The periscope breaks the surface and our submarine creeps in for the kill. Torpedo tubes are trained, nerves tensed; then the command to fire. Breathless moments later a terrific explosion rips the dawn.

Thus Inland Empire industry served by the Washington Water Power Company plays its vital part in the war . . . From Coeur d'Alene mines comes important lead for storage batteries to operate Uncle Sam's submarines.

And here again is demonstrated the American way of working together — business managed electric utilities, working with Federal and municipal systems in the Northwest Power Pool and delivering electricity for the mining of vital war metals.

NORTHWEST POWER POOL

Through the Northwest Power Pool, uniting all important power resources of Washington, Oregon, Idaho, Montana and Utah — including Grand Coulee and Bonneville — electricity from one area is available to all. More than 100,000 additional kilowatts to speed victory have resulted. Manpower, strategic materials and fuel from steam generating plants have been conserved. In more than a year of operation the pool has demonstrated the ability of Federal, municipal and private electric systems to work together for the benefit of all the people.

Another Double Feature
This week's offering at the local theatre will be another double one. First on the program will be "Youth On Parade" starring John Hubbard, Ruth Terry, Martha O'Driscoll and Tom Brown. It's a picture as modern as our times—swinging, tuneful peppy.
The second offering of the evening will be those two well-known cowboy stars, Roy Rogers and Gabby Hayes, in "Idaho." A story of the days when the west was really wild and men were men.
Of course the usual cartoon will make its appearance.

A late find of the tireless archeologists is a buried prehistoric hatchet weighing 145 pounds. Peacemakers must have run large in those times.

A "SECRET WEAPON" the Navy shares with you

To lubricate Uncle Sam's submarine Diesel engines so they run clean and smooth on long cruises, the Navy uses RPM DELO.

The Navy is sharing this "secret weapon" with the home front... and RPM-DELO is doing a great job in thousands of tractor, truck, marine and stationary Diesel engines. It's specially compounded to prevent sludging and gummed-up pistons—it actually cleans and frees rings stuck through use of other oils. Millions of test miles in laboratories and actual service proved that it just about **DOUBLES THE TIME BETWEEN OVERHAULS.** The Navy can't afford to take chances with its fighting Diesels—and neither can you. Get RPM DELO and you get the all-around lubricant for all Diesels.

Mark Twain on Advertising
A subscriber to a paper which Mark Twain edited wrote to him saying he had found a spider in the folds of his paper and wished to know if this was good or bad luck. Mark Twain replied: "Finding a spider in your paper was neither good luck nor bad luck for you... The spider was merely looking over our paper to see which merchant is not advertising so that he can get to that store, spin his web across the door, and live a life of undisturbed peace afterwards."

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

EVERYBODY'S BUSY!

Today, with haying, bean hoeing, cherry picking, etc., piled up in one heap, everyone easily realizes just how busy everyone else is — but for goodness sake don't neglect old Bossy.

That income is just as important to you, and the butter made from her cream just as vital, as in the days when you had more time to devote to her care.

So take time to properly care for her, and bring that cream to town when you come. Our churns have an insatiable appetite for cream — and the American nation and her allies must eat.

So remember, every time you come to town, bring that cream — and bring your neighbors — maybe you can save him a trip.

And when you ask for butter don't just say "a pound of butter please," say "a pound of Potlatch Chief butter, please."

Try "Potlatch Chief" Butter!

A "No Trespassing" notice was posted on a Missouri farm, as follows: "Notis: Trespasers will be persecuted to the full extent of 2 mongrel dogs which ain't never been overly soshubel to strangers and 1 dubble-barl shot gun which ain't loaded with soft pillers. Dern if I ain't getting tired of this hell-raisin on my property."

Hitler's coffin is on the American production line today. It will be the most expensive coffin the world has ever known, but it will also be worth the price if in that coffin we also bury forever the menace of regimentation and dictatorship of this world.

Son: "Daddy, who was Ham-let?"
Dad: "Aren't you ashamed of your ignorance? Bring me the Bible and I'll show you."

If you're not using one of our cold lockers — why not?

hoping the old home town is all O. K.

As ever
Pvt. Everett Farrington.
Santa Ana, Calif.
July 8, 1943

Dear Mac:
Here's to let you know my new squadron address. I was classified as "Pilot" and am now in pre-flight, which started this week. All the courses are very interesting and I like the deal O. K.

Of course the weather down here is nice, and hot, and I became the victim of a lovely sunburn, but all-in-all, I like California better than I thought I would.

I guess I'll be here about six more weeks, and then I'll be flying again — which is really something to be looking forward to. As yet none of the papers have "missed the boat" and all of them are very much appreciated, you may be sure.

Thanks again
A-c Deryl D. Ingle.

From Mrs. Roy Martin comes indirect information from her son, Pvt. Chester Martin, as follows:
"He says we at home have no idea of what wheat rationing means compared to the folks in England. They are allowed but two gallons of gas per week; one small box of matches per month, and other items accordingly. He writes that he enjoys the paper so much, and that it will be 'doubly welcome over here.'"

San Francisco, Calif.
July 9, 1943

Dear Mac and Folks:
I have come to California to spend July again. My transfer from Faragut was a surprise, yet I'd been there quite some time.

I find San Francisco a swell "liberty town." This is my first time out, but couldn't ask for better.

My work will be different un—I'm shipped out of here, which may come soon — then I think it will be quite different. So far I've enjoyed my work a lot, but will have to wait to see how I like it from here on — maybe I'll be a sailor yet. I want foreign duty in a hospital, but this is one time I didn't get to pick my place to go. I think my work will be much like that of a Marine's, but I may like it better than hospital work.

Please send my paper to this address, which should be good for a while — and thanks a lot for sending it to me. Anyone willing to write may obtain my address from my folks.

Sincerely yours
Lester C. Stead, H. A. 1-c

WORD FROM LOCAL MEN IN OUR ARMED FORCES

Biggs Field, Texas
July 5, 1943

Dear McCreary's:
There is a slight change in my address, having changed bomber squadrons. The rest is still the same.

You may wonder where Walter is now, but I can't tell you, for I don't know. It has been nearly two months since I have heard from him.

My thanks again for sending the paper.

Your truly
Orville Sparber.

San Diego, Calif.
July 8th, 1943

Dear Bill and Mac:
I want to let you know I have been receiving your paper regularly and I can truthfully say I enjoy it. There is nothing quite like being able to sit down after a day's work and read the news from home and about the men in the Service.

I have been here seven weeks, and everyone I see, including myself, has a very nice sun-tan, due to the time of year and this California sunshine, which everyone hears and talks a lot about.

I want to take this opportunity to thank you folks and the people who make it possible for me to receive the paper.

Enclosed is my new address.
Sincerely yours
Ervin Draper, S-2-c

Dear Friends:
I must write and thank you for the paper. I received the first copy yesterday — or I should say — and I first copy since April 8 — and I sure missed it. Your paper is just like a big, long letter from home.

I am now stationed "Somewhere in North Africa." The country here is a lot different from back home. There are no trees, and the sun gets very hot during most of the day. There are very few grain fields around, and most of the people we see are Arabs.

In closing, I want to say "thanks" again for the paper, and hope to receive more copies soon.

Sincerely
Cpl. Arnold J. Halseth.

Well, Arnold, we're mailing you a copy every Thursday — and we believe "Uncle" will get them to you, someday, although they may be pretty "ancient."

Dear McCreary's:
Just a short note to let you know I am receiving the Gazette regularly, and appreciate it very much, as news from home means more to us boys in the Service than anything else. I know the other boys look forward to receiving the paper as much as I.

I especially enjoy reading the letters of other boys in the service and keeping posted on what branch of service they are in and what they are doing. There isn't anyone around here that lives near Kendrick — in fact the closest one is a Montana boy, so I'm not quite as lucky as some of the boys in having someone from home to talk over old times with.

I can't tell you about the country or climate here, as we are censored a lot closer than the boys in other places, and writing things of interest to you would be giving out military information to the enemy (according to the censors) so will have to be satisfied with what I can write.

Well, Mac, I hope all the folks at home are fine and thanks very much for the paper.

Sincerely yours
Pfc. Richard J. Fry.

Dear Mac and Bill:
I'm on the move again, only this time it's a lot more interesting.

I would like to have the Gazette mailed to the above address. It seems like I've had to have you change it about every other week — and I sure hope it's not too much bother.

Most of the boys can't wait until I get through reading it, so they can read it. We think our home town news is quite a morale builder. As time is short I must close,

San Francisco, Calif.
July 9, 1943

Dear Mac and Folks:
I have come to California to spend July again. My transfer from Faragut was a surprise, yet I'd been there quite some time.

I find San Francisco a swell "liberty town." This is my first time out, but couldn't ask for better.

My work will be different un—I'm shipped out of here, which may come soon — then I think it will be quite different. So far I've enjoyed my work a lot, but will have to wait to see how I like it from here on — maybe I'll be a sailor yet. I want foreign duty in a hospital, but this is one time I didn't get to pick my place to go. I think my work will be much like that of a Marine's, but I may like it better than hospital work.

Please send my paper to this address, which should be good for a while — and thanks a lot for sending it to me. Anyone willing to write may obtain my address from my folks.

Sincerely yours
Lester C. Stead, H. A. 1-c

Pvt. Lloyd Farrington, who is stationed at Bangor, Maine, arrived home Sunday morning for a visit with his mother, Mrs. Rose Farrington, his sister, Evelyn Farrington, and other relatives.

"Lum" says that Maine is quite a country, and the U. S. army a real institution. He further states that the "rock bound coasts of Maine" is no exaggeration, but believes there could be lots worse places.

Like all the boys he has gained weight, and his uniform fits him to perfection. This is "Lum's" first trip home since entering the service, and he is stationed just about as far from Kendrick as is possible, and yet be within the borders of our nation.

From Kearns, Utah, comes the following official dispatch:
Pvt. Garth H. Hill, of 700 8th St., Clarkston, Wash., is now a pre-aviation cadet at the Army Air Forces Technical training center, No. 5, it is announced by Col. C. L. Lewis, post commander.

Prior to his enlistment for aviation cadet training Pvt. Hill attended Kendrick High school. Cadet Hill is the son of Mrs. F. Ruth Hill of Clarkston, Wash.

—Congratulations, Garth!

Brother-In-Law Passes
Mr. and Mrs. Elwood Pearson received word Monday evening of the sudden passing of his brother-in-law, Cecil Coe, Moscow, that evening.

"I saved 25 1/2 Quarts of oil in 325 hours .. with a FRAM."

Says Darryl C. Grover
Riceville, Iowa

Mr. Grover also says: "Until now I have changed the oil every 60 hours."

SAVED 45 GALLONS THE FIRST YEAR
Fred North of Blackwell, Okla., saved 45 gallons of oil the first year after installing a FRAM.

SAVED ITS "COST" IN 40 DAYS
A Caterpillar Diesel 75 formerly changed oil every 35 hours. Now, with FRAM, they change oil every 20 days.

SAVED 7 OIL CHANGES IN 40 HOURS
C. D. Goyen of Pratt, Kansas, used to change oil every 50 to 60 hours. Now, with FRAM, he changes oil 400 hours.

EASY TO INSTALL
New specially designed brackets, Fulflex oil-lines, make installations simple as A-B-C.

GUARANTEE
Install a FRAM. If within 90 days you feel you can't afford to be without it, bring it back and your money will be cheerfully refunded.

Successful farmers are saving money on oil . . . saving the time commonly wasted changing oil . . . and protecting their motors by installing FRAMS on their tractors.

There is no doubt that clean oil will last longer than dirty oil, nor that motors lubricated constantly with clean oil will cost less in repairs. The FRAM Oil and Motor Cleaner keeps both oil and motor clean and free of dust, dirt, abrasives, sludge and harmful acids. That is why successful farmers are equipping their tractors with FRAMS — saving money — saving time. Why don't you investigate?
