How can a motor oil save gasoline?

Much gasoline loss is caused by gradual ring and cylinder wear. Gas mixtures then "blow-by," compression is reduced, performance gets rough. RPM Motor Oil slows this wear 'way down—sticks tight on hot or cold metal surfaces, insures cold motors against extra starting wear, protects critical hot spots on long runs. For more mileage, less wear—use Standard's RPM Motor Oil.

Mahogany trees cut by Marines in the Pacific area had to be pulled down by tractors after being cut. Jungle growth held them erect.

Chemically treated, wood may be twisted into almost any shape and so can anybody who takes a train ride these days.

Autos and trucks can now run on fuel made from wood. You may yet drive into a gas station and say: "Saw me off five gallons, please."

Lumber was a California industry two years before the gold rush. The gold is about mined out, but California trees still grow new wood.

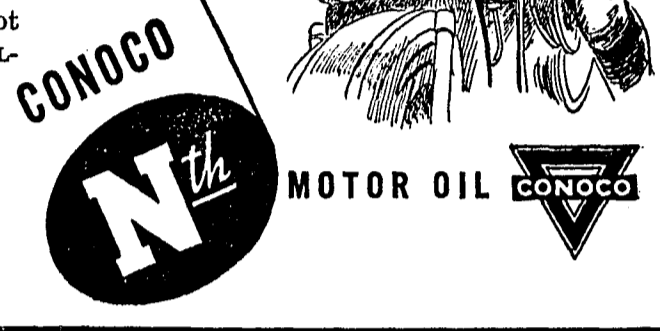

The "heavy foot" has been replaced by great headwork in Wartime driving. And that's a great hint for the future.

"Scorchers" are rare. The cops have to look thrice—and even then what they mostly see is skilled, ticket-proof driving that earns their respect. For as experts they know that's really how to get there, without taking it out on your car. You too, knew it all the time, but war "alerted" you to it—and you're staying alert. Now be still more alert to the perils of engine acids. Those can be curbed by one brainy move...by having your engine OIL-PLATED.

Changing to Conoco Nth motor oil—at popular price—is all it takes to own an OIL-PLATED engine. One special characteristic of OIL-PLATING is the acid-resistance that costly pioneer research developed. This acid-fighter—OIL-PLATING—becomes surfaced to your engine's fine inner finish as closely

as chromium plating could be. That's made possible by Conoco Nth oil's special ingredient whose magnet-like nature holds OIL-PLATING direct to metals—square in the path of the acids—always created by every engine explosion. Contact between acids and metals is checked. Then so is corrosion.

And now here looms the season of lowest engine temperatures—unable to clear out acids sufficiently. So they could now do their worst—but not with your engine safely OIL-PLATED by Conoco Nth motor oil. Get it at Your Mileage Merchant's Conoco station. Today. Continental Oil Company

Where Time Doesn't March On...

... unless you step in now to help men in prison camps fight that deadly "barbed wire" boredom

THE CLOCK has a hundred hours on its dial and each hour has 600 minutes when you're penned behind barbed wire. Nothing to see but that wire, the barrack's wall, and a sentry's back. Nothing to hear but the tramp of his feet, the beeps of your comrades. So you go slowly, grimly, and sometimes not-so-quietly, progressively towards the "barbed wire disease" unless... Unless you're lucky enough to have

the folks back home get behind the War Prisoners' Aid (one of the 19 participating agencies of the National War Fund) and provide the money to provide the things to feed the hunger of your heart and soul and mind. Books and baseballs and tennis rackets. Textbooks and technical equipment so you can continue studies the war interrupted. Grease paint and play-scripts for your own camp shows. Games of every sort. Anything and everything it's humanly possible to provide to start

Time marching on again. This is just one of the many vital jobs your contribution helps to take care of—when you support the National War Fund by giving to your local Community War Fund. Your dollars go to work on six continents and in ninety-one countries—including your own, because this united campaign covers the big home-front needs too. And don't just give a "token" contribution. The job is too big for that. Give—really give! Remember that no matter how much any of us gives in money it's still little compared to what the people you'll help have been giving in "blood, sweat, and tears."

REMEMBER, FOLK:

You are entitled to subsidy payments of 60 per pound on Butterfat sold to us during July and August.

On milk sold during those months the subsidy was 45c per hundred.

September and October Cream and Milk sales draw a subsidy of 10c per pound of Butterfat and 70c per 100 respectively.

This will be paid during November.

We have the blanks at our office if you wish to send in by mail for this payment, which must be sent to the county A.A. office in the county in which you live.

This payment should come to you — and you are entitled to it — apply for it!

Signs Of The Times

In a camp in the Pacific area, a hand lettered sign tacked to the officer's bulletin board reads: "Hats Altered To Fit Any Promotion." Sign in the office of a bureau in Washington, D. C.: "As a Last Resort, Use Common Sense." A civilian hitch-hiker displayed this sign on his suitcase: "If you don't pick me up, I'll vote for him again." Sign on a Seabee foxhole in the South Pacific: "Through These Portals Pass The Fastest Mortals!"

"If you're offered a second piece of cake, Willie, be a little man and refuse it, just as nicely as your father does."

Willie returned from the party. Fondly, his mother asked, "Did you refuse the second slice of cake, as I told you?"

"Oh, yes, mother — just like father does. I just said, 'Take that damned stuff out of my sight!'"

MORE ABOUT ARMED FORCES

phone 31X5, for full details.

Well, folks, it is getting late so will close and thank you and all who have made it possible for us to get our paper. It is a great morale booster.

Hoping to see you all soon Sincerely

S-Sgt. Roy Fairfield. P. S.: Mac, would it be possible for you to send the paper to Sgt. Fred G. Clemenhagen, whose address follows? Please cancel mine, as I'm on my way home. Thanks again.

Note: Certainly we'll send the paper to Fred — starting this week!

Word has been received that RT 2-c Vern Wegner, who has been in the naval hospital at Hawaii for some weeks, is now in the Seattle naval hospital. He is reported as "getting along O. K." though still confined to his bed. His address is: Vern A. Wegner RT 2-c, U. S. Naval Hospital, Ward 50, Seattle, Wash.

His mother, Mrs. Aug. F. Wegner, states he would greatly appreciate letters and company. He arrived in Seattle on September 26.

Southwest Pacific September 16, 1944

Dear Mac and Bill:

Here I am back in circulation again, after five months in a G. I. hospital in New Guinea. I had a torn cartilage in my left knee, so they operated on me after taking about two and a half months trying to make up their minds — I guess this is the army though. I can't tell you much about this place. The Japs haven't forgotten it as yet. I can say this much — that I don't care to hear any more bombs fall. They make a fellow do a lot of thinking in a short time.

I lost my parrot about a month ago, and I think a native had a good meal, because she sure was fat.

Well, Mac, the thing I enjoy here the most is seeing the Jap prisoners that have been taken. They bring them in every day, and they sure are a sorry looking bunch of rats — if you want to call them that.

I have seen Dale Hughes and Jim Kuykendall. Roy Fairfield left for home the day I found Dale. I have not seen Fred Clemenhagen yet. They all camped within half a mile of where I work and Dale comes over to see me for a couple of hours most every day. I am too busy to get any time off to go and see them. I might get some time off tomorrow.

I hope that the folks who have written me don't get sore at me for not answering their letters, be-

cause I have just started getting some old mail — some of it six months old. I just heard the other day that Bert McAntire had passed away — and I sure was surprised. I just got my first paper in six months yesterday. I want to thank you for the paper — as I enjoy it very much. My squad-mat moved and the hospital did not notify my squad-mat where I was to be sent — so guess I'll get a flock of back papers pretty soon.

I guess that I have about run out of anything to say, except that I would like to have more letters from the folks at home. This makes the seventh letter that I have written tonight. I must give you my new address and then stop, or I will be in the dark. It is —

In closing, thanks again for the paper. I will try to write more often from now on.

As ever
Pfc. Felix R. Holt.

Hay Chopper Gets Fingers

Roy Kuykendall of Clarkston was helping Alex Larson chop hay Thursday of last week, when he met with serious trouble.

He got his right hand into the chopper, losing his thumb, the end of the index finger and the nail off the middle finger.

Not Too Good

Latest word from Archie May, who was taken to the Colfax Clinic Monday of last week, is to the effect that he is not too good, a thorough physical and X-ray examination revealing seven fractures, a blood clot, and almost countless bruises and contusions.

Pile Them High

A stack of newspapers as high as a broom handle weighs about 100 pounds. This quantity of waste paper will make 50 cases for 75 mm. shells, or 1,105 cartons each containing 15 .50 calibre cartridges, or 200 containers for blood plasma, or 200 containers for field rations, or 1,470 boxes for emergency life boat rations, or 2,911 cartons containing ten cartridges for inflating life boats, or 650 cartons for U. S. Army K. rations, or 1,087 cartons each containing 10 dozen boxes of yellow fever vaccine.

Another Double Feature Still another of those popular double features are scheduled for the local theatre this coming week-end. First offering of the evenings will be "Tarzan's Desert Mystery," which stars Nancy Kelly, Johnny Weissmuller and Johnny Sheffield — and a desert is the picture's scene.

Second offering will be "Gildersleeve On Broadway," starring Harold Peary, Billie Burke and Richard LeGrande. And it's the usual Gildersleeve fun from start to finish.

A cartoon will complete the evening's entertainment.
