The commissioners of Whitman county, Wash., have taken a most commendable action in prohibiting the use of motor stages on the improved highways in the county from December 15 to April 15. The action was taken to prevent the destruction of the roads during the winter season when the roadbed is soft. Heavily loaded trucks also come under the ban.

Highway commissioners from all over the county met with the Latah county commissioners in Moscow on Wednesday. One of the important matters brought up for discussion was a uniform system of road signs at intersections all over the county. Wm. Cox, president of the Kendrick highway district, and M. V. Thomas also attended the meeting. (And today, as 20 years ago, there are still no signs off the state highway.)

At a meeting of the town council, held Tuesday night, E. H. Dammarell was chosen mayor to fill the position left vacant by the resignation of A. V. Dunkle. G. G. Oldfield was appointed to fill Mr. Dammarell's place on the board.

Bids for the cedar creek road work were opened yesterday at a meeting of the commissioners held in Kendrick. At a late hour last night it was learned that the lowest bid was more than the available amount of money that might be secured by bonding the road district. The commissioners are taking the matter under advisement.

## CLEARWATER TREE FARM TO BE DEDICATED DEC. 13

Final plans are shaping up nicely for the dedication of the Clearwater Tree farm, it was stated at Potlatch Forests, Inc., offices at Lewiston, yesterday. The farm is located entirely within Clearwater county and comprises the vast timber acreage that was first set aside in 1927 to grow trees for the company's Clearwater mill at Lewiston. It is the first tree farm so certified by the Western Pine Association in Idaho.  
Formal dedication and presentation of the Tree Farm certificate is to be made at a banquet in the Lewis-Clark Hotel on December 13. Governor Bottolfson and prominent forest officials and lumbermen are to take part in the exercises and the Governor is to be the principal speaker at an evening banquet. He is also to present the Tree Farm certificate to C. L. Billings, general manager of Potlatch Forests, Inc., following the conclusion of his address at the dedication banquet.  
To act as master at the dedication ceremonies is to be R. S. Erb, Lewiston, president of the State Chamber of Commerce. First on the evening's program is to be an introduction of the old timers from among the members of the North Idaho Forestry Association, who are to attend the banquet en masse following completion of a business session in the afternoon. Other distinguished guests are to be introduced following the old timers.  
Appearing first on the program after introduction of guests will be G. F. Jewett, who is president of the North Idaho Forestry Association, president of the Western Forestry and Conservation Association, and secretary-treasurer of Potlatch Forests, Inc. The speaker who is to follow Mr. Jewett is J. F. Daggett, Prineville, Ore., chairman of the Western Pine Association Conservation Committee. Next on the program is Major Evan W. Kelley, regional forester of the U. S. Forest Service from Missoula, Mont. After Major Kelley comes introduction of Gov. Bottolfson by G. I. **Receives "Go Ahead" At Last**  
Tuesday morning of this week Frank G. Harris, manager of the Kendrick Co-operative Creamery received a telegram which read in substance as follows:  
"C. W. Kitchen, deputy director of Food Distribution Administration, has signed order permitting Kendrick Creamery to begin manufacture of ice cream. Signed, Compton I. White, Congressman."  
This word is indeed welcome, for the butterfat for ice cream manufacture is here, the modern machinery for its manufacture is in the local creamery, and Mr. Harris and Kenny Powell possess the "know how." So what more could be needed? We see no need for shipping in products of this kind when they can be made locally.  
Mr. Harris stated he would have to await arrival of a copy of the directive before beginning manufacture, since the telegram contained no word of the quota allowed.

**Rock Crusher Going Full Tilt**  
The Kendrick Highway District rock crusher, which has been in operation about three weeks now, is still going full tilt, and the commissioners say they expect to operate it as long as the weather permits. They have purchased another truck, making three now, owned by the district, and these, with the help of a number of farmer trucks, are hauling and spreading good quantities of crushed rock.  
John Galloway, who is driving "old freeze-out" learned about hauling rock the hard way Wednesday afternoon when ascending the hill in front of the Don Miller home — the load raised up on him and started to dump on the oiled street — and John had to shovel about half the total load back into the truck!

**First Snow Of Season**  
Tuesday morning of this week when residents of Kendrick and vicinity arose from their beds and rubbed their eyes, they were greeted with the sight of snow — the first of this season.  
In Kendrick just enough fell to whiten the ground, and was largely gone by nightfall, but on the hills it was said the snow reached a depth of about two inches, and was acting like it was willing to stay.

**But Few Cast Votes**  
At the Kendrick Highway District election, held in the village hall Monday afternoon, a total of 31 ballots were cast, as follows:  
Harley Eichner ..... 28  
E. T. Long ..... 3  
Two were to be elected, so results appeared rather unanimous.

Our school has sold over \$20.00 worth of Christmas seals to date. Report cards for the second six-week period were given out last Wednesday.  
 Students of the Intermediate room began practice on their Christmas program Monday. This program will be full of pageantry and color in keeping with the Christmas spirit. Some of the shop students will start next week constructing the scenery, after which the art students will paint it. This program will be given the night of December 23, at the church auditorium. Everyone is invited.  
 The seventh and eighth grade geography class has been studying the islands of the East Indies and the Philippines.  
 The fifth and sixth grade geography class has begun the study of Central America. The intermediate students have received addresses of students living in the places which they have studied about or are studying, and the language classes, for a short time will do letter writing. Each student will write to one or more of these "pen-pals."  
 The eighth grade arithmetic class is studying about the volume of cubes and other solids.  
 The seventh grade arithmetic class is studying percentage.  
 The division of fractions is being taken up by the sixth grade class.  
 A number of the students have purchased Tonettes, with the aim of starting a small Tonette band. These are taught in connection with our regular music class.  
 The fourth and fifth grade history classes have just completed the making of model castles in connection with their study of feudalism.  
 The Intermediate room has new window curtains of blue and white.  
 Other decorations will be added from time to time to give the room an air of Christmas.  
 In our art class we are making miniature church windows with cut-outs and translucent colored paper.

## BABY CHICKS—BABY CHICKS

It is necessary that we have your order for Baby Chicks by January 1st in order to insure delivery when wanted. Remember, you need not pay for the Chicks until delivered — but we must have your order by January 1st!

**WE'LL MAKE ICE CREAM**

We expect to start the manufacture of ice cream about January 1st. Our quota of production on this luscious item depends upon the increase in butterfat production shown. Therefore, bring us more cream and induce your neighbor to do likewise — and insure an adequate production.

A greater cream flow to this institution means a greater home industry. Can't we count on your help?

Eggs and cream are always a steady source of farm income. Be sure and bring them in every time you come to town. The fresher both are — the better.

Pat, who was moving farther out in the country, had asked a couple of friends to help carry his chicken house. They found this a heavy job, but struggled on. About half way they set the coop down to have a rest, when one of them exclaimed, "Why, where's Pat?"

"I'm all right," came a voice from inside the chicken house, "I'm carrying the roosts!"

He: "You used to say there was something about me you loved."

She: "Yes, but that's all spent now."

"So you were in the hospital three months. Must have been pretty sick."

"No, pretty nurse."

Always ask for "Potlatch Chief" brand butter by name.

If you're not using one of our cold lockers — why not?

## WORD FROM LOCAL MEN IN OUR ARMED FORCES

Word has been received via an official news release that Sec. Lieut. Alfred J. S. Michaelis has been promoted to the rank of First Lieut., Army Air Corp. Lieut. Michaelis is a son-in-law of Mr. and Mrs. Louis Alexander of Cedar ridge.

Word was received in Kendrick Monday by Ira Foster that his son, S-1-c Guy Foster, is in the U. S. Naval hospital at Yosemite Valley, Yosemite, Calif. Guy has been in the Pacific theatre of war, but his confinement to the hospital follows an illness, not wounds. Guy would be very happy to hear from or see any local boys who may be stationed near that vicinity. He can be reached at the above address.

James D. Langdon, AMM 1-c, arrived Saturday of last week to spend a leave with his parents, Mr. and Mrs. Harry Langdon of American ridge — his first trip home since enlisting in the navy some 19 months ago, and says that home and the old home town look mighty good to him. Like all the boys, James is tanned to a deep brown, and presents a very spick-and-span appearance in his uniform.

James has been stationed in the Pacific theatre of war and has been in Pearl Harbor many times. He will report again for duty Friday of this week.

Somewhere In England  
Nov. 21, 1943

Dear Mac:  
Here I am at last, to write you a few lines, and my stationery is V mail this time—ha, ha.

I didn't think I'd be using this when I was talking to you the last time I was at home, but a fellow never knows what's going to happen next, does he?

I've only gotten one paper since I landed here. I know they are coming, but I figured I'd send you my new APC number, which is — they would get here sooner, and that paper is the best paper in the world to me now.

As long as I have to be overseas I believe England is the best place I could have come to, but it's sure different than at home. The people treat us well, and it's sure interesting to get out and look around when I get a day off.

I've met several of my old buddies since I've been here, although I haven't seen any of the boys from Kendrick. Bicycles are the style here so I'll sure be glad when I get back to the U. S. A., where I can drive a car again. These bikes are more dangerous than cars too, because I've looped-the-loop twice already with mine, and a car never did do that to me! Ha, ha!

Well, I'm running short of paper, so I guess I'd better sign off for this time.

Please tell them all "hello" for me.

— Bud Fey.

In The Atlantic  
Undated

Dear Mac and Bill:  
Having a few spare moments I thought I would drop you a line and let you know how I am making out. I doubt if you have my new address, and if you haven't you can get it from this letter.

I had a heck of a swell time while I was at home, but it was not long enough. I would have liked to have met and talked with a lot more friends than I got to — but you know how it is — Uncle Sam comes first these days.

I am sorry to say I have not received the paper for some time. I know it is not your fault, as maybe it is being held up some place, or maybe it is going to my old address. I have my fingers crossed and hoping that they will catch up with me pretty quick.

I haven't been in town for some time, so haven't seen anything more interesting to write about.

I sure hope to receive some papers soon.

Another sailor  
Bob LaHatt.

Well, Bob, you are right. We have been "firing" Gazettes at you steadily, but they have been going to your old address. You'll probably get them some day.

The British Isles  
Nov. 16, 1943

Dear Mac and Bill:  
Have been intending to write and inform you of my change of address, but something has always seemed to prevent it until now.

At present we are (several words

censored) over here. We have to work pretty hard but liberty comes around quite often and we have a good town to go to.

I have finally run into somebody from home. He is Walt Wagner — I guess I should have met him sooner, because he is in the same battalion as myself.

Thanks a million for the paper. I certainly have enjoyed reading it and I know it will be reaching me soon.

Sincerely  
Joe A. Langdon, S1-c

Mrs. Mattie Garner has very kindly allowed us to publish a letter received from her son, Marvin, as follows:

Africa  
Nov. 5, 1943

Dearest Mom and All:  
I thought maybe I would get a letter from you today, but as yet I haven't, so I thought I would write you a few lines anyway. I haven't received a letter from you all this week, but some of the boys are getting their packages, so maybe I will be getting mine before long, but the mail has been pretty slow the last two weeks. I got a letter from Thelma last Monday and answered it then, so I haven't much news this time. I guess I never have any too much news, but then, if you like to get letters like I do I guess it don't make much difference, just so there is a few lines about something.

Well, one year ago today I left home, and boy it seems like two years. I hope I don't have to put in another year before I get a chance to come home — but I think it will be over before that year is up. One of the boys just started to sing "Beyond the Hills in Idaho," and I told him that I wished to God I was. Well, this space (V-Mail) is about gone, so I guess I will have to quit for this time.

With all my love  
Marvin.

New Guinea  
Nov. 24, 1943

Dear Mac:  
I guess that I have found time at last to write to you and let you know that I am still alive. I have not received the paper for some months, but realize that is my fault because I have not sent my address to you — and I didn't do it because I didn't know just what it would be.

I have traveled a lot since I last saw you and the folks there. Now to give you an idea of what we have here—parrots and cockatoos of all kinds, also natives just like you see in the movies. There are wild hogs here on this island, large snakes and bugs and ants — large and small — and darned if my legs and ankles don't itch where the blamed things have bitten me.

Oh yes, I just about forgot to tell you we also have those little brown things that you call "Japs." I have a better name for them but I don't think it would pass the censor.

Mac, I don't see how they drove the Japs out of this hell-hole of a jungle. If some of the people who are now working in defense plants could be here for just one week and see what the fighting men go through there would be no more strikes back there!

Some of the boys here have Jap skulls for souvenirs; some have Jap helmets, mess kits and such equipment; some have rings and knife handles made out of the props. of Jap Zeros, and many other like articles.

I sure miss the paper, and Mac, I sure hope that some of my friends will write to me soon. I know that they would if they knew how much I miss them. Anyone who wishes to write me can get my address from my brother, and somehow I will find time to answer all letters that I receive, if I have to go AWOL to do it.

Mac, I hope that you will pardon this paper, and also the writing.

You know, I think I could stand a big elk steak — not that the grub isn't good here — because I think it is better than any I had back in the states.

Well, Mac, I guess that I had better stop before my candle goes out. Oh yes, we are having turkey tomorrow.

As ever  
Pfc. Felix R. Holt.

Well, Felix, we are mighty glad to hear from you again, and you can bet the paper is on its way right now. Two local fellows are now in New Guinea that we know of, Lieut. Roy Long, who is in charge of a bakery, and Cpl. Joe Forest, who is in transport. We're just mighty sorry we can't give you their addresses.

Dear Mac:  
I thought that I had best drop you a line to let you know my new address. I am here to go to school in Airplane Mechanics. It is the third mechanical school that I have attended, and I hope that I will get a little action out of it before long.

The paper is still chasing me, and I sure will be glad when it finally catches up. I get most of the home news from it, so without it I am really lost. I haven't seen anyone from home at all, although there are quite a few fellows from the northwest here. I got to go now.

Always,  
Johnny Keeler.

Johnny: Don Benschoter is stationed at Amarillo Air Field — and is the only one besides yourself.

In Felix Holt's letter he again brings up the matter of the strikes in this big defense plant and that one — strikes apparently called over many minor items. So we would be only too glad to hear what you fellows in the service think of this sort of thing. When you write us, include your opinions in the letter.

AC Herman Renfrow was seen in town Tuesday. Although we have not seen him to talk to him we understand that he is home on sick leave.

Word was received Tuesday morning by Mrs. Roy Johnson that her son, Pfc. Allan Johnson, was confined to the military hospital at Camp Mackall, N. C. No further information is available at this time.
