New London, Conn. Jan. 25, 1944

Dear Friends: It has been some time since

guess that is to be expected.

From here it's about a three-hour ride to New York, so I expect to spend a couple of my week-end passes there. Thanks a lot for the range of the specific entering the army. At the present time he is stationed at Camp Bowie, Texas.

The good wishes of all go with the couple. paper - I sure miss it when it arrives late.

Sincerely

Dear Mac and Bill: Have been sitting here looking through the home town paper and reading the letters from the boys, so decided it were time for me to write again.

For a certain length of time I failed to receive the paper and was "have they forgotten me?" but here they started to come right along, and now have almost all of them up to date. Anyway -no matter how old they are, they are

still the tops in news for me.

This time of the year, of course, is your cold season, and here, only today, went and enjoyed a nice swim. But from what I have read from the home country, it has been a very nice season there.

Have had hopes, and still have not given up, of meeting some of the boys from there. So far have not met a single one I knew back home. though I know some are not too far

I am feeling fine and dandy and hope all are well back there. So once again, thanks a lot for your part in keeping the morale or the boys up by sending the paper.

Sincerely Sgt. Joseph Forest. Congratulations on your promotion Joe. Just wish we could give you the addresses of the other boys there. If you will write Mrs. Edgar Long she can give you Roy's address, and he knows the whereabout of almost all the others in that section.

> Burbank, Calif. Jan. 27, 1944

Dear Bill and Mac: I just arrived back here in Cailfornia again, and thought perhaps I'd better drop you a line and get the paper headed back in this direction. I am now attending an Army Service school here at the Lockheed-Vega plant, and one of the main and very pleasing features of this place the fact that the cooking (and K. P.) is all done by civilians.

This school is only 28 days in length, so will be changing my address again soon. Thanks again for the paper, and I guess I will have to be signing off

for now.

Sincerely

Don Fraser.

How teamwork set a railroad record

In the year just ended American railroads handled a volume of traffic which dwarfs anything in the history of transportation.

The job was made possible by cooperation in the finest American tradition.

There was, first of all, the cooperation of railroads and railroad men with one another.

There was the surpassing cooperation of shippers and receivers of freight, who did their indispensable part in keeping freight cars on the move.

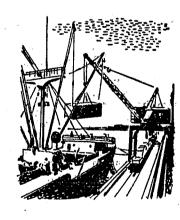

There was the helpful cooperation of government agencies with railroad management.

And there was, on top of all this, the cooperation of the Army and Navy-the greatest shippers in the world.

Without all these the record would never have been possible.

And finally there was the friendly and patient cooperation of the traveling public-which accepted the inconveniences, and sometimes the hardships, of wartime travel, with typical American good humor and good sense.

So far have we come together along the road to victory. The road ahead calls for still more effort, still closer cooperation, in getting the utmost transportation out of our railroad plant.

Tractor Production Up Production of wheeled tractors in December was the largest for any month in two years — in excess of 20,000 as compared with 4,200 in December of 1942. However, according to WPB, the current rate of production must be maintained in order to meet the tractor quota of 209,000 for the 12 months that will end on June 30. This will not be easy because many of the parts needed for tractor production are also used in landing craft, now in urgent demand by the armed forces.

HOOD RIVER, Jan. 8 (Special) - Fruit growers of Hood River valley drove over icesheathed roads to nine polling places in school houses and grange halls Friday and refused, by a vote of 865 to 552, to authorize their people's utility district directors to sell \$175,-000,000 in revenue bonds to finance purchase of private utilities serving a large part of Ore-gon and Washington, including Portland.

Thus the hope of Hood River PUD directors to put the district into business on a scale which would have made northwest public power history was

MEANING OF HOOD RIVER VOTE

Over in Hood River county Friday there was a demonstration of "that backlog of common sense" which means so much to American democracy. Despite icy roads and weather conditions most unfavorable to any election, 70 per cent of the registered voters turned out for a special election and defeated 865-522 the fantastic proposal to authorize the Hood River PUD to embark on a \$175,-000,000 promotion for i ing out major

power companies in two states. It was a "slick trick"—much too slick, Hood River is a small semi-rural county, in which there has always been strong sentiment for public ownership. The promoters (among them the New York bond peddlar who was in line for fat commissions) figured that if they could get the Hood River PUD with almost unlimited powers the

Just a line to let you know of my change of address — not much more to write about in this place.

The weather here is just like spring at home, but would lots rather be there, even if it is cold.

I don't suppose I will be here long, as we never stay in a place like this over three weeks — but after all the war isn't here. Thanks for the paper. I surely enjoy the letters in a surgical ward. We had a four-week training period at Camp White and then we were assigned to our particular Post, such as this one. So many girls were sent here, which makes it so nice. I will try and tell you a little about our Post at Van Nuys — The

hospital here is not open to patients as yet, but is to be in about a month. It will be fun for us to watch the improvements and to be able to help start it out. There are about nine nurses and 25 medical men now, but more are expected as the need for them enlarges.
