THE MAN BECOMES THE LAW

Whether the coal mines are to remain in the hands of the government or be returned to the private citizens who developed them, is apparently viewed as a question to be decided not upon a basis of simple justice, but rather upon Hitler's maxim that the end justifies the means. In this case, the alleged end is approximately 13,000,000 tons of coal a week. Until that end is achieved, property rights, as written into the law of the land, are mere scraps of paper—the same kind of scraps that governments have been tearing up for years.

As a matter of fact, even total war is a shabby excuse for evading laws which if properly administered would in no way hinder the war effort. The laws of this nation were designed to guard the life, liberty and property of every citizen. But we have torn up the laws relating to one class of property to appease one class of workers. Tomorrow, in the name of another emergency, the government may tear up more laws because the bureaucrats have found that it is far easier and more popular to tear them up than enforce them. The process will continue just as long as the people permit it. Eventually we will learn, as the Germans have, that when a law is torn up, a man takes its place—the man becomes the law.

Purchase Program For Beans A purchase program for 12 classes of 1943 crop dry edible beans has been announced by the FDA, War Food Administration. Purchases will be made by FDA on a weekly schedule which began September 7, from country shippers, growers, associations of growers, or their authorized agents at prices not exceeding support levels. Beans to be purchased are Great Northern, pea, flat small white, small white, pink, pinto, light red kidney, dark red kidney, western red kidney, small red, cranberry and baby limas, of U. S. No. 1 and No. 2 grades only. Vendors must warrant beans offered to FDA at 1943 support prices are from 1943 production.

Old Age Pensioners May Work

The Department of Public Assistance, during the present period of labor shortage, has taken steps to encourage recipients of Old Age Assistance grants to accept employment whenever possible.

For this reason the Latah County supervisor, Mrs. Clara S. Evans, is calling to the attention of the public in general and the recipients of Old Age Assistance in particular, that in order to encourage them to take employment whenever possible the department is following the policy of suspending grants temporarily while the clients receive wages sufficient to meet their needs but their cases are not closed while they are thus employed.

The names of employed recipients are merely withheld from the payrolls during the period of their employment and the payments may be resumed at any time the employment ceases without the recipients being required to make new applications, and follow through with the procedure used in making a new grant.

By merely reporting to the public assistance office, either by telephone or letter, that his employment has ceased, the recipient may have his grant restored with the first succeeding payroll.

In order to further encourage recipients of Old Age Assistance to take employment whenever possible in agriculture and its related industries, the State Department of Public Assistance, in July, adopted the policy that for the duration of the war and six months thereafter, grants to recipients of Old Age Assistance, who were receiving assistance in April of the current year, should not be reduced or discontinued because of the consideration of their earnings in agricultural labor.

The attention of the public is called to this policy so that they may encourage recipients of Old Age Assistance, whenever possible, to perform whatever service they may in the agricultural effort, and further, to advise employers who may have refrained from hiring Old Age Assistance clients because of desiring

Whose Fault? Figures released by the National Industrial Conference Board show that of the \$49 billion rise in income from 1939 to 1942, agriculture received \$5.8 billion while non-agriculture received \$43.2 billion.

Conclusion: "In other words, agriculture has only been one-seventh as much responsible for the inflation as has non-agriculture, judging from who received the money."

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

GOVERNMENT SUBSIDY IS ANNOUNCED

The government has announced a subsidy to be paid on milk and cream. On sales of whole milk it will vary from 25c to 50c per 100 pounds.

On cream sales it will vary from 3c to 6c per pound of butterfat. This will either be paid through your organization, the Kendrick Co-operative Creamery, or through the AAA. However, the amount to be paid will be based on feed costs in a given area.

We have not been informed as yet as to the exact amount to be paid in this area, or how it will be handled. But remember — this subsidy is given for the purpose of encouraging production.

So milk all the cows you can and market it the co-operative way. With our system of handling your cream you have an accurate record of your sales, complete in all respects, and you will

have no trouble collecting your subsidy if you sell to us!

Down in Florida a negro woman applied for relief during the cold spell of last winter. She reported she had four children.

She didn't remember, perhaps, even know, the precise age, but on being pressed for more exact information, she told the investigator:

"I got one lap child, one creeper, one porch child and one yard young-un!"

WORD FROM LOCAL MEN IN OUR ARMED FORCES

Gowen Field, Idaho
October 2, 1943

Dear Mac:

Just a few lines today to let you know that I have had a change of address, although I am still here at Gowen Field. I am now with the Wing Headquarters and like the new job very much. I changed branches of service from the Signal Corps to the Air Corps through the request of a Colonel here in the headquarters.

I also enclose an announcement which you might like to publish in the Gazette:

Engagement Told

Mr. and Mrs. James I. Leonard of River Edge Manor, New Jersey, announce the engagement of their daughter, Adrienne, to Cpl. Neal V. Southwick, son of Mr. and Mrs. Howard L. Southwick, of Southwick, Idaho.

The bride-elect is a Corporal in the WACs, and both young people are stationed at Gowen Field, Boise, Idaho, where they are assigned duties as administrative and technical clerks.

Cpl. Leonard is a graduate of the Dumont High school, Dumont, New Jersey, and also attended Donovan Business College, Hackensack, New Jersey.

Cpl. Southwick is a graduate of the Southwick High school and attended Lewiston State Normal in 1937-38.

The wedding will take place sometime during October.

Sincerely,
Neal.

RM 2-c Robert (Bob) LaHatt left Friday afternoon of last week for Tampa, Florida, where he will rejoin his ship, following a brief leave spent at his home here, his first since enlisting in the navy shortly after Pearl Harbor. Bob had a 15-day leave, but most of it was of necessity spent in traveling. While here, Doyle Biddison returned to Kendrick, and the two boys really enjoyed a "gab fest."

Pvt. Stanley A. (Smokey) Murphy, returned home last week-end, bringing with him an honorable discharge from the U. S. army. Smokey says home looks mighty good.

From the Headquarters of the Thirteenth Naval District, Seattle,

Wash., comes the following dispatch: Lieut. (j. g.) George M. Davidson, formerly of Kendrick, Idaho, veteran of the Alaskan campaign, and the holder of the Air Medal for bravery in action, received recognition for the second time when he was recently presented with the Gold Star in lieu of a second Air Medal by Capt. Arthur Gavin, Commandant of the U. S. Naval Air Station at Jacksonville, Florida, where Lieut. Davidson is now stationed.

It was for distinguished service in the Aleutians, namely the bombings of Kiska, and flying in the face of difficult conditions, that Lieut. Davidson won the Air Medal. The presentation of the Gold Star was for the part he played in the search for a patrol plane lost at sea about 250 miles from the Aleutian islands.

"Although he had been on duty constantly for 48 hours, Lieut. Davidson unhesitatingly volunteered to assist in the search," said the citation. "When the craft was located on the first flight, his own plane was relieved by a standby while he flew back to his base, refueled and returned to remain over-night with the lost plane."

Born in Kendrick, January 15, 1917, this 26-year-old hero joined the navy in December of 1940, and won his wings at Corpus Christi, November 10, 1941. He is a former University of Idaho student.

Somewhere
September 29, 1943

Dear Mac:

Just a few lines to let you know my change of address. I would have notified you sooner, but I did not know for sure just what it would be. I have been moving around so much lately that I have not received the paper and I surely miss it a lot. In fact, I have been moving around so much that my mail has not caught up with me yet. If anyone wishes to write to me they can get this new address from my wife.

I surely like to hear from my friends, and I believe I will have time to answer all the letters that I receive shortly after getting them. Mac, there are a lot of things I would like to write you about, but I don't believe the censor would like it.

You don't know how much I miss the Gazette, and I sure hope one gets here, soon. Must close now and get ready for an inspection.

As ever,

Pfc. Felix R. Holt.

Well Felix, we're starting the Gazette to you again this week. Some weeks ago we received a "Removed, left no address" card from your old P. O., so there probably aren't any copies in the mail to catch up to you.

S1-c Doyle Biddison left Monday for San Francisco, where he will attend school for a time for specialized training, and then expects to be assigned to one of the fighting ships now coming off the ways.

Doyle is a navy veteran, wearing the stars of three major engagements.

Dear Mac and Bill:

I have been receiving the paper quite regularly until about a month ago. I know it is because I haven't informed you of my new address. I really miss the paper, and know it will be coming regularly soon. I'm sorry that I can't tell you anything about this part of the world, but I know you understand why. I do like it O. K. overseas (so far) but it will be great to come back again.

Again let me thank you for the paper and I know it will be "on the beam" soon.

As ever

Pvt. E. L. Farrington.

Note: We've never stopped sending it. Those missing copies will probably catch up one of these days.

Harvest Is History!

Well, Folks, as the 1943 harvest is only a matter of history, we must now begin thinking of the year that lies ahead.

We will attempt to help you with cleaning and treating to the best of our ability, but as our bins are all full, we will not be able to serve you too well.

We will not permit the return of treated grain once it has been taken out, as parties abused the privilege last year to the point that in the future it can not be permitted.

A Message to the Folks in Idaho

WAYLAND DAVIS, S-1/c, U. S. Navy, of Kendrick, making use of one of the many free facilities and conveniences at the Pepsi-Cola Times Square Service Men's Center in New York, sends a "Voice Letter" to his folks back home. Pfc. Jerome Reed, of Emmett, waits his turn and pretty-hostess Ruth Bolinas assists by operating the machine.

The Center, donated by Pepsi-Cola Company to enlisted men of the United Nations Armed Forces, has, during its first year of operation, welcomed over 2,000,000 men who have enjoyed its many free services, including information bureau, checking and message service; shower and washroom facilities; shaving equipment; voice recording unit; piano, radio, games; lounges with reading and writing material; canteen with free Pepsi-Cola and foods at minimum cost.

Pepsi-Cola Company also maintains Service Centers in Washington, D. C., and San Francisco, California.
