DOMESTIC GRAIN FIRM TO SLIGHTLY HIGHER

Only moderate new crop pressure and heavy dew, the opening day of and good commercial demand kept the Kendrick schools has been post- grain markets firm during the week ending August 20, and prices were tember 13th, according to an an-nouncement by L. W. Mason, local Food Administration reports. Movement is now practically at maximum, based on railroad equipment superintendent or schools.

A full staff of teachers has been mum, based on railroad equipments secured, and will be on hand to greet available and more limited ability of markets to unload grain in view of the tight labor situation at many midwestern points. Flour trade was only fair as buyers continued to hold off and await further developments concerning price ceilings and other impeding regulations. Feed grains went into an upward reaction. Rye was given considerable attention be-

ports indicate that as the wheat harpit to guide the equipment operator. Additional engineering assistance is given during the period that the equipment is being operated.

The average pond requires from this area continued active. Considerable business was reported with the beauty and the constitution of the continued to represent occurrence occurrence of the continued to represent occurrence occu

the year long.

Four ponds have been completed to date on the upper end of Texas s. 1.44 ½; hard red winter at \$1.37 ridge. The fifth pond, which will be and hard white (baart) at \$1.49, all

Miss Laura Corkill and father, have been prospected and mapped on turned somewhat stronger, influthe latter ridge and the ponds will enced by light local offerings, tolast week callers at the Geo. Havens be constructed within the next gether with improved demand from feed users. Prices advanced around 21/2c per 100 to new high points for the current crop year. Most purchases were from the CCC buyers, but regular buyers entered the market for increased quantities of wheat from regular trade chanenls to tide over until the arrival of purchases from the CCC. Demand from local flour mills was relatively

in their purchases. Cash wheat values at Kansas City ranged 14c to 2c higher on hard winter to unchanged, to 24c lower on red winter. Demand for wheat from storage interests was lagging as available unfilled space was limited. Mills were the principal buyers and absorbed the bulk of greatly modified offerings. Receipts at Kansas City totaled 1,516 cars compared

with 2,347 a week ago. About the only developments in the cash wheat market at Minneapolis during the week was an easing the sides of the nore and wedgers of high protein lots. So for the third time concrete CCC kept ordinary qualities firm has been poured to form a solid but mill demand was not brisk enough to maintain premiums on the higher grades. Minneapolis receipts amounted to 2,762 cars while Duluth

unloaded 521. Harvesting of spring grain and oats was well advanced at the middle of the week in northwestern Minnesota and North Dakota and eastern portions of Montana. Yields were reported unusually good. The harvesting of winter wheat was completed in most districts except the far northwest. Threshing of wheat and oats was practically completed

northward to Missouri. Harvesting of spring wheat began in the Canadian prairie provinces and will soon be general throughout the "Permits delivery of one unit of area. The outlook was well maintaingasoline." The new type says "Miled area area area with the week in Manitoba, age Ration," plus a large "B" or but some deterioration took place in southeastern and sowthwestern Saskatchewan.

Chures Added To Parish

The Methodist churches at Leland Cavendish have been added to the Potlatch Parish, according to an announcement made last week by Rev. Fred L. Pederson, district superintendent. This parish, now made up of six churches, is largest in the conference. cate here within the next two weeks.

An Advisory Council, composed of man and a woman from each of the six churches of the parish has Mr. Shenemen is busy this week been called by the pastor, Rev. Roy reshingling the Mrs. N. B. Long H. TWO LOYALTIES

Should Be Ingrained In The Hearts Of All TRUE AMERICANS!

First -Love of Coutry:

Of which our flag is the symbol.

True Americans don't stop with a flag salute; they buy bonds, give to the Red Cross, U. S. O., etc! And the Potlatch Section's record is a good one!

Love of Home:

Which is best expressed in appearance of home and its surroundings; loyalty to home town business institutions, schools, churches and interest in community affairs ---

These Loves Have Made America Great --- And Will Make It Greater

We are prompted to sponsor the above ad. through our desires to serve the war effort and our interst in community welfare.

Processed Foods — Blue Stamps R, S and T remain valid through September 20. U, V and W become valid September 1 and remain valid through October 20.

Idaho Bean Crop Forecast

Idaho bean prospects improved about 7 per cent during July and the crop was forecast at 2,250,000 bags on August 1. A crop of this size would be 11 per cent larger than the record 1942 and 1931 crops, when 2,025,000 and 2,024,000 bags, respectively, were produced. Beans developed unusually well in the important south and central areas but are still spotted in northern Idaho. It must be kept in mind, however, that the crop is late and both yields per acre and quality may be subject to damage by frosts and fall rains. For the United States, almost 23 million bags of beans are indicated for 1943 production - a record crop on a record acreage - but not a record yield per acre.

Save All Fats

With millions of pounds of waste kitchen fats still needed to meet war demands. WPB recently urged housewives to remember that even if accumulated fats become rancid, they still retain a majority of the valuable glycerine that goes into war production.

Some housewives, believing that rancid fats are valueless, have not been turning them in for salvage. This has resulted in the loss of thouasnds of pounds of glycerine that could have been processed from these fats.

Special Ration Coupons

Individuals who require special ration point allotments, such as persons in isolated areas who must buy large quantities of rationed foods at one time, are to be provided with a new type of red and blue food ration coupons, according to OPA. They will be used the same way as stamps, but will be good at any time. Ration coupons may be issued by local boards and OPA of-

PORTLAND GENERAL ELECTRIC CO. NORTHWESTERN ELECTRIC CO. UTAH POWER & LIGHT CO. SEATTLE CITY LIGHT

Don't Waste Electricity Just Because It Isn't Rationed

TACOMA CITY LIGHT

First job for all of us is to win the war! That's one reason for the Northwest Power Pool—the interconnection of all important power resources of the Northwest. And there's another reason! Interconnections of the Northwest Power Pool point the way to cooperative use of Grand Coulee and Bonneville power for the benefit of all the people, when peace comes!

THE WASHINGTON WATER POWER COMPANY STANDS READY, WHEN THE TIME COMES, TO DELIVER POWER FROM GOVERNMENT GENERATING PLANTS TO ITS CUSTOMERS AND PASS ON ANY RATE SAVINGS WHICH MAY RESULT.

NORTHWEST POWER POOL

This interconnected system pools the electric generating capacity of the Washington Water Power Company and seven additional private utilities, Grand Coulee and Bonneville and two municipal systems. It means that power from one area is available to other areas. An emergency or temporary shortage in one area can be met by the surplus from another. Already it has resulted in important fuel savings from steam generating plants and more than 100,000 additional kilowatts for war production. It points the way to cooperative use of Grand Coulee and Bonneville power after the war.

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

EGGS — EGGS — MORE EGGS! ARE NEEDED!

Eggs are one of the important "Foods For Victory," and there are never enough of them on the market. Dried, they are shipped to our fighting men all over the world, and form a very important part of their menu. Fresh and stored, they supply needed energy to defense workers — so take good care of those chickens, keep the eggs cool and fresh and bring them to us.

Remember, we are still buying eggs at 40c per dozen, case run! CREAM - CREAM!

Cream makes butter, and butter is a daily necessity to our men in the armed services and there never is enough butter! So don't waste a drop of cream. Bring in your can and that of your neighbor every time you come to town.

Help our nation — help your-self — its a "Victory Food!"
