These unavoidable "leftovers" of combustion were a menace even when partly driven off by the steady heat of long trips. But rationing brought short jumps, with overcool operation that magnified acid attacks. It's high time now-in any car, under any conditionsto check rampant acids. And you'll succeed with Conoco Nth oil, containing an advanced synthetic. This acts "magnet-like"...makes metals attract and hold their acid-resistant shield of OIL-PLATING.

Though your engine's cool or hot-running or notthe OIL-PLATING doesn't all promptly drain down to the crankcase. And where there's OIL-PLATING, the acids that want to destroy are told to "Keep Off!" That's how Conoco Nth oil can advance your car's chance to keep going. Change for Spring today at Your Mileage Merchant's Conoco station. Continental Oil Company

Dear Mac and Bill: Have a new address again, so can you send the paper to me here? This is the field where I'll receive my basic flying instruction. In a way it's quite a jump from Primary—especially in the matter of weather. As now, for almost the first time MORE ABOUT ARMED FORCES this winter, we are wearing overcoats and are glad to have them. It's much colder here than in Ari-

I really believe it is better than zona. Our ships are also larger and that in the states — that is, army heavier, with almost twice the en-"chow." heavier, with almost twice the en-gine horsepower. The transition from Oh, yes, Dale Hughes is over here.

I know where he is, but he don't know where I am. I have been going to be quite a problem for a while, as we feel lost without a to write him, but have not had time wing overhead. These basic trainers are, of course, more complicated in operation and instruments.

Again I wish to express my appreciation for the paper to you and far as we are concerned — it's still March 12. to all the others who make it possible for us to receive it.

Yes, this is March — and so is the advanced by Ben Westendahl and weather. Spring was supposed to Charley Candler, who claimed a kill have arrived last Monday, but so each a week ago last Sunday, or

We've had some rain, some sleety snow flurries and plenty of chill wind, although out of the wind and in the sun, it seems quite warm.

Squirrels and groundhogs are now beginning to come out. First claims
