PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

### LOCKER BOX CONTAINERS

If you are freezing fresh fruit and vegetables of any kind this year it will pay you to investigate the new locker-box containers we have for sale. These containers are economical, handy, and better still, keep within them all the goodness of the fruit or vegetable you are freezing.

Ask to see these new type fruit freezing containers. Come In And Get Them You are asked to please come in and pick up your Credit Slips, Stock Certificates and Dividend Checks, as they may be due you. They are now ready.

Bring In That Cream When you come in with that fruit for your locker box, or to get your stock certificates, etc., bring a can of cream along with you. There's no use making an extra trip.

Imppanelling of a jury was in progress when the following was overheard: "Are you a property owner?" "Yes, your Honor." "Are you married or single?" "Married your Honor, for five years." "Have you formed or expressed an opinion?" "No, your Honor, not for five years."

"Was your friend in the habit of talking to himself when he was alone?" "To tell the truth, Judge, I was never with him when he was alone."

Girl: "If wishes came true, what would you wish for?" "Gosh, I don't dare tell you." "Go ahead, sap. What do you think I brought up this wishing business for?"

### WORD FROM LOCAL MEN IN OUR ARMED FORCES

Chas. C. Cox arrived in Kendrick last Saturday night, bringing with him an honorable discharge from army service, due to physical disability. Chas. was discharged just prior to his starting for home on a furlough Tuesday of last week after having spent 70 days in the army air base hospital at Richmond, Va. He says he has no plans for the future at this time and expects to spend some time at his home here, recuperating.

Lieut. Robert J. Alexander was a Kendrick visitor July 5th, spending the day in Kendrick with his parents, Mr. and Mrs. Louis Alexander of Cedar ridge.

Lieut. Alexander flew up in a B-25 bomber from his station in California, landing at the Moscow air field, where he was met by his parents, and brought to Kendrick. He returned to his base in California that same evening. It was he who flew the bomber that circled Kendrick that morning.

Capt. J. W. Farrington, who is stationed at Camp Adair, Oregon, is spending a ten-day furlough at the home of his sister and brother-in-law, Mr. and Mrs. Lester Weaver, Cedar ridge.

Pvt. Ernest Murphy arrived in Kendrick last Sunday, bearing an honorable discharge from the U. S. Army. Ernest was over 38 years of age. He visited with friends here the fifth, and after spending a few days, expects to go to Spokane to work in one of the defense plants there.

Eldon Baker left Friday of last week to report for duty with the navy.

From Ernest Schwarz, via his sister, Mrs. Marie Dennier, comes word that he is now in England, and is just too busy to write many letters.

He states that he is very anxious to receive the paper each week, and is especially interested in the letters from the other boys in service. He further says the people over there are very good to the soldiers. They had a nice trip over and are now seeing a lot of pretty country.

Dale Miller, who has been taking CPT flight instruction at Coeur d'Alene for several months, arrived home last week-end, and will remain, pending receipt of further orders.

Mrs. Rose Farrington received a phone call from her son, Lloyd, who is stationed in Maine, Tuesday afternoon, stating that he was receiving a furlough, and expected to be home next Sunday. He says he is well and keeping plenty busy, but can do with a "bit of Mom's cooking."

Dear Mac:  
They've finally let me stop long enough to write you a line and tell you where I am.

The paper has been held up somewhere along the line and I sure miss it — hope I don't miss any more.

Glenn Newman is here with me, and Don Benscoter just moved out — so I guess Kendrick is assembling in Texas, slow but sure.

Dear Mac and Bill:  
Well, how is everything in dear old Kendrick? I suppose like always about this time of year — dry and hot. Would sure like to be there the 5th of July, when you folks up there are having a good time Monday, I will be down here working. Not really working, but putting in my time. Hope you all have a wonderful time.

Saw Judd and Myra last week. They are fine. I read in the paper a couple of weeks ago the letter Judd wrote and the note under it concerning my paper and address. The address was a little wrong, but I was still getting the paper the biggest part of the time. The reason I waited so long to write was because I was going to get transferred, but didn't know when. Yesterday I changed shops. I now work at the test line. We fix anything that needs to be fixed after the first test, right and also put the plane in readiness for the first flight. We test the brakes, start and check the motors, and such odd jobs as that.

I could go into more detail, but you will get the general idea.

Well, guess I have about run out. Thanks a lot for the paper, and have a good time the 5th.

Please say "Hello" to everybody for me.

Dear Editor and Everyone:  
It's been a long time since I've written you, so I thought it best to drop you a line and let all my friends back home know that I am O. K. and think of them often.

Well, in my one year of army life I've seen a lot, and would like to tell my friends all about this country and where I am, but being overseas, I can not.

Well, the army is one good place to be, and it is what you make of it. We're not over here for a good time, as some of the people back home seem to think. We are here to do that job we have to do and plow through to the end — so all can say: "Well, friend, I'll see you when the job is done, and well done."

I want to say thanks for the paper and please keep it coming my way. I must close for now and wish all of you the best of health and good luck.

Your friend

Dear McCrearys:  
Yesterday I received my first Gazette since coming to this field. I certainly enjoy getting them, especially do I enjoy the letters from the other boys in the service.

I have been here about three weeks and so far like this field better than Sheppard Field.

John Keeler and Glenn Newman were at Sheppard Field the same time I was, and it was sure swell to meet someone from home.

Thanks for sending the paper, and please tell everyone "hello" for me.

Sincerely  
Don Benscoter.

Lawrence Bartlett, Jr., who is stationed in New Mexico, arrived last Saturday to spend a 15-day furlough with his parents, Mr. and Mrs. L. A. Bartlett. Like all the boys Lawrence has gained weight, and looks fit for anything. He is also tanned to a beautiful brown.

Lawrence says New Mexico may be a great state, but the Indians can have it back for all of him — he will take Idaho.

Dear Mac:  
Just a few lines to let you know my new address. I have been moved from Seattle, and I don't want to miss my Gazette any more than I can help, as I am further away from home and appreciate it more.

Sincerely  
Pvt. Robert B. Shores  
New Guinea

Dear Bill and Mac:  
I must drop you a line or two to let you know that I receive your paper regularly at every mail call we have — and it is something to look forward to. The thing I enjoy reading most is the letters the other fellows write.

Bill, there is one thing I don't like very much, and neither do the other fellows over here in New Guinea — that is the way some of the boys in the states gripe at little things. They talk about hot weather and the sand, or the cold weather — there is one thing that they have not yet learned — and that is that they are in the best army in the world — and in the best country in the world.

If anybody doubts this statement, let them come over here or anywhere else the army is fighting — and they will darn soon change their minds.

Well, I guess I have run out of wind, Bill, so will bring this letter to a close.

Sincerely  
James R. Kuykendall.  
Well, Jim, from the vivid description of that country given us by Quentin Dammarell, who was at Guadalcanal and Tulagi, we have a fair idea of what you boys are up against — but in the meantime, what do you think of the recent big coal strikes, strikes in the Packard and Chrysler war plants; zoot suit rioting, etc., how about dropping us a line covering you fellows ideas on these subjects.

Mrs. Ed. Hinrich very kindly consented to let us publish excerpts from a letter received Friday from her brother, Cpl. Homer H. Jones, who is stationed "Somewhere In The Pacific," as follows:

Somewhere In The Pacific  
June 20, 1943

Dear Sis And Family:  
It's so darn dead and quiet around here I'll try and write you a few words. Most of these guys are asleep and some of them are out on pass. Seems like I write a lot of letters, but yet I am always behind with them. This is my fourth one today and I always write two a day. Going to the show in the evening and writing letters is the extent of my amusement. I have been to town three times, but there is nothing down there. You have to pay 30c for a bottle of Coco-cola, and 25c for a hamburger, so you know it's cheaper to stay in camp.

I walked down to see one of my friends here in the village this afternoon. He is my laundryman, and a nice fellow. He is married and has a little girl about three years old. When I go there he always has lemonade and bananas to eat, and when he comes after my laundry he brings me some bananas for a present.

This morning I got up and shortened two pair of my "Cheno" pants. I got some new ones and they were all too long for me.

I'm not going to the show this evening; it's a murder mystery and I hate them so, I'm going to bed pretty soon. This darn pair of shoes I got on hurts my feet, and with that walk I had this afternoon, almost crippled me up. I'm going to get some more tomorrow.

## "I saved 25% Quarts of oil in 325 hours.. with a FRAM."

Successful farmers are saving money on oil . . . saving the time commonly wasted changing oil . . . and protecting their motors by installing FRAMS on their tractors.

There is no doubt that clean oil will last longer than dirty oil, nor that motors lubricated constantly with clean oil will cost less in repairs. The FRAM Oil and Motor Cleaner keeps both oil and motor clean and free of dust, dirt, abrasives, sludge and harmful acids. That is why successful farmers are equipping their tractors with FRAMS — saving money — saving their motors — saving time. Why don't you investigate?
