NEWS FROM LOCAL MEN IN THE ARMED FORCES England March 29, 1944

Dear Friends: I guess I ought to drop you a few lines tonight and give you my new address. I haven't received a paper for some time, and I have nobody to blame but myself, as I know it starts its long journey every week.

I really enjoy reading the letters from the boys in the Service, and hope that they aren't all as neglectful as myself.

It is sure nice to be back in civilization again. We can get beer and Coco Cola here. I have a coke beside me now and I can't quite make up my mind whether to drink it or just sit and look at it.

I think there are some of the boys from around home here, so hope to run into one or more of them soon. In closing I want to thank you for the paper and hope that this finds you in the best of health.

Sincerely Arnold J. Halseth.

Note: Although he does not mention it, we note that Arnold's new address carries the rank of Sargeant. Congratulations, Arnold.

7...OIL-PLATING YOUR ENGINE is like outdoing the future-today

An optimist can still hope to trade his car for a 1945 model-with "wild" or mild advancements.

A realist might do the same. But he'll "cast an anchor to windward" by changing to Conoco Nth motor oil for Spring, at once adopting that big inexpensive advance-an engine internally OIL-PLATED.

Be a realist! Realize that any engine's explosions always form real biting acid inside. Realize that long trips, heating at least some acid away, went out of style as rationing started. Realize that limited driving-incomplete engine heat—has been endangering engines not OIL-PLATED. Too bad; any harm that's been done is done. But with Conoco Nth oil, and

all the acid-resistance of OIL-PLATING, you're in shape to discontinue extreme acid damage, starting now.

Patented Conoco Nth oil-popular-pricedincludes a pioneer synthetic, with the advanced "magnet-like" ability to surface inner parts with OIL-PLATING. That's why you can really be an optimist about your engine's future, after changing to Your Mileage Merchant's station for Conoco Nth oil. Continental Oil Co.

Earl Schliefer and his mother are a good time was enjoyed by all. Mrs. Bill Hunter of Moscow spent Thursday night with her daughter, Miss Louise Hunter, and attended the supper and program at the

school house. Pfc. Virgil Groseciose of Camp Breckenridge, Kentucky, and Mrs. Groseclose, arrived Monday to spend a few days' furlough with his parents, Mr. and Mrs. Ed. Groseclose, and her parents, Mr. and Mrs. Har-
