NO. 15

KENDRICK LOCALS AND PERSONALS TWENTY YEARS AGO

N. E. Walker is making a big improvement in the appearance of his harness shop. The interior has been kalsomined and painted throughout and now looks very neat and attractive. He is arranging his stock and fixtures and making a number of substantial improvements.

Mr. and Mrs. Edgar Long and Mr. and Mrs. Hanson entertained the Circle Card club at the Long home last Tuesday evening. The usual jolly good time was had by the members and a few invited guests.

The result of the bond election in Kendrick Highway district last Tuesday was highly satisfactory to the good roads boosters of the Potlatch. The substantial majority of 306 to 87 indicates in a most emphatic way that the \$20,000 bond issue is a popular move. It also demonstrates that this community is still in possession of the booster spirit that has done so much for it in the past.

One of the outstanding features of the election was the good feeling displayed by both those in favor of the bonds and those against the issue. It was one of the heaviest votes ever cast here and the interest in the outcome was intense, yet there was little demonstration made by the voters. Contractors Campbell & Barr installed the motors for operating their rock crushers immediately after the result of the election was made known. They at once began crushing rock and will probably spend the greater part of this month completing the job of spreading rock on the two miles below Kendrick and finish the top coat from the Bear creek bridge to the Wauncher gulch bridge, northeast of town.

A very pretty but quiet wedding was solemnized at the home of Mr. and Mrs. Anton Nelson, Tuesday morning, April 10, at 10 o'clock, when their youngest daughter, Miss Neva, became the bride of Lief E. Field of Moscow. The ceremony was performed by Rev. Peter Hesby, Lutheran pastor of Deary, in the presence of the parents of both bride and groom, relatives and a number of close friends. The bridal party entered to the strains of Lohengrin's Wedding March, played by Miss Helen Slind, and paused under an arch of evergreens from which was suspended a huge wedding bell. Dainty streamers of pink and white completed the bower of loveliness. Following the ceremony a delightful three-course dinner was served. The bride was charmingly gowned in white satin and georgette etched with crystal beads and carried an arm bouquet of pink and white carnations. The bridesmaids were Miss Emma Nelson, sister of the bride, and Miss Johanna Hooker, while the groom was attended by Gust and Albert Nelson, brothers of the bride.

The happy couple will motor to Santa Monica, Calif., leaving the latter part of the week from Moscow, where Mr. Field has an attractive position awaiting him. They will be at home there after May 1.

Senior Class Play Enjoyed

The Senior Class play, "Double Exposure," was presented last Monday evening to a fairly well filled house and greatly enjoyed by those present.

The play, as presented, called for just what the Junior class had — twins, Louis and Leonard Lunders making up the "double exposure." All taking part doubled the hours of careful study and practice required in as smooth a presentation as was witnessed, and the class as a whole, together with their coach, Mrs. W. B. Deobald, are to be very heartily congratulated.

Open House At Grange

The next Grange meeting will be an "Open House" for all Grangers and their friends — and every Granger is asked to bring his friends with him or her — and all ladies are asked to bring a pie!

These pies will be auctioned off, the bidder receiving the amount he bids in war stamps — to raise money for the National Bond and Stamp drive that will be in progress at this time.

There will also be a "lucky pie," for the gentleman purchasing it as well as the lady who baked it.

This is an absolutely non-profit evening for the Grange — since every cent goes into War Bonds and Stamps.

Did He Go Fishing?

While "fishing" in a drawer in the local auto freight office Tuesday morning, Charley Candler ran afoul of a bass plug belonging to Frank Abrams, and came up with two fingers on his right hand firmly snagged on his hooks.

A minor surgical operation was necessary to remove the hooks, and Charley is now going to be dog-gone careful how and where he does his "fishing" in the future.

School Election Friday

Your attention is called to the school election, official notice of which appeared in the past three weeks. One trustee is to be elected for a term of three years.

Leave For Minnesota

Ed. Reglin left Saturday morning for the family home in Minnesota. Dale Miller is now assisting in operating the Conoco Service Station in Ed's place.

Maple Drive Now On

The attention of everyone is called to the fact that the drive for extermination of maples is on — and should be going full tilt.

Every maple head, when delivered to Marvin Long, is worth 2c, so get busy, youngsters, and make a bit of spring money, as well as doing your country a good turn.

The drive is sponsored by the Latah County Wild Life Federation.

Good work has been done in these drives in the past, and undoubtedly will be again. The inability of most to obtain ammunition undoubtedly will have something to do with results — but they should be good just the same.

BEAN AND PEA QUOTAS SET BY ORDER OF FDA

Leonard R. Trainer, regional administrator of the Food Distribution Administration, has announced the issuance of Food Order No. 45, reserving 55 per cent of the supplies of dry edible beans and 60 per cent of dry peas and split peas of certain classes, in the hands of "processors" or "first owners." The purpose of the order (says the dispatch) is to assure necessary supplies for military and allied needs. The order became effective April 1.

Civilian per capita consumption during the 1942-43 marketing season will total about 8 pounds of dry beans, or 90 per cent of average consumption, and nearly one pound of dry peas, or about 75 per cent of average consumption. For dry beans this means approximately one pound more per capita than was indicated when beans and peas were put on the ration list. Imports made this increase possible. The quantity of dry peas available for civilian use remains unchanged.

Food Distribution Order No. 45 applies to stocks of dry beans, peas and split peas in the hands of "first owners" or "processors" during each calendar month or part thereof.

During each calendar month, upon notice from the government agencies, first owners and processors are required to set aside for delivery to the government the specified quantities of dry beans, peas, and split peas at no more than ceiling prices.

Affected by the order are all dry beans and split peas of these classes: Beans — Pea, Great Northern, Small White, Flat Small White, Light Red Kidney, Dark Red Kidney, Western Red Kidney, Cranberry, Small Red, Pink, Pinto, Baby Lima and Lima. Peas — Alaska, Scotch Green, White Canada, First and Best, Marrowfat, and Green and Yellow split peas.

"First owners" and "processors" affected include producer co-operatives and associations and others who owned on the effective date of the order, more than 10,000 pounds of beans, peas and split peas purchased from a producer, or whose combined purchases or sales during any calendar month following the effective date of the order exceed 5,000 pounds. The reservation order does not apply to producers who are not processors, nor to commission merchants or brokers who do not require full or part ownership of the commodities.

Seed beans and peas sold exclusively for seed purposes in compliance with Federal and State seed laws are not affected if sold and delivered not later than June 30.

Huge Sum To Be Raised

The second war loan drive, which began last Monday, April 12, must raise the astounding national sum of 13 billion dollars. The quota in Idaho is \$13,000,000.

This 13 billion dollars must be raised in addition to the regular purchases of War Bonds and Stamps that our people are making now to support American armies attacking the enemy. An offensive army requires ammunition and materials that cost staggering sums of money. One night raid of 1,000 bombers over the Rhineland takes \$375,000 worth of gasoline alone. A million dollars worth of bombs may be dropped and 10 or 11 million dollars worth of planes destroyed.

As the tempo of attack steps up, so will the need for money be increased. Successful follow-through of the second war loan drive slogan: "They Give Their Lives — You Lend Your Money," will give the boys in uniform the equipment they need for the greater offensives to come.

Latah county's quota is \$387,500!

School Notes

For the past week we have been working on a rock border around our flower beds.

We also burned the tall grass on our school grounds, which improved the looks of the yard very much.

Friday we will only have a half-day of school due to the election of school board members; therefore, we have planned a picnic in Hoover draw.

We all miss Betty Davidson very much. She is now going to school at Genesee.

Our collection of books for the Junior Red Cross has been taken to Moscow, and they were very happy to receive them and would appreciate more if we can get them.

We have all had our final spelling examinations and very few failed to pass.

Last Thursday we held a discussion on that we wanted to be when we grew up. We found there are many prospective futures. It included teachers, book store owners, farmers, housewives, cowboys, nurses, defense workers and most of all the boys wanted to be aviators.

The following is a version of an excellent and daring vocation, written by a seventh grader:

My Vocation—My vocation is flying. I want to fly every kind of airplane in the United States. If I could, I would like to fly other kinds of planes in the rest of the world. I would like to do this after the war is over!

But now I'm too young to fly. But when I am older I can do this kind of work. While I am doing this, I would like to go to Australia, the best country in the rest of the world. While I am in Australia I would like to get a kangaroo and bring it home with me. But now I would like to be a farmer until I am old enough—then maybe I can fly the planes.

I would like to fly over Tokyo, Rome, Berlin and Moscow, Russia, and see the ruins of the war. That's my vocation after I get out of high school.

The Coeur d'Alene mines are famous. One single mine has produced ore valued at over \$180,000,000 and is still going strong. A bar of silver weighs about 80 pounds and is valued at close to a thousand dollars. Cheap electricity for mining is provided by the Washington Water Power Company.

This means that for every dollar spent by drinkers for their liquor, the public must spend all it collects for liquor tax, plus 39c more to repair the damage caused by liquor drinking.

The third, fourth and fifth grades made small cars from construction paper.
The sixth grade began their "Pony Express Rider" of heavy cardboard.
The third, fourth, fifth and sixth grades are working on compositions now. The young deer is the subject of each.
The flute class has mastered their last duet, "The Cuckoo," and have begun a study of trills.
The fourth grade history class has begun its historical picture note book.
Eugene Betts has finished his booklet on "From Wool to Clothing."
Dorothy Dorendorf, George Billy Cowger, Mary Jane Martin and James Finke have had absence marks during the week.
"An Interesting Pet", by Mary Jane Martin, Grade V — We have a new kind of pupil at our school this year. It is a deer. Her name is "Fauna." I don't suppose her owner calls her that, but we gave her that name when she first began coming here.
The first time we saw Fauna, Mr. Adams brought her out with him from Dix Creek. At that time she still had some spots on her, but of course they are all gone now.
Fauna eats almost everything we eat, but is most fond of sweets. We feed her scraps from our lunch pails and at recess she likes to come into the schoolroom and see if she can find anything in the waste paper basket. Not long ago she came into the cloak room, nosed the lid from Joan's lunch pail and ate all of her lunch, so Joan had to go home for her dinner.
Fauna hasn't been absent or tardy very much this year — and has been coming to school since last fall.
She is about one year old now.

But one lone tractor may be seen in the government sponsored farm machinery repair school, which was conducted the past winter in the Kendrick Bean Growers warehouse, with Bob Clemenhagen of Big Bear ridge as instructor, and Bob says the only reason that tractor is still there is inability to obtain parts.
Of course other minor pieces of farm equipment are still being worked on — but the rush is definitely over.

THE OLD JUDGE SAYS...

"I was just tellin' my brother Fred this morning, Judge...there's never been a time in our lives when we got to live up to that old sayin' 'United we stand, divided we fall' more than we have to today."
"How true that is, Herb. And for the life of me, I can't figure out why, at a time like this, some folks insist on raising a question like prohibition. I can't imagine anything that would tickle our enemies more than to get us folks over here taking sides against each other, arguing about an issue like that. We've got a he-man's job on our hands to win this war and we can't be wasting our minds, our money and our strength fighting about something we tried for nearly 14 years and found couldn't work."
"I say there's a time and a place for everything, and this is no time or place to be doing an' fightin' except the kind that's going to win the war."

WORD FROM LOCAL MEN IN OUR ARMED FORCES

Pfc. Dean Luce left Saturday for Bakersfield, Calif., after spending a week's furlough with relatives and friends at Southwick.

Cpl. Herbert McDowell left Monday afternoon for Fort George Meade, Maryland, after spending a 10-day furlough here with his parents, Mr. and Mrs. E. E. McDowell.

Pvt. Ernest H. Loeser left Saturday to report at Fort Worden, Wn., after spending a 10-day furlough with his parents, Mr. and Mrs. W. H. Loeser, Southwick, and other relatives. Ernest says he is rather getting used to coast weather, but much prefers the rains in Idaho to those of the coast "they aren't quite so wet."

Pvt. John Keeler of San Bernardino, Calif., arrived home Thursday of last week on a 14-day furlough. This is Johnny's first visit home since enlisting some 17 months ago. Johnny says he isn't very crazy about California climate, but finds his work (airplane repair and maintenance) very interesting. Johnny said he was privileged to work for almost two weeks on the famous "Suzie Q" flying fortress, when it returned from the south sea battle area. He stated there were literally hundreds of bullet and shrapnel holes in "Suzie's skin" on which temporary repairs had been made, and which were replaced with permanent ones. When "Suzie Q" left the San Bernardino field to go on a war bond selling tour of this country Johnny said she "was fit and ready to fight again."

All types of planes are worked on at the field, so we can understand his real enjoyment of his work.
