NO. 7

POINT RATIONING OF FOODS TO BEGIN MARCH 1

The Gazette is in receipt of the following information from G. T. McAlexander of the Latah Rationing Board:

Canned Fruits, Vegetables and Soups are rationed because every week we are sending shiploads of canned goods to feed our fighting men and our fighting allies in Africa, Britain and the Pacific islands. We must see that they get all the food they need. We at home will share all that is left. Point rationing will be used to guarantee you and everyone a fair share of America's supply of canned and processed fruits and vegetables, soups and juices.

How they are rationed:
1. Every eligible man, woman, child and baby in the United States is being given War Ration Book Two. (This book will not be used for sugar or coffee).

2. The Blue stamps are for any kind of canned or bottled fruits and vegetables; canned or bottled juices and soups, frozen fruits and vegetables and dried fruits. (The Red stamps will be used later for meat).

3. The stamps in this book are "Point Stamps." The number on each stamp shows you how many points that stamp is worth.

4. The letters show you when to use the stamps. The year will be divided into rationing periods. You can use all Blue stamps marked A, B and C in the first rationing period. A, B and C stamps cannot be used after the first rationing period ends.

5. You may use the Blue stamps when you buy any kind of the rationed processed foods. See the official list showing every kind of rationed processed food, at your grocers. Different kinds of these foods will take different numbers of points. For example, a can of beans may take a different number of points from a can of peas.

6. Of course, the more you buy of anything the more points it will take. For example, a large can of peas takes more points than a small can.

7. The government will set the "Points" for each kind and size and send out an Official Table of Point Values which your grocer will put up where you can see it. The government will keep careful watch of the supply of these processed foods and make changes in point values from time to time, probably not oftener than once a month. The changes will be announced when made and posted in the stores.

8. The number of points for each kind of processed food will be the same in all stores and in all parts of the country.
How to Use Ration Book
To buy canned or bottled fruits, vegetables, soups and juices, frozen fruits and vegetables and dried fruits, remember the following:

1. The government has set the day when this rationing will start — March 1. On and after that day, take your War Ration Book Two with you when you go to buy any kind of these processed foods.

2. Before you buy, find out how many points to give for the kind of processed foods you want. Prices do not set the points. The government will set different points for each kind and size no matter what the price. Your grocer will put up the official list of points where you can see it. The points will not change just because the prices do.

3. When you buy, take the right amount. Do this in front of your grocer or delivery man and hand them to him. The grocer must collect a ration stamp, or stamps, for all the rationed processed foods he sells. Every rationed processed food will take points as well as money.

4. Do not use more stamps than you need to make up the right amount. For example, if the food you buy calls for 13 points it is better to tear out an 8-point and a 5-point stamp than two 5-point, a 2-point and a 1-point stamp. Use your smaller point stamps for lower point foods. You can take the stamps from more than one book belonging to your household if your household.

5. Every person in your household, including children of any age, has a total of 48 points to use for all the rationed foods for one rationing period. This means that you may use all the blue stamps marked A, B and C from all the books during the first period. You may use as many stamps as you wish at one time — But when they are used up you will not be able to buy any more of these processed foods till the next stamps are good. The government will announce the date when the next stamps are good.

6. Use your household points carefully so that you will not run out of stamps. And buy with care to make your points come out even because the grocer will not be able to give you change in stamps. Use the high-point stamps first, if you can.
No more than five 8-ounce cans of canned goods may be allowed per person without penalty at registration time, when canned goods of all kinds (excepting home canned) must be declared at the time of registration. If you have more than that coupons will be torn from your book on all over that amount.

Consumers should also remember that they can buy no canned goods of any kind from February 21 to March 1 — and plan accordingly. No one should, however, purchase more than for immediate needs — since all over five eight-ounce cans per person in a family will cause a corresponding loss of coupons.

At the time of going to press absolutely no definite information of any kind regarding registration for War Ration Book No. 2, but L. W. Mason, superintendent of schools, said Wednesday evening that it was expected the registration would be held some time during the week of Feb. 22 to March 1, at the school house. As soon as anything definite can be found out, word will be sent with the school children and to the business houses and homes in Kendrick.

Thomas LaBolle, 80, Passes
Thomas LaBolle, pioneer of the Texas ridge country, and who would have been 80 years old next month, died Thursday night of last week at the home of his son, Aubrey, on Texas ridge. Mr. LaBolle had been a farm resident of that area since 1887.

Mr. LaBolle was born March 14, 1863, in Illinois. He retired from active farming in 1936. Besides the son, survivors are a daughter, Mrs. Lewis Schultz of Craigmont; a brother, Joe LaBolle in Illinois; and a sister, Mrs. Theresa Guifoyle, Spokane.

LAPWAI AND KENDRICK WIN FIRST ROUND OF TOURNAMENT

Lapwai and Kendrick high schools were first-round winners at the Valley sub-district tournament in Lapwai Monday evening. Lapwai swamped Juliaetta, 45-18, while Kendrick, with a blistering second-half attack, doubled the score on Southwick, 34 to 17.

Lapwai 45, Juliaetta 18
Building up a 21-6 halftime lead, Lapwai had little trouble in disposing of Juliaetta in the turnover opener. George Webb, with 13 points, and Jesse Greene, with 12, led the Lapwai attack. Knight, with eight, was high for the losers. Juliaetta's six-man squad, with but one substitute tired in the closing minutes. Lapwai used 10 players. No one fouled out.

Kendrick 34, Southwick 17
In a freak game, Kendrick came to life after trailing 6-12 at the end of a slow first half to pour 28 points through the hoop in the second half, while holding Southwick to five. Fouls were called thick and fast, five players being thumbed off the court before the game ended. Ziemann of Southwick had two personal on him in the first few seconds of the game, while Ted Deobald of Kendrick had three. Both later fouled out. Baker and N. Fry of Kendrick committed their fourth fouls in the last minute of play. Reece of Southwick was the fifth player to leave the game with personal No. 4.

A total of 32 personals were called, 15 against Kendrick and 17 on Southwick.

Weather And Roads
Well, even if the groundhog did see his shadow, we have had at least four beautiful days — Saturday, Sunday, Monday and Tuesday. The sun has shown from dawn to dark during those days, and the temperature is just about to bring on a number of severe cases of spring fever — and some of the most optimistic are even talking of going squirrel shooting.

The snow has almost entirely disappeared in the canyon, but still lies plenty deep on top of the ridges, but is leaving at a good clip. As it leaves the bottom of the road gets further and further away, and it is freely predicted that a number of roads will soon be impassible.

The cold nights, however, are helping greatly, since the temperature drops below freezing each night.
Only one of the school buses — Big Bear Ridge — is traveling without chains. The others wear them as standard equipment.

Digs Up Storage Tank
Otto Schupfer and Roy Michael check dug up the big gasoline storage tank from in front of the Kendrick Theatre Monday.
The tank, of approximately 500 gallons capacity, had been buried there for many years, and it has been probably nine or ten years since it was in use — yet about five gallons of gasoline remained in it.
Otto is installing the tank back of the phone office for the storage of fuel oil for the stove in that place of business.

First Baby Chix Arrive
The Kendrick Co-operative Creamery received their first shipment of baby chicks Tuesday of this week — and the fluffy little fellows caused considerable interest in passers-by. Frank Harris stated that where proper facilities were available to care for them that these early chicks would show their owners a neat profit later in the early chick and egg markets.

John DeHaven purchased the shipment.
Drill Held
Monday evening of this week Company 2-K-1 I. V. R. met for drill in the High school gymnasium, with but a fair turnout.

However, as the weather and roads get better a greater attendance is expected.
Outside drill on the school grounds is hoped for within the next week or more.

Absolutely no definite information of any kind regarding registration for War Ration Book No. 2, but L. W. Mason, superintendent of schools, said Wednesday evening that it was expected the registration would be held some time during the week of Feb. 22 to March 1, at the school house. As soon as anything definite can be found out, word will be sent with the school children and to the business houses and homes in Kendrick.

Quite a number from Kendrick, Juliaetta and Southwick were present at the sub-district tournament in Lapwai Monday evening — but not nearly so many as in former years. Cars there were loaded to capacity.

Still Wants To Buy Companies
U. S. Sen. Homer T. Bone opened a campaign Saturday in support of Grange sponsored initiative No. 12. Calling the legislation of "overwhelming importance" to the state and necessary "full benefit" from its hydro-electric developments, the senator predicted America's future after the war would hinge on electricity and the technological developments that electricity would bring.

The initiative, Bone explained, would enable state-wide acquisition of private power facilities, providing state machinery to accomplish much the same results as the bill the senator has in congress now to acquire private power facilities by federal law.
Comment: We haven't heard even the slightest whispers of a power shortage of any kind in the Pacific Northwest — the private power companies apparently doing a top-notch job of supplying all war industries, and it seems to us that there is far better use, right now, for funds received from the sale of War Bonds and Stamps than putting that money into power companies. Most folks buy Bonds and Stamps with the expectation that that money will buy guns, tanks, planes, ships, clothing and food for our boys in the services and for our allies — and we believe that's what it should be spent for!

Bridge Supper
Members of the Bridge club enjoyed a sumptuous supper in the home of Mrs. Estella Leith last Wednesday evening. Following supper, bridge was played at five tables with high scores going to Mrs. Wm. McCreary and Roy Ramey.
Hostesses for the evening were Mesdames Roy Ramey, Wade Keene, Roy Jump and Estella Leith.

A Correction
In last week's list of Red Cross work completed there was a misstatement regarding the kits made. The material was sent us and the local women filled them, which amounted to \$31.00 for 30 bags.
The name of Mrs. N. E. Walker was inadvertently omitted. She is chairman of the knitting work.

Red Cross Workers Needed
A letter received by Mrs. Hiram Galloway from the Latah County Chapter of the Red Cross this week, makes the following request:
"Dear Mrs. Galloway: We have been advised by our National headquarters by telegram of an urgent need for additional surgical dressings in the number of 180,000,000 by March 15th in order to meet our war requirements. We are also asked to speed the production. Enlist additional workers, if necessary. (Signed) Mrs. Mabel Walters, Ch. S. d."

The local surgical dressing unit has been open three afternoons already. The first day six ladies were out, including three instructors, the last day, nine. The unit can accommodate 18. Close to 600 dressings have been folded. You can readily see we are going to have to step up production.
Comparing reports from a unit similar to ours, in one of our neighboring towns, we find 35 women folded 1450 dressings in an all-day session.
This is one of the things we women can do here at home to help. Let's go!

Word From Australia

He stated further that the ferocity of the fever was extreme while it lasted, but thank goodness it lasted only about a week.

Tractor School Busy Place
The local Farm Machinery Repair school being held in the Kendrick Bean Growers warehouse is proving a very popular place these days — and the building is jammed to the doors with tractors, but now and then a combine motor or other piece of farm equipment makes its appearance.
It is stated that some difficulty is being experienced in the obtaining of repair parts — but not as much as was expected.

Final Meeting Held
The Girl Scouts met last Tuesday at the home of their leader, Mrs. Marvin Long. It was put to a vote among the girls and decided that the organization would disband, as the girls wish to join the 4-H club.
All are sorry to give up Girl Scout work but considered the advantages of 4-H work in a town of this size.

WHEAT PRICES SLIGHTLY LOWER AT PORTLAND

Domestic grain markets were somewhat unsettled during the week ending February 12, according to the U. S. Department of Agriculture. Futures quotations in midwestern markets fluctuated within narrow ranges, with wheat, corn and flax slightly higher for the week, while rye, oats and barley turned fractionally lower. In the Pacific Northwest, cash wheat prices declined 1/4¢ to 1¢ per bushel on the principal grades during the period. Market weakness here principally reflected a very slow demand at terminals from all classes of buyers. New domestic flour business was reported slow and mills were not actively in the market except for special types of wheat to complete milling mixtures. Export flour business also was lighter than during other recent weeks, despite an increase in the indemnity to \$1.75 per barrel, effective February 11 through February 25.

Sales of wheat from the Pacific Northwest for rail movement to the Midwest have declined greatly during recent weeks. Trade reports indicated the cash wheat market situation at North Coast terminals as extremely quiet during the past week. Light trading and movement was indicated by wheat receipts of only 64 cars at Portland during the holiday shortened week-end, against the 117 cars during the previous full week. Puget Sound and Columbia river terminals received only 325 cars of wheat compared with 475 cars during the previous week. Reports from certain producing areas of eastern Washington, particularly Walla Walla, indicate severe damage to the winter wheat crop through freezing during the recent cold spell. Winter barley was also reported seriously damaged in that area.

Cash wheat bid prices on the Portland Grain Exchange, February 11, showed: soft white, \$1.24; soft white, no Rex, \$1.26; white club, \$1.26; western red, \$1.26; ordinary hard red winter, \$1.26, all basis No. 1 grade in bulk, 15-day shipment, coast delivery.
No. 2 western barley was quoted at \$31.25 bid and \$32.25 per ton asked, bulk, for coast delivery on the Portland Grain Exchange, February 11.

The San Francisco wheat market remained quite steady, reflecting the moderate offerings from central California growers and fairly active demand from Bay region flour mills. Prices were largely unchanged from a week ago, and were mostly at or only slightly below the high point for the crop year.
Cash wheat prices at Kansas City held relatively steady throughout the week, regardless of unusually heavy offerings during the early part of the period. Premiums underwent some adjustment but stood up well under the liberal supply. Demand continued good.

Some injury to winter wheat has been reported from weather conditions during recent weeks. In the southwestern portions of the belt, volunteer wheat in western Kansas shows rather heavy damage from dryness and earlier cold weather. In Oklahoma, winter wheat appears to have withstood the cold without severe injury but fall sown oats have been severely damaged. More or less heavy rain due to alternate thawing and freezing has occurred in eastern portions of the belt. In northern sections, including northern and northwestern Great Plains and most of the wheat belt of the Pacific Northwest, grain fields have a good cover of snow. In many sections, however, snow has melted rapidly because of abnormally high temperatures.

"Remember Pearl Harbor"

Is the Battle Cry Of Millions of American Troops Scattered All Over the World

And we, here at home, can, and will do our part to help by the regular purchase of War Bonds and Stamps; the conservation of precious rubber, and the wasting of nothing.

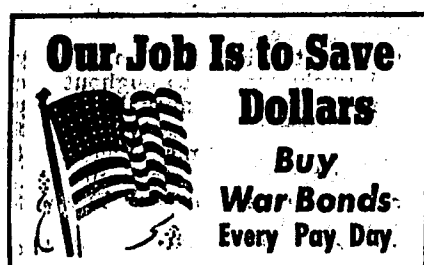

Beginning Monday, March 1, canned goods and possibly other items will be rationed on "The Point System," the finer details of which most of us are unfamiliar — but it, too, is a war-time measure, and one with which we are sure no one objects — for our fighting men must eat, our allies must be fed, and food also must be shipped to many of the countries our troops are occupying — and this takes huge quantities of food of all kinds.

No one will suffer — we shall continue to be the best fed peoples on earth — and here again co-operation is important — government to government, neighbor to neighbor and customer to merchant.

Don't ask the merchant or businessman for goods or personal services that are impossible under present war conditions — co-operate with him as you do with the nation — and the lot of our boys on the fighting fronts — and our allies — will be all the easier.

Write a friendly letter to that boy in the service — he will appreciate it and you'll be surprised how much better you will feel yourself!

TEAKEAN GOSSIP

Still Another Double
 This week's offering at the local theatre will be still another of those popular double features.
 The first offering of the evening will be Roy Rogers and Gabby Hayes in "The Man From Cheyenne." Westerns of this type are familiar to all screen goers, and need no further introduction.
 The second offering will be Judy Canova and Joe E. Brown in "Joan of the Ozarks." A hilarious comedy that takes you all the way from the Ozark mountains to Chicago — and mixes music, spies, action and love all up together.
 And, of course, the usual cartoon will make its appearance.

Wage Reports Available
 Wage earners whose jobs are covered by the social security act were reminded today that a statement of wages credited to their accounts may be obtained from the social security board and that any errors in the account for employment in 1938, must be corrected before the end of this year.
 Nellie G. Judd, acting manager of the board's Lewiston office, explained that the law limits the time within which errors or omissions in a worker's account can be corrected to four years after the year in which the wages were received.
 This means that if an employee finds the amount credited to his social security account for 1938 is incorrect or incomplete, the worker has until the end of this year to get an adjustment made by filing proof of the correct amount with the social security board.
 The Lewiston office of the social security board, located at Room 2, Post Office Bldg., will furnish on request, a postcard form on which the worker may apply for a statement of his account.

Do your bit. Buy Defense Bonds and Stamps now! Remember Pearl Harbor!

THE OLD JUDGE SAYS...

"Here's a piece, Judge, that says that in spite of more cars and faster speeds, the first six years of repeal showed 12% less deaths from automobile accidents than during the last six years of prohibition."
 "Now doesn't that just go to show you, Henry, you've got to be on pretty solid ground as far as your facts go before you make an out-and-out prediction. Why, back in the days just before repeal quite a few folks around the country made pretty power-

ful predictions about how automobile accidents were going to jump up if we got legal liquor back.
 "About the only thing along that line you're ever safe in predicting, Henry, is this. No community or county or nation, for that matter, ever became or ever will become dry just because it voted that way. All that the votin' decides is whether you have legal or bootleg liquor. We had nearly 14 years of experience on that, didn't we?"

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

Butter Is Needed — You Can Help Fill The Gap!

Folks, the demand for "Potlatch Chief" butter has increased by leaps and bounds, far exceeding our expectations — and we need more cream than ever before to fill the demand.

Here's what we suggest: Take better care of your cows; feed better; milk more carefully, and last, but not least important, bring that cream to us. Help us to help win this war by producing to the limit the butter needed throughout our nation. The more we produce the more that will be available for shipment to our fighting forces and to our allies. Come on folks — bring in that cream.

Have you ordered those baby chicks yet? If not, why not? Don't delay. Place your order with us now.

A girl who marries a man with money to burn usually makes a good match.

Below appears a prayer written by George Washington. We should heed its sound advice today:

"Almighty God, we make our earnest prayer . . . that Thou will keep the United States in Thy holy protection . . . that Thou will incline the hearts of the citizens to cultivate a spirit of subordination and obedience to government; to entertain a brotherly affection and love for one another and for their fellow citizens of the United States at large.

—George Washington.

In America, when a boy is born its proud parents entertain the hope that their son will grow up to be President.

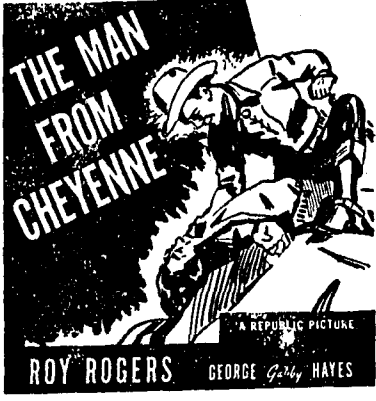

In Europe, all they can hope is that he will be allowed to live long enough just to grow up!

Doctor (in police station): "This man has been drugged."
Cop: "Yeah, that's right — I drug him six blocks."

WORD FROM LOCAL MEN IN OUR ARMED FORCES

San Diego, Calif. Feb. 8, 1943

Dear Friends: Just a line or two to let you know that my address has changed.

I also want to thank you again for the paper as it surely is good to read all the news from home. I think I enjoy most the column of letters from the boys in the armed services, what they are doing and "where they are," and I only wish there were more letters in it each week.

Thanks again for the paper, and I hope it continues to come regularly.

Sincerely Roy Lee Weber, S-2-c.

San Diego, Calif. Feb. 9, 1943

Dear Mac: I am stationed at the above address and I would like very much to have the Gazette mailed to me.

I like the Marine Corps fine. It's plenty tough, but we receive the best training in the world. Our rifle is considered our wife — and I sure would like to get a divorce.

I have had the pleasure of eating with Tyrone Power. He is considered a regular fellow and a credit to the Corps.

Mac, there are lots more things I would like to say — but our country is at war. I am writing this letter on the rifle range now.

We sleep on boards with an inch-and-a-half mattress and no pillow, so you can judge from that that the Marine life is no bed of roses. Well, Mac, as time is very short and taps now near, I must close.

Sincerely, Everett L. Farrington.

Tongue Point, Ore. Feb. 13, 1943

Dear Mac: I am now receiving the very much appreciated Gazette. It is hard for me to believe all the different ones from Kendrick who are in this unpleasant war, which we have at hand.

The Gazette sure helps to keep track of some of the boys "over there" and the ones who will be going before long. I certainly enjoy their letters. I expect to leave for a different

climate before long, myself. I have signed up for a ticket to see Tojo's Castle in the very near future. I want to go and help get it over with as soon as possible.

The Marines are really a pretty rugged bunch of boys — and are really making history. As long as I am one of them I think it is my personal duty to do all that I can — and you can bet I won't let them down.

Thanks a million for the paper, and I am yours for Victory.
A Native of Kendrick,
Pfc. Jack May.

Farragut, Idaho Feb. 14, 1943

Dear Friends:

Since I am in the main hospital here now my address has changed just a little bit — it's not near so long, now.

I still enjoy my work up here. I don't know how long I'll be here, but it may be for some time yet. I certainly enjoy the paper and I really enjoy reading what other sailors and soldiers write — even if most of the letters are brief.

The weather up here is really quite changeable, but I presume it is the same in Kendrick and Juliaetta.

I see that Kendrick and Juliaetta are doing quite well with basketball this year. Juliaetta is going places for the number of boys they have in the school. I would like to see some of the games, but guess that is impossible.

I must close. Thanks again for the paper.

As Ever,
Lester C. Stead, H. A. 1-c.

Tampa, Florida Feb. 10, 1943

Dear Mac:

I have a new address and will give it to you so I can continue getting the paper and reading the news from — and letters from the other boys in service — everyone of which I thoroughly enjoy.

Sincerely Ernest Schwarz.

From Fort Worden, Wn., comes a Valentine greeting from Ernest H. Looser with the penciled notation under the picture of a very pretty girl: "Want ads. bring results. Why not try one?"

Maybe Ernie's got an extra girl there, so you other fellows in uniform better contact him at Fort Worden — that is, if you like "blind dates."

According to an Associated Press dispatch appearing in a daily paper, Lt. George Davidson, U. S. N., was one of 13 naval officers awarded the Air Medal for meritorious service in the Aleutian island war theatre.

Lt. Davidson is 26, a son of Mr. and Mrs. George Davidson of American ridge, Kendrick. Lt. Davidson has been married since entering the service, and his wife resides at Astoria, Oregon.

Congratulations, George!

James G. Danforth, son of Mr. and Mrs. Grover Danforth of the Southwick section, arrived home Friday at noon on a brief leave from the navy. He left on the noon train Sunday. He has seen considerable action in the Pacific.

Mr. and Mrs. Louis Alexander have received word from their son, Robert, that he has been promoted to the rank of First Lieutenant, and has received his "Silver Bars." He is stationed at Sacramento, Calif., as a flight instructor, Army Air Corps.

Allan R. Johnson and Sidney M. Johnson, sons of Mr. and Mrs. R. Johnson, Kendrick, left Wednesday, February 17, to report for induction into the armed forces.

Billy Deobald, son of Mr. and Mrs. W. B. Deobald, is at home now, awaiting his call to report for duty in the army Air Corps. He has been attending the U. of I.

Pfc. Elwin C. Fleshman, in the medical detachment at Mather Field, Calif., is home on a 15-day furlough.

The 680 people of Block Island, 12 miles off the Rhode Island coast, collected 35½ pounds of rubber scrap for every man, woman and child on the island.

Complains Of Road Condition

From A. G. Wilson, who spends part of his time on Little Bear ridge comes a complaint regarding the condition of that road.

Mr. Wilson states that the road has been blocked with snow all winter, and that no attempt has been made to open it. This in turn forces residents of that area to drive almost 30 miles to do their trading, visit their locker boxes and sell their cream.

Mr. Wilson believes something should be done immediately.
