment and parts not needed on individual farms may be made available for use by neighbors. The farm machinery and equipment required to meet increased acreage goals is certain to be critical for such crops as peas and beans.

As a guide to the full use of farm machines in Idaho, it has been recommended that combines be scheduled to operate on a basis of 50 acres per foot of width; pea dusters on a basis of 30 acres per foot of width; potato diggers, 50 acres per row; mowing machines, horse-drawn, 15 acres per foot of width and tractor mowers, 45 acres per foot of width. Similar schedules of operation have been made for other types of equipment, including 15 cows per single-unit milking machine; 700 hours of operation for wheel tractors and 1,000 hours of operation for crawler-type machines.

First step in the 1943 farm machinery program is to put all machines in the best possible shape for production operation. The second step is, whenever possible, to use all machines to their full capacity. Repairing of equipment before production season starts and the service, adjustment and maintenance of equipment during the operating season will be important factors in meeting the 1943 farm labor shortage and the agricultural production goals.

## Missionary From Bolivia Here

The Rev. John Herrick, a missionary on furlough from Bolivia, arrived in Kendrick Tuesday evening to spend several days in and around Kendrick showing pictures and giving lectures on his life and experiences.

Everyone is invited to bring a covered dish and sandwiches. All are welcome.

## Bread No Longer Sliced

Housewives — you are faced with the terrible job of again slicing bakers bread — for by government decree such bread can no longer be delivered in a "sliced condition."

But in case you are at a loss how to proceed with this new household drudgery, the government has issued full and complete instructions, as follows:

"Lay the loaf on its side — don't bear down on your knife — use a gentle sawing motion. Train your eye on the exact point you're trying to cut through. Then hold the knife flat against the loaf while you're cutting it — and be sure the knife is sharp."

My, my! From the fuss made over this little item it's a wonder the OPA hasn't called in Einstein to devise a precision slide rule for the exact slicing of bread!

## Brady Gulch Closed

For the first time in many years, Brady Gulch is closed to traffic. The closing is not official but due entirely to "Old Man Winter."

A blocking of the little creek by ice caused water to run down the road, which in turn caused so much ice in the road that wheeled traffic was unable to negotiate it Wednesday.

It is believed that considerable bull-dozer work will have to be done before the road will again be passable.

In the meantime traffic is using the Juliaetta grade, which is passable, but in poor condition.

## Girl Scout Meeting

The Kendrick Girl Scouts elected officers at the last meeting, as follows: Nellie Fry, patrol leader; Erma Langdon, assistant patrol leader; June Brown, secretary-treasurer; Beverly Schupfer, reporter; Chloe McKeever, war work chairman.

The girls decided to start a small quilt for a baby crib, the actual work to begin next meeting.

The Girl Scouts wish to inform the housewives of Kendrick that they plan to call at the homes for waste kitchen fats. The collection will be made every other week.

## Coffee \$31 Per Pound

Coffee (when obtainable) sells at \$31 per pounds in the Netherlands, according to a London report.

This information leaked out through a story told about the adventures of four and a half pounds of coffee beans which were recently sold on the black market in the town of Roermond for \$113.

By the time the purchaser had taken his precious parcel a few steps nearer home, it was reported, he was able to sell it for \$129. The second purchaser was also able to re-sell the coffee at a profit, the final price amounting to \$140.00!

## Purchases Service Station

A deal was closed Tuesday where-in Ed. Reglin became the owner of the Conoco Service Station, having purchased the stock from Ed. Dammarell.

Ed. Dammarell retains the wholesale division of Conoco the same as before, but has severed retail sales connections.

## Want Help On Income Taxes?

According to Tuesday morning's Lewiston Tribune, if you are in need of assistance in making out your income tax report, you may obtain same at the Juliaetta postoffice on February 8; Kendrick Farmers Bank, February 9; Southwick, February 10.

## Snow Really Falls

We're not supposed to mention this, for the news isn't 44 hours old at this time, but nevertheless Kendrick residents were greeted by 7 1/2 inches of nice white (mossy) what Wednesday morning, and as this is being set it still is fairly thick and fast.

# The Need For CO-OPERATION

## Between Farmers And Businessmen

IS GREATER TODAY THAN EVER BEFORE!

For both face a critical shortage of manpower, tools and materials --- and the greatest job in history to be completed.

Today the government is asking the farmer to produce more beans, more eggs, more meat, more peas, and other crops vital to the war effort, but which call for greater man-hours than wheat, barley, oats and like farm crops. You, as farmers and loyal Americans will respond, we know, and do your best to fill these demands — and will fill them!

But along with the man-power shortage you farmers face a shortage of machinery, tools and equipment of all kinds — which further complicates the job before you.

Perhaps, from the outside, looking in, it may seem that the businessman does not have this problem — or any severe war problem, but such is far from the case. The businessman is faced with the problem of obtaining the articles vital to the success of your production. If unobtainable from one source, he must try another, and perhaps still another, and eventually either get for you the article or a substitute that will fill your need.

You, Mr. Farmer, can help yourself, the merchant and the war effort greatly, by ordering necessities of all kinds as soon as you can see the need for them — and personal services, too, should be arranged for as far as possible in advance.

But please don't buy or order items you do not need — don't hoard — for to do so may be to rob your neighbor of some vitally needed article, and thereby hurt him and the war effort itself.

You Mr. Farmer, will find the merchants and business men of your home town — Kendrick, ready and willing to help you in every way possible with your problems. You will find their stocks and services ready to assist you today — so far as war conditions permit.

We are prompted to sponsor the above ad. through our desires to serve the war effort and our interest in community welfare.

### WORD FROM LOCAL MEN IN OUR ARMED FORCES

Somewhere In Australia  
January 6, 1943  
Dear Mac:  
I just thought I would drop you a line to let you know that I have been receiving the paper, and I want you to know how much I appreciate it. The date may be way behind time, but it's news just the same. I would like to have you tell any of the old bunch, if you see them, that I'd like very much to have them drop me a line.  
Well, that's about all I have to say, as there's really nothing to write about.  
Your friend  
James A. Kuykendall.

P. S. Does Kendrick still have a good basketball team?  
Note: You bet they have, Jim. You evidently haven't received any of the recent copies that tell of the boys' victories. But to date they haven't lost a conference game. The starting lineup generally is: Walter McCall, Ozzie Kanikkeberg, Bob Fraser, Charles or Teddy Deobald and Eldon Baker. First string subs. are Charles or Teddy Deobald and Sonny Daugherty. Ten games have been played; seven won. We lost to Lewiston by two points; to Moscow by two points and the first game of the season to Troy, we can't remember the score.

Norman, Oklahoma  
January 14, 1943  
Dear Friends:  
Just a note to let you know of a slight change in my address. Although it is a minor change it is a very important one to me. Am now receiving the paper regularly, and it takes from six to seven days to arrive here. Although late, I sure enjoy every inch of it.

School is just a daily routine here. They now have a schedule set up whereby we have physical exercises every morning and go to school from 2 p. m. until 9:15 — that is, just half of the base, and the other half is just the reverse of the above. Well, you won't find me saying that I like the navy or that I don't, only to the extent that as long as I am here I have to like it, and will do my best all the time.  
I will close for this time, as there really isn't any news to write about around here.

Just another sailor,  
Larry E. Langdon.

Portland, Oregon — Everett Lewis Farrington of Kendrick entered the Marine Corps this week through the Portland recruiting station as a voluntary inductee. He has been transferred from Portland to San Diego for "boot camp" training.

A graduate of Kendrick High school in 1941, he drove a school bus locally and worked in the Portland ship yards for eight months before going to work for Potlatch Forests until his induction. He is the son of Mr. and Mrs. James R. Farrington.

Bemerton, Wash.  
January 16, 1943

Dear Friends:  
I received my third copy of your paper today and want to thank you for sending it. It really is great to get the home town news and I already look forward to each and every copy. Especially do I enjoy the letters you print from the boys in the service, as they are about the only way anyone can keep track of his former schoolmates and friends, as they sure are scattered all over the world now.

I have been here in the navy a month now, and like it quite well. Although I don't know too much about it yet, I believe the navy will be O. K. No hints have been given how long I'll be here, and I am now waiting for further orders. At the present time I'm on Shore Patrol duty, which is the navy's branch of Military Police. The job is O. K., but it gets plenty tiresome, as we are on duty long hours.

It rains nearly every day here and everything stays quite wet. I tried to snow last week, but soon ended up raining. The last few days it has turned quite cold, so maybe we'll get a bit of winter yet. I would like to see about five or six inches of snow, as it would be a lot better than all this rain.

If any of my friends would care to write me, they can get my address from my folks. Just as it seems to be with every soldier or sailor, the daily trip to the post office is one of the more or less exciting happenings of routine here.  
Thanks again for the paper.  
Sincerely,  
Vern A. Wegner.

Chas. Cox, who is in the Army Air Corps, stationed at the army air base at Richmond, Virginia, was home on furlough last Thursday and Friday, visiting his mother, Mrs. J. M. Cardinal, his brother, Carl Cox and family on Texas ridge, and with other friends and relatives. He called at the Gazette to thank us for the paper and visited for a short time. Chas. stated he was getting used to army life and rather liked it, but didn't like the country or camp in which he was stationed.

He stated he had a permit to return to camp via a bomber from Spokane, if he could catch one going that way, but that it was too big a gamble on catching one and being late getting back to camp, so was going on the train. He said that of his 12-day furlough, five were taken to go each way.

Dale Miller returned home Saturday from Lewiston, having finished his C. P. T. course there, and is now awaiting instruction on where to report for further schooling. He hopes the army will locate him at some field near here, but does not know when or where.

Herman Loeser, Floyd Dorendorf and Leonard Stewart, all of Southwick, and Lloyd Farrington, Kendrick, were inducted into the U. S. army Monday, January 18, and will leave for duty on Monday, January 25th.

Sgt. Elgin W. Flesham, assistant flight officer at Merced Field, army air base, is home on a 15-day furlough.

 This week will see yet another double feature offering at the local theatre.  
 The first of these will be "Sweater Girl," a tuncful, songful picture starring Eddie Bracken, June Preisser, Betty Rhodes, Phillip Terry, Frieda Inescort and Nils Asther. It gives promise of plenty of music and plenty of fun.  
 The second offering of the evening will be "Buy Me That Town," a story of a big-time mob and a small time girl, who soon moved in to take over the mob. It is said to abound in mystery, thrill and action, as well as having its comic side.

**Error In Advertisement**  
 In last week's issue this office made quite a serious mistake in the advertisement of the Lewiston Grain Growers through the omission of the simple word "but."  
 The advertisement wording read: "In order to conform to a recent interpretation of our Revenue Laws —The Lewiston Grain Growers may not sell to any bonafide producers."  
 It should have read: "In order to conform to a recent interpretation of our Revenue Laws — the Lewiston Grain Growers may not sell to any but bonafide producers."  
 "But" is just a three-letter word but it certainly changed the meaning of that ad.  
 The advertisement has been repeated this week — with the mistake corrected. We apologize.

**THE OLD JUDGE SAYS...**

"Judge, would you mind tellin' Charlie here what you told me the other night walkin' home from lodge. I can't word it just the way you did."  
 "Sure thing, Tim. Here's what I told him, Charlie. There's no such thing as votin' a nation, a state, a county, or even a community dry. We had proof enough of that during our 13 years of prohibition. What you really vote for is whether liquor is going to be sold legally or illegally...whether the community is going to get needed taxes for schools, hospitals, and the like, or whether this money is going to go to gangsters and bootleggers. That's the answer, boys... simple as A-B-C."

## Please Notice!

**IT IS IMPORTANT THAT YOU PLACE CHICK ORDERS IMMEDIATELY!**

As you undoubtedly know the problem of securing baby chicks will be greater this year than ever before, due to labor shortages, unusually large demands, etc. So if you are one of the many who this year will co-operate in the government Food For Victory parade, it is important that you place your orders for baby chicks now — with delivery at a later date, or course — but the important thing is to order immediately.

We have made arrangements to secure these chicks from one of the best-known hatcheries in the Northwest, and of course they are government approved.

So come in and place your order as soon as possible, but under no circumstances wait beyond Feb. 1.

Whatever became of — Razor blades you were supposed to use once and then throw away? The time when a 14-foot pole vault was a sensation? Gin and ginger ale? The days when the nation was badly divided over the correct holding for a two-bid? Plus-fours? Sunday pleasure driving? The theory that all those Olympic Games would create good will among nations?

He knocked at the door of the college boy's room. "May I come in? It's the room I had when I went to college in '90," he said. The college boy invited him in. "Yes, sir," he said, lost in reverie. "Same old room. Same old windows. Same old furniture. Same old view of the campus. Same old closet." He opened the door. There stood a girl, terrified.

"This is my sister," said the college boy. "Yes, sir, same old story. Nothing has changed."

Perhaps, under rigid gas rationing and mileage control it may bring an easing of the present tire situation, or emergencies may develop causing even more stringent controls — but at any rate, count on us to keep your present tires rolling to their limit, and when you have a tire permit or recap permit, bring it to us. We'll do our best to give you the most suitable tire.

Perhaps parts will be difficult to obtain for your car, truck or tractor, but count on us to do our best to obtain them for you and keep you operating. We advise the best of attention and lubrication for all your equipment.

Keep Eyes ON THE ALERT

- for Wartime Tasks
- for Healthful Living

Let there be no blackout of good cheer and good light in your home. Young eyes and old need good light for good health. And too, a bright, cheerfully lighted home is a happy home.

For the worker at wartime tasks, keen eyesight is vital. That means good light on the job . . . and at home. Usually the equipment you already have can be made to provide proper lighting. Remember — good light is cheap but good eyes are priceless.
