M THE GUY who looked at you from a USO poster a little over a year ago.

In the guy you forked over \$34,000,000 for that, through the USO, you could let me and all my buddies know that someone home still thought about us-still cared enough not to want us to miss out on any of the things we were in uniform fighting for.

A hot cup of coffee for example, when you the in all grimy and tuckered out from a Ittle "business" trip...

A club house with easy chairs to melt into and desks so sit at and write home and a dance floor and some decent girls to give us out here a little reminder of what it's still

like back there. You remember, don't you?

You probably dug deep for a lot of other things that year, too...for British War Relief, United China Relief, and so on. Well, this year it's going to be simpler for you. Because this year, seventeen war relief agencies have banded together into one great big campaign -the National War Fund. This time you are only asked to give once for all seventeen.

And take it from me, as one who ought to know, that contribution you're going to make

is one of the greatest things you can do to bring about victory. Not just because part of it's going to USO to do wonders for the morale of the fellows under arms, but because a good deal of it is going to help relieve distress at home through local agencies-as well as abroad, to help keep our allies in the fight.

So when you're asked to give to the united campaign of the National War Fund and our community's own war fund this month, remember me. Every dollar you give helps me out in countless ways, and does its bit to bring me home sooner.

Give in a big way, will ya?

Give ONCE for ALL these

Comedy At Theatre

This week's offering at the Kendrick Theatre, "Girl Trouble," starring Don Ameche and Joan Bennett. might almost be termed a "comedy of errors," for it's all in fun from Loans and discounts (instart to finish. It must really be fun when Don's valet turns out to be Joan! She burns his toast — presses his hat — kicks out his girl friends. It's a comedy of "terrors for Don," with a theme that's as modern as love in a blackout.

In addition a series of carefully selected shorts and a cartoon will! be shown to round out the evening.

Electricity

DOWN!

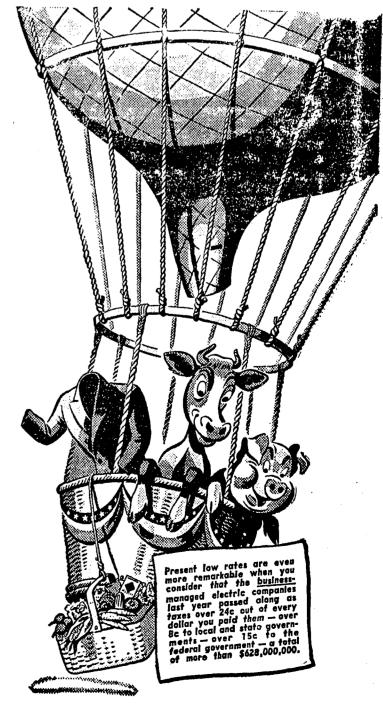

· Food, fuel and clothing are higher. But electricity is still cheap - only about half what it cost for the average household fifteen years ago. If your bill is a little higher than it was then, that's because you use a lot more electric appliances.

• Why is electricity so cheap? Because the electric companies under experienced business management have done a better and better job of bringing the benefits of electricity to mer and more families at lower and lower prices.

Harvest Is History!

Well, Folks, as the 1943 harvest is only a matter of history, we must now begin thinking of the year that lies ahead.

We will attempt to help you with cleaning and treating to the best of our ability, but as our bins are all full, we will not be able to serve you too well.

We will not permit the return of treated grain once it has been taken out, as parties abused the privilege last year to the point that in the future it can not be permitted.
