## North Africa Helps Feed Troops

North Africa now is delivering fruits, vegetables and meats to Allied forces, supplying the new Free French army and feeding essential civilian workers, it is revealed. Flour, fruits and vegetables from North Africa are being used in the Italian campaign, and French authorities are accumulating food supplies for use during and after the liberation of France.

Following liberation of North Africa, allied authorities supplied carefully budgeted seeds, fertilizers, sprays, binder twines, spare parts for machinery and tractor fuel — supplies which have saved many times their weight in shipping space by enabling North Africans to get quickly back into agricultural production.

## Weather Cold and Nasty

Last Saturday night the weather man decided it was time to turn up the cold a bit, and dropped the mercury to 26 degrees, bringing leaves tumbling down, and putting the finishing touches on most garden flowers. Sunday was bright and sunny, but cold, and the temperature has remained chilly since that time.

It freezes hard enough each night to slow down plowing operations on the farms in the early mornings, but the farmers are staying with it just the same.

Thanks...to the Norwegians, who lost their country but never surrendered themselves.

Thanks...to the Russians, who gave their lives and homes and burned their factories and fields to turn Hitler's dream of conquest into a nightmare of defeat.

Thanks to the British, who might have given up but didn't...to the Yugoslavs, who still fight in the hills...thanks to all the freedom-loving people in the world who gave us time to gather our strength.

Make your thanks to all of these really mean something...by giving generously to the National War Fund through our own community war fund.

Seventeen war relief agencies have banded together in this great work to make the thanks of America mean something both abroad and at home and wherever our men fight on land or sea.

For we owe thanks, too, to the young men of America who gave up careers and good jobs to do the job that has to be done...and to those who cheerfully saw their lives turned upside down so that their men could fight and build ships and turn out tanks and planes and guns, all day and all night.

Because the National War Fund is combined with our local united campaign, you are being asked to give only once, this year, for all the agencies represented by it. So add up all you would have given to each, and then double the total! There's no better way to show your gratitude.

#### WORD FROM LOCAL MEN IN OUR ARMED FORCES

Norman, Oklahoma  
October 27, 1943

Dear McCrearys:  
I'm really ashamed of myself for not writing sooner, but have really been busy.

I will start this by thanking you very much for the paper. No one will really know how to appreciate a newspaper until they are away from home. It really makes you feel right at home when you start reading the local gossip columns of your home town paper. I get it quite regularly and I now know how much the boys overseas appreciate it.

I had my "boot" training, which was four weeks, in Hunter College in New York. It was a very beautiful place, but I didn't care much for New York. Went through some very interesting places while there, however. My next station was at Memphis, Tenn. I liked it very much there. The Tennessee people are very friendly. I was there for ten weeks. Was on Mess Detail eight weeks, went to school one, and wasted a week waiting for our orders to come here. They are moving all the white people off the base there and making a negro base out of it.

Have been here in Norman nearly six weeks now. I don't care much for Oklahoma, but there are worse places I know.

I am in my seventh week of school and have 14 more to go. This week we are studying "Structures." It is all very interesting. I can't hardly feature myself being a mechanic, but I'll do it. We will be out on the field this winter so we will probably freeze to death. While out there we will learn how to operate a plane.

It is very cold down here now. This morning when we went to chow at 7:00 it was 42 above. Our chow is very good, but doesn't compare with home cooking.

On our liberties we go into "Okie" City. It is a very dead town and crowded with Service people. We have Marines (men and women), Waves and Sailors here, nearly 20,000 all together, possibly more now. Better close now and "muster" for school. Am on night shift, 2:00 p. m. till 9:00 p. m.

Tell everyone hello and thanks again for the paper. I really think

navy life is wonderful.  
Sincerely,  
Helen Halseth, S 2-c.

Somewhere in England  
October 19, 1943

Dear McCrearys:  
Just a few lines to let you know of my change of address. As you have noticed I'm on the other side of the big pond and I don't mind it at all. I haven't gotten a chance to see too much as yet, but what I've seen looks pretty good. We had a fairly good trip over here and I was one of the lucky ones who didn't get sick.

My mail hasn't caught up with me as yet so I haven't seen one of your papers for quite a while, but they will be very much appreciated when they do come, even if they are "a week or so old."

The buildings here for the most part are very nice, especially the "stuccos."

Thanks again for the paper, and I hope it soon catches up with me.  
Sincerely,  
Pfc. Earl E. Harris.

Somewhere in England  
October 6, 1943

Dear Mac:  
Just a few lines to say "hello" to you and everybody else back in the good old U. S. A.

I can't tell you about the place or climate here, as we are censored very closely, so will have to be satisfied with what I can write. I have been getting the paper pretty regularly, and boy, it's sure welcome. There is a little change in my address which I thought I ought to let you know. I may get it a little quicker and save the postmaster a little work.

Thanking you and everyone else who make the paper possible.  
Sincerely,  
Opl. Ernest Schwanz.

Manhattan, Kansas  
October 27, 1943

I just read about our paper going to press without any of the fellows writing in, and I think that it's a darn shame to let the paper and the other fellows down.

I had been intending to write before now, but we have a terrific academic situation here, and have hardly a moment of spare time.

I will start flying in about a month if I have good luck, and it will really be cold up in "the wild blue yonder."

So long for now,  
A-C Johnny Keeler.

Fort Ord, Calif.  
October 29, 1943

Dear Friends:  
I have been receiving your paper quite regularly and I surely enjoy reading it. I am now stationed at Fort Ord and I like it somewhat better. For one thing, it isn't nearly so dusty and dirty.

We have been having some nice weather. There is rather a lot of fog at times, but I guess I will get used to that in time.

I thought I had better write and let you know the change in my address, for I sure don't want to miss a copy. I don't know of anyone here from around home, so the old home paper sure is good to read.

I want to again thank you and all who help make it possible to receive the paper, and to tell you again I sure enjoy reading it.

Well, as news is plenty scarce I guess I'll close, looking forward to my next copy.

As ever  
Sgt. Jim Miller.

Chicago, Illinois  
October 30, 1943

Dear Gazetteers:  
After being shifted around several times I believe it is about time to inform you of my new address. This undoubtedly is getting to be an old line to you, but we fellows sure get a lot of enjoyment from the "gossip" the Gazette contains.

I was stationed for a week at Lincoln, Neb. and it so happened that Lloyd Israel was also there. We had a swell time together. We "flew low" on the Zephyr from Lincoln to Chicago.

As there is actually very little to write about I will thank all of you for the paper and close.

Sincerely,  
A-C Thomas Brown.

Kenneth Woody was in town Monday, and announced that he had taken his physical examination and passed it for service with the army air corps, and is now awaiting his call to report for duty.

#### Stocks Of Wheat Down

On October 1 there were an estimated 9,300,000 bushels of wheat in Idaho elevators, warehouses and interior mills. This was 1,700,000 bushels less than the wheat stocks in similar storage a year ago. The estimate does not include stocks in merchant mills, which report to the Bureau of Census.

Farm stocks of wheat on October 1, in Idaho, were 11,278,000 bushels, a reduction of 2,846,000 bushels from the same date a year ago. The combined farm and commercial wheat stocks show about an 18 per cent decline this October from last year at the same date.
