### U. S. O. TO NEED HELP OF ALL IN COMING CAMPAIGN

Laurence E. Huff, Moscow, has been appointed Latah County chairman of the 1944 National War Fund Drive, Ralph S. Nelson, campaign chairman for this district which comprises the 10 northern counties, announces. Huff, in accepting the appointment, heartily endorses the War Fund program. It will be necessary for Mr. Huff and all other campaign workers to give considerable time in raising the quota, which for Latah county amounts to \$13,600.00.

In conducting the 1944 War Fund campaign throughout this district, we must not lose sight of the fact that good war news does not reduce the need for a National War Fund. Relief to war-scarred countries must continue increasingly as the enemy is driven back, and the work of the U. S. O. will be essential indefinitely.

The quota for the entire state of Idaho this year is \$380,000, and the drive to raise this sum starts on October 9. The National War Fund appeal will be presented through 10,000 community campaigns in behalf of 22 service agencies, six more than was included on the list last year. Activities of these agencies now extend to six continents and 93 geographical areas.

Most recent additions to the list of member agencies are: American Field Service, which provided ambulance service for some of the allied countries; Philippine War Relief, and the United Lithuanian Relief Fund.

The full list of member agencies of the National War Fund is as follows: U. S. O., United Seaman's Service, War Prisoners' Aid, Philippine War Relief, Belgian War Relief Society, British War Relief Society, United China Relief, American Relief for Czechoslovakia, American Denmark Relief, American Relief for France, Greek War Relief Association, American Relief for Italy, United Lithuanian Relief Fund, Friends of Luxembourg, American Relief for Norway, Polish War Relief, Queen Wilhelmina Fund, Russian War Relief, United Yugoslav Relief Fund, American Field Service, Refugee Relief Trustees, U. S. Committee for the care of European Children.

### Paper Salvage Now On!

Ross Armitage, who so successfully directed the paper salvage campaign here in Kendrick last school term — will again direct it this year — and makes the following announcement: "Please leave all scrap paper at the old Kendrick Hotel building. Don't burn a bit you may get! Save those paper cartons, and turn them in, too! Farmers are particularly requested to go over the farm with a fine-tooth comb, and turn in every scrap of paper not needed."

Ross said that he hoped to be able to run a weekly collection route in town, especially in the residence districts — announcement of that will be made next week.

In the meantime, bring that scrap paper to the old Kendrick Hotel building and set it as close as possible to the door. It will be cared for.

### Hot Lunch Program Lined Up

The completion of negotiations for continuing the community school lunch program in Idaho schools was announced last week by A. H. Chaburn, state superintendent of public instruction, and William P. Rowley, of the O. O. D., W. F. A.

The signing of the agreement now clears the way for direct action by sponsors of the community lunches with the W. F. A., which will reimburse participating schools on the basis of financial need, number of children taking part in the program, and type of meal served, up to a maximum of 9 cents per meal.

Through this program it is hoped that every child in the state will have the opportunity of having nutritious lunches at school regardless of his ability to pay for the lunch.

### Peculiar Weather

Old Sol has certainly been on a rampage in this section the past week, the thermometer, Monday of last week hit a high of 94, Tuesday it hit 98, Wednesday 98, Thursday it dropped to 96, Friday 92, Saturday 92 and showed 92 again Sunday. Since then it has been playing about the 90 degree mark each day.

Nights are very cool, in fact, plenty of blankets are needed for comfortable sleep, and a jacket feels fine in the early morning.

Tomatoes and melons are doing fairly well, although more moisture would have been very welcome.

This type of weather has been excellent for harvest, and almost all the grain is in at this time — only a few fields of late grain yet remaining to be cut.

### Fire Alarm Proves False

Wednesday evening of last week a fire alarm was turned in, the fire being reported as on the schoolhouse hill — and it certainly appeared to be the E. M. Davis home up behind the schoolhouse.

Investigation, however, showed the blaze to be Walter May turning stubble on his ranch of American Ridge.

No one should be censured for the alarm — it certainly looked like it was right in town, so big was the blaze.

### Buildings' Interiors Painted

Last week-end Don Miller finished giving the interior of the barber shop a complete coat of paint and kalsomine.

At the same time Henry Jones and helpers gave the interior of the Continental Oil company office building a complete going over.

Both buildings now present a very neat and clean interior. It's wonderful what a bit of paint and elbow grease can do.

### Who Has Drums And Pipes?

The Kendrick Commercial Club is very anxious to get in contact with everyone who has a life or drum used by the Pipe and Drum Corps of the Boy Scouts, organized and led by Harold Thomas some three years ago. Will anyone having any of these instruments or knowing where they might be, please contact E. M. Dammarell or Don Dammarell.

## REMEMBER FOLKS:

Health is a mighty important item right now, and —

For your children to get a good start in school and have a good foundation for the prevention of colds this winter, see that they drink plenty of Kendrick Co-operative Creamery pasteurized milk. The more they drink daily, the better health they will enjoy.

And while we're talking about nutritious foods, you, as well as the children will find Potlatch Chief Ice Cream delicious as well as nutritious. A scoop or two inside one of those delicious Julia-etta cantaloupes makes a dessert to please the taste of anyone.

And Remember, too, when buying butter never say: "A pound of butter please," always say: "A pound of Potlatch Chief Butter, please." We think you will agree it's "the tops" in flavor, texture and quality.

Eat right for your health's sake.

A new negro truck driver moved iron ingots all day until he was completely worn out. At the end of the day he approached his boss: "Boss, you sure you got my name right?"

The foreman looked over his list. "Yes," he said, "here you are, Simpson — Roy Simpson — that's right, isn't it?"

"Yes, suh, boss, das right, but ah, thought maybe you had me down as Samson."

A nurse discovered a patient in a mental hospital with his ear pressed close to the wall, listening intently. "S-s-s-h," he said, "you come and listen."

The nurse listened. "I don't hear anything," said she.

"Neither do I," said the patient, "and it's been like that all day."

"They say a sharp nose indicates curiosity."

"That's right — and a flattened one may indicate too much curiosity!"

### Medals Sent Home

Last week two medals were received by air mail from the European theatre of operations.

S-Sgt. Vern A. Spekter sent home his Air Medal, and Charles A. Deobald his Purple Heart.

Both are beautiful things — but we know the boys really earned them.

Bellingham, Wash.  
Sept. 4, 1944

Dear Mac and Bill:  
Well, here I am sending you another new address — even before the other one "got cold." It seems like our addresses get changed plenty fast.

I'm up here at Bellingham now, visiting my sister, the first time I've seen her in two years.

I got my first 72-hour pass, so thought I'd come up here.

In closing, I want to thank you again for the paper and all those others who help you send it.

Sincerely  
Pvt. Frank Loeser.

### Note to All in The Service:

We are having a "duce of a time" reading a lot of the address change cards we have been receiving — as most of them are made with a carbon, and are smeary as well as being hard to read at best — so please, when you move, send in that change of address promptly. We want to keep the paper rolling along to you

— but we just must have an address in order to do it.

Word has been received from Walter O. Olson of St. Anthony (husband of Betty Ingle, Big Bear Ridge) who was wounded in France "D Day" that he is still in the hospital, but is recovering nicely.

(Official Dispatch) With a First Tactical Air Force B-26 Marauder Group — Sgt. Samuel A. Nye, whose address is Route 2, Julietta, Idaho, is now flying in A. F. B-26 Marauders of the First Tactical Air Force.

The 21-year-old armorer-gunner recently arrived overseas for duty with a veteran Marauder group that has fought through the Tunisian, Sicilian and Italian campaigns. Before entering the army in October, 1942, he was a farmer.

Word comes from Cpl. Rupert K. Hayward, via his sister, Mrs. Conny Perry, that he is still in the European theatre of operations; that he is receiving the Kendrick Gazette and enjoying it.

Rupert also stated that he was enjoying a few days leave. Previous to that he had been doing carpentering, as he was one of the few in his battalion who had had any experience in that type of work. His regular job is that of radio operator.

S-1-c Bob Lind arrived home Tuesday on the midnight train to spend a 15-day leave from the Farragut Naval Training Station. This completes Bob's "boot" training. Just where he will be assigned for further instruction is not known at this time.

### Something Fishy

If dishwashing is especially discouraging after something fishy, this trick may help a bit: Fill cooking utensil with clear water, add a tablespoon or so of vinegar and bring water to boil for a minute or two. The trick not only banishes the fishy odor, but also loosens food stuck to the pan. Rinse serving dishes in hot vinegar water also before washing them.
