In Hospital
Miss Rilla Davidson is in the Colfax hospital this week, receiving medical treatment.

In 1945?

If this farmer actually is forced to tell his cows next year, "Sorry, girls, no clover," the response will be a drastic reduction in milk production. Legumes and grasses are important to livestock production at any time. They are more vital in wartime because of the increased need for milk and meat products. By providing essential protein, abundant pastures and legume hay make the nation's supply of critical grain go farther and do better work. Increases in seed production are essential this year if new seedlings in 1945 are to be sufficient for hay and pasture production and for sod acreage in regular crop rotations. To help increase production of seed, support prices will be maintained for most principal legume and grass seeds, and payments will be made by the Agricultural Adjustment Agency for harvesting seed.

Leave me out of it.

I'd rather skip any new car rush — worse than a nylon stocking sale after War. More cars have already gone out of the running than ever were built any year! How'll everybody get his new one overnight? But I've come this far with my engine OIL-PLATED, so I figure I'll be all right. I'll just keep it safely OIL-PLATED by staying with my good old friend Conoco Nth motor oil. If you think you can beat it, okay. But remember, any engine is bound to have acids inside from every explosion. Therefore you'd risk too much grief from corrosion, as I understand, except that OIL-PLATING is made to check it.

The cans of Nth oil tell you about a modern synthetic that does the OIL-PLATING. You'd imagine it's kind of magnetized to working parts, making a protective surface to shed off acids, before the worst happens. Good thing you needn't wait for an OIL-PLATED engine; you can have that whole improvement now, using Conoco Nth oil.

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

REMEMBER, FOLKS:
Co-operative Enterprises Are Based On The Loyalty Of The Members To That Enterprise!

We don't believe there was ever a time that the need for co-operative marketing was more apparent than at present. Undoubtedly the readjustment after this war will show that the co-op marketing associations will be able to stand it better than many other business.

Therefore — your continued support of all co-ops will certainly be of great benefit to all concerned.

Market your farm produce through the co-ops and buy War Bonds with the difference.

Want a quick and delicious dessert this busy harvest season? Just take home a quart or more of Potlatch Chief Ice cream, and the problem is solved.

A little boy wanted \$100 to invest in War Bonds. All efforts failing, he decided to try prayer. After several verbal attempts, he wrote a letter, addressed it to God, dropped it in the mail chute. The postmaster, not locating the divinity, turned it over to a minister. Eventually it reached the hands of the American Legion, who decided to send \$5.00 to the lad.

The boy, delighted that his earnest prayers had been answered in part, dispatched a thank-you letter to God, adding this postscript: "I noticed your letter came through Washington, and those bureaucrats deducted 95 per cent!"

G. I. Joe: "I like mathematics when it isn't over my head."
Second G. I. Joe (with experience) "That's just how I feel about seagulls."

Like ice cream? Try "Potlatch Chief." You'll find it the "tops."

MORE ABOUT ARMED FORCES

as follows:

Portsmouth, Va. July 16, 1944

Dear Don: Hope this finds you well and busy. How is Kendrick coming along?

We left New York quite suddenly — took a trip and finally came into port again at Norfolk, Va. Had a little tough luck, so my present address is: Ensign W. P. Fitzpatrick, U. S. Naval Hospital, Portsmouth, Va., but I surely hope it's not for long.

Twenty-five surely was a large class to be graduating. There must not be very many young fellows left in Kendrick now.

Can't think of a thing to write about, so guess I may as well close for now.

Best o'luck
Wm. Fitzpatrick.

(Official Dispatch) An Eighth Fighter Command Station, England: Serving overseas as an aircraft crew chief on a Mustang high altitude fighter is the war assignment of Staff Sgt. Everett L. Fey, Kendrick, who recently was awarded the Good Conduct Medal for his ability through faithful and exact performance of duty.

Son of Mr. and Mrs. Charles Fey, Kendrick S-Sgt. Fey is responsible for the maintenance and repair of one of the Mustangs in the highly successful fighter group commanded by Col. Avelin P. Tacon.

Prior to entering the service Nov. 16, 1941, S-Sgt. Fey worked as a farm hand. His wife, Connie, also resides in Kendrick.

Pvt. Tommy Long, son of Mr. and Mrs. E. T. Long, Kendrick, who is receiving A-12 training at W. S. C., Pullman, was home on a weekend pass.

Tommy seems to have drawn a uniform that fits him, and looks like army life agreed with him physically.

Don Bateman, S-1-c, son of Mr. and Mrs. Grant Bateman, Kendrick, who had a couple of weeks leave after having spent many months in the South Pacific, returned Monday to report for duty at San Francisco. He does not know where he will be assigned.

Child Health Conferences

The regular monthly Child Health Conferences will be conducted on Monday, August 21, by Dr. M. B. Sherrard.

The Conference at the Juliaetta schoolhouse will be from 10:30 a. m. to 11:30 a. m.; Leland church basement, 12:50 p. m. to 1:45 p. m.; Southwick schoolhouse 2:15 to 2:45 p. m.; Kendrick schoolhouse 3:15 to 4:00 p. m. All will be under the auspices of the various Parent-Teacher organizations.

Parents are invited to bring their infants and pre-school children to these Conferences.

(This Week)

John and Henry Galloway went to Chewelah, Wash., by train last week for the funeral rites of their aunt, Mrs. Richard King. The King family were pioneers of this community.

Mr. and Mrs. George Jones and daughters George-Anne and Penny of Uniontown were Sunday dinner guests at the E. H. Jones home.

Mr. and Mrs. Oscar Slind, Maxine and Leland were Moscow visitors one day last week.

Rov Clemenhagen has purchased the Soren Nelson farm and Adolph Forest bought the Faust place.

Mrs. George Slind and son Merrill of Spangle visited at the Oscar Slind and Halvor Lien homes Tuesday.

Mrs. Everett Fraser is delivering the mail on this route for a few weeks. Everett is hauling wheat.

Mrs. Long of Juliaetta is spending the week with her daughter, Mrs. Ronald Jones.

Junior Dalberg of Moscow is visiting at the home of his uncle, Oscar Slind and family.

Bobby Swanbeck of Clarkston is spending the week with Mrs. Johanna Nelson.

Miss Betty Halseh visited friends in Lewiston the first of the week.

Mr. and Mrs. Albert Nelson were Lewiston shoppers Friday.

Mrs. Ida Comstock is staying with her son, Wilbur Babcock.

Ervin Halseh writes from Australia that Donald Jones and he had met and had enjoyed a four-hour visit.

Tight Feed Situation Predicted

Tight supplies of hay and feed grain in Idaho for the coming year are predicted in the University of Idaho Extension Service publication. The feed grain shortage can become serious, depending on demands on trains for human needs in liberated areas of Europe.

A 25 per cent less carry-over of grain in Idaho was reported on April 1, 1944 as against April 1 of 1943. The latest crop reports indicate that the barley crop will be substantially smaller than the previous year. A smaller supply of wheat is also indicated, making less available for feeding. These are all indications of a tight grain supply, says the report.

While it is anticipated that there will be less consumption of grains by hogs and chickens, due to reduced numbers, this reduction will only partially offset the reduced grain supplies. The expansion of livestock production the past few years has brought about less efficiency in converting feed into livestock products, and although the numbers of livestock are beginning to decline, the feeding efficiency will continue below normal, said the publication.

Ordinarily much feed for livestock, especially chickens and hogs is picked up around the farm lot. Increases in numbers of animals, however, makes it necessary to feed them out of the feed bins, demanding more grain. Acreages formerly in pasture, diverted to crops in the war emergency, cause additional demand on the grain bins.

Hay stocks on Idaho farms are estimated to be less than average.

but the haying year just past produced an excellent quality, dry and mild, thus making each ton go further than usual.

The publication reported on poultry and eggs, farm prices, demand for products and farm incomes. On a per-farm basis, the average Idaho farm cash income for farm marketings in 1943 was \$5,190, which is 23 per cent larger than a year ago, and more than 2 1/2 times as large

as the average reported cash income in the five years prior to the outbreak of the war. This, however, is gross income, and does not take increased production costs into consideration.
